## Area Information

### Area 064 – Newcastle

Area 064 is located on the Southeast side of Lake Washington, just south of I-90 and east of I-405. There is only one subarea in Area 64; Subarea 5. Located within the area are the municipalities of Bellevue, Newcastle and Renton and includes the Bellevue, Issaquah and Renton School Districts. Access to freeways, major commercial centers, parks and recreational areas is excellent. Examples of the many nearby amenities that make this a very desirable and attractive community in which to live, include Newcastle Beach Park and Coulon Park on Lake Washington, Cougar Mountain Park, Bellevue Square, Factoria Mall and Westfield Shopping Center. The topography is mostly rolling and hilly with several ravines and steep slopes, all of which helps provide many wonderful views of Lake Washington and the surrounding territory. This area is mostly suburban in nature with substantial diversity in neighborhood type and housing, with several properties retaining a rural setting. Houses were built from the early 1900's to the present with over 95% built after 1959. These homes include a variety of housing type and quality of construction that range from grade 5 to 12. New construction and new development projects continue to thrive. Several of these projects are of single and multifamily housing currently under construction or in planning stages. Overall, this is a very desirable area with many housing types that appeal to a large and assorted population of owners, renters and potential buyers.

# Glossary for Improved Sales

## Condition: Relative to Age and Grade

- 1= Poor      Many repairs needed. Showing serious deterioration.
- 2= Fair      Some repairs needed immediately. Much deferred maintenance.
- 3= Average    Depending upon age of improvement; normal amount of upkeep for the age of the home.
- 4= Good      Condition above the norm for the age of the home. Indicates extra attention and care has been taken to maintain.
- 5= Very Good    Excellent maintenance and updating on home. Not a total renovation.

## Residential Building Grades

- Grades 1 - 3    Falls short of minimum building standards. Normally cabin or inferior structure.
- Grade 4      Generally older low quality construction. Does not meet code.
- Grade 5      Lower construction costs and workmanship. Small, simple design.
- Grade 6      Lowest grade currently meeting building codes. Low quality materials, simple designs.
- Grade 7      Average grade of construction and design. Commonly seen in plats and older subdivisions.
- Grade 8      Just above average in construction and design. Usually better materials in both the exterior and interior finishes.
- Grade 9      Better architectural design, with extra exterior and interior design and quality.
- Grade 10     Homes of this quality generally have high quality features. Finish work is better, and more design quality is seen in the floor plans and larger square footage.
- Grade 11     Custom design and higher quality finish work, with added amenities of solid woods, bathroom fixtures and more luxurious options.
- Grade 12     Custom design and excellent builders. All materials are of the highest quality and all conveniences are present.
- Grade 13     Generally custom designed and built. Approaching the Mansion level. Large amount of highest quality cabinet work, wood trim and marble; large entries.
