## 64 Executive Summary

65 Welcome to North Highline’s plan for the future. The goal of the North Highline Subarea Plan is  
66 to make real, equitable improvements to the quality of life for everyone who lives, works, and  
67 plays in North Highline. The Subarea Plan is a 20-year plan that establishes a community vision  
68 and policies to help achieve that vision. Implementation of the Subarea Plan happens through  
69 the County’s land use and zoning maps and application of development regulations, budget  
70 decisions, and a Community Needs List. The Subarea Plan includes performance measures  
71 that the County and community can track over time to ensure we are working together to realize  
72 the community’s vision.

73 The Subarea Plan was developed by King County over several years with a robust community  
74 engagement effort. That engagement focused on building capacity, creating opportunities for  
75 meaningful input, and facilitating participation in the planning process by North Highline  
76 residents and businesses, especially those that have not participated in community planning  
77 processes.

78 The Subarea Plan begins with a description of the development of the Subarea Plan program  
79 and how this Subarea Plan fits within King County’s broader planning efforts. The introduction  
80 provides a brief history of the community’s planning efforts and describes how the Subarea Plan  
81 was shaped by the County’s commitment to the shared values of equity and social justice.

82 Chapter 1 includes the community vision statement that was generated by the community  
83 during this process.

84 *“Residing on the traditional land of the Duwamish people, North Highline celebrates its*  
85 *ethnic diversity, inter-generational roots, and our ongoing inclusivity of diverse families*  
86 *and individuals, especially those most isolated and vulnerable. We call out race and*  
87 *place-based inequities and are committed to dismantling systems of power, privilege,*  
88 *and racial injustice. With mutual support and respect, we value and live out our brilliance*  
89 *and power through community-led initiatives, creating thoughtful development without*  
90 *displacing longtime residents and small business owners, forming and owning the*  
91 *policies that impact us, and building our individual and collective wealth, health, and*  
92 *well-being.”*

93 The vision statement is supported by a series of guiding principles that both informed the  
94 development of the Subarea Plan and provide additional context about the community’s  
95 sentiments and priorities.

96 Chapter 2 describes North Highline’s geography, population, and demographics. It also  
97 describes the government agencies, special service districts, and non-governmental agencies  
98 that are providing services and programs to the community.

99 Chapters 3 through 8 are organized by topic and address specific conditions and needs of the  
100 community. Many of the topics mirror those found in the *Comprehensive Plan*, which is King  
101 County’s long-range guiding policy document. These chapters provide background and context  
102 on the topic area and a summary of the community’s priorities received through engagement  
103 with community members. Each chapter provides subarea-specific policies that will guide  
104 County decision-making and investments for the next generation. The Subarea Plan policies

105 focus and tailor the broader policies in the *Comprehensive Plan* to the specific conditions and  
106 needs of the community.

107 The Subarea Plan chapters include:

- Land Use
- Housing and Human Services
- Parks, Open Space, and Cultural Resources
- Transportation
- Services and Utilities
- Economic Development

108

109 Along with the Subarea Plan, a set of implementation measures are proposed, including  
110 amendments to King County’s development regulations and Land Use and Zoning Maps to  
111 effectuate the priorities outlined by community and help guide future development consistent  
112 with the Subarea Plan policies. These implementation measures and actions can be found in  
113 Chapter 9: Implementation.

114

115 The Subarea Plan includes three appendices.

116 • **Appendix A** is a collection of supporting maps and tables that cover a variety of  
117 technical topics in the Subarea Plan.

118 • **Appendix B** is an equity impact review of the Subarea Plan. This equity impact review  
119 identifies, evaluates, and communicates potential impacts associated with the  
120 development and implementation of the Subarea Plan.

121 • **Appendix C** is a summary of the community outreach efforts completed during the  
122 development of the Subarea Plan. This summary describes the major themes and  
123 priorities expressed by the community.

124 The development of the North Highline Subarea Plan has been years in the making. This plan  
125 centers the diversity of voices and lived experiences of those that call North Highline home. This  
126 Subarea Plan is just one step of many in the County’s commitment to continue to work with the  
127 community to ensure the community’s vision is realized and that the residents and businesses  
128 in North Highline thrive.

129

130  
131 16th Avenue SW, White Center (SD Brewer)

## 132 Introduction

### 133 Why the County Plans

134 The places where people live, work, and play have a significant influence on physical, mental,  
135 and economic well-being and future success. The social, economic, geographic, political,  
136 physical, and environmental conditions of these places are known as the determinants of equity.  
137 Access to the determinants of equity is necessary for people to thrive and achieve their full  
138 potential regardless of race, income, or language spoken.

139 Within King County, not all communities are built and resourced equally, and the determinants  
140 of equity vary disproportionately by neighborhood. Inequitable access to services, safe and  
141 affordable housing, transportation options, and jobs are more prevalent in some communities  
142 than others.

143  
144 Planning decisions made today on how housing and job growth will be accommodated can  
145 shape a community for generations to come. North Highline is an established community within  
146 unincorporated King County with opportunities for redevelopment. Although redevelopment can  
147 bring benefits to the community, it is important to recognize that this growth may leave some  
148 residents behind and push others out. The policies in the North Highline Community Service  
149 Area Subarea Plan (Subarea Plan) recognize that North Highline's residents and businesses  
150 should benefit from potential redevelopment and have the resources they need to thrive.

151 Planning is a key factor in promoting equity and social justice, affecting residents' ability to  
152 access the resources they need. Past land use and investment decisions have contributed to  
153 economic and social disparities, which have been felt in communities like North Highline. *King*  
154 *County's Determinants of Equity Report* states that "identifying how the built environment  
155 supports residents in improving quality of life, accessing jobs and housing is critical for  
156 promoting a healthy environment for all residents."<sup>1</sup>

---

<sup>1</sup> *King County Determinants of Equity Report (2015)*

157 The purpose of the Subarea Plan is to make real, equitable improvements to the quality of life  
158 for everyone who lives, works, and plays in North Highline. King County works to implement this  
159 goal through a variety of mechanisms, such as budget, policy, and programmatic decisions, in  
160 coordination and partnership with the community.

## 161 Planning History

162 Unincorporated areas of King County such as North Highline are governed by the *King County*  
163 *Comprehensive Plan (Comprehensive Plan)* and the individual subarea plans that are elements  
164 of the *Comprehensive Plan*. The *Comprehensive Plan* is the long-range guiding policy  
165 document for King County, adopted under the requirements of the Washington State Growth  
166 Management Act.<sup>2</sup> It guides all land use and development in unincorporated King County and  
167 guides provision of local and regional services throughout the County—including transit, sewers,  
168 parks, trails, and open space.

169 Subarea plans address smaller geographies within the County and establish policies specific to  
170 the needs of those communities. Policies in the *Comprehensive Plan* and subarea plans are  
171 implemented through the King County Code (KCC), which includes development regulations  
172 and service-oriented plans, and the County budget.

173 The King County Council adopted the *1994 Comprehensive Plan*, which used the term  
174 “community plan” to identify 12 large geographic areas of the County that had subarea plans.  
175 Generally, community-specific planning ended with the adoption of the *1994 Comprehensive*  
176 *Plan*, as the County moved towards countywide planning under the Growth Management Act.

177 In 2011 and 2012, King County adopted an approach for engagement and service delivery in its  
178 unincorporated areas. Seven Community Service Areas (CSAs) were established to guide the  
179 work.<sup>3</sup> In 2015, the County reinstated long-range planning for its unincorporated communities  
180 and launched a Community Service Area Subarea Planning Program for 11 unincorporated  
181 communities located within the 7 CSAs. The West King County CSA covers the 5 major  
182 Potential Annexation Areas in urban unincorporated King County, which are Skyway-West Hill,  
183 North Highline, East Federal Way, Fairwood, and the East Renton Plateau. The other 6 CSAs  
184 cover the rural, unincorporated areas of Bear Creek/Sammamish, Snoqualmie Valley-NE King  
185 County, Four Creeks/Tiger Mountain, Greater Maple Valley/Cedar River, SE King County, and  
186 Vashon/Maury Island.<sup>4</sup>

187 The scope and nature of this program have continued to evolve since the program was adopted.  
188 In 2020, the County updated the subarea planning program to ensure it was addressing the full  
189 range of community needs, centering equity in the planning process, and establishing  
190 performance measures to inform plans and to ensure the community’s vision is realized.<sup>5</sup>

191 Community planning efforts for North Highline date back to 1977 when King County adopted the  
192 Highline Community Plan.<sup>6</sup> This plan covered a large area of then-unincorporated King County,  
193 which today includes the cities of Burien, Des Moines, Normandy Park, and SeaTac in addition  
194 to the still-unincorporated North Highline area.

---

<sup>2</sup> Chapter 36.70A RCW

<sup>3</sup> Framework adopted by Ordinance 17139, boundaries by Ordinance 17415

<sup>4</sup> Motion 15142

<sup>5</sup> Ordinance 19146

<sup>6</sup> Ordinance 3530

195 **Adopted Plans 1994 to 2022**

196 *WHITE CENTER COMMUNITY ACTION PLAN AND AREA ZONING (1994-2022)*

197 In 1994, King County augmented the Highline Community Plan with the adoption of the White  
198 Center Community Action Plan and Area Zoning (White Center Action Plan),<sup>7</sup> a wide-ranging  
199 community planning document that implemented new zoning for White Center, in addition to  
200 establishing goals in the areas of health and human services, economic and community  
201 development, and environmental protection. The Action Plan was intended to serve as a 6- to  
202 10-year plan for the area. It included a vision statement and strategies identified by White  
203 Center’s residents. It noted that some of the strategies could be implemented by King  
204 County, while several needed to be implemented by other jurisdictions, such as special  
205 districts, or by residents. Over the following 25 years, most of the planning area went through  
206 the process of annexing to or becoming incorporated cities.

207 **Other Community Planning Efforts 2007 to 2017**

208 The White Center Community Development Association (WCCDA) leads and collaborates on  
209 community planning-related initiatives in White Center. Two initiatives led by the WCCDA are  
210 described below.

211 *“WE CREATE WHITE CENTER’ NEIGHBORHOOD ACTION PLAN (2007)”<sup>8</sup>*

212 The WCCDA collaborated with the University of Washington’s Department of Urban Design  
213 and Planning to develop a neighborhood plan for White Center, including areas north of SW  
214 Roxbury Street in the City of Seattle. The plan included community outreach, research, and  
215 field data collection to formulate a neighborhood plan that offered suggestions for how to  
216 guide development in White Center. The plan developed alternatives, recommendations,  
217 and steps for implementing specific projects for 6 focus areas identified by the community:  
218 public safety and the pedestrian environment; business district development; employment  
219 opportunities; affordable housing options; increased civic capacity; and identification of  
220 future land uses to meet plan goals. The findings were presented to the community at a  
221 public meeting held in May 2007.

222 *WHITE CENTER COMMUNITY DEVELOPMENT ASSOCIATION COMMUNITY SURVEY REPORT (2017)<sup>9</sup>*

223 The WCCDA developed a survey that asked about community strengths, the community’s  
224 vision for the future, and community priorities by topic. Over 500 individuals completed the  
225 survey in 2017. The WCCDA and its partner organizations used the information from the  
226 survey to develop strategies, organize residents and advocate for community priorities. The  
227 activities were grouped into four areas: family development; community building;  
228 neighborhood revitalization; and data and evaluation.

229 **Community Needs Lists**

230 A Community Needs List<sup>10</sup> specifies programs, services, and capital improvements that respond  
231 to community-identified needs in a CSA. A list is created for each of the 6 rural CSAs and each  
232 of the 5 large unincorporated urban areas of the West King County CSA, which includes North

<sup>8</sup> [http://courses.washington.edu/wcstudio/White\\_Center/White\\_Center\\_Neighborhood\\_Action\\_Plan.pdf](http://courses.washington.edu/wcstudio/White_Center/White_Center_Neighborhood_Action_Plan.pdf)

<sup>9</sup> [White Center Community Development Association Community Survey Report, 2017](#)

<sup>10</sup> K.C.C. 2.16.055.C

233 Highline. These lists are developed and implemented using the tools and resources developed  
234 by the Office of Equity and Social Justice.

235 As required by King County Code,<sup>11</sup> the North Highline Subarea Plan adopts by reference the  
236 North Highline Community Needs List and its associated performance metrics as adopted in  
237 Proposed Ordinance 2022-0161.

## 238 Subarea Plan Structure

239 The North Highline Subarea Plan is arranged in chapters that address many of the same topic  
240 areas as the overall *Comprehensive Plan* and focuses on specific policies that reflect  
241 community priorities. The Subarea Plan policies will guide public and private investments that  
242 will shape the community over the next 20 years.

243 Chapters 3 through 8 are arranged in the following format:

- 244 • Background and context describing existing conditions and programs in place at  
245 adoption of the Subarea Plan
- 246 • Community priorities and needs describing the major themes gathered during the  
247 community engagement process
- 248 • Subarea-specific policies addressing long-range community needs

249 To fulfill the community vision and policies contained within the Subarea Plan, implementation  
250 actions and measures are included in Chapter 9. These include a series of amendments to the  
251 Land Use and Zoning Maps, new and revised development conditions that apply to the subarea,  
252 inclusionary housing regulations to create affordable housing and reduce displacement, urban  
253 design standards, designation of the unincorporated activity center as a countywide center in  
254 regional planning, a community needs list, and performance measures.

255 Implementation of the Subarea Plan and its ability to support the community to realize its vision  
256 will, in part, be the result of ongoing dialogue and collaboration between the County and  
257 community. It is important to note that implementation of the Subarea Plan requires balancing  
258 other policies and priorities that guide County actions and investments.  
259

## 260 Equity and Social Justice

261 King County abounds with opportunities, but those opportunities are not accessible to all who  
262 live in King County. As a local and regional government, King County recognizes this and is  
263 focusing on equity and social justice in its work through the Equity and Social Justice (ESJ)  
264 Strategic Plan.<sup>12</sup> The ESJ Strategic Plan is a blueprint for action and change that guides the  
265 County's pro-equity policy direction, decision-making, planning, operations and services, and  
266 workplace practices to advance equity and social justice within County government and in  
267 partnership with communities. The ESJ Strategic Plan lays out a set of shared values in which  
268 the County commits to being:

- 269 • Inclusive and collaborative
- 270 • Diverse and people-focused

---

<sup>11</sup> K.C.C. 2.16.055.B.2.h

<sup>12</sup> [Equity and Social Justice Strategic Plan \(2016-2022\)](#)

- 271 • Responsive and adaptive
- 272 • Transparent and accountable
- 273 • Racially just
- 274 • Focused upstream and where needs are greatest

275 Furthermore, the *Comprehensive Plan* states that King County “will identify and address the  
276 conditions at the root of disparities, engage communities to have a strong voice in shaping their  
277 future, and raise and sustain the visibility of equity and social justice. The goal is to start by  
278 focusing on prevention and addressing the fundamental causes of the inequities to have a  
279 greater overall impact.”<sup>13</sup>

280 Development of the Subarea Plan was shaped and guided by these values and goals, as well  
281 as the equity requirements in King County Code.<sup>14</sup> Engagement with the North Highline  
282 community strove to be as inclusive and collaborative as possible while centering and lifting the  
283 voices of those who would be most impacted.

284 An analysis of equity impacts associated with the Subarea Plan policies, as well as associated  
285 implementation, is included in Appendix B: Equity Impact Review.

White Center Annual Summit 2019 Hosted by White Center Community Development Association (Melissa Ponder)

## 289 Chapter 1: Community Outreach, Vision, and Guiding 290 Principles

291 This Subarea Plan establishes a vision for the urban unincorporated community of North  
292 Highline, including the neighborhoods of White Center, Top Hat, Roxhill, Greenbridge, Glendale,  
293 and an area of South Park near the City of Seattle and the Duwamish River that is known as the  
294 “Sliver by the River.” The community vision statement and guiding principles were created  
295 based on the collective community input gathered during the development of this Subarea Plan.

### 296 Community Outreach

297 Development of the Subarea Plan was driven by a robust community input and outreach  
298 program. The outreach work focused on building capacity, creating opportunities for meaningful  
299 input, and facilitating participation in the planning process for community members and  
300 businesses who reflect the diverse communities of North Highline. The approach was intentional  
301 about including those who have not historically been included in community planning processes.

302 The public outreach process for this Subarea Plan was undertaken in 2 phases as outlined  
303 below. The work included discussions with North Highline businesses, community groups, and  
304 community members. As experts on the assets and needs in its neighborhoods, community  
305 contributions are central to the scope and content of this Subarea Plan.

306 **Phase 1 – 2019 – Mid-2020:** During this time, King County worked with the community to shape  
307 a Subarea Plan that was initially focused on land use. The WCCDA and other community  
308 parties provided direction on how best to engage with the North Highline community about the  
309 Subarea Plan starting in 2019. Based on the feedback provided by the community partners and  
310 considering lessons learned during early work on the Skyway-West Hill Land Use Strategy,  
311 public outreach completed between July to October 2019 had 2 purposes.

312 The first was to share knowledge with the community about the purpose and function of land  
313 use and zoning in North Highline. This approach was taken to facilitate a general community

314 understanding of key concepts before engaging in discussion about potential changes to  
315 existing regulations.

316 The second purpose was to gather information from the community to develop Subarea Plan  
317 land use and zoning proposals. County staff gathered feedback by hosting and attending  
318 County-led meetings, attending existing community meetings, interviewing community leaders,  
319 hosting office hours in North Highline community locations, and going door-to-door in  
320 commercial neighborhoods. King County also posted and publicized an online survey asking  
321 about community priorities and concerns which generated just under 100 responses.

322 To ensure that engagement efforts for the Subarea Plan reached groups not traditionally  
323 engaged in land use planning processes, meetings and focus groups were held both during the  
324 workday and in the evenings. Food, childcare, and language interpretation services were  
325 provided at County-hosted meetings. County staff also attended existing community meetings to  
326 ensure that direction and feedback was received by a population reflective of the diversity of the  
327 community. Specific effort was made to engage with non-English speaking communities,  
328 persons of color, community service providers, businesses, and youth.

329 By the end of October 2019 County staff engaged with approximately 300 community members  
330 as part of the Subarea Plan process.

331 Public engagement between January and May 2020 was focused on receiving feedback from  
332 the community on draft land use and zoning proposals and reflecting on early Phase 1  
333 community engagement and areas for improvement.

334 In January 2020, King County held a Community Open House where a series of draft proposals  
335 were shared to address the key values and priorities identified by the North Highline community  
336 earlier in Phase 1. This included sharing draft proposals on potential zoning changes and other  
337 regulatory actions and a draft vision statement. In sharing the proposals on land use changes,  
338 King County wanted to hear if the proposals adequately reflected the values and priorities of the  
339 community and whether the values and priorities captured reflected community voice  
340 appropriately.

341 King County created a project webpage and included materials in English, Spanish,  
342 Vietnamese, Khmer, and Somali. The webpage provided an opportunity for interested parties to  
343 register for project updates. By June 2020, over 175 individuals had registered. King County  
344 also posted a second project survey which received over 50 responses.

345 Between July 2019 and June 2020, County staff attended more than 20 public meetings to  
346 share information about land use and zoning and to learn about the community's values and  
347 priorities. In addition, County staff held over 30 meetings and conversations with community  
348 leaders and subject matter experts.

349 **Phase 2 – Mid-2020 to Fall 2021:** Phase 2 focused on policy areas raised by the community  
350 other than land use. This second phase of community engagement was combined with  
351 community conversations about the development of the Community Needs List and the County's

352 Skyway-West Hill and North Highline Anti-Displacement Strategies Report.<sup>15</sup> This phase  
353 included several overlapping stages:

- 354 • Stage 1 – July 2020: An updated community engagement plan was created with input  
355 from several community leaders and the King County Office of Equity and Social Justice.  
356 The objective was to hear from a wider variety of residents and other interested parties,  
357 with an intentional focus on ensuring that the diverse and historically underrepresented  
358 voices of the community are reflected in the Subarea Plan.
- 359 • Stage 2 – August 2020 to September 2021: This phase of engagement started early in  
360 the COVID-19 pandemic when in-person meetings and gatherings were prohibited to  
361 protect public health.

362 Although the pandemic limited face-to-face community engagement, it created opportunities  
363 to reach more residents through electronic engagement. An online engagement hub was  
364 utilized that included built-in translation services allowing information to be translated into  
365 multiple languages. The online survey tool was revised several times to keep the content  
366 fresh and draw additional respondents to the platform. The first version of the survey was  
367 posted in August 2020 and had 21 participants. Community members were asked to share  
368 their thoughts and ideas to help the County draft the North Highline Community Needs List  
369 and a set of policies for the Subarea Plan. A second version of the survey was posted in  
370 September 2020 and had over 149 participants. The second survey identified what topics  
371 were the highest priority for the development of the North Highline Community Needs List.

372 Understanding that not all people have access to technology and the internet, the County  
373 used other methods to reach those who could not access information electronically.  
374 Postcards offering a phone number to collect community priorities were sent to every mailing  
375 address in the subarea. The postcard message was translated into North Highline’s top 4  
376 languages of Spanish, Vietnamese, Somali, and Khmer.

