Department of Permitting
and Environmental Review (DPER)

King County Green Building Handbook

Acknowledgments

The King County Green Building Handbook was prepared by the Department of Permitting and Environmental Review (DPER) in support of the King County Green Building Ordinance 17709. The handbook would not have been possible without the leadership of King County Executive Dow Constantine and DPER Director John Starbard. Handbook development was led by the DPER Executive Team of Lisa Verner, Molly Johnson, and Chris Ricketts and supported by the King County GreenTools program. Consultant assistance was provided by O'Brien & Company. Wendy Gable Collins, of King County IT/Department of Natural Resources and Parks, produced the graphic layout of the Handbook.

The team behind the handbook is also appreciative of the many contributions by DPER staff in answering surveys, providing input on content and format, beta testing the document, and participating in trainings, and for the review and input from the following subject matter experts:

Aaron Adelstein, Leah Missik, and Ellen Cole
(Built Green / MBA of King and Snohomish Counties)

Tom Balderston (Conservation Services Group)

Darrick Philp (BELRED)

Kinley Deller (King County GreenTools)

February 2015

Resources

For the complete King County Green Building Handbook and individual Green Sheet PDF files, please visit our website at: <http://kingcounty.gov/depts/permitting-environmental-review/publications/Greenbuild>.
