

Fuel Tank Removal and Decommissioning Contractors, Application Information

The Department of Local Services, Permitting Division is responsible for review and approval of contractors that remove or decommission fuel tanks in unincorporated King County. Fuel tank contractors must be state licensed and employ ICC UST Certified staff to remove or decommission fuel tanks.

Application Instructions

1. Register or sign in to your MyBuildingPermit.com (MBP) account.
2. Select the permit type to start your application.
3. In the Project Location screen, do not use the address search. In the Location Description field, type "King County" and click Submit.
4. Click Continue until you get to the Work Description page. Type "Contractor" in each box. Click Continue.
5. On the File Upload page, you will be required to upload a pdf copy of your ICC UST Certification for fuel tank decommissioning. Click continue and complete your application submittal.
6. Your application will be screened, and a confirmation email will be sent to you with online payment instructions.