- 377 • Stage 3 – October 2020 to June 2021: King County facilitated a series of 5 community-  
378 centered workshops on affordable housing and anti-displacement strategies for North  
379 Highline and Skyway-West Hill. The community identified affordable housing and anti-  
380 displacement strategies as priorities during early engagement for both Subarea Plans.  
381 The workshop series covered a range of anti-displacement strategies, with 3 additional  
382 community discussions on inclusionary housing and how it might be applied to both  
383 subareas. The meeting series was co-created with 6 community leaders from Skyway-  
384 West Hill and North Highline.
- 385 • Stage 4 – April 2021 to April 2022: Through a contract with the WCCDA, the County  
386 initiated the North Highline Community Voices Project. This project was created to  
387 engage with residents who were historically underrepresented in community planning  
388 processes. The WCCDA hosted several virtual and in-person meetings with community  
389 members and used online surveys to connect directly with area residents, businesses,  
390 and partner agencies. The WCCDA and King County worked closely with community  
391 members throughout the process to help explain the details, encourage participation, and  
392 identify community priorities for this Subarea Plan and the Community Needs List.
- 393 • Stage 5 – September 2021 to December 2021: On September 30, 2021, a public review  
394 draft of the Subarea Plan and the associated map amendments were published on the

---

<sup>15</sup> [Skyway-West Hill and North Highline Anti-displacement Strategies Report, Sept. 2021](#)

395 County website and hard copies were distributed at the White Center and Greenbridge  
396 libraries. The release of the public review draft was publicized through emails, social  
397 media, a press release, and a direct mail flyer translated into multiple languages and sent  
398 to every address in North Highline. County staff hand-delivered project flyers in the  
399 community, participated in meetings with community members organized by the WCCDA,  
400 and participated in a monthly meeting of the North Highline Unincorporated Area Council.  
401 King County held a virtual community meeting on October 21, 2021, with Spanish  
402 language interpreters, and the WCCDA publicized the public review draft survey on its  
403 website.

404 The County prepared a “Readers Guide” of the Subarea Plan and the associated map  
405 amendments after receiving community feedback on initial materials and the difficulty  
406 using the built-in translation services to the online hub. The guide was translated into  
407 Spanish, Vietnamese, Somali, and Khmer and published on the County website. The  
408 County also contracted with consultants to prepare visual materials for some of the map  
409 amendments. Based on community feedback, the four-week comment period was  
410 extended twice and was closed on December 19, 2021.

411  
412 More detail on the community engagement for the Subarea Plan development, the results, and  
413 some lessons learned for future engagement is provided in both Appendix B: Equity Impact  
414 Review, and Appendix C: Community Engagement.

## 415 Community Vision Statement

416 The community vision is an aspirational, forward-looking statement of how the community wants  
417 to be over the next 20 years guided by input from community members through the Subarea  
418 Plan process.

419 *Residing on the traditional land of the Duwamish people, North Highline celebrates its ethnic*  
420 *diversity, intergenerational roots, and our ongoing inclusivity of diverse families and individuals,*  
421 *especially those most isolated and vulnerable. We call out race and place-based inequities and*  
422 *are committed to dismantling systems of power, privilege, and racial injustice. With mutual*  
423 *support and respect, we value and live out our brilliance and power through community-led*  
424 *initiatives, creating thoughtful development without displacing longtime residents and small*  
425 *business owners, forming and owning the policies that impact us, and building our individual*  
426 *and collective wealth, health, and well-being.*

## 427 Guiding Principles

428 The following guiding principles support the community vision and were used by the County to  
429 inform and direct the development of the Subarea Plan. The guiding principles were developed  
430 based on several years of dialogue and work with the community on the Subarea Plan, drawing  
431 from other community-led or focused efforts in North Highline. They express the community’s  
432 sentiments around a range of community issues discussed during the planning process.

- 433 a. We are proud of our community and continue to share our collective history with others  
434 and to invest in this place, our home for current residents and their future generations.
- 435 b. We support community investments and programs that reduce the risks and mitigate the  
436 impacts, of residential, economic, and cultural displacement.

- 437 c. We live in thoughtfully designed housing and commercial spaces where inter-  
438 generational households and legacy businesses can stay and where affordability and  
439 ownership are realized.
- 440 d. We support a thriving and equitable economy, with racially and ethnically diverse,  
441 community-minded small business owners, entrepreneurs, and employers.
- 442 e. We support residents, especially children, youths, and young adults, with services and  
443 resources they and their families need to succeed.
- 444 f. We promote the development of community-desired amenities to improve aesthetics,  
445 enrich the community's diverse physical and cultural assets, and support gathering  
446 together as a community.
- 447 g. We support regulations and investments that result in a safe, secure, and healthy  
448 community and compatible development.
- 449 h. We support residents growing their work interests, skills, and wages.
- 450 i. We enjoy neighborhoods with accessible and safe streets, roads, and alleyways, with  
451 well-connected hiking and biking trails.
- 452 j. We can access jobs and amenities in the region and in our community without relying on  
453 automobiles.

454 The purpose of the Subarea Plan is to make real, equitable improvements to the quality of life  
455 for *everyone* who lives, works, and plays in North Highline. Guided by the community vision,  
456 equitable improvements should encompass thoughtful development that builds individual and  
457 collective wealth and supports the health and well-being of current and future community  
458 members without displacing people or businesses. Making real, equitable improvements means  
459 providing ways for implementing thoughtful development in partnership with the community  
460 while respecting the community's wisdom, creativity, diversity, and sense of place.

461

462  
463 Neighborhoods in North Highline Subarea

## 464 Chapter 2: Community Description

465 North Highline is an urban unincorporated area in King County. Approximately 3.5 square miles  
466 in size, North Highline’s 19,500 residents<sup>16</sup> live in the neighborhoods of White Center, Roxhill,  
467 Top Hat, Greenbridge, Glendale, and the South Park “Sliver by the River.” The subarea is  
468 bordered to the north and west by the City of Seattle, to the south by the City of Burien, and to  
469 the east by the City of Tukwila. North Highline is the County’s third most populous urban  
470 unincorporated area after Fairwood and East Federal Way.

471 This chapter discusses some of the current context and characteristics of the community at the  
472 time of Subarea Plan adoption. Additional supporting information and data can be found in  
473 Appendix A: Tables and Maps.

### 474 Community History

475 North Highline is part of the traditional homeland of the ancestors of the Duwamish,  
476 Muckleshoot, and Suquamish tribes, who depended on fish, animals, and plants and traveled  
477 widely to harvest these resources. After Europeans and their descendants settled in the area,  
478 the White Center community was developed early in the 20th century based on its supply of  
479 low-cost, vacant land. At that time, an electric streetcar connected White Center to Burien,

<sup>16</sup> All of the demographic data for this chapter was drawn from the US Census Bureau, 2020 American Community Survey 5-year Estimates, unless noted otherwise.

480 Seattle, and adjacent shipyards and industrial areas. Sixteenth Avenue SW was a midpoint on  
481 the streetcar line and became a destination in its own right. Housing was developed along the  
482 streetcar route in the 1920s, and World War II brought a second housing boom when homes  
483 were needed for workers in the region. The construction of State Route 509 in the 1960s  
484 spurred further development in White Center. Since then, several groups of immigrants and  
485 refugees have settled in the area, making it the culturally and ethnically diverse community that  
486 it is today.

487 **Residential Population**

488 North Highline includes 8 different census tracts, of which only 2 are entirely within the subarea  
489 boundaries. To summarize the area, the socioeconomic characteristics use information for the 2  
490 Census Designated Places (CDPs) that generally align with the boundaries of North Highline:  
491 the White Center and the Boulevard Park CDPs. A map showing the CDPs and census tracts in  
492 the North Highline subarea can be found in Appendix A: Tables and Maps. Because some of  
493 the American Community Survey (ACS) data cannot be easily combined for the 2 CDPs, they  
494 are shown individually in Table 1 below.

**Table 1. North Highline Population Data**

	<b>Boulevard Park CDP</b>	<b>White Center CDP</b>	<b>King County</b>
Population	4,197	15,995	2,225,064
Average household size	2.4	2.7	2.4

Percent foreign born	32%	35%	24%
<b>Housing</b>			
Owner-occupied households	45%	52%	57%
Renter-occupied households	56%	48%	44%
Cost burdened households (owner- and renter-occupied)	52%	43%	34%

495

496 The following sections discuss in more detail the socioeconomic characteristics of the North  
497 Highline community. Data is from the 2020 American Community Survey.

498 *HOUSEHOLD INCOME AND POVERTY*

499 The median annual household income in the Boulevard Park and White Center CDPs is  
500 \$58,000 and \$62,000 respectively, which is about 40% lower than the countywide median of  
501 \$99,000. An estimated 17% of households in North Highline fall below the federal poverty line,  
502 which is more than twice the rate countywide. Approximately 22% of youth under 18 years of  
503 age in the White Center CDP and 43% in the Boulevard Park CDP live below the poverty line.  
504 These rates among youth are significantly higher than that for the county as a whole (10%).<sup>17</sup>

505 *RACIAL AND ETHNIC COMMUNITIES*

506 People of color make up 65% of the North Highline population, compared with 42% for King  
507 County as a whole. An estimated 27% of the population identifies as Hispanic or Latino  
508 compared with approximately 10% identifying as Hispanic or Latino across the County. About  
509 11% of North Highline’s population identifies as Black/African American, compared to the  
510 county’s 7%. In North Highline, 31% of the population was born outside of the United States,  
511 compared with 25% of the population in King County as a whole.

512 *COMMUNITIES WHO SPEAK A PRIMARY LANGUAGE OTHER THAN ENGLISH*

513 In North Highline, approximately 13% of the households are limited-English-speaking  
514 households, with nearly half (47%) of the population speaking a language other than English at  
515 home. At the countywide level, 6% of households are limited-English speaking and 28% speak  
516 a language other than English at home. The predominant languages spoken in North Highline  
517 are Spanish, Vietnamese, Somali, and Khmer, in addition to English.

518 *YOUTH*

519 Youths under 18 years old make up about 22% of North Highline’s population, which is slightly  
520 higher than the countywide rate of 20%. White Center CDP’s youth population is 22% and  
521 Boulevard Park CDP’s is 25%.

522 *SENIORS AND ELDERLY RESIDENTS*

523 About 12% of the population in North Highline is over age 65, lower than for King County as a  
524 whole (13%). Notably, Boulevard Park’s over 65 population is 14% while White Center’s is 12%.

<sup>17</sup> *United States Census [Poverty Status in the Past 12 Months](#)*

525 *PERSONS WITH DISABILITIES*

526 About 12% of North Highline residents identify as having a disability that may include challenges  
527 with mobility or cognitive difficulties. This figure is slightly greater percentage than for King  
528 County as a whole (over 10%).

529 *RENTERS AND HOMEOWNERS*

530 Almost half (49%) of North Highline households live in rental homes, compared with 44% in  
531 King County as a whole. Renters in the subarea are more likely than not to be Black, Indigenous  
532 and people of color, and are more likely than not to have incomes lower than area median and  
533 experience a housing cost burden. In North Highline, about 45% of all households are cost  
534 burdened meaning that they spend more than 30% of their income on housing. Among renters,  
535 60% are cost-burdened.

536 **Businesses**

537 North Highline has several commercial areas that offer services, entertainment, and  
538 employment opportunities. While a commercial land use designation applies to only a small  
539 percentage of North Highline's total land area (8%), the commercial areas are focal points of  
540 their neighborhoods and host a range of well-established and new businesses that reflect the  
541 community's cultural diversity and creative spirit.

542 Commercial areas are located within the White Center Unincorporated Activity Center that is  
543 centered on 16<sup>th</sup> Avenue SW, in Roxhill along SW Roxbury St and 26<sup>th</sup> Avenue SW, and in Top  
544 Hat centered along Myers Ave S and 1st Ave S. Commercial services are also located in  
545 Greenbridge on 4<sup>th</sup> Avenue SW, and in Glendale on 8<sup>th</sup> Avenue S and S 112<sup>th</sup> Street and along  
546 Des Moines Memorial Drive S and S 96<sup>th</sup> Street. There are also some parcels in South Park  
547 along S Orr Street that are designated for commercial uses.

548 The White Center Unincorporated Activity Center has the largest concentration of commercial  
549 services in North Highline. It covers 120 acres and includes not only commercial businesses,  
550 but also some residential and industrial uses. The stretch of 16<sup>th</sup> Avenue SW between SW 100<sup>th</sup>  
551 Street includes small, locally-owned businesses and is a traditional small-scale commercial  
552 core.

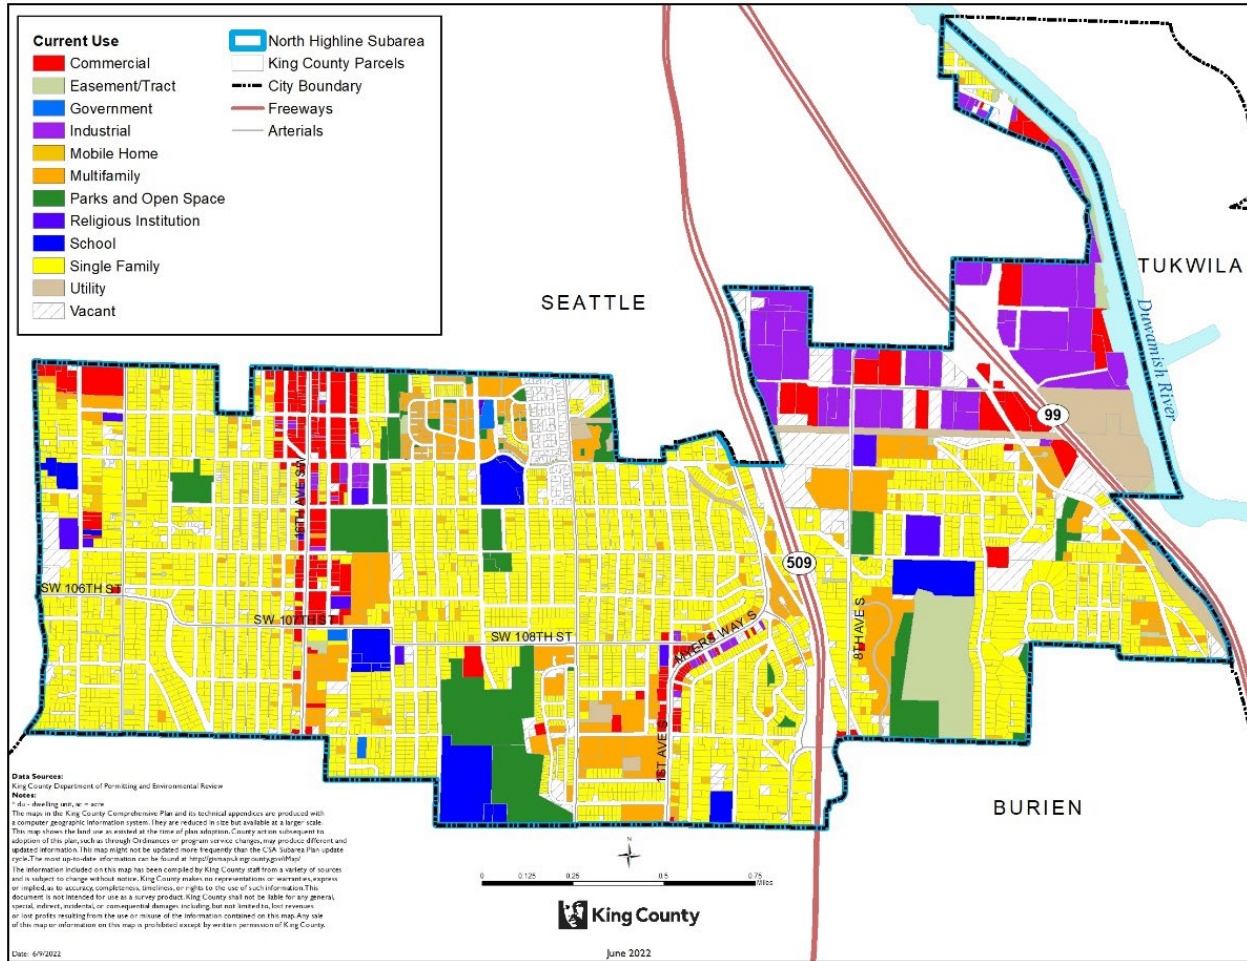

553 Large industrial firms are located to the east of State Route 509 in Glendale and South Park.  
554 Industrial uses in this area include numerous large warehouses, distribution centers,  
555 manufacturing businesses, and a Seattle City Light power substation. Smaller-scale industrial  
556 uses east of State Route 509 include commissary kitchens and food wholesalers. The only  
557 industrial-zoned areas in North Highline are in White Center along 14<sup>th</sup> Avenue SW. This area  
558 includes manufacturing, warehouse, and distribution businesses.

559 **Current Uses**

560 North Highline is primarily developed with detached, single-family homes. Single-family  
561 residential lots make up 48% of the total land area of North Highline Multifamily development  
562 comprises 9%, clustered in White Center, in the Greenbridge development, along 1<sup>st</sup> Avenue  
563 SW and Meyers Way in the Top Hat neighborhood and major corridors in Glendale. In addition  
564 to these residential areas, North Highline has several commercial and business districts in  
565 White Center, Roxhill, Glendale, South Park, Beverly Park, Greenbridge, and Top Hat. These  
566 commercial and business districts host a wide range of commercial enterprises, covering about  
567 7% of the subarea land area. The majority of industrial developments are found in Glendale and

568 South Park. About 7.5% of North Highline’s total land area is vacant or undeveloped, focused  
 569 primarily in Glendale’s industrial-zoned area. The map below shows how the land in North  
 570 Highline is presently being used.  
 571  
 572

**FIGURE 1. NORTH HIGHLINE CURRENT USES MAP**

573

574 **Community Service Providers**

575 In North Highline, economic, social, health, and human services are provided by community  
 576 organizations and government agencies. Community-based services providers include Sea Mar  
 577 Community Health Centers, the White Center Community Development Association, faith-based  
 578 groups, and business providers such as doctors, dentists, and counselors.

579 **Government Services**

580 King County is the local government for North Highline and administers a range of services and  
 581 programs for the community. These include direct local services such as road services, surface  
 582 water management, animal control, code enforcement, and building permitting, in addition to  
 583 countywide services such as public health, public transit, and parks. Specific services and

584 investments in North Highline are set in King County’s budget, functional plans,<sup>18</sup> and capital  
585 improvement plans.

586 In addition to King County, other government agencies work in partnership with King County to  
587 provide services to the North Highline community, implement plans, and identify where  
588 improvements in services and facilities may be needed. These agencies providing services in  
589 the subarea include:

- 590 • Southwest Suburban Sewer and Water District
- 591 • Valley View Sewer District
- 592 • Seattle Public Utilities
- 593 • King County Water District #20
- 594 • North Highline Fire District #11
- 595 • King County Housing Authority

596 A map showing water and sewer service providers in the North Highline subarea can be found  
597 in Appendix A: Tables and Maps.

## 598 Schools

599 Most of North Highline is in the Highline School District, with a portion in the northeast in the  
600 Seattle School District. Schools serving the area include White Center Heights, Beverly Park,  
601 Mount View, Madrona, and Concord International Elementary Schools; Cascade, Glacier, and  
602 Explorer West Middle Schools; and Evergreen and New Start High Schools. A map showing the  
603 school district boundary and schools in North Highline can be found in Appendix A: Tables and  
604 Maps.

## 605 Annexation

606 Washington’s Growth Management Act identifies cities as the most appropriate local  
607 government to provide urban services.<sup>19</sup> The *Comprehensive Plan*, as well as the *King County*  
608 *Countywide Planning Policies*, also encourage the annexation of unincorporated areas that are  
609 already urbanized. These areas are known as Potential Annexation Areas (PAAs) and are  
610 affiliated with cities for future annexation. As the regional government, King County works with  
611 cities to facilitate the annexation of PAAs. As the local government, King County provides many  
612 essential programs and services to residents in urban unincorporated areas until annexation  
613 occurs.

614 The Subarea consists of a single PAA; however, for planning purposes, jurisdictions have  
615 informally divided the PAA into 3 areas – North Highline (White Center) Area Y, North Highline  
616 Area Q, and Sliver by the River.<sup>20</sup> At 1,698 acres, North Highline is one of the largest Potential  
617 Annexation Areas (PAAs) in King County. Prior to 2012, North Highline was claimed as a  
618 Potential Annexation Area by both Seattle and Burien. A 2012 vote in North Highline on  
619 annexation to Burien failed. Burien subsequently removed the North Highline PAA from their  
620 comprehensive plan. Changes in the Countywide Planning Policies now prohibit overlapping  
621 potential annexation area designations of urban unincorporated areas in city comprehensive

---

<sup>18</sup> Functional plans are detailed plans for facilities and services and action plans for other governmental activities.

<sup>19</sup> Revised Code of Washington [36.70A](#), section 110

<sup>20</sup> King County Annexation Databook (2018)

622 plans. As of 2022, Seattle has received approval from the King County Boundary Review Board  
623 to put a public vote on whether to annex on the ballot, though no timeline for this vote has been  
624 identified.

625 This Subarea Plan is not intended to advance annexation. North Highline will remain in  
626 unincorporated King County until future annexation, and King County will continue to serve as  
627 North Highline's local government. As part of developing this plan, compatibility with adjacent  
628 neighborhoods in the City of Seattle was taken into consideration.

## 629 **Planning for Future Growth**

630 Under the Growth Management Act, jurisdictions must plan to accommodate projected growth  
631 within their boundaries.<sup>21</sup> This includes long-range planning for the unincorporated portions of  
632 King County, such as North Highline.

### 633 *2019-44 GROWTH TARGETS*

634 As a part of the 2021 update to the *King County Countywide Planning Policies*, King County  
635 jurisdictions adopted new growth targets for the 2019-2044 planning period. Growth targets  
636 were developed for the 39 cities and unincorporated King County based on their role in the  
637 Regional Growth Strategy<sup>22</sup> and using information on capacity, transit and transportation  
638 connections, existing development, and growth rates. North Highline is designated as a High  
639 Capacity Transit (HCT) Community. High Capacity Transit Communities are cities and  
640 unincorporated areas that are connected to the regional high-capacity transit system. North  
641 Highline meets the criteria for an HCT Community due to planned service. Policies from the  
642 RapidRide H Line, a very frequent transit route operated by King County Metro, is planned to  
643 serve the White Center neighborhood. The 2019-2044 growth targets for North Highline are  
644 1,420 housing units and 1,220 jobs. These targets reflect the North Highline's role in  
645 accommodating growth given planned transit investments and urban centers designated in the  
646 *Comprehensive Plan*.

---

<sup>21</sup> RCW 36.70A.115

<sup>22</sup> VISION 2050's Regional Growth Strategy defines roles for different types of places in accommodating the region's population and employment growth, which inform countywide growth targets, local plans, and regional plans.

