

King County District Court Community Outreach Request or Proposal

Thank you so much for your interest in having the King County District Court participate in your community event. The Court's information booth is coordinated by the Court's Community Outreach Committee, under the direction of the Diversity, Equity, and Inclusion Committee. The Court recognizes the importance of participating in out of court activities that provide opportunities for the community to learn about the court system, engage with judicial officers and court members, and explore services and career opportunities within the Court. Participation in each event must comply with the Code of Judicial Conduct and be approved by King County District Court's Executive Committee. We will respond as soon as possible.