647  
648 Marine Trades at Delta Marine in Glendale (SD Brewer)

## 649 Chapter 3: Land Use

650 The *Comprehensive Plan* applies land use designations to all unincorporated portions of King  
651 County to indicate the planned, long-term use of that land. A zoning classification is then applied  
652 to individual parcels of land to indicate the current allowed uses of that property and the  
653 development regulations to be used when evaluating land use and building permit applications.

654 The *Comprehensive Plan* directs the accommodation of projected housing and job growth into  
655 urban unincorporated areas, such as East Federal Way, East Renton Plateau, Fairwood, North  
656 Highline, and Skyway-West Hill. Land use policies in subarea plans help tailor and focus how  
657 growth will occur based on community input and local needs.

### 658 Land Use and Zoning

659 As of 2021, the *Comprehensive Plan* designates most of the land in North Highline as “urban  
660 residential, medium” (57%), which typically equates to between 4 and 12 dwelling units per  
661 acre. The next most prevalent land use designation is “urban residential, high” (16%), which  
662 allows for residential densities of 18 to 48 dwelling units per acre. More than 70% of North  
663 Highline land is zoned residential, with the majority designated as R-6 (Residential with 6  
664 dwelling units per acre).

665 Although the predominant form of housing in the R-4 and R-6 zones is single-family,  
666 townhouses, duplexes, other multiplexes, and multifamily housing can be in the same  
667 neighborhoods as single-family. This provides flexibility to increase the supply of a range of  
668 different housing types. In these types of development, each residence is typically smaller and  
669 less expensive than a single-family home. Greenbridge and Seola Gardens are 2 areas in North  
670 Highline that include these types of housing.

671 North Highline is served by both frequent and local transit service routes<sup>23</sup>, which are discussed  
672 further in Chapter 6. Starting in 2023, the community will be served by a new high-capacity  
673 transit route RapidRide H Line that will link North Highline with transit hubs in Seattle and

---

<sup>23</sup> *Frequent Transit/Stops are defined as transit lines with frequencies of 15 minutes or better between 6 a.m. and 6 p.m. on weekdays. All other non-frequent transit is classified as Local Transit/Stops*

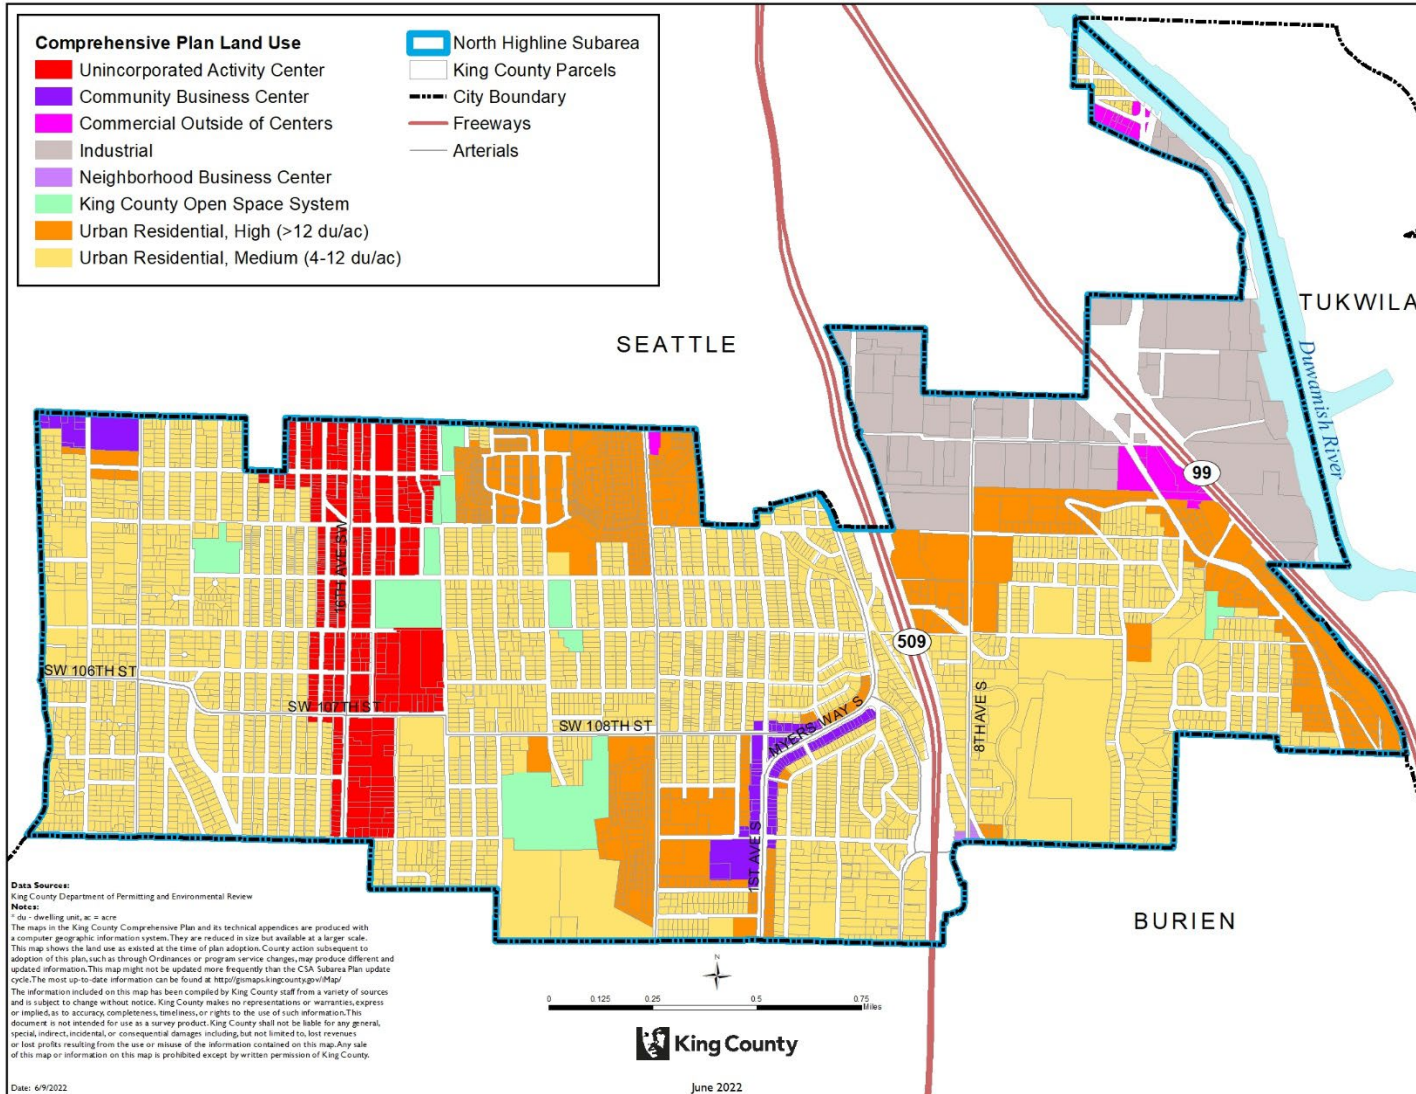

674 Burien. The Subarea Plan includes residential upzones and other zoning and regulatory land  
675 use amendments in proximity to the new RapidRide H Line. Regional and countywide policies  
676 support land use patterns where housing, transit, and services are co-located to make efficient  
677 use of land and infrastructure.

678 Commercial land use designations apply to 10% of the overall land in North Highline. As focal  
679 points of their neighborhoods, these areas provide a range of well-established and new  
680 businesses that reflect the community's cultural diversity and creative spirit. Land designated or  
681 zoned as commercial land may also include multifamily units, such as apartment buildings, and  
682 mixed-use developments, where developments include space for both retail/office and  
683 residential uses.

684 Land zoned for office use makes up a very small part (0.1%) of land North Highline. Industrial-  
685 zoned land (13% of the area) is found primarily between State Route 509 and the Duwamish  
686 River. Many large warehouses, distribution centers, and manufacturing businesses, as well as a  
687 Seattle City Light power substation, are in this area, in addition to smaller scale uses such as  
688 commissary kitchens and food wholesalers.

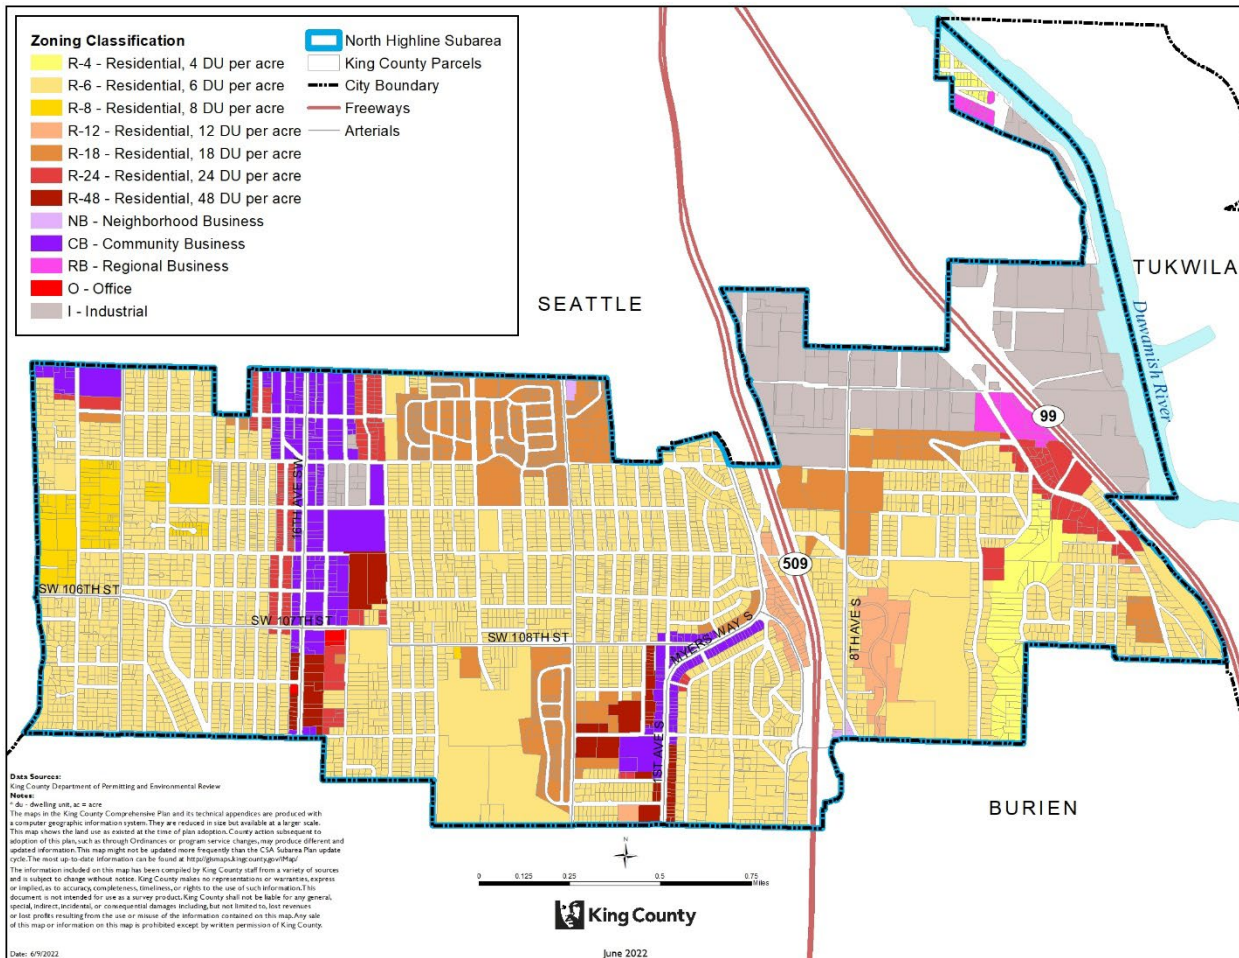

689 **FIGURE 2. NORTH HIGHLINE COMPREHENSIVE PLAN DESIGNATIONS MAP**

690

691 **FIGURE 3. NORTH HIGHLINE ZONING CLASSIFICATIONS MAP**

692

693 **Property-Specific Development Conditions and Special District Overlays**

694 King County Code Title 21A, the Zoning Code, applies development standards on use, size, and  
 695 intensity based on zones. There are 2 ways to modify these standards for specific properties to  
 696 meet comprehensive plan and neighborhood-identified goals. The first method is to apply  
 697 property-specific development conditions that may limit permitted uses or apply special  
 698 development standards, such as restrictions on height or type of uses. This is denoted with the -  
 699 P suffix on the zoning map. The second method is to establish special district overlays, denoted  
 700 with an -SO suffix on the zoning map. Special district overlays may waive, modify, and  
 701 substitute for the range of permitted uses or development standards within the underlying zone.

702 **Comprehensive Plan Urban Centers**

703 The *Comprehensive Plan* designates 3 types of urban centers in its urban unincorporated area  
 704 as places where employment and housing should be concentrated. For North Highline, this  
 705 includes 5 urban centers: the White Center Unincorporated Activity Center, the Community  
 706 Business Centers in Roxhill, Glendale, and Top Hat, and the Neighborhood Business Center at  
 707 Beverly Park.

708 Unincorporated Activity Centers are designated areas that provide employment, housing,  
 709 shopping, services, and leisure amenities to meet the needs of the local economy. The mix of

710 uses is intended to include multi-family housing and mixed-use development. The area around  
711 16<sup>th</sup> Avenue SW is designated as the White Center Unincorporated Activity Center, which is a  
712 focal point for activity and investment.

713 Community Business Centers provide primarily shopping and personal services for nearby  
714 residents. Offices and multi-family housing as part of mixed-use developments are encouraged.  
715 Neighborhood Business centers are areas for daily retail, personal service, and office uses that  
716 can be carried out with minimal impact on the nearby residential areas. Mixed-use development  
717 is also allowed, but with lower relative density than is allowed in Community Business Centers.

## 718 **Community Priorities**

719 The North Highline community identified land use priorities during the development of the  
720 Subarea Plan in 2019 and early 2020 when the Subarea Plan focused primarily on land use.  
721 Refinement of land use priorities occurred in 2021 after the scope of the Subarea Plan was  
722 broadened. Residents call for measures that will stem the risk of physical, cultural, and  
723 economic displacement from their community. They want to have meaningful input and  
724 engagement in decisions on development in North Highline. Culturally appropriate engagement  
725 opportunities include appropriate languages for anticipated attendees, having facilitators or  
726 interpreters from the community, translating or trans-creating printed and online materials with  
727 the community, presenting information and concepts without technical or complex jargon, and  
728 providing sufficient time for the community to process and authentically engage.

729 Community members generally express support for increasing the number of residential units in  
730 North Highline as well as the types of housing that are available, in both residential  
731 neighborhoods and commercial areas. They wish to see additional units and housing types that  
732 will support family members living together, with good access to jobs, transit, and community  
733 amenities and services, including culturally appropriate services. Community members are  
734 proud of their residential neighborhoods. They want new development to be compatible with  
735 existing neighborhoods, and to ensure that sidewalk, roadway, and other improvements are  
736 constructed when additional development takes place. They are concerned that increased  
737 development will result in traffic issues, loss of trees, and increased demand for parking.

738 North Highline community members consistently identify the need to prevent residential  
739 displacement. The community is interested in increasing equitable development, which the US  
740 EPA defines as an approach for meeting the needs of underserved communities through  
741 policies and programs that reduce disparities while fostering places that are healthy and vibrant.  
742 Community members have supported increasing allowed densities in residential neighborhoods  
743 to create more affordable housing and to increase opportunities for homeownership. The  
744 Subarea Plan includes amendments that support increased residential densities in areas where  
745 there is access to commercial services, transit, and community amenities. More about  
746 community identified priorities to prevent displacement can be found in Chapter 4: Housing and  
747 Human Services.

748 They also want to maintain the small, locally owned business environment along the historic  
749 core of 16<sup>th</sup> Avenue SW, and that redevelopment in this part of White Center should be  
750 consistent with the ambiance and scale of the area. They would like additional residential units  
751 in commercial areas to increase housing opportunities and the customer base for local  
752 businesses. They want to encourage development that can provide more “eyes on the street” to  
753 support public safety. The business community wants to see adequate off-street parking  
754 requirements to support the new development to limit competition for parking spaces and meet

755 the needs of community members and visitors that rely on automobiles for mobility. The  
756 community did not always agree on what represents reasonable parking requirements in  
757 commercial areas.

758 Community members would like to see an environment in the White Center commercial core  
759 that connects homes, commercial centers, jobs, community amenities, and transit stops. They  
760 want an improved pedestrian experience that also meets the needs of community members and  
761 customers with mobility and access challenges.

762 Community members express a desire to have housing close to jobs, transit, and services, and  
763 to have a range of commercial spaces available in the White Center Unincorporated Activity  
764 Center to support businesses. This includes supporting micro-enterprises seeking brick and  
765 mortar spaces, retaining areas in White Center for manufacturing businesses, and finding  
766 spaces for legacy businesses seeking to expand while staying close to established customers.  
767 Industrial businesses across North Highline provide a range of well-paying jobs, and the  
768 community would like to achieve compatibility between industrial and commercial businesses  
769 and neighboring homes.

770 The community would like to engage in creating beautiful design and spaces when development  
771 takes place so that it represents the rich diversity and cultural history of North Highline and  
772 captures the uniqueness of the area. The North Highline community wants to ensure that along  
773 with development and investment there is also sensitivity and opportunities to preserve,  
774 enhance, and increase community-identified assets and amenities that reflect community  
775 priorities. For North Highline, it is apparent that these community assets include legacy  
776 businesses in addition to buildings and spaces.

777 The community is concerned that current residents and businesses will be displaced due to  
778 increased investments in the community, including transportation investments that are directed  
779 to communities designated as urban centers. They state that the popularity of North Highline as  
780 a place to live and do business will increase as investments are made, pricing their families and  
781 businesses out of the place they call home.

782 Lastly, the community generally wants to see a reduction in the number and density of  
783 marijuana-related businesses in North Highline, although this was not a position that was  
784 universally supported.

## 785 Policies

786

### 787 General

788 **NH-1** Implement the North Highline Community Service Area Subarea Plan through a  
789 combination of development regulations and incentives, capital investments, and  
790 other public and private strategies.

791 **NH-2** Prioritize achieving community-identified equitable development outcomes that  
792 serve the needs of all North Highline residents and businesses, especially the  
793 needs of those underserved and underrepresented through tools and strategies  
794 that prevent physical, economic, and cultural displacement.

795 **NH-3** Provide accessible and culturally appropriate engagement opportunities for North  
796 Highline residents and businesses during the development review process. Create  
797 opportunities for public input to inform permitting decisions to help ensure new  
798 development is consistent with the community's vision and build capacity in the  
799 community.

800 **NH-4** Partner with community organizations and agencies in identifying and applying for  
801 funding to address community needs in North Highline. Focus on meeting the  
802 needs of underrepresented North Highline community members to support  
803 equitable development.

804 **Residential**

805 **NH-5** Focus medium-density housing development near transit stops and close to  
806 commercial services to increase the supply of housing and provide convenient  
807 access to shops, services, and amenities.

808 **NH-6** Locate high-density multifamily development near high-capacity transit and other  
809 frequent service corridors in and adjacent to White Center Unincorporated Activity  
810 Center; Roxhill, Top Hat and Glendale Community Business Centers; and Beverly  
811 Park Neighborhood Business Center.

812 **Commercial and Industrial**

813 **NH-7** Focus job growth in the White Center Unincorporated Activity Center; Roxhill, Top  
814 Hat, and Glendale Community Business Centers; and the Beverly Park  
815 Neighborhood Business Center where there is access to frequent transit service  
816 and community amenities.

817 **NH-8** Preserve the small size and scale of existing businesses along 16<sup>th</sup> Avenue SW  
818 between SW Roxbury Street and SW 100<sup>th</sup> Street to support the corridor's thriving  
819 small, locally owned business community. Limit the scale of buildings in the  
820 corridor to define the boundaries of White Center's historic core while supporting  
821 the development of additional residential units.

822 **NH-9** Support the creation of commercial spaces in the White Center Unincorporated  
823 Activity Center that meet locally owned business needs, including micro-  
824 enterprises seeking physical premises and existing businesses that stay and grow  
825 in North Highline.

826 **NH-10** Create a walkable environment in the White Center Unincorporated Activity Center  
827 that connects housing, businesses, and community amenities while  
828 accommodating parking and pedestrian access needs.

829 **NH-11** Support, maintain, and assist in removing barriers to employment opportunities  
830 and local economic activity in existing industrial areas in Glendale and South Park  
831 through zoning and other regulatory tools.

832 **NH-12** Retain industrial-zoned land in the White Center Unincorporated Activity Center, to  
833 support manufacturing and other jobs close to and compatible with residential  
834 uses.

835 **NH-13** Implement urban design standards for nonresidential, multifamily, and mixed-use  
836 development in North Highline that enrich the area’s urban form and character.

837 **NH-14** Avoid the clustering of legal cannabis businesses in North Highline through  
838 planning and policies, store licensing and siting, and related measures to prevent  
839 negative community impacts.

840 **Community Amenities**

841 **NH-15** Preserve and enhance community-identified cultural assets in North Highline.  
842 Work with the community and developers to identify and mitigate the loss of North  
843 Highline's unique cultural assets when development occurs.

844 **NH-16** Support the development of community-identified amenities near commercial  
845 centers, transit corridors, and parks and trails through partnerships, incentives and  
846 development requirements, among other mechanisms.

847

848  
849 Townhouses in Greenbridge (SD Brewer)

## 850 Chapter 4: Housing and Human Services

851 The *Comprehensive Plan* supports fully addressing the spectrum of housing needs in all  
852 communities for all of King County's residents. It also supports establishing healthy communities  
853 and fostering conditions that lead to positive health outcomes. This chapter addresses both  
854 housing and community health in the context of the specific needs of the North Highline  
855 community.

### 856 Housing

857 Housing has a profound effect on the quality of life and the vitality of the economy, and  
858 thoughtful planning decisions have the power to create strong residential neighborhoods that  
859 support connected intergenerational and multicultural communities. This section identifies  
860 housing issues and priorities of North Highline as identified by the community.

861 The *Comprehensive Plan* land use map designates almost 60% of North Highline for medium-  
862 density residential (4 to 12 dwelling units per acre) and high-density residential (18 or more  
863 dwelling units per acre) land uses. The predominant land use pattern in North Highline's  
864 neighborhoods is detached single-family residences. About 8% of North Highline is designated  
865 as 1 of 3 types of urban centers, which allows for a range of residential and mixed-use  
866 developments. The *Comprehensive Plan* Land Use Designation map in Chapter 3 shows these  
867 areas.

868 There are approximately 8,000 housing units in North Highline. This includes a mix of single-  
869 family homes, small multifamily buildings, and large condominium and apartment complexes.  
870 The King County Housing Authority's Greenbridge and Seola Gardens developments represent  
871 a significant portion of the housing in North Highline. Together they house more than 3,000  
872 people—nearly 15% of the population of the North Highline subarea. Housing in North Highline  
873 is generally older than that in King County as a whole, with almost 60% of units built before  
874 1969, compared to almost 40% countywide. Remaining opportunities for development consist  
875 largely of redevelopment and infill sites distributed throughout the area.

876 HOUSING AFFORDABILITY

877 Access to safe and affordable housing improves a person’s ability to achieve economic well-  
878 being, high quality of life, good health, and future success. North Highline and King County  
879 overall have experienced a need for more housing as the population of the Puget Sound region  
880 continues to grow. Data shows that King County faces an unprecedented demand for affordable  
881 housing, with an identified need for nearly 244,000 more housing units countywide between  
882 2019 and 2040 for residents at or below 80% of the area median income (AMI).<sup>24</sup>

883 The typical home value for homes in White Center in December 2021 was over \$593,000.<sup>25</sup>  
884 While this is almost \$350,000 lower than the typical value countywide, it still represents almost a  
885 tripling of typical house values in 10 years.

886 The regional housing affordability crisis has reduced North Highline’s affordability for current  
887 residents relative to the rest of King County. Home sale price per square foot increased 133% in  
888 North Highline between 2012 and 2020. The equivalent increase in King County was 105%.  
889 These figures suggest that the area is becoming less affordable. The range of these values has  
890 also increased, indicating that home sales cost even more per square foot, either through new  
891 construction or redevelopment opportunities.<sup>26</sup>

892 Rents in the North Highline area have also increased. Although rents in North Highline are 69%  
893 of the County average rent, they have increased by approximately 5% annually between 2012  
894 and 2020 compared to a 3.8% increase countywide during the same period.<sup>27</sup>

895 Currently, 60% of all renter households in North Highline are cost-burdened, meaning they pay  
896 more than 30% of their income for housing. For low-income renter households at or below 80%  
897 AMI, cost burden increases to 70% of households. Thirty-four percent of these households are  
898 severely cost burdened, meaning that they are paying more than 50% of their income for  
899 housing. A higher percentage of cost-burdened households indicates that more residents are  
900 struggling with basic needs and may be more vulnerable to evictions and displacement.<sup>28</sup>

901 As of 2021, there were over 1,300 units of rental housing affordable to income-qualified  
902 households in North Highline. Income-restricted and mixed-income projects have primarily been  
903 new multifamily and subdivision. These developments are generally sponsored by local housing  
904 authorities such as the King County Housing Authority, community organizations, and not-for-  
905 profit developers.<sup>29</sup>

**Table 2. North Highline Existing Housing (2020 ACS 5-Year)**

Unit Types	North Highline	King County
Total housing units	8,009	952,344
Single-unit buildings <sup>30</sup>	58%	57%

<sup>29</sup> [Regional Affordable Housing Task Force, Final Report and Recommendations for King County, WA, 2018.](#)

<sup>30</sup> *Single-unit buildings include detached single-family homes and attached townhouses or duplexes that are separated from adjacent units by a ground-to-roof wall, have a separate heating system and public utility meter, and have no units located above or below.*

**Table 2. North Highline Existing Housing (2020 ACS 5-Year)**

Unit Types	North Highline	King County
2-9 unit buildings	21%	12%
10+ unit buildings	20%	29%
Units owner-occupied	50%	57%
Units renter-occupied	50%	44%
Median value of owner-occupied unit	\$381,00 (Boulevard Park CDP) \$425,100 (White Center CDP)	\$601,100
Median rent	\$1,356 (Boulevard Park CDP) \$1,338 (White Center CDP)	\$1,695
Renters experiencing cost burden	60%	45%
Housing units built before 1969	58%	37%

906  
907 The Puget Sound Regional Council’s Regional Displacement Risk Index<sup>31</sup> identifies areas at  
908 greater risk of displacement relative to the central Puget Sound region. This index is based on  
909 existing neighborhood conditions and includes socio-demographic, transportation, neighborhood  
910 characteristics, housing, and civic engagement indicators. The Displacement Risk Index  
911 designates portions of White Center, Roxhill, Top Hat, and Glendale as being at higher risk of  
912 displacement, which is the highest level on the displacement risk index. The remainder of the  
913 subarea is assessed to be at moderate risk. However, these aggregated statistics may not  
914 consider the risk experienced by individual households.

915 The combination of rising housing prices, the high rate of cost-burdened households, and lower  
916 than average incomes places North Highline residents at an increased risk of displacement.  
917 Individuals in North Highline who are Black, Indigenous, or persons of color are about twice as  
918 likely to be severely cost-burdened than White individuals, indicating an increased risk of  
919 displacement for households of color.<sup>32</sup>

920 In 2020, King County’s Department of Community and Human Services and Department of  
921 Local Services studied affordable housing incentives in the North Highline and Skyway-West Hill  
922 subareas. This work led to the development of a set of recommended tools and strategies for  
923 the County to implement to address the challenges of housing affordability and the risk of  
924 residential displacement.<sup>33</sup> One of the recommended tools is an inclusionary housing policy for  
925 Skyway-West Hill and North Highline subareas. Inclusionary housing either requires or  
926 incentivizes developers to build new affordable housing units as part of their projects by allowing  
927 additional market rate dwelling units to be constructed to balance the cost of providing the  
928 affordable units. A series of workshops and focused conversations were held with community  
929 members to develop the details of the inclusionary housing standards.

930 **Community Priorities**

931 Retaining affordable housing, creating additional affordable homes, and avoiding residential  
932 displacement are top priorities for North Highline community members

<sup>31</sup> [Puget Sound Regional Council, 2019. Displacement Risk Mapping: Technical Documentation](#)

<sup>32</sup> [BERK Consulting, Inc. King County Home and Hope Initiative. Affordable Housing Incentives Analysis: North Highline and Skyway-West Hill. \(King County, WA: Department of Community and Human Services, 2020\)](#)

<sup>33</sup> [Skyway-West Hill and North Highline Anti-displacement Strategy Report and Recommendations](#)

933 Community members state that they would like to see future generations have the opportunity to  
934 rent and purchase homes in the community and build generational wealth through  
935 homeownership.

936 Community members report that residents have already been displaced from West Seattle, the  
937 Central District, and Rainier Valley to Skyway-West Hill, and North Highline. They are  
938 concerned that increased housing costs will force them to move farther south, away from the  
939 community they call home. They state that protections need to be put in place to slow housing  
940 instability and residential displacement. Such protections may include programs or regulatory  
941 requirements that preserve existing "naturally affordable" housing, provide new subsidized  
942 affordable units, and protect existing residents by implementing community preference policies.

943 Additionally, the community state that they would like housing that is sized for families, supports  
944 intergenerational living, and is culturally appropriate with access to services and amenities that  
945 meet the needs of elders.

946 Community members would like to see increased public investment in affordable housing  
947 projects led by community-based organizations, increased rental assistance, access to home  
948 repair funding for low-income homeowners, and access to technical assistance.

949 Residents are strongly in favor of programs that assure no net loss of affordable units like  
950 inclusionary zoning requirements, land trusts, right-to-return programs, and community benefits  
951 agreements. Programs that do not directly result in affordable housing, such as in-lieu fee  
952 programs, are less favored.

953 They prefer to integrate market-based housing and affordable housing units in the same  
954 developments to increase access to opportunity and equitable development outcomes.<sup>34</sup> They  
955 are concerned that increased property values will exacerbate displacement. The community  
956 also stated that they would also like to see affordable housing units created when property  
957 values in the subarea increase as a result of investments in community development projects,  
958 such as infrastructure improvements.

959 **NH-17** Promote access to diverse housing choices for residents at a variety of income  
960 levels, ages, household sizes, and lifestyles to address the housing needs of the  
961 North Highline community.

962 **NH-18** Preserve, improve, and increase the supply of affordable housing in North Highline  
963 through tools such as:  
964 a. Inclusionary zoning  
965 b. Community land trusts and other models of permanently affordable, shared  
966 equity homeownership  
967 c. Property tax exemptions  
968 d. Funding equitable, community-driven affordable housing projects

969 **NH-19** Utilize a range of strategies to reduce residential displacement in North Highline  
970 such as:  
971 a. Increasing the supply of affordable housing

---

<sup>34</sup> According to the [US EPA](#) equitable development is an approach for meeting the needs of underserved communities through policies and programs that reduce disparities while fostering places that are healthy and vibrant.

- 972 b. Adopting tenant relocation assistance policy  
973 c. Implementing right to return and/or community preference policies
- 974 **NH-20** Expand homeownership opportunities for North Highline residents through tools  
975 such as down payment assistance and redevelopment assistance.
- 976 **NH-21** Require or incentivize residential development that serves a range of household  
977 sizes, types, and incomes, including 2 or more bedroom units for families, and  
978 affordable culturally-specific housing for elders.
- 979 **NH-22** Support the development of and access to housing suitable and affordable for  
980 households with special needs, low-, very low-, and extremely low-incomes.
- 981 **NH-23** Promote safe and healthy homes by implementing strategies, programs, and  
982 regulations to address dilapidated or unsafe properties, or potentially prevent  
983 declining conditions, so North Highline residents can remain in their homes.

## 984 Health and Human Services

985 King County's *Comprehensive Plan* prioritizes the delivery of human services as a critical  
986 component of sustainable communities and environmental justice. King County has a regional  
987 role in health and human services working with many partners, such as federal, state, and other  
988 local governments, service providers, nonprofit organizations, foundations, faith communities,  
989 businesses, schools, and the criminal justice system, to improve the health and well-being of all  
990 people in King County's communities.

991 As the Key Health Indicators table below illustrates, residents in North Highline are overall less  
992 healthy than King County residents as a whole. This highlights the need for additional programs  
993 and services to address these disparities.

**Table 3. North Highline Key Health Indicators**

	North Highline Health Reporting Area (HRA)	King County	Year
<b>General Health Indicators</b>			
Life expectancy at birth (years)	79.8*	81.7	2014-2018
Diabetes prevalence (%)	5.3%	7.1%	2015-2019
<b>Health Education/Socioeconomic/Public Safety Indicators</b>			
Teen birth rate (per 1,000 female age 15-17)	4.6	2.8	2015-2019
Low birth weight (%)	7.4%	6.6%	2015-2019
Firearm deaths (per 100,000 persons)	16.7*	7.6	2014-2018
<b>Environmental Health Indicators</b>			
Current asthma among adults (%)	11.3%	8.8%	2015-2019
Asthma hospitalizations (per 100,000 for all ages)	(Don't have this at HRA level)	32.30	2017-2019
Met physical activity recommendations	24.6%	25.9%	2015, 2017, 2019
Obese (body mass index >30)	23.6%	21.4%	2015-2019
Overweight (%) (body mass index 25-30)	33.6%	34.2%	2015-2019

\* Statistically different compared to King County

994

995 **Healthcare Services**

996 There are several healthcare service providers in the North Highline subarea. The White Center  
997 Medical Clinic is operated by Sea Mar, which is a community-based organization that provides  
998 health and human services that specializes in service to Latinx members of the community.  
999 Additionally, HealthPoint operates a youth clinic at Evergreen High School.

1000 Public Health – Seattle & King County also provides services to the residents of North Highline  
1001 either directly or through partnerships with other agencies, including:

- 1002 • **Public Health Primary Care at Navos:**<sup>35</sup> Provides primary healthcare for adults 18 and  
1003 older; focuses on care for people with significant mental illnesses, substance use  
1004 disorders, and homelessness.
- 1005 • **Family Planning Health Education Team:**<sup>36</sup> Provides Highline School District teacher  
1006 training on elementary and secondary FLASH curriculum; led the “Peace N the Hood”  
1007 Job Fair.

<sup>35</sup> <https://kingcounty.gov/depts/health/locations/navos.aspx>

<sup>36</sup> <https://kingcounty.gov/depts/health/locations/family-planning/education.aspx>

- 1008 • **Public Health School-Based Partnership Team:**<sup>37</sup> Provides funds annually to  
1009 Healthpoint to support 2 school-based health centers in the Highline School District at  
1010 Evergreen High School and Tyee High School.
- 1011 • **Street Medicine Team and Evergreen Treatment Services-REACH:**<sup>38</sup> Conducts  
1012 outreach to provide primary and behavioral health care to those experiencing  
1013 homelessness.
- 1014 • **Community Health Services' Parent Child Health programs:**<sup>39</sup> Conducts visits at  
1015 area shelters. These services include care for new mothers and their babies.
- 1016 • **Access and Outreach Team:**<sup>40</sup> Works with North Highline community-based  
1017 organizations to link their clients to health care insurance, health services, and ORCA  
1018 LIFT, a free and reduced-cost transportation program.

### 1019 **Access to Healthy Foods**

1020 One key component of leading a healthy lifestyle is having convenient access to affordable,  
1021 healthy, and local food choices. White Center has several grocery stores and numerous  
1022 independently owned restaurants and other outlets that sell culturally appropriate foods to the  
1023 North Highline community. Roxhill has a Safeway supermarket and Top Hat has a handful of  
1024 stores selling groceries.

1025 In Glendale, there is a Thriftway supermarket, a Red Apple supermarket, and several non-chain  
1026 restaurants located south of the Rainier Golf and Country Club. There are several independent  
1027 restaurants and grocery stores in or close to the area of South Park in unincorporated King  
1028 County.

### 1029 **Early Learning and Childcare**

1030 Early childhood development is an essential part of healthy cognitive, linguistic, and social  
1031 development. Access to early childhood development is a determinant of equity. North Highline  
1032 has more need for childcare than is available in the community according to information from  
1033 the Washington State Department of Children, Youth, and Families.<sup>41</sup> The Subarea includes  
1034 several local childcare centers located in North Highline and several family home childcare  
1035 providers.

### 1036 **White Center HUB**

1037 The White Center Community Development Association is managing a community development  
1038 project in White Center called the "HUB" ("Hope, Unity, and Belonging"), in collaboration with  
1039 community partners. Partners include Southwest Youth and Family Services, and Community  
1040 Roots Housing. King County is also providing funding for the project.

1041 The White Center HUB will include an affordable housing project, featuring at least 70 units of  
1042 housing affordable to individuals whose income is 60% or less of area median income, and a  
1043 community use project, which would include a commercial building to be used by nonprofit

1044 organizations that serve White Center. It will be located on the corner of 8<sup>th</sup> Avenue SW and SW  
1045 108<sup>th</sup> Street, just north of Dick Thurnau Memorial Park.

## 1046 Community Priorities

1047 Through the engagement process, the community identified several priorities summarized  
1048 below:

- 1049 • Increased accessibility to healthy foods This includes an interest in having a grocery  
1050 store in Top Hat, having access to affordable healthy food, creating P-patches,  
1051 community gardens, and community kitchens, providing cooking demonstrations of  
1052 culturally relevant food, and providing a farmers market.
- 1053 • More services and programs for youth, including additional after-school programs.
- 1054 • Additional adult programs where health and wellness are promoted.
- 1055 • Additional affordable childcare options.
- 1056 • More choices for early childhood education.
- 1057 • Improved access to health and social service providers.

1058

## 1059 Policies

1060 **NH-24** Support access to healthy, affordable, and culturally relevant foods for all residents  
1061 throughout North Highline by encouraging grocery stores, small markets, farmers  
1062 markets, urban farms, and community gardens.

1063 **NH-25** Partner with Highline School District, community-based organizations, and other  
1064 health and human service agencies to provide healthcare (physical and  
1065 behavioral), social and human services, early education, and childcare to improve  
1066 outcomes for residents of all ages, students, and their families, especially where  
1067 needs are greatest.

1068  
1069

Dick Thurnau Memorial Park, White Center (SD Brewer)

## 1070 Chapter 5: Parks, Open Space, and Cultural Resources

1071 Parks and open space lands in North Highline are owned by King County and managed by the  
1072 King County Department of Natural Resources and Parks (DNRP). The Parks and Recreation  
1073 Division of DNRP offers several programs in North Highline and also enters into partnership  
1074 agreements with private organizations. DNRP also administers multiple grant programs that  
1075 support public agencies and community organizations serving the North Highline community.  
1076 The *2016 King County Open Space Plan: Parks, Trails, and Natural Areas (2016 Open Space*  
1077 *Plan)*, a functional plan of the *Comprehensive Plan*, provides the policy framework for the  
1078 County's acquisition, planning, development, stewardship, maintenance, management, and  
1079 funding of its countywide system of 205 parks, 175 miles of regional trails, and 32,000 acres of  
1080 open space.

1081 As of 2021, North Highline contains 7 major parks and open space properties, spanning over 60  
1082 acres, including:

- 1083 • **Dick Thurnau Memorial Park:** This 33-acre park between White Center and Top Hat  
1084 has a frisbee golf course, play areas, walking paths, and Hicklin Lake. It also has the  
1085 Bethaday Community Learning Space, in which the Technology Access Foundation  
1086 provides education programs, including ones that specifically serve students of color.
- 1087 • **North Shorewood Park:** This 6-acre park near the Roxhill area has play and picnic  
1088 areas, basketball courts, and nature trails.
- 1089 • **Steve Cox Memorial Park:** This 10-acre park in White Center offers more programming  
1090 than many other parks in the County system. Amenities include the White Center  
1091 Community Center, White Center Teen Program, Mel Olson Stadium, ballfields, a play  
1092 area, restrooms, picnic shelter, tennis courts, basketball courts, and a reflexology path.
- 1093 • **White Center Heights Park:** This 6-acre park between White Center and Greenbridge  
1094 has an amphitheater, picnic shelter, open field, and nature trail.
- 1095 • **Hamm Creek Natural Area:** This 4-acre park in the Glendale neighborhood is a local  
1096 urban natural area.
- 1097 • **Glendale Forest:** This 5-acre parcel, acquired in 2020, will be transformed into a  
1098 forested park featuring trails, overlooks, and wetlands.

- 1099       • **Lower Green River Trail:** At the northeastern edge of North Highline, near the South  
1100       Park neighborhood, a section of the King County Green River Trail runs alongside W  
1101       Marginal Way Place S. This regional trail connects to trails in Seattle and Tukwila.

1102       In addition to County-owned parks and playfields, King County provides a number of  
1103       recreational and cultural services in the area:

- 1104       • **White Center Teen Program:** Provides free year-round recreational, educational, and  
1105       enrichment programming in Steve Cox Memorial Park to about 1,400 local youths each  
1106       year.

- 1107       • **Volunteer Program:** This service program involves about 10,000 people a year in tree  
1108       planting, removing invasive plants, and building and maintaining parks.

- 1109       • **Youth Conservation Corps:** This program, launched in 2021, provides paid summer  
1110       teen internships that focus on environmental topics and career development.

- 1111       • **Open Space:** The County acquires new parks and open space lands with a variety of  
1112       funding sources, including its Parks, Recreation, Trails, and Open Space Levy and its  
1113       Land Conservation Initiative.

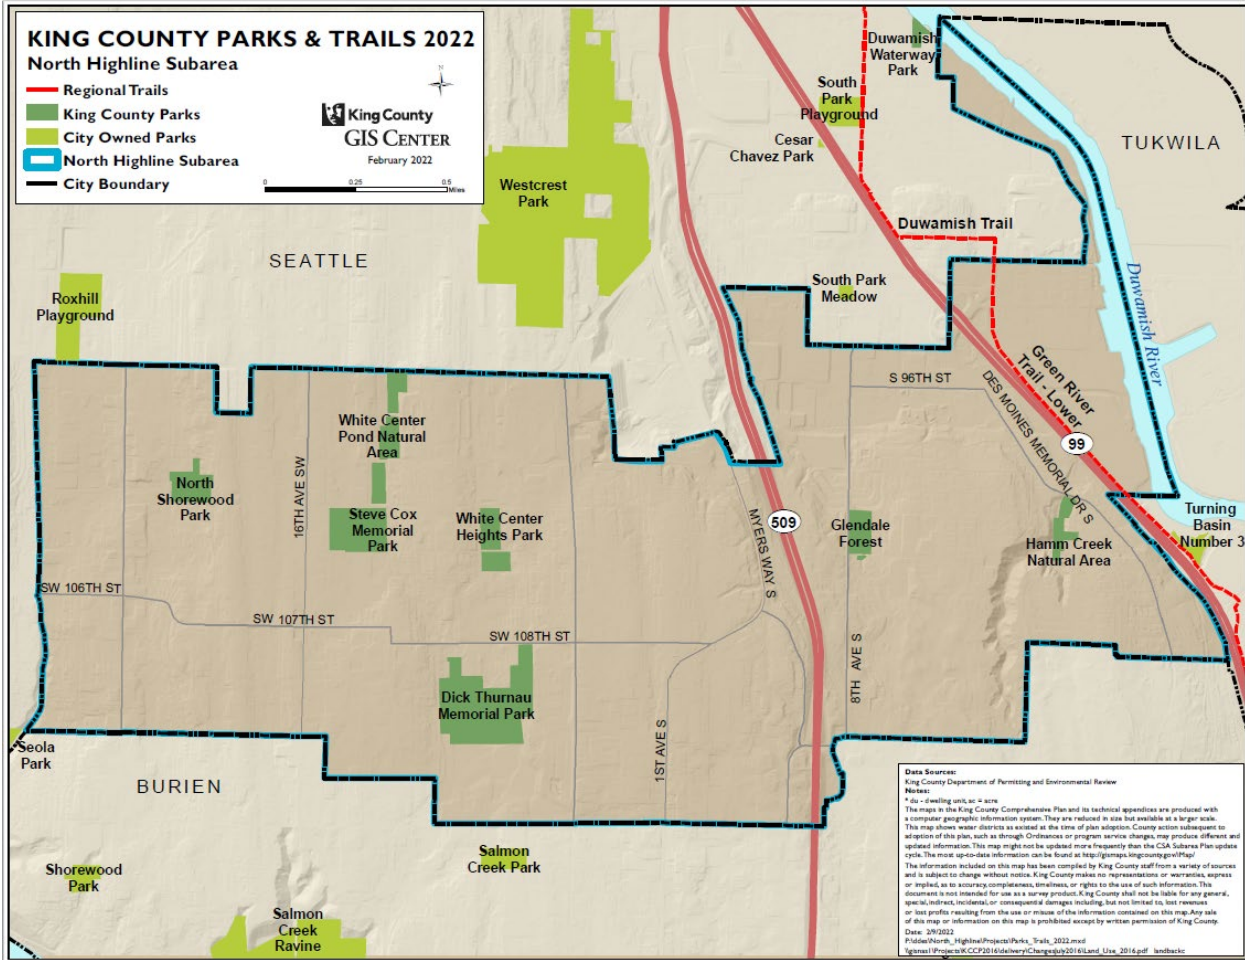

- 1114       • **Arts:** Led by the King County cultural funding agency, 4Culture, this work focuses on  
1115       arts, heritage, historic preservation, and public art.

- 1116       • **Partnerships:** The County partners with, and provides grant funding to, other groups to  
1117       provide recreational programs such as frisbee golf and amateur sports for youths.

1118  
1119       Other nearby parks provide open space, playfields, and other recreational opportunities for  
1120       North Highline residents. These include Salmon Creek Ravine, Shorewood Park, and Salmon  
1121       Creek Park in Burien; Turning Basin Park Number 3 in Tukwila; and Seattle's Seola Park,  
1122       Roxhill Playground, Westcrest Park, South Park Meadow, Cesar Chavez Park, South Park  
1123       Playground, and Duwamish Waterway Park.

1124 FIGURE 4. NORTH HIGHLINE PARKS AND TRAILS MAP

1125  
 1126  
 1127  
 1128  
 1129

Every school in the Highline School District has recreational facilities that are open to the public when schools are not in session, subject to policies and procedures for their use. Depending on the school, facilities may include practice fields, playgrounds, and sports courts.

1130  
 1131  
 1132  
 1133  
 1134

The King County Housing Authority has small green spaces and playgrounds throughout the Seola Gardens and Greenbridge communities, and a popular plaza at Greenbridge. Privately owned recreation and open spaces, including the Glen Acres and Rainier golf and country clubs, are also important contributors to the area’s green space network. Faith-based organizations may also provide spaces for recreation and other amenities on their properties.

1135 **Open Space and the Environment**

1136 In February 2021, King County published its *30-Year Forest Plan*, which is organized around 7  
 1137 priority areas. Based on North Highline’s location within the urban areas of King County, the  
 1138 following 3 priority areas are likely to have the most direct impact on the lives of the North  
 1139 Highline community:

- 1140 • **Urban Forest Canopy – Increasing tree canopy in urban areas with a focus on**
- 1141 **areas with the lowest canopy cover**

- 1142 • **Human Health – Prioritizing tree canopy improvements and increased access to**  
1143 **forested open space to improve health outcomes and advance health equity**
- 1144 • **Water Quality and Quantity – Maintaining and expanding forest canopy to improve**  
1145 **water quality, reduce stormwater runoff, and reduce flooding**

1146  
1147 An analysis of the forest canopy cover in the *Forest Plan* found that White Center’s urban forest  
1148 canopy covers roughly 477 acres or around 21% of the area. The analysis did not capture data  
1149 for the whole North Highline subarea. For the cities and unincorporated areas analyzed, the  
1150 canopy coverage ranged from a high of 67% down to 16%. White Center’s tree cover is similar  
1151 to the cities of SeaTac and Algona, and about 7% lower than the estimate for Skyway-West  
1152 Hill’s canopy (28%), a nearby urban unincorporated area. White Center ranks third from last out  
1153 of 45 communities included in the analysis using 2017 data.

1154 While no specific target for the “right” amount of tree canopy can be prescribed, increases in  
1155 urban forest tree canopy can help reduce urban heat islands by providing shade, increase  
1156 physical well-being and health outcomes by trapping particulate matter, and positively affect  
1157 water quality and quantity by intercepting rainfall.

## 1158 **White Center and Greenbridge Libraries**

1159 The North Highline community is served by 2 King County Library System libraries, White  
1160 Center and Greenbridge. Library services were first offered in White Center from a private home  
1161 in 1943. In 1946, the White Center Library moved to the basement of the White Center  
1162 Fieldhouse and joined the King County Library System. Successful bond measures in 1966 and  
1163 2004 allowed for bigger and better-equipped library buildings in White Center.<sup>42</sup> The White  
1164 Center Library moved to its current location on SW 107<sup>th</sup> Steet, which offers 10,000 square feet  
1165 of space, in 2016. The library has collections in Chinese, Somali, Spanish, and Vietnamese.

1166 The North Highline community is also served by the Greenbridge Library on 8<sup>th</sup> Avenue SW.  
1167 This 2,300-square-foot library opened in 2008 in a “Built Green” leased space at the YWCA  
1168 Learning Center. Funding came from a 2004 bond measure. Part of the King County Library  
1169 System, the library has collections in Arabic, Somali, Spanish, and Vietnamese, and its campus  
1170 also includes a community center and an early learning center, in addition to the YWCA  
1171 Learning Center.

## 1172 **Community Priorities**

1173 North Highline community feedback shows that they value the subarea’s green spaces and  
1174 would like to see more parks and open spaces available for passive and active recreation, with  
1175 improved accessibility within and to parks and open spaces. They want increased maintenance  
1176 of parks and open spaces and more safety features. The community would like to have  
1177 increased access to amenities such as dog parks, community gardens, playground equipment,  
1178 game courts, and walking paths and trails with waymarking.

1179 Community members are also interested in protecting human health and nature, as well as  
1180 guarding against and mitigating the impacts of climate change. They identified the need to  
1181 increase tree canopy to provide relief from the urban heat island effect. They would also like to

---

<sup>42</sup> [White Center Library, King County Library System - HistoryLink.org](#). Author Glenn Drosendahl, 2016

1182 see increased use of green stormwater infrastructure, such as rain gardens, for additional green  
1183 spaces, for water storage, and to protect water quality.

1184 The community honors its diversity and heritage, and members would like to have more places  
1185 to gather, celebrate, and share the richness of cultures present in North Highline. This includes  
1186 gathering spaces such as plazas, pocket parks, and community center spaces.

1187 Residents of North Highline want more recreational, learning, and other programs for the  
1188 community, particularly ones that are culturally relevant. Specifically, North Highline wants to be  
1189 a place where artists can thrive.

1190 **Policies**

1191 **NH-26** Work with North Highline residents, businesses, and other community  
1192 organizations to identify and implement opportunities for planting trees and  
1193 installing green infrastructure to reduce the urban heat island and improve water  
1194 and air quality. Prioritize areas that have been underserved and underrepresented.

1195 **NH-27** Support existing and new accessible, culturally appropriate recreational and  
1196 gathering spaces in North Highline, such as community buildings, plazas, open  
1197 spaces, regional trails, local parks, and pocket parks.

1198 **NH-28** Support the delivery of park improvements and recreational, cultural, and  
1199 educational programs in North Highline by partnering with community  
1200 organizations and public agencies to increase capacity building and funding,  
1201 sharing technical expertise, and leveraging County-owned parks facilities.

1202

1203  
1204 8th Avenue SW in Greenbridge (SD Brewer)

## 1205 Chapter 6: Transportation

1206 Transportation has a profound effect on quality of life and the vitality of the economy. It provides  
1207 access to jobs, education, services, recreation, and other opportunities. Well-planned land-use  
1208 patterns and neighborhoods have features like connected street networks, nearby shopping,  
1209 walking paths, and transit service. These features reduce dependency on cars, increase  
1210 opportunities to be physically active, and improve air quality.

1211 The County focuses its roads-related resources on critical safety needs and core maintenance  
1212 and operations. Similar to other urban unincorporated areas, there has been insufficient  
1213 investment in North Highline's transportation system to support improved mobility, safety, and  
1214 community health. The community seeks a network of connected streets that support motorized  
1215 and active transportation options for moving about the neighborhood and beyond, as well as  
1216 transit services to meet the travel needs of the community.

1217 In addition to transportation policies in the *Comprehensive Plan*, delivery of transportation and  
1218 mobility services are implemented through functional plans including:

- 1219 • The Strategic Plan for Road Services
- 1220 • The Strategic Plan for Public Transportation
- 1221 • The Long Range Plan for Public Transportation – Metro Connects
- 1222 •

### 1223 Road Services

1224 The King County Department of Local Services, Road Services Division provides an array of  
1225 broad services with its constrained revenue. Services include:

- 1226 • general roadway maintenance
- 1227 • pothole filling
- 1228 • snow and storm responses
- 1229 • inspections

- 1230 • repaving
- 1231 • safety investigations
- 1232 • traffic analysis
- 1233 • installation of devices such as signals and signs
- 1234 • pavement marking
- 1235 • school safety zone improvements
- 1236 • roadside vegetation and litter removal
- 1237 • graffiti removal
- 1238 • bridge monitoring and repair
- 1239 • road alerts
- 1240 • emergency response services
- 1241 • establishing and updating design standards
- 1242 • development and construction review
- 1243 • permitting

The North Highline road network includes the following assets:

**Table 4. North Highline Transportation Assets**

Asset	Quantity
Maintained centerline miles	56 miles
Maintained lane miles	125 lane miles
Bridges	1 (South Park Bridge)
Traffic cameras	5
Traffic signals	13
School zone flashers	25
Traffic control signs	2,481
Guardrails	2 miles
Drainage pipes	48.4 miles
Drainage ditches	8.9 miles
Catch basins	2,587
Sidewalks	30.1 linear sidewalk miles
Bike lanes	2.3 lane miles
Radar speed feedback signs	1
Crosswalks	166

1246  
1247 Additionally, as part of the *Comprehensive Plan*, King County develops a Transportation Needs  
1248 Report, (TNR), which is a long-term list of needed improvements to roads and related  
1249 transportation infrastructure. The 2020 TNR<sup>43</sup> identified 15 needed improvements, with a total  
1250 estimated cost of \$35 million, in North Highline. Two major capacity projects account for nearly  
1251 half of the estimated cost and 9 active transportation projects ("nonmotorized") account for over  
1252 a third of estimated costs. Three drainage projects and one intersection and traffic safety project  
1253 account for the remaining estimated costs. A map showing the 2020 TNR improvements in  
1254 North Highline can be found in Appendix A: Tables and Maps.

---

<sup>43</sup> Ordinance 19146

1255 Finally, as part of its Americans with Disabilities Act Transition Plan,<sup>44</sup> the County identified over  
1256 600 curb ramps in North Highline that are a high priority for upgrades to current accessibility  
1257 standards.

1258 **State Highways**

1259 State Routes 99 and 509 traverse North Highline and are major arterial roadways. Both  
1260 highways are managed by the Washington State Department of Transportation.

1261 **Public Transportation Services**

1262 The King County Metro Transit Department (Metro) provides fixed-route bus service and  
1263 corresponding Access paratransit service in the North Highline subarea. While most services in  
1264 North Highline are funded by Metro, 2 routes benefit from additional investments in service  
1265 frequency from Seattle's Transportation Benefits District funding. The following transit routes  
1266 serve North Highline as of 2022:

**Table 5. King County Metro Transit Routes in North Highline**

Route #	Route	Weekday Average Headways <sup>45</sup>	Weekend Average Headways
22	Arbor Heights, Westwood Village to Alaska Junction	All day: 60 minutes	No service
60	Westwood Village, White Center, South Park, Georgetown, Beacon Hill, Chinatown/International District, First Hill, Capitol Hill	Peak: 15 minutes Off-peak: 15-30 minutes	All day: 15-30 minutes
113	Shorewood, White Center, Downtown	Peak: 30-45 minutes	No service
120	Burien, White Center, Westwood Village, West Seattle, Downtown Seattle	Peak: 7-15 minutes Off-peak: 10-30 minutes	All day: 15-30 minutes
128	South Center, Tukwila, White Center, Alaska Junction	Peak: 10-20 minutes Off-peak: 20-30 minutes	All day: 30 minutes
131	Burien, White Center, SODO, Downtown Seattle	Peak: 20-30 minutes Off-peak: 30 minutes	All day: 30 minutes
132	Burien, South Park, SODO, Downtown Seattle	Peak: 20-30 minutes Off-peak: 20-30 minutes	All day: 30 minutes
Sound Transit 560	White Center, Burien, Sea-Tac Airport, Renton, Bellevue	Peak: 25-30 minutes Off-peak: 30-60 minutes	All day: 45-60 minutes

1267  
1268 For seniors and adults with disabilities, Hyde Shuttle is another door-to-door van service  
1269 provided by King County in partnership with Sound Generations. A map showing transit service  
1270 in North Highline can be found in Appendix A: Tables and Maps.

1271 **Community Priorities**

1272 Over the past several years, when asked what type of transportation investments would be  
1273 meaningful and have a lasting impact on the community, residents continually expressed that

<sup>44</sup> <https://kingcounty.gov/~media/depts/local-services/roads/ada-plan/FinalKingCountyADA041621Accessible.ashx>

<sup>45</sup> King County Metro transit service as of August 2021; morning peak is typically 5-9 a.m. and afternoon/evening peak is typically 3-7 p.m. (this can vary by route; schedules are subject to change).

- 1274 transportation-related decisions should be made that meet the needs of the most vulnerable  
1275 members including community members with mobility challenges.
- 1276 Safe, well-lit access to community amenities is a priority for the community. This includes  
1277 investments in improved pedestrian infrastructure and active transportation, including adding  
1278 more sidewalks in commercial and residential areas.
- 1279 North Highline community members state that they want improved transit service that will make  
1280 it easier for them to get to job centers and transit hubs. This includes increasing the frequency  
1281 of service on existing routes and providing new east-west transit service. The community  
1282 members stated that new east-west services would both improve linkages to the existing north-  
1283 south-focused transit routes and support connections between North Highline’s commercial  
1284 areas, residential neighborhoods, and industrial employment areas.
- 1285 The community wants to support mobility options for customers with limited physical abilities, or  
1286 who are elderly. Providing adequate parking, both on-street and off-street, is a priority to allow  
1287 community members to support small, independent businesses.
- 1288 Some community members are in favor of increasing bike lanes, while others are concerned  
1289 that installing bike lanes may come at the expense of keeping on-street parking spaces.
- 1290 The community stated that they would also like to see King County do more to improve road  
1291 conditions, address speeding, improve connectivity to walking trails and bike paths, and provide  
1292 beautiful streetscapes in North Highline.

1293 **Policies**

- 1294 **NH-29** Prioritize safe and inviting walking, bicycling, and rolling in the White Center  
1295 Unincorporated Activity Center and throughout North Highline to connect residents  
1296 to transit facilities, commercial areas, local parks and open spaces, schools, and  
1297 other local destinations.
- 1298 **NH-30** Provide convenient, safe transit access to commercial areas, jobs, services, and  
1299 community amenities in North Highline and surrounding transit hubs so that  
1300 residents can participate in the economy and access amenities regardless of their  
1301 age, socioeconomic status, or abilities.

1302

1303  
1304

The “Log Cabin” Community Center at Steve Cox Memorial Park in White Center (SD Brewer)

## 1305 Chapter 7: Services and Utilities

1306 A full range of urban utilities and services is important to support urban communities including  
1307 water and sanitary sewer, stormwater management, solid waste collection and disposal, and fire  
1308 protection. North Highline is served by several different special utility districts and organizations  
1309 that collectively provide these vital services. The provision of water and sewer services has a  
1310 direct impact on the use and development of land in North Highline.

1311 The subarea is served by 2 main water districts: Seattle Public Utilities and King County Water  
1312 District 20. The area is also served by 2 main sewer districts: Southwest Suburban Sewer  
1313 District and Valley View Sewer District.

1314 Of over 5,000 total parcels, over 300 have on-site sewage systems. Almost 80% of these,  
1315 according to Public Health-Seattle and King County, were installed before or during 1990—and,  
1316 given their age, some of them could be failing. As redevelopment occurs in areas with private  
1317 water and sewer systems, connections to public services are anticipated.

1318 A map showing sewer service providers in the North Highline subarea is included in Appendix  
1319 A: Tables and Maps.

## 1320 Community Priorities

1321 Increasing the ability to connect to sewers is a key priority for North Highline. The community  
1322 wants to ensure that new developments connect to public sewer services and to increase  
1323 opportunities for existing private property owners who rely on older, failing on-site sewer  
1324 systems to connect to public sewer services.

## 1325 Policies

1326 **NH-31** Promote the efficient use of land through a coordinated and logical approach to  
1327 infrastructure and service provision, including coordination with neighboring cities  
1328 for future annexation.

- 1329 **NH-32** Encourage developers proposing to extend water or sewer service for new  
1330 residential, commercial, or mixed-use development in North Highline to work with  
1331 surrounding property owners to provide reasonable access to public utilities.
- 1332 **NH-33** Partner with the North Highline community to address unsewered areas to address  
1333 aging and failing on-site sewage systems by identifying the most appropriate  
1334 wastewater treatment options that protect public health and support the  
1335 community's housing and equity goals.
- 1336

1337  
1338 Artwork on 14th / 16th Avenue South Bridge, South Park (SD Brewer)

## 1339 Chapter 8: Economic Development

1340 Economic development supports community resilience and cultural retention, increases  
1341 opportunities for residents, improves the environment for local small businesses, and reduces  
1342 displacement.

1343 North Highline supports a substantial small business community as well as large industrial firms.  
1344 Employment in North Highline grew modestly, about 2%, from 2010 through 2020, while  
1345 employment countywide grew by approximately 30%.<sup>46</sup>

1346 North Highline has approximately 5,800 jobs and 500 workplaces. North Highline has a relatively  
1347 diverse economy, with worksites/employers covering a variety of sectors. The services sector  
1348 has the largest share of employees; approximately 33% of all jobs in North Highline are in the  
1349 services sector, according to workforce dynamics data from 2017.<sup>47</sup> Industrial employment,  
1350 including manufacturing, warehousing, transportation, and utility jobs, makes up approximately  
1351 28% of jobs in North Highline. Construction and retail trade jobs each make up 17% of total  
1352 jobs. North Highline draws employees regionally – 16% of the subarea’s employees are from  
1353 Seattle, 6% from Burien, and 5% from Kent.

1354 Most workers residing in North Highline are commuting to jobs outside of the subarea: 46% are  
1355 employed in Seattle, 6% in Bellevue, and 5% in Burien. Maps showing where people living in  
1356 North Highline commute to for employment, and where workers in North Highline are  
1357 commuting from can be found in Appendix A: Tables and Maps.

### 1358 *OPPORTUNITY ZONES*

1359 North Highline includes 2 census tracts designated as Opportunity Zones. The Opportunity  
1360 Zone program is a federal program designed to provide tax incentives to investors who fund  
1361 businesses in communities that are underserved. The North Highline Opportunity Zones are

<sup>46</sup> <https://www.psrc.org/covered-employment-estimates>

<sup>47</sup> <https://lehd.ces.census.gov/data/>

1362 south of SW 102<sup>nd</sup> Street with 16<sup>th</sup> Avenue SW as the western boundary and 1<sup>st</sup> Avenue S as  
1363 the eastern boundary. One of the census tracts extends into the city of Burien.<sup>48</sup>

## 1364 Community Priorities

1365 The community wants residents and businesses to have the opportunity to stay in North  
1366 Highline and thrive. Residential, economic, and cultural displacement are priority concerns in  
1367 the subarea.

1368 The community also states that they want to see economic opportunities provided for youth to  
1369 learn job skills. The community states that they would also like to see increased access to  
1370 affordable childcare programs to support working families, support for families seeking work  
1371 opportunities when English is not their first language, and support for businesses that want to be  
1372 able to grow in North Highline.

1373 The business community identifies that having access to affordable professional services that  
1374 can provide education, job training, mentoring, and consultation is also integral to their success.  
1375 The business community wants there to be spaces to grow and expand without needing to  
1376 leave North Highline. They state that they would also like to have the opportunity to buy property  
1377 for their businesses, rather than continue leasing.

1378 A community survey report completed by the WCCDA in 2017 found that overall economic  
1379 priorities for White Center were creating additional and higher paying jobs, providing language  
1380 and job training, and providing support to small businesses. The top identified challenges were a  
1381 lack of jobs and jobs that do not pay well, English language proficiency, a lack of training and  
1382 childcare, and difficulties keeping a small business running. A similar survey focused on anti-  
1383 displacement conducted by King County and the WCCDA in 2021 found that the majority of the  
1384 business surveyed (64%) had lost customers because of displacement. More than half of the  
1385 respondents felt programs supporting affordable housing would benefit both their business and  
1386 their community. Almost all the respondents (86%) felt more housing in the downtown White  
1387 Center area would help their businesses.

## 1388 Policies

1389 **NH-34** Prevent the economic and physical displacement of long-term locally owned  
1390 businesses in North Highline. Encourage the development of new locally owned  
1391 businesses by improving access to affordable commercial ownership and funding  
1392 for expansion of operations.  
1393

1394 **NH-35** Partner with community-based organizations and other agencies to provide  
1395 culturally appropriate technical assistance to the North Highline small business  
1396 community in areas such as commercial leasing, commercial land purchase,  
1397 applying for grants and loans, and business financing and accounting.  
1398

1399 **NH-36** Promote safe and healthy commercial spaces by implementing strategies,  
1400 programs, and regulations to address dilapidated or unsafe properties, or  
1401 potentially prevent declining conditions, so local businesses can remain in the  
1402 North Highline.  
1403

---

<sup>48</sup> <https://opportunityzones.hud.gov/resources/map>

## 1404 Chapter 9: Implementation

1405 Actions and measures work to implement the community vision and policies contained within  
1406 the Subarea Plan. Actions taken with the adoption of the Subarea Plan include amendments to  
1407 the County's Land Use and Zoning Maps, new and revised development conditions that will  
1408 apply to the subarea, and inclusionary housing regulations. Future action items include urban  
1409 design standards for the White Center area, designation of the unincorporated activity center as  
1410 a countywide center, a community needs list, and performance measures to monitor  
1411 implementation of the Subarea Plan.

1412 Implementation of the Subarea Plan and its ability to support the community to realize its vision  
1413 will involve ongoing dialogue and cooperation between the County and community. It will require  
1414 balancing policies and priorities that guide County actions and investments. Ongoing and future  
1415 implementation occurs through County budgeting, which is proposed by the County Executive  
1416 and approved by the County Council, policy priorities, which are set by the County Council, and  
1417 further work in the community completed by the Executive Branch.

### 1418 Land Use and Zoning Changes

1419 To implement the land use-specific policies contained within the Subarea Plan, the County  
1420 adopted a series of amendments to the County's Land Use and Zoning Maps, as well as new  
1421 and revised development conditions that apply in the subarea geography.

### 1422 Residential Density Increases

1423 Several areas were rezoned to increase housing supply and types of housing to support  
1424 housing affordability. These areas include portions of Roxhill, Top Hat, and Glendale.

1425 The rezoning in many of these neighborhoods supports medium-density housing, including  
1426 missing middle” housing, close to commercial centers and transit service. Missing middle  
1427 housing types include townhouses and multiplexes (such as duplexes and triplexes). This type  
1428 of development is generally less expensive to purchase or rent compared to single-family  
1429 detached homes.

1430 Areas adjacent to urban centers, transit corridors, or existing high-density residential  
1431 development were rezoned to higher-density residential. These changes support the  
1432 construction of apartment buildings and are intended to increase housing supply and types of  
1433 housing. These areas include Roxhill along the RapidRide H Line route; White Center adjacent  
1434 to the Urban Unincorporated Activity Center; White Center Unincorporated Activity Center north  
1435 of the White Center Library; and Glendale in areas served by transit.

### 1436 P-Suffix Conditions

1437 *NH-PXX MIXED USE*

1438 NH-PXX was adopted, which requires that new development include both residential and  
1439 commercial units within the project as mixed-use development. NH-PXX is added to accompany  
1440 a zoning change on a block in the White Center Unincorporated Activity Center from Industrial  
1441 to Commercial. This P-Suffix condition supports increasing housing supply near services and  
1442 amenities in an area that is served by very frequent transit.

1443 *NH-PXX HEIGHT LIMITS*

1444 NH-PXX was adopted, which limits the heights of new buildings to 55 feet – about 4 floors. Any  
1445 floors above the second floor are required to be set back to emphasize a pedestrian scale at  
1446 street level. NH-PXX applies to a two-block area of 16<sup>th</sup> Avenue SW between SW Roxbury  
1447 Street and SW 100<sup>th</sup> Street in the White Center Unincorporated Activity Center. NH-PXX  
1448 supports Policy NH-8 relating to the preservation of the small size and scale of businesses  
1449 along this stretch of 16<sup>th</sup> Avenue SW.

1450 *NH-PXX MARIJUANA RETAIL STORES*

1451 NH-PXX was adopted, which limits the total number of marijuana retailers allowed within the  
1452 North Highline subarea to two. Existing, legally established marijuana retailers may remain in  
1453 operation and are regulated as non-conforming uses. The number of marijuana retailers within  
1454 the North Highline subarea is not allowed to increase beyond the current amount. This change  
1455 implements recommendations from the King County Marijuana Report and supports Policy NH-  
1456 14.

1457 **Special District Overlays (SDO)**

1458 *WHITE CENTER PEDESTRIAN-ORIENTED SPECIAL DISTRICT OVERLAY*

1459 SO-XXX: White Center Pedestrian-Oriented SDO was added to XX Community Business-zoned  
1460 parcels in the White Center Unincorporated Activity Center. The purpose of the SDO is to  
1461 require pedestrian-oriented development that supports walkable and connected commercial  
1462 areas. Provisions in the SDO address orientation of the building entrance to the public street,  
1463 building facades, vehicle access, and off-street parking. The SDO also prohibits the production  
1464 and processing of marijuana products, which do not support walkability and connectivity in a  
1465 pedestrian-oriented area. SO-090: Economic Redevelopment SDO was removed from some of  
1466 the parcels that overlap with SO-XXX.

1467 *COMMERCIAL/INDUSTRIAL SPECIAL DISTRICT OVERLAY*

1468 SO-100: Commercial/Industrial SDO was amended and added to the Industrial-zoned block in  
1469 White Center north of Steve Cox Memorial Park. The purpose of the Commercial/Industrial  
1470 SDO, adopted in 1994, is to provide incentives for the redevelopment of underutilized lands. It  
1471 also addresses compatibility between non-residential uses and neighboring residential uses by  
1472 limiting the types of industrial and commercial uses that are allowed on a property. Amendments  
1473 to the SDO made by Ordinance XXXXX (Ordinance number to be inserted) include adding  
1474 pedestrian-oriented features to make it compatible with the White Center Pedestrian-Oriented  
1475 SDO.

1476 SO-100 was also removed from several parcels that are either currently developed with  
1477 residential or mixed uses and the conditions are no longer applicable or do not meet the  
1478 conditions for the uses permitted by the SDO.

1479 **Urban Design Standards**

1480 The North Highline Urban Design Standards and Guidelines were developed in close  
1481 collaboration with the community in a process parallel to the Subarea Plan. The standards and  
1482 guidelines would apply to new or substantially improved commercial, mixed-use, and multifamily  
1483 buildings in North Highline. The standards prioritize the pedestrian environment, encourage  
1484 human-scale design, and reflect the character and cultures of the North Highline community.

1485 Standards are proposed for the following areas:

- 1486
- Streets and frontages

- 1487 • Site design
- 1488 • Public realm design
- 1489 • Stormwater and landscape design
- 1490 • Building design
- 1491 • Designing for distinctive identity
- 1492 • Designing for a safe and welcoming neighborhood

### 1493 **Inclusionary Housing Regulations**

1494 Along with the Subarea Plan and associated map amendments, the County adopted  
1495 inclusionary housing development regulations that require or promote the creation of new  
1496 affordable housing and help reduce the risk of residential and cultural displacement.

1497  
1498 The inclusionary housing regulations would require residential and mixed-use developments to  
1499 construct and maintain a certain percentage of the dwelling units as affordable to various  
1500 income levels. In exchange, developments would be able to construct more dwelling units than  
1501 would be allowed without providing affordable housing. The regulations also have a community  
1502 preference requirement for affordable units for people with a current or past connection to North  
1503 Highline.

1504  
1505 In North Highline, inclusionary housing would be required within the unincorporated activity  
1506 center, wherever two or more dwelling units are created. Elsewhere within North Highline,  
1507 residential and mixed-use development would have the option to increase residential density by  
1508 providing affordable units.

1509

### 1510 **Anti-Displacement**

1511 Preventing displacement of residents and businesses was repeatedly voiced as a key priority of  
1512 the North Highline community, and this is reflected in many of the subarea plan's policies. The  
1513 County has already taken several steps recommended by the Skyway-West Hill and North  
1514 Highline Anti-Displacement Strategies Report, including mandatory and voluntary inclusionary  
1515 housing requirements, community preference requirements, and regulations intended to  
1516 preserve manufactured housing communities. The County will continue to evaluate the  
1517 effectiveness of these strategies, and make adjustments as needed.

1518

1519 The County may also pursue other near-term, mid-term, and long-term strategies to address  
1520 displacement risk, such as tenant relocation assistance, expanded down payment assistance,  
1521 and additional subsidies or incentives for affordable housing.

### 1522 **Designation of the White Center Unincorporated Activity Center as a 1523 Countywide Center**

1524 VISION 2050, the regional growth plan, calls for the designation of countywide centers in urban  
1525 areas. VISION 2050 Multicounty Planning Policy RC-8 states that funds managed by the Puget  
1526 Sound Regional Council (PSRC) be directed toward designated centers. For the 2022 funding  
1527 cycle, this was estimated to be between \$30 and \$40 million.

1528 The 2021 Update to the King County Countywide Planning Policies (CPP) established a  
1529 framework for designating centers in King County. In the update, the White Center  
1530 Unincorporated Activity Center was designated as a candidate countywide center. Countywide  
1531 centers would be identified in the 2024 King County Comprehensive Plan update and then

1532 designated in 2025-2026 by the King County Growth Management Planning Council (GMPC)  
1533 through a CPP amendment.

### 1534 **Community Needs List and Budgeting**

1535 Community Needs Lists (CNL) identify specific actions such as programs, services, or capital  
1536 improvements that respond to community-identified needs. CNLs are vetted by the community  
1537 and a County process to implement the policies and community priorities. Each item to be  
1538 included in the CNL is required to have a prioritization, an agency responsible for  
1539 implementation, and potential timelines for completion. CNLs are required to be transmitted with  
1540 each subarea plan and with each biennial budget. As part of the County's budgeting process,  
1541 projects from the CNL are brought forward for funding. Projects may be completed using  
1542 existing resources or may require additional resource allocation through the budget process.

1543 The North Highline CNL was transmitted with the Subarea Plan and includes request categories  
1544 with high priorities from the community like affordable housing, bike lanes, code enforcement,  
1545 drainage improvements, early childhood education, economic development, parks, sidewalks,  
1546 traffic calming, and workforce development.

### 1547 **Economic Development**

1548 Chapter 8 of the Subarea Plan contains policies related to economic development in North  
1549 Highline, including support for the prevention of economic and physical displacement of long-  
1550 term locally owned businesses, and prioritization of the development of new locally owned  
1551 businesses.

1552  
1553 The County will continue to work with the community on which strategies would best effectuate  
1554 these policies. This may include funding support for businesses through a small business  
1555 incubator program, funding for capital improvements, or down payment assistance, among other  
1556 things.

### 1557 **Performance Measures**

1558 The King County Comprehensive Plan and the King County Code require performance metrics  
1559 to monitor progress and implementation of the subarea plan.<sup>49</sup> A set of five quantitative metrics  
1560 apply to all urban unincorporated areas. These measures are tracked for the King County  
1561 Comprehensive Plan, which supports the tracking of North Highline with other urban  
1562 unincorporated areas of King County. Additionally, five North Highline-specific measures will be  
1563 tracked that relate to the community's vision and priorities, and the policies in the Subarea Plan.  
1564

1565 These measures will be tracked to show change over time. Where possible, they will be  
1566 disaggregated by race and ethnicity to measure how conditions may vary for different  
1567 communities.

#### 1568 *STANDARDIZED URBAN UNINCORPORATED QUANTITATIVE PERFORMANCE METRICS*

1569 The following metrics from the Comprehensive Plan's Performance Measures program will be  
1570 tracked at the subarea level to provide a numeric-based snapshot, tracked over time, of the  
1571 performance of the Subarea Plan.  
1572

---

<sup>49</sup> [2020 Comprehensive Plan](#), Policy CP-100 and King County Code 2.16.055.B.2.c

- 1573 • **Development occurs in areas planned for growth:** Number of jobs and businesses,  
1574 population, and housing units by type
- 1575 • **The economy is strong and diverse:** Jobs by sector
- 1576 • **Housing is affordable to residents at all income levels:** Percent of households  
1577 paying more than 30 percent and 50 percent of income for housing costs
- 1578 • **Residents have access to transit:** Proximity of housing units (by type) and jobs to  
1579 transit stops
- 1580 • **Residents have access to parks and open space:** Proximity to parks and open  
1581 spaces
- 1582

1583 *NORTH HIGHLINE-SPECIFIC IMPLEMENTATION MEASURES*

1584 To supplement the existing data metrics, the following measures will be tracked to evaluate  
1585 progress made toward implementing the community priorities in the Subarea Plan. Tracking  
1586 these measures will require reporting on investments, programs, and functional planning related  
1587 to the indicators. Examples include investments by the Department of Community and Human  
1588 Services through their housing programs, changes to codes and regulations by the Department  
1589 of Local Services, or projects to increase active transportation infrastructure by Roads Services.

- 1590
- 1591 • **Protect and increase the availability of affordable housing:** Reporting by the  
1592 Department of Community and Human Services
- 1593 • **Reduce the risk of residential, economic, and cultural displacement:** Reporting  
1594 by the Department of Community and Human Services and Department of Local  
1595 Services
- 1596 • **Increase access to opportunities and amenities:** Reporting by the Department of  
1597 Local Services
- 1598 • **Protect the vibrant small business community:** Reporting by the Department of  
1599 Local Services
- 1600 • **Increase active transportation infrastructure:** Reporting by the Department of  
1601 Local Services

1602

1603 **Appendix A: Tables and Maps**

1604 Appendix A contains the tables and maps that are referenced in the plan chapters. The  
1605 information in this Appendix represents point-in-time at the time the subarea plan was  
1606 completed. The information shown will change over time.

## 1697 Appendix B: Equity Impact Review

1698 Appendix B presents a summary of the Equity Impact Review that was completed by County  
1699 staff as an input to the North Highline Subarea Plan. Demographic data may not be consistent  
1700 with that contained in the Subarea Plan chapters.

1701 The King County Strategic Plan presents a vision for “King County where all people have  
1702 equitable opportunities to thrive.” This vision is consistent with and furthered by the 2016-2022  
1703 Equity and Social Justice (ESJ) Strategic Plan that contains four strategies to advance equity  
1704 and social justice that include investing:

- 1705 • Upstream and where the needs are greatest
- 1706 • In community partnerships
- 1707 • In employees

1708 And with accountable and transparent leadership.

1709 The equity and social justice shared values that guide and shape our work included commit us  
1710 to being:

- 1711 • Inclusive and collaborative
- 1712 • Diverse and people focused
- 1713 • Responsive and adaptive
- 1714 • Transparent and accountable
- 1715 • Racially just
- 1716 • Focused upstream and where the needs are greatest.

1717 It is within this framework that the North Highline Community Service Area Subarea Plan  
1718 (Subarea Plan) was developed and will be implemented. Furthermore, this analysis of equity  
1719 impacts seeks to identify, evaluate, and communicate potential impacts – both positive and  
1720 negative – associated with the development and implementation of the Subarea Plan. This  
1721 analysis generally follows the process King County Office of Equity and Social Justice Equity  
1722 Impact Review Tool.

### 1723 Introduction

1724 This equity impact review strives to rigorously and holistically summarize the process by which  
1725 the Subarea Plan was developed and how it might affect the residents of North Highline. It relies  
1726 on King County’s Equity Impact Review Process<sup>50</sup> by considering the following equity  
1727 frameworks:

- 1728 • **Distributional Equity:** Fair and just distribution of benefits and burdens to all parties
- 1729 • **Process Equity:** Inclusive, open, and fair process with meaningful opportunities for input

---

<sup>50</sup> Ordinance 16948

- 1730 • **Cross-generational Equity:** Consideration of effects of current actions on future  
1731 generations

1732 Following the Equity Impact Review framework established by the King County Office of Equity  
1733 and Social Justice, this Equity Impact Review is organized into 5 phases of analysis, as follows:

- 1734 • Phase 1: Scope. Identify who will be affected  
1735 • Phase 2: Assess equity and community context  
1736 • Phase 3: Analysis and decision process  
1737 • Phase 4: Implementation. Staying connected with the community  
1738 • Phase 5: Ongoing Learning. Listening, learning, and adjusting with the community

1739 **What is the North Highline Subarea Plan?**

1740 The North Highline Subarea Plan is an element of the King County Comprehensive Plan and  
1741 sets the vision for King County’s governance of the area, including land use and development,  
1742 for the next 20 years. The scope and schedule of the Subarea Plan were established by the  
1743 King County Council in 2020.<sup>51</sup> The County has not conducted a comprehensive update to its  
1744 long-range plan for North Highline since the 1994 White Center Community Action Plan and  
1745 Area Zoning was adopted. The policies in the 1994 Plan will be in effect until the King County  
1746 Council adopts the Subarea Plan.

1747 The North Highline Subarea Plan formally commenced in June 2019. The scope and schedule  
1748 of the Subarea Plan was reshaped by the King County Council in 2020, broadening the plan  
1749 from having a focus on land use, as previously directed, to building the scope around  
1750 community-identified topics of importance.

1751 At the same time that it broadened the scope of subarea plans, the Council mandated the  
1752 creation of a “Community Needs List.” The Community Needs List is a list of community-  
1753 identified projects, programs, and investments that King County will implement in North  
1754 Highline. While developed at the same time as the Plan, the Community Needs List is not an  
1755 element of the Comprehensive Plan. Engagement with the community was naturally blended  
1756 due to the coinciding timeframes and the linkage between community vision and policies in the  
1757 Plan and the program, services, and investments in the Community Needs List.

1758 Centering community in the development of both the reshaped subarea planning program and  
1759 the new Community Needs List initiative was directed by Council.

1760

---

<sup>51</sup> Ordinance 11568

1761 **Determinants of Equity**

1762 King County Code 2.10.210 defines the Determinants of Equity as the social, economic,  
1763 geographic, political, and physical environment conditions in which people are born, grow, live,  
1764 work, and age that lead to the creation of a fair and just society. The determinants of equity  
1765 include:

- 1766 • Early Childhood Development
- 1767 • Education
- 1768 • Jobs and Job Training
- 1769 • Health and Human Services
- 1770 • Food Systems
- 1771 • Parks and Natural Resources
- 1772 • Built and Natural Environment
- 1773 • Transportation
- 1774 • Community Economic Development
- 1775 • Neighborhoods
- 1776 • Housing
- 1777 • Community and Public Safety
- 1778 • Law and Justice

1779  
1780 Access to the determinants of equity creates a baseline of equitable outcomes for people  
1781 regardless of race, class, gender, or language spoken. Inequities are created when barriers  
1782 exist that prevent individuals and communities from accessing these conditions and reaching  
1783 their full potential. These factors, while invisible to some, have profound and tangible impacts on  
1784 all.

1785 **Equity Impact Review Phase 1 – Who will be affected by the North  
1786 Highline Subarea Plan?**

1787 **A demographic and socioeconomic overview of North Highline**

<b>Socioeconomics</b>	<b>North Highline</b>	<b>King County</b>
Population	19,500	2,195,500
Average household size	2.1	2.5
Median age	35	37
Male	50%	50%
Female	50%	50%
Youths (under 18)	23%	21%
Seniors (over 65)	9%	14%
Persons with disabilities	13%	10%

1788

<b>Income and Poverty</b>	<b>North Highline</b>	<b>King County</b>
Median household income	\$58,500	\$103,000
Households below poverty line	36%	17%

1789

<b>Race and Ethnicity</b>	<b>North Highline</b>	<b>King County</b>
White alone, non-Hispanic	38%	60%
White	47%	64%
Hispanic or Latinx	25%	10%
Asian	15%	18%
Native Hawaiian Pacific Islander	3%	1%
African American	11%	7%
Native American	1.6%	0.6%

1790

<b>Foreign Born Population and Language</b>	<b>North Highline</b>	<b>King County</b>
Limited English-speaking population	15%	11%
Foreign born	31%	25%

1791

<b>Housing</b>	<b>North Highline</b>	<b>King County</b>
Owner-occupied households	51%	56%
Renter-occupied households	49%	44%
Cost burdened households (owner- and renter-occupied) <sup>46</sup>	42%	34%

1792

<b>Change in population per race and ethnicity, 2010-2018</b>	<b>Percent change</b>
White alone, non-Hispanic	-7%
White	-11%
Hispanic or Latinx	0.7%
Asian	2%
Native Hawaiian Pacific Islander	0%
African American	2%
Native American	-1%

1793

1794

1795

The North Highline Subarea covers about 3 square miles and is home to nearly 20,000 people, making it the County's third most populous urban unincorporated area, after Fairwood, and East

1796 Federal Way. It contains the White Center, Top Hat, Glendale, and Roxhill neighborhoods as  
1797 well as a part of South Park known as “the Sliver by the River” that is largely surrounded by  
1798 unincorporated King County.

1799 North Highline is rich in cultural diversity. Its population has a significantly higher proportion of  
1800 foreign-born residents (31%) and residents with limited English proficiency (15%) than King  
1801 County as a whole (25% and 11%, respectively). The languages most commonly spoken at  
1802 home after English (61%) are Spanish (18%) and Vietnamese (6%).

1803 The following sections discuss in more detail the socioeconomics of the North Highline  
1804 community. The socioeconomic data selected and analyzed in this review is in consideration of  
1805 four “factors” in King County’s Equity and Social Justice Ordinance<sup>52</sup> that were identified as  
1806 impacting access to the determinants of equity: race, class (referring to varying degrees of  
1807 income), gender, or language spoken.

1808 The needs and vulnerabilities of residents can vary significantly based on factors such as  
1809 household income, home ownership status, access to networks of support, English language  
1810 proficiency, immigration status, civic engagement, and many others. This section builds on the  
1811 demographic profile in the North Highline Subarea Plan to identify notable differences and  
1812 disparities that are related to residents’ needs and vulnerabilities.<sup>53</sup> It also highlights where there  
1813 are significant differences in demographic and socioeconomic data for the Boulevard Park and  
1814 White Center census designated places.

### 1815 **Affected Community, Including Populations of Concern**

1816 In the 25 years since King County last updated its long-range plan for North Highline, the  
1817 community and region have changed. A generation has passed since the County engaged the  
1818 residents of North Highline in a process to establish a community vision for the subarea and  
1819 long-range planning for the community. Compounding this lack of engagement in planning is the  
1820 fact that compared to King County as a whole, North Highline has a high proportion of lower-  
1821 income residents, residents of color, residents who speak a language other than English at  
1822 home, and residents who are foreign-born—all groups who have not historically been (or felt)  
1823 included in community planning at any level.

1824 In one sense, all members of a community are affected by a Subarea Plan. The policies and  
1825 zoning that inform what kind of buildings can be built and where they can be built, the uses  
1826 allowed in an area, and the services, programs, and facilities that can be provided or influenced  
1827 by county government create the environment in which these community members live their  
1828 lives. More specifically, the plan’s effect on a particular individual will depend on several factors,  
1829 including whether that individual is a homeowner, a renter in market-rate housing, a renter in  
1830 income-restricted housing, a business owner, an employee of a North Highline business, or  
1831 even someone who visits the area to eat, shop, or recreate; all of these impacts are further  
1832 dependent on how the private market responds to new policies and regulations.

---

<sup>52</sup> Ordinance 16948

<sup>53</sup> All statistics in this section are based on the 2014-2018 American Community Survey (ACS) 5-Year Estimates unless otherwise noted.

1833 Based on BERK Consulting’s analysis in the Equity Impact Review for the 2020 Skyway-West  
1834 Hill Land Use Strategy,<sup>54</sup> County planners prioritized outreach to ensure that the perspectives of  
1835 the following groups were included in the development of the Plan:

- 1836 • Communities who Speak a Primary Language other than English
- 1837 • Racial and Ethnic Groups
- 1838 • Youth
- 1839 • Seniors and Elderly
- 1840 • Persons with Disabilities
- 1841 • Neighborhoods
- 1842 • Renters and Low-Income Households
- 1843 • Businesses
- 1844 • Community Service Providers

1845 The following sections discuss stakeholders, including priority populations, in the context how  
1846 planning, with a focus on land use planning, may impact each group. The discussion largely  
1847 follows the approach and content used by BERK Consulting in its work on the Equity Impact  
1848 Review for the Skyway-West Hill Land Use Strategy, applying data for North Highline. Phase 2  
1849 of the Equity Impact Review on the North Highline Subarea Plan describes engagement with  
1850 each group of stakeholders to better understand the needs of each group in developing policies,  
1851 regulations, and actions in North Highline.

### 1852 **Limited English Proficiency Communities**

1853 Not speaking the primary language of government can be a significant barrier to engaging in  
1854 civic life, including participating in planning processes. In North Highline, approximately 15% of  
1855 the population is estimated to have limited English-speaking ability. This compares to 11% of  
1856 the population of King County as a whole. Thirty-one percent of North Highline’s population was  
1857 born outside of the United States, compared with 25% of those in King County as a whole, with  
1858 a higher percentage foreign-born in the Boulevard Park Census Designated Place (32%), than  
1859 in the White Center Census Designated Place (31%).

---

<sup>54</sup> Attachment G to the 2020 King County Comprehensive Plan (Ordinance 19146)

1860 **English proficiency and nativity in North Highline (2019 American Community Survey**  
1861 **(ACS) 5-year)**

1862  
1863 That most outreach and engagement activities are conducted in English – the dominant  
1864 language in the United States, and the language of government – is a barrier to process equity.  
1865 The most common languages spoken in North Highline after English are Spanish, Khmer, and  
1866 Vietnamese. The community engagement approach for the Land Use Subarea Plan was  
1867 designed to be inclusive of community members who speak languages other than English as  
1868 their first language. The approaches that were used are discussed in later sections of the Equity  
1869 Impact Review.

1870 **Racial and Ethnic Communities**

1871 North Highline is a diverse community, with persons who are Black, Indigenous, and People of  
1872 Color making up an estimated 61% of the population, compared to about 40% for King County  
1873 as a whole.

1874 **Race and ethnicity in North Highline (2019 American Community Survey (ACS) 5-year)**

1875

1876 *HOME OWNERSHIP RATE BY RACE/ETHNICITY*

1877 Sixty-six percent of all households in North Highline identify as White own their homes,  
 1878 compared to 34% who identify as people of color and 7% who identify as Hispanic/Latinx. One  
 1879 measure of a population’s vulnerability to land use change, and its access to equity, is whether  
 1880 an individual rents or owns their residence. Renters are more vulnerable to displacement. There  
 1881 is more discussion and analysis of disparities associated with land use in subsequent sections  
 1882 of the report. There are significant racial and ethnic disparities in owner- and renter-occupation.  
 1883 Of all homes in North Highline, 66% are owned by households identifying as White, but people  
 1884 who are White only make up 40% of the population in North Highline. This compares to 7% of  
 1885 homes owned by households identifying as having Hispanic/Latinx ethnicity, while 24% of the  
 1886 North Highline population identifies as having Hispanic/Latinx ethnicity.

1887 **Youths**

1888 Youths (under age 18) make up about 23% of North Highline’s population, higher than the  
 1889 countywide rate (21%). There is a significant difference between the Boulevard Park and White  
 1890 Center census designated places, however, with youths making up 17% of the population of  
 1891 Boulevard Park and 24% in White Center. Plans that provide safe, healthy, and accessible  
 1892 environments for youths are often also beneficial for people of all ages.

1893 **Seniors and Elderly Residents**

1894 About 9% of the population in North Highline is over 65 years of age, lower than for King County  
 1895 as a whole (14%). There is a significant difference in the percentage of the population over age  
 1896 65 between the Boulevard Park (14%) and White Center (10%) census designated places.  
 1897 Zoning and development standards can affect the ability of seniors to age in place or find  
 1898 suitable housing that meets their changing needs. Similarly, providing for the mobility of seniors  
 1899 requires special consideration of the pedestrian environment and accessibility of new  
 1900 development.

1901 **North Highline population by age (2019 American Community Survey (ACS) 5-year)**

1902

1903

1904 **Persons with Disabilities**

1905 About 13% of North Highline residents identify as having a disability that could include mobility  
 1906 challenges or sensory or cognitive difficulties. This is higher than for King County as a whole  
 1907 (9.5%). Those with disabilities are likely to be over the age of 65, and the needs of disabled  
 1908 residents often overlap with the needs of elderly residents.

1909 **Renters and Low-Income Housing**

1910 Almost half (49%) of households in North Highline live in rental homes, compared with 44% for  
 1911 King County as a whole. In Boulevard Park, rental households are a slight majority (51%), while  
 1912 in White Center they are in a slight minority (49%).

1913 There are significant racial and ethnic disparities between owner and renter households in North  
 1914 Highline. Among homeowners in North Highline, 66% identify as White, 34% of identify as

1915 People of Color, and 7% identify as Hispanic/Latinx. At all different levels of the U.S.  
1916 Department of Housing and Urban Development Area Median Family Income (HAMFI), White  
1917 households own more homes than populations of color combined.

1918 *HOME RENTERS VS. OWNERS IN NORTH HIGHLINE*

1919 In North Highline, 52.2% of households that rent are “cost burdened,” meaning that they spend  
1920 more than 30% of their income on housing, compared to 42.3% of households in King County  
1921 as a whole. There is a significant disparity in the number of cost-burdened households when  
1922 comparing the Boulevard Park (49.7% ) and White Center (53%) census designated places.

1923 Households that rent are more likely to have lower incomes and experience a housing cost  
1924 burden. These factors potentially increase susceptibility to economic and physical displacement  
1925 in areas of neighborhood change. Figure 4 shows that 38% of renter households in North  
1926 Highline had incomes below 30% of Housing Urban Development Area Median Family Income  
1927 (HAMFI), which is considered to be extremely low income. This compares to 23% of King  
1928 County rental households having incomes below 30% of HAMFI.

1929 Sixty-two percent of renter households in North Highline have incomes at or below 50% of  
1930 HAMFI, which is considered very low income.

1931 People who are cost-burdened have fewer resources available to pay for other necessities like  
1932 transportation, education, food, and clothing. They are also more likely to be at risk of losing  
1933 their home if an unexpected event impacts their income and ability to pay rent or mortgage.  
1934 They are also more vulnerable to displacement when housing costs rise.

1935 **Neighborhoods**

1936 The North Highline Subarea Plan identifies White Center, Roxhill, Greenbridge, Top Hat,  
1937 Glendale, and a portion of South Park known as the “Sliver by the River” as neighborhoods.  
1938 Beverly Park and Boulevard Park are also used by North Highline residents. As noted above,  
1939 North Highline is part of 8 different census tracts, only 2 of which are entirely within its  
1940 boundaries. The other 6 tracts extend either into Seattle to the north or Burien to the south.

1941 Engagement with neighborhood groups on the development of the Subarea Plan is discussed in  
1942 Phase 2 of the Equity Impact Review.

1943 **Businesses**

1944 Businesses can have a lot to gain from neighborhood changes, but they can also be susceptible  
1945 to involuntary displacement. Physical and economic displacement can result from  
1946 redevelopment, but cultural displacement can also occur if the owners of businesses that  
1947 provide goods and services that meet community needs (and often reflect community character)  
1948 are forced to move for economic reasons following changes in land use or if the customer base  
1949 for businesses serving such a purpose moves out of the neighborhood.

1950 Businesses can act as gathering places and fulfill key roles as social and cultural institutions,  
1951 and their cultural displacement can have broad and deep impacts on their communities..

1952 In both North Highline and King County, the majority of businesses are owned by people who  
1953 identify as White and as male. North Highline also includes a number of businesses owned by  
1954 members of the BIPOC and LGBTQ+ communities, as well as women-owned businesses.

1955 Reliable data on business ownership captured by race and ethnicity, gender and by members of  
1956 the LGBTQ+ community is not available.

1957 Another category of businesses that will be interested in policy, code, and land use  
1958 amendments adopted for North Highline is builders and developers who will consider how  
1959 amendments may affect investment opportunities.

## 1960 **Community service providers**

1961 All communities have gaps in social and health indicators that community service providers  
1962 seek to address. The gaps in service are more likely to be greater and of more significance in  
1963 areas where the population experiences social and economic disparities. Different communities  
1964 in North Highline will likely work with different sets of service partners. The service partners  
1965 used by each community are well placed to understand and identify whether and how  
1966 distributional, process, and cross-generational equity is experienced by communities in North  
1967 Highline and how land use changes may affect—negatively or positively—access to the  
1968 determinants of equity.

1969 In North Highline, economic, social, health, and human services are provided by community  
1970 organizations and government agencies. These include the Highline School District,  
1971 government agencies like Public Health-Seattle & King County, King County’s departments of  
1972 Community and Human Services and Local Services, nonprofit organizations like Sea Mar, the  
1973 White Center Community Development Association, faith-based groups like churches, and  
1974 business providers like doctors, dentists, or counselors.

1975 Housing providers for low-income households in North Highline include the King County  
1976 Housing Authority and several private affordable housing developers.

## 1977 **Equity Impact Review Phase 2 – Assess Equity and Community Context**

1978 This section of the Equity Impact Review identifies how, and at what stage, the project team  
1979 reached out to stakeholders in the community, including populations of concern, to learn about  
1980 their priorities and concerns and receive feedback and direction on the Plan. This section  
1981 considers whether and how each of the determinants of equity may be impacted, and a review  
1982 of how the policies, land use designations and zoning regulations relate to the community’s  
1983 expressed priorities and concerns.

## 1984 **Community Engagement**

1985 Community engagement in the planning process allows participants to shape the development  
1986 of the subarea plan, to gain a deeper understanding of governmental processes to better  
1987 position them for co-creating policies that benefit their communities, and to have increased  
1988 sense of belonging. The community’s ability to influence plan development changes at different  
1989 stages of the process.

- 1990 • **Visioning and Scoping** – Input given at this stage helps drive plan goals and objectives  
1991 and provides an opportunity for the community to lead the county toward outcome  
1992 improvements.
- 1993 • **Subarea Plan Development** – Engagement sets the vision, guides the policies and map  
1994 amendments, and informs the proposed strategies.

- 1995 • **Public Review Draft** – Once this draft is released, community members review what
- 1996 has been written to check that it aligns with their vision, goals, and objectives. Then they
- 1997 have an opportunity to recommend changes to all parts of the draft plan.
- 1998 • **Implementation** – Community involvement creates a greater sense of accountability as
- 1999 plan policies are implemented, spurring staff members to make sure that county projects
- 2000 meet the community’s vision.

2001 **Overview of Community Engagement**

2002 There were 3 distinct phases of community engagement for the North Highline Subarea Plan.

2003 The first, from July 2019 to May 2020, involved land use topics only. The second, from August

2004 2020 through December 2021, had an expanded scope and coincided with work to engage the

2005 same community on 2 additional initiatives: the North Highline Community Needs List and the

2006 Skyway/West Hill and North Highline Anti-Displacement Strategies Study. The phases of

2007 community engagement are described in **Appendix C: Community Engagement**.

2008 The following table summarizes outreach targeted to the specific key stakeholder groups and

2009 priority populations identified in the Equity Impact Review (completed between 2019 and May

2010 2020).

2011 *PHASE 1: STAGES 1 AND 2*

<b>Language communities</b>	<p><u>Surveys were available in the following languages:</u></p> <ul style="list-style-type: none"> <li>• English</li> <li>• Spanish</li> </ul> <p><u>Project information was translated into the following languages:</u></p> <ul style="list-style-type: none"> <li>• English</li> <li>• Spanish</li> <li>• Vietnamese</li> <li>• Khmer</li> <li>• Somali</li> </ul> <p><u>Spanish interpretation was provided at the following events:</u></p> <ul style="list-style-type: none"> <li>• North Highline Subarea Plan Community Open House (Aug. 14, 2019)</li> <li>• White Center Business Focus Group (Sept. 25-26, 2019)</li> <li>• Mount View Elementary School Community Meeting (Oct. 17, 2019)</li> <li>• Nia (King County Housing Authority Senior Living) Community Meeting (Dec. 4, 2019)</li> <li>• White Center Community Development Association (CDA) Summit (Dec. 7, 2019)</li> <li>• North Highline Subarea Plan Community Open House (Jan. 30, 2020)</li> </ul> <p><u>Vietnamese interpretation was provided at the following events:</u></p> <ul style="list-style-type: none"> <li>• North Highline Subarea Plan Community Open House (Aug. 14, 2019)</li> <li>• White Center Business Focus Group (Sept. 26, 2019)</li> <li>• Greenbridge (King County Housing Authority) Resident Community Council Meeting (Oct. 16, 2019)</li> <li>• Nia (King County Housing Authority Senior Living) Community Meeting (Dec. 4, 2019)</li> <li>• White Center CDA Summit (Dec. 7, 2019)</li> <li>• North Highline Subarea Plan Community Open House (Jan. 30, 2020)</li> </ul>

<b>Renters and low-income households</b>	<ul style="list-style-type: none"> <li>• Greenbridge (King County Housing Authority) Resident Community Council Meeting (Oct. 16, 2019)</li> <li>• Nia (King County Housing Authority Senior Living) Community Meeting (Dec. 4, 2019)</li> <li>• Greenbridge (King County Housing Authority) Resident Community Council Meeting (Feb. 19, 2020)</li> </ul>
<b>Businesses</b>	<ul style="list-style-type: none"> <li>• White Center Chamber of Commerce Quarterly Meeting (Aug. 19, 2019)</li> <li>• White Center Business Focus Group (Sept. 25-26, 2019)</li> <li>• Top Hat Community Business Center Walk-Through (Oct. 18, 2019)</li> </ul>
<b>Community service providers</b>	<ul style="list-style-type: none"> <li>• Communities of Opportunity Meeting (Aug. 14, 2019)</li> <li>• King County Housing Authority Agency Service Providers Meeting (Oct. 17, 2019)</li> <li>• White Center Agency Partners Meeting (Feb. 20, 2020)</li> </ul>

2012

2013 King County provided notice of meetings using the following means:

- 2014
- Department of Local Services/King County website
- 2015
- Social Media (Facebook, Instagram, Next Door)
- 2016
- King County Unincorporated Area News email newsletter
- 2017
- North Highline Subarea Plan email list

2018 Non-county groups also provided a mechanism for sharing information about the project and  
2019 opportunities for attending meetings and providing input. These included:

- 2020 • White Center Now
- 2021 • North Highline Unincorporated Area Council
- 2022 • White Center Community Development Association
- 2023 Tools used during the first phase of stakeholder engagement included:
- 2024 • Introductions to the concepts of land use and zoning, focusing on how they feature in
- 2025 North Highline
- 2026 • Maps that included North Highline landmarks and images
- 2027 • Images of buildings provided by the neighborhood
- 2028 A city planning simulation that put participants in the position of making decisions about the
- 2029 future of the neighborhood.
- 2030 Lessons from the first phases of community engagement to improve process equity include:
- 2031 • Improve on outreach to Native Americans
- 2032 • Connect with more organizations who serve people with sensory and cognitive
- 2033 disabilities
- 2034 • Provide opportunities to recognize community engagement by making compensation
- 2035 available
- 2036 *PHASE 2*
- 2037 As noted earlier, engagement with the community on the subarea plan was naturally blended
- 2038 with engagement on the North Highline Community Needs List due to the coinciding timeframes
- 2039 and the linkage between community vision and policies in the Subarea Plan and the program,
- 2040 services, and investments in the needs list. Community engagement on the Subarea Plan and
- 2041 the needs list also coincided with community engagement for the Skyway/West Hill and North
- 2042 Highline Anti-Displacement Strategies Study, designed to study and receive community
- 2043 feedback on a range of policies and programs aimed at preventing displacement in North
- 2044 Highline and Skyway/West Hill.
- 2045 Although the Subarea Plan, needs list, and the Skyway/West Hill and North Highline Anti-
- 2046 displacement Strategies Study result in distinct deliverables, they are related thematically to one
- 2047 another. To the extent possible, community engagement was designed to leverage
- 2048 opportunities and to reduce the time burden on community members who wished to participate.
- 2049 The following table summarizes approaches used in Phase 2 of community engagement,
- 2050 including focused efforts to reach the specific key stakeholder groups and priority populations
- 2051 identified in Phase 1 of the Equity Impact Review.

2052

2053 *COMMUNITY VOICES CONTRACT*

2054 King County is committed to engaging with and listening to the community's voices and Local  
2055 Services is continuously looking at ways that it can improve opportunities for diverse  
2056 populations in unincorporated King County to engage in its initiatives. As Local Services  
2057 engaged with the North Highline community in development of the North Highline Subarea Plan  
2058 and Community Needs List, it frequently reached out to ask how the County can do more to  
2059 engage more of the community, to hear diverse views, and to support equity in our processes.

2060 With continued focus on centering the community while identifying needs and solutions, Local  
2061 Services contracted with the White Center Community Development Association in mid-2021 to  
2062 partner with the County in engaging with communities on the broadened plan and in  
2063 development of a community-prioritized list of projects for the Community Needs List. The focus  
2064 of the "Community Voices" contract between the Community Development Association and King  
2065 County was to reach out to the diverse communities in North Highline that do not traditionally  
2066 engage in county planning processes. The Community Development Association is part of the  
2067 North Highline community and works with the community to improve the lives of those who live  
2068 and work in White Center. It has the skills, tools, and connections to reach out authentically to  
2069 hear and capture the voices of North Highline community members—particularly those who do  
2070 not traditionally participate in planning processes.

2071 During the first phase of work under the Community Voices contract, the Community  
2072 Development Association reviewed a county-compiled set of themes to see if we were correctly  
2073 capturing areas of concern and need in the community for the subarea plan. The County also  
2074 asked the community to review the draft community vision statement and refine it.

2075 During this phase of outreach, the Community Development Association (CDA) reported the  
2076 following demographic information and community engagement strategies for the work it had  
2077 completed:<sup>55</sup>

2078 *DEMOGRAPHIC INFORMATION:*

2079 The demographic data below is what we collected during our outreach and focus groups. While  
2080 we have collected data on how many participants were there, race, language spoken at home,  
2081 age, and sexual orientation, we did not collect data on renter status, income level, or length of  
2082 time residing in the neighborhood. We wanted residents to be able to respond to survey  
2083 questions provided without barrier or concern of being identified by the data they provide.

- 2084 • Participants: Focus Groups – 53/On-Line Survey 67 (as of 8/17), Total of 120  
2085 Participants
- 2086 • Race: Asian, Black, White, Latino, Jewish
- 2087 • Languages spoken at home: Khmer, Vietnamese/Cham, Somali, Spanish, English
- 2088 • Age groups engaged: 16-75
- 2089 • Sexual orientations engaged: Heterosexual, LGBTQIA
- 2090 • Renter or owner: Not collected (data on homeownership in WC shows majority renters)

---

<sup>55</sup> <https://kingcounty.gov/depts/local-services/permits/planning-regulations/subarea-plans/~media/depts/local-services/permits/community-service-areas/white-center-cda-p1-community-engagement-report.ashx>

- 2091 • Length of time lived in neighborhood: Not collected (majority of respondents have been  
2092 residents of WC avg of over 5 years)

2093 *STRATEGIES USED TO ENGAGE COMMUNITY:*

2094 Utilizing our connections in White Center, the CDA was able to reach out and engage  
2095 communities who are historically underrepresented in planning processes. Our strategy focused  
2096 on amplifying BIPOC voices within the Subarea Plan. Time constraints can be problematic, so  
2097 our ability to rely on existing relationships was key in this process.

2098 The importance of being flexible when working with diverse communities such as White Center  
2099 cannot be overstated. For example, one meeting with LGTBQIA youth was conducted in person,  
2100 using slides from the previous meeting as well as engaging other community members over  
2101 ZOOM.

- 2102 • Meetings were primarily conducted over ZOOM over various days and times
- 2103 • Ensuring the availability for participation from community, residents, and businesses by  
2104 providing a variety of times and days that are most convenient
- 2105 • Utilized existing relationships with parents and other community leaders for  
2106 translation/interpretation services
- 2107 • We pared down the entire needs list and edited the list into a more accessible  
2108 presentation format, using graphics that created a list that was more user friendly and  
2109 accessible to youth and families. We translated the presentation into Spanish (given the  
2110 largest ethnic population is Latinx in White Center/North Highline. It is extremely helpful  
2111 to break down discussions into more digestible overarching themes.

2112 **Presentation by Groups - 8 total (virtual)**

- 2113 • Southwest Youth & Family Services – 7/13/2021
- 2114 • Spanish Parent Group (WCCDA) – 7/15/2021
- 2115 • LGBTQIA Youth Group (WCCDA) – 7/22/2021
- 2116 • Native Parent Group (WCCDA) – 7/22/2021
- 2117 • Somali Parent Group (WCCDA) – 7/28/2021
- 2118 • Vietnamese/Cham Group (WCCDA) – 7/29/2021
- 2119 • Khmer Parent Group (WCCDA) – 8/3/2021
- 2120 • White Center Business Alliance – 8/9/2021

2121 **Outreach Done and Events Attended - 6 total**

- 2122 • COO Partners Meeting – 7/22/2021
- 2123 • Feeding El Pueblo (WCCDA) – 7/21/2021
- 2124 • Lake Burien Partners Group – 7/22/2021
- 2125 • Healthier Here Coalition Meeting - 7/27/2021
- 2126 • Duwamish Vaccination Events – 7/28/2021 (In-Person)
- 2127 • WCCDA Board Meeting -7/29/2021

2128 **Online Survey Distributed Widely to Community**

2129 Survey was provided in English only

2130 Under the Community Voices contract, the White Center CDA undertook engagement with the  
2131 community to refine community priorities for the North Highline Community Needs List, and  
2132 review of the Subarea Plan Public Review Draft. The following is a summary from White Center  
2133 CDA on demographics of participants in this engagement work."

2134 **Demographics of Participating Community Members**

2135 We engaged in individual and group conversations with 74 community members of North  
2136 Highline during phase 2 regarding the top 39 community needs list, the public review draft, and  
2137 map amendments. Participants ranged in age. About 3% identified as being a youth below 19  
2138 years of age. Most were between the ages of 30-39 (30%) and 40-49 (12%). Most (55%)  
2139 identified as female.

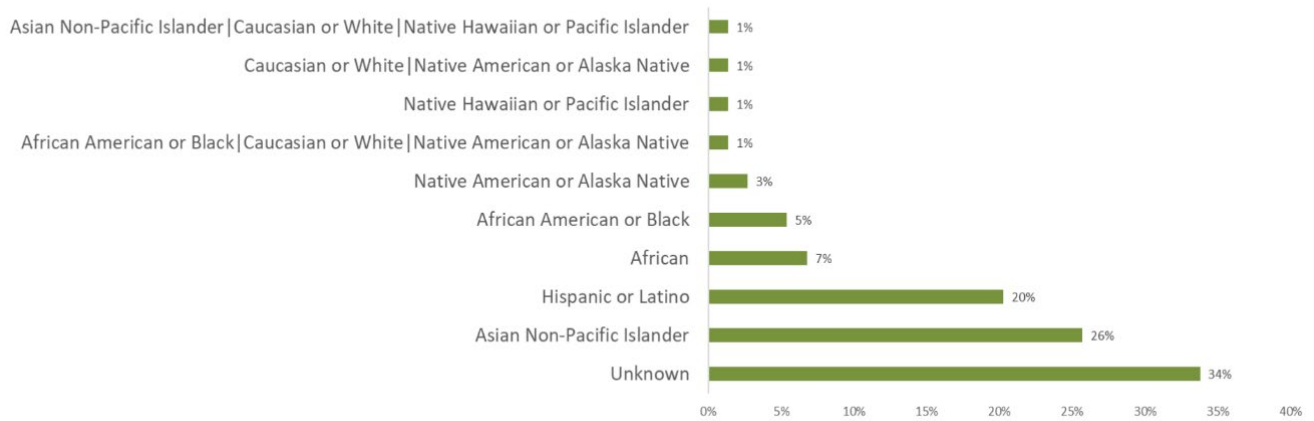

2140

2141

2142  
2143  
2144  
2145  
2146  
2147  
2148  
2149

Community participants identified with a diverse racial and ethnic background, representing the many cultures in the North Highline area. Most identified with Asian Non-Pacific Islander (26%), Hispanic or Latino (20%), African (7%), and African American or Black (5%). About 50% of community participants identified English (50%) as the main language or one of the main languages they speak at home. Participants also identified Vietnamese/Cham (23%), Spanish (21%), Somali (8%), Khmer (1%), and Cantonese (1%) as the main language or one of the main languages they speak at home.

2152

2153 **RECOMMENDATIONS TO COUNTY**

- 2154
- The County needs to adopt a co-creating model with power sharing in decisions

- 2155 • Support community-led planning with capacity building and resources beyond the basic  
2156 costs and minimal time frame presented
- 2157 • Leverage existing networks to center BIPOC voices - multiple organizations could assist  
2158 in facilitating and connections to community
- 2159 • Investing in community partner organizations with capacity to follow through on BIPOC  
2160 priorities, urgent community needs implementation through several year update process
- 2161 • Do a better job of addressing racial equity within the planning process; racial equity  
2162 needs to be at the center of how plans shapes capital investments to meet community  
2163 needs and resists displacement
- 2164 • Most urgent community needs list items need further development by the community
- 2165 • Most urgent community needs list implementation plans by County department(s) need to  
2166 be shaped by the community and consider work to occur across departments
- 2167 • Planning efforts need to consider a community organizing framework and lens
- 2168 • County staff need to build their own relationships with community members and not rely  
2169 solely on community based organizations
- 2170 • Consider Policy Link's *Advancing Racial Equity as part of the 2020 Update to the Seattle*  
2171 *2035 Comprehensive Plan and Urban Village Strategy - Prepared April 2021* / Many  
2172 thoughts within this narrative parallel North Highline concerns
- 2173 • Ordinance 19146 needs to be considered and discussed in more detail with community  
2174 and how parts of that ordinance is shaped

2175 The table below summarizes community engagement focused on priority populations in the  
2176 Equity Impact Review, drawing from engagement during the development of the North Highline  
2177 Subarea Plan, and the Skyway/West Hill and North Highline Anti-Displacement Study, and the  
2178 Community Needs List. It captures engagement identified in the table above as well as  
2179 subsequent phases of engagement.

2180 All meetings listed were held in person unless otherwise noted. The third column in the table  
2181 notes additional opportunities the County could take to improve equity outcomes in its  
2182 engagement process.

Population	Engagement details	Equity opportunity
<b>Communities who Speak a Primary Language other than English</b>	<p>In early phases of the Subarea Plan development, Local Services staff prepared surveys in Spanish and translated project information into Spanish, Vietnamese, Khmer, and Somali. Spanish, Vietnamese, Khmer, and Somali interpreters were provided at events held or attended in the community in 2019 and early 2020.</p> <p>From early 2020 on, in addition to one virtual meeting in English, King County held 3 separate virtual language-specific meetings in August 2020 to kick off the broadened subarea planning program and the Community Needs List initiative and to engage the</p>	<ul style="list-style-type: none"> <li>• Partner with trusted community-based organizations in connecting with underrepresented limited English proficiency populations</li> <li>• Make connections with faith-based communities and other trusted community organizations</li> </ul>

Population	Engagement details	Equity opportunity
	<p>community about the Skyway/West Hill and North Highline Anti-Displacement Study. The languages were Somali, Spanish, and Vietnamese. The planners produced flyers in the same languages and included links to a Public Input page with a translation feature.</p> <p>Few community members made use of the interpreters provided. Only the Somali community took part in measurable numbers, with about 6 residents participating. The Spanish-language meeting only had one attendee. No Vietnamese community members joined the meeting in that language.</p> <p>King County used an online engagement tool (PublicInput.com) to collect input regarding the Community Needs List that supplies machine translation of the content into all languages most spoken at home in North Highline. The King County website with information on North Highline planning initiatives had information pre-translated into Spanish, Vietnamese, Somali and Khmer, so participants would be immediately offered an in-language option when visiting the website. The King County website provided a link to the Public Input site for those wishing to provide input in another language.</p> <p>In the first online survey for the Community Needs List, 94% of 138 participants reported that the primary language they spoke at home was English.</p> <p>In late 2020 planners sent a direct mail post card to every mailing address in North Highline asking community members to submit ideas for the needs list. The message on the postcard was translated into multiple languages.</p> <p>A virtual workshop series for the Skyway/West Hill and North Highline Anti-Displacement Study was held between October 2020 and May 2021. Interpreters were made available initially, but received limited use and were discontinued.</p> <p>Under the Community Voices contract, the White Center Community Development Association engaged with the North Highline community in fall 2021 on the subarea plan and priorities for the needs list. Respondents to a survey question on languages spoken most often at home identified that after English, Spanish was the most frequently used language (21%), closely followed by Cham (21%).</p>	<p>that serve immigrant and non-English speakers</p> <ul style="list-style-type: none"> <li>• Compensate participants for their engagement, respecting their time, involvement and expertise</li> <li>• Go to where residents meet to be respectful of their time and engagement</li> </ul>

Population	Engagement details	Equity opportunity
<p><b>Racial and ethnic groups</b></p>	<p>In early phases of the Subarea Plan development, Local Services staff members attended meetings with the Latinx, Cambodian, Vietnamese, and Somali communities. Generally, this included being part of already-scheduled events or meetings.</p> <p>King County used several methods to increase engagement with the racial and ethnic groups as part of its process to develop the needs list. The first was the creation of an online engagement hub that allowed participants to join the conversation without having to come to formal community meetings. Second, County staff attended existing community-based organizations' meetings to reach people in spaces they trusted and where they already felt comfortable. Finally, a locally based nonprofit was hired to help connect with residents who have traditionally not been included in these types of community planning exercises.</p> <p>In the first survey for the needs list, 77% of 138 respondents identified themselves as White, and the next highest group (12%) identified themselves as Asian.</p> <p>Under the Community Voices contract, in summer 2021, the White Center CDA met with a Spanish parent group, a Native American parent group, a Somali parent group, a Khmer parent group, and a Vietnamese/Cham parent group.</p> <p>In fall 2021 the White Center CDA held one-on-one meetings with Somali, African American, and Native American families. The White Center CDA also met with Latinx and Cham families.</p> <p>About half of participants in a fall 2021 White Center CDA survey identified their racial or ethnic heritage as Asian Non-Pacific Islander (43%). The next highest groups of respondents identified as Caucasian or White (24%) or Hispanic or Latino (24%).</p>	<ul style="list-style-type: none"> <li>• Partner with trusted community-based organizations in connecting with populations from racial and ethnic groups</li> <li>• When holding community meetings, document the number of participants, and if possible their race and ethnicity to ensure they represent the demographics of the community</li> <li>• Compensate participants for their engagement, respecting their time, involvement, and expertise</li> <li>• Go to where residents meet, to be respectful of their time and engagement</li> </ul>
<p><b>Youths</b></p>	<p>In early phases of Subarea Plan development, Local Services staff attended meetings with youths at schools in North Highline and at the White Center Teen Program.</p> <p>During the Anti-Displacement collaboration with the Department of Community and Human Services, Local Services staff worked with the Skyway Youth Leadership Council. The young people who</p>	<ul style="list-style-type: none"> <li>• Working with local schools to connect with youths allows initiatives to reflect their unique perspectives and attitudes, and to identify what is needed to support their success</li> </ul>

Population	Engagement details	Equity opportunity
	<p>participated in this effort chose several anti-displacement strategies to focus on and then developed a survey of their peers to solicit input that included youth outreach in North Highline.</p> <p>In the initial survey for the needs list, 3% of 138 respondents said they were 25 or younger.</p> <p>During its work with the North Highline community under the Community Voices contract, the White Center CDA met with a LGBTQIA youth group. During outreach completed by the White Center CDA in summer 2021, the participants ranged in age from 16 to 75 years.</p> <p>Efforts by Local Services staff to reconnect with the contacts in the Highline School District to hear young voices during later stages of the subarea planning project were not successful.</p>	<ul style="list-style-type: none"> <li>• Consider seeking input at other places where youths gather (such as teen groups)</li> <li>• Compensate youths for their engagement, respecting their time, involvement, and expertise</li> <li>• Consider a range of ways to connect with youths, including in-person meetings and virtual forums</li> <li>• Capture more demographic information so King County can better understand which community voices are missing</li> </ul>
<p><b>Seniors and elders</b></p>	<p>In early phases of Subarea Plan development, Local Services staff attended resident community council meetings at Greenbridge that were organized by the King County Housing Authority. This included a senior living community meeting.</p> <p>In the first survey for the needs list, 11% of 138 respondents, 11% identified as being 66 years old or older.</p> <p>During outreach completed by the White Center CDA in summer 2021, age groups that participated ranged from 16 to 75 years in age.</p> <p>The use of more-traditional means of communication, such as direct mail, was intended to make more senior and elderly residents aware of the subarea planning and community needs list processes, allowing them the opportunity to participate.</p>	<ul style="list-style-type: none"> <li>• Partner with trusted community-based organizations that serve elders in North Highline</li> <li>• Go to where elderly residents meet, to be respectful of their time and engagement</li> <li>• Consider a range of ways to connect with seniors, including in-person meetings and virtual forums</li> <li>• Compensate seniors for their engagement, respecting their time, involvement, expertise, and lived experience</li> </ul>
<p><b>Persons with disabilities</b></p>	<p>In the early phases of Subarea Plan development, Local Services staff attended a resident community council meeting for Nia, a senior living community, at Greenbridge. The meeting was organized by the King County Housing Authority and included a senior living community meeting.</p> <p>The planners believed that using more traditional communication types, such the direct mail postcards, would help make more people with disabilities aware</p>	<ul style="list-style-type: none"> <li>• Respect that by centering services, programs, and facilities on the needs of community members with disabilities, the County will also meet the needs of many members of the community who do not have disabilities.</li> </ul>

Population	Engagement details	Equity opportunity
	<p>of the subarea planning and community needs list processes, and increase their participation in these processes.</p> <p>During later stages of the subarea planning work, the County connected with a member of the North Highline community to learn about community development from their perspective as a community member with disabilities.</p>	<ul style="list-style-type: none"> <li>• Connect with disability service providers to learn what challenges and priorities their customers have</li> <li>• Partner with trusted community-based organizations that serve people with disabilities in North Highline</li> <li>• Consider a range of ways to connect with people who have disabilities, respecting access and other accommodations for participation</li> <li>• Compensate community members for their engagement, respecting their time, involvement, expertise, and lived experience</li> </ul>
<b>Neighborhoods</b>	<p>In early phases of the North Highline Subarea Plan development, Local Services staff hosted or attended meetings in White Center, Top Hat, Glendale, and South Park.</p> <p>The online surveys did not focus on specific neighborhoods, but participants were asked to identify which area of North Highline they called home. In the first survey for the needs list, 64% of 140 respondents said they lived in White Center and 21% said they lived in Top Hat. The remainder were spread between Glendale/Beverly Park (5%), the South Park “Sliver by the River” (3%) and “Other” (7%).</p> <p>The County sent direct mail post cards to addresses in North Highline in 2020, providing links to the Community Needs List project and survey.</p>	<ul style="list-style-type: none"> <li>• Work with neighborhood groups to further define community priorities so resources can be targeted where the need is greatest</li> <li>• Track metrics of language translation use to better understand how we might encourage greater participation by our community members with limited English proficiency</li> </ul>
<b>Renters and low-income households</b>	<p>In the early phases of subarea planning, outreach included presenting at community meetings organized by the King County Housing Authority. Participants included renters from low-income households.</p>	<p>Renters and residents in low-income households are at the highest risk of involuntary displacement. When housing prices or the cost of living increase, they are often left with no choice but to move to</p>

Population	Engagement details	Equity opportunity
	<p>In the initial survey for the Community Needs List, 88% of 138 respondents said they owned their homes, 10% said they were renters, and 1% chose “Other.”</p> <p>The Community Voices survey in fall 2021 generated 77 responses from community members. About half of the participants said they were homeowners and about half said they were renters. No questions were asked about income levels.</p>	<p>other neighborhoods or areas. Understanding the strategies that can help alleviate some of these risks is vitally important.</p> <ul style="list-style-type: none"> <li>• Compensate community members for their engagement, respecting their time, involvement, expertise, and lived experience</li> <li>• Track metrics of language translation use to better understand how to encourage greater participation by community members with limited English proficiency</li> </ul>
<p><b>Businesses</b></p>	<p>In the early phases of subarea planning, outreach included attending a White Center Chamber of Commerce quarterly meeting and a White Center Business Focus Group meeting and visiting businesses in Top Hat.</p> <p>As part of the Skyway/West Hill Anti-Displacement Strategies study, 15 BIPOC and immigrant business owners in White Center were surveyed by the County about the impact of displacement on their businesses.</p> <p>The White Center CDA convened virtual and in-person meetings with businesses in White Center in the latter part of 2021, primarily to focus on subarea plan development.</p>	<ul style="list-style-type: none"> <li>• Tailor the ways the County seeks input from businesses on their needs, recognizing that their hours of service may keep them from being able to readily participate in meetings at times that suit agencies or other participants</li> <li>• Compensate business owners and representatives for their engagement, respecting their time, involvement, expertise, and lived experience</li> <li>• Businesses are at risk of displacement if their customer bases are not able to remain in North Highline due to economic, residential, or cultural displacement. Learning about the direct and indirect needs of businesses in North Highline is key to</li> </ul>

Population	Engagement details	Equity opportunity
		supporting the overall well-being of the community.
<b>Community service providers</b>	<p>In the early phases of subarea planning, Local Services staff attended meetings held by Communities of Opportunity, King County Housing Authority Agency Service Providers, and White Center Agency Partners.</p> <p>In latter stages of the Subarea Plan development, County staff attended a White Center CDA-organized meeting of its White Center Agency Partners group.</p> <p>The Community Voices contract with the White Center CDA provided an opportunity to partner with a group that is part of the North Highline community and works with it to improve the lives of those that live and work in White Center. As a community-based organization, it has the skills, tools, and connections to reach out authentically to hear and capture the voices of North Highline community members—particularly those who do not traditionally participate in planning processes.</p> <p>Efforts to engage with faith-based organizations to seek input on the Subarea Plan and needs list met with little success.</p>	<ul style="list-style-type: none"> <li>• Access faith-based organization engagement strategies to determine how to better connect with this community</li> </ul>

2183

2184 King County advertised engagement opportunities using the following channels:

- 2185 • Department of Local Services/King County website
- 2186 • GovDelivery E-mail List
- 2187 • PublicInput.com
- 2188 • Next Door
- 2189 • Social Media (Facebook, Instagram)
- 2190 • King County Local Services Unincorporated Area News
- 2191 • Postcards sent to all North Highline addresses in December 2020

2192 Groups external to the County also provided a mechanism for sharing information about the  
2193 project and opportunities for attending meetings and providing input. This included:

- 2194 • White Center Community Development Association
- 2195 • North Highline School District

2196 Appendix C: Community Engagement includes a more in-depth review of engagement  
2197 approaches used during development of the subarea plan.

2198 The Office of Equity and Social Justice “Community Engagement Continuum”<sup>8</sup> identifies a range  
2199 of actions to use for engagement on both simple and complex initiatives. Components of the 2

2200 levels of engagement identified for use in both Subarea Plan development and development of  
2201 the Community Needs Lists for King County’s Community Service Areas—County Engages in  
2202 Dialogue and County and Community Work Together—are circled in the table below.

Levels of Engagement				
County Informs	County Consults	County engages in dialogue	County and community work together	Community directs action
King County initiates an effort, coordinates with departments and uses a variety of channels to inform community to take action	King County gathers information from the community to inform county-led interventions	King County engages community members to shape county priorities and plans	Community and King County share in decision-making to co-create solutions together	Community initiates and directs strategy and action with participation and technical assistance from King County
<b>Characteristics of Engagement</b>				
<ul style="list-style-type: none"> <li>Primarily one-way channel of communication</li> <li>One interaction</li> <li>Term-limited to event</li> <li>Addresses immediate need of county and community</li> </ul>	<ul style="list-style-type: none"> <li>Primarily one-way channel of communication</li> <li>One to multiple interactions</li> <li>Short to medium-term</li> <li>Shapes and informs county programs</li> </ul>	<ul style="list-style-type: none"> <li>Two-way channel of communication</li> <li>Multiple interactions</li> <li>Medium to long-term</li> <li>Advancement of solutions to complex problems</li> </ul>	<ul style="list-style-type: none"> <li>Two-way channel of communication</li> <li>Multiple interactions</li> <li>Medium to long-term</li> <li>Advancement of solutions to complex problems</li> </ul>	<ul style="list-style-type: none"> <li>Two-way channel of communication</li> <li>Multiple interactions</li> <li>Medium to long-term</li> <li>Advancement of solutions to complex problems</li> </ul>
<b>Strategies</b>				
Media releases, brochures, pamphlets, outreach to vulnerable populations, ethnic media contacts, translated information, staff outreach to residents, new and social media	Focus groups, interviews, community surveys	Forums, advisory boards, stakeholder involvement, coalitions, policy development and advocacy, including legislative briefings and testimony, workshops, community-wide events	Co-led community meetings, advisory boards, coalitions, and partnerships, policy development and advocacy, including legislative briefings and testimony	Community-led planning efforts, community-hosted forums, collaborative partnerships, coalitions, policy development and advocacy including legislative briefings and testimony

2203  
2204 Working collaboratively with the community and using the Office of Equity and Social Justice’s  
2205 Equity Impact Review tool as a guide, goals of the community engagement for the expanded  
2206 Subarea Plan included ensuring that diverse and historically underrepresented voices of the  
2207 community were amplified and reflected in the expanded Plan. This included developing an  
2208 updated engagement process to develop and refine a long-term vision and policies across  
2209 multiple, community-identified topic areas for the Plan. Additionally, Local Services prepared an  
2210 “Engagement Pledge”<sup>56</sup> for the North Highline Subarea Plan and Community Needs List,  
2211 committing to have a bi-directional conversation with the community, work together, and lift up  
2212 the voices of historically underrepresented residents and groups.

2213 Local Services learned many things about how to improve engagement for planning and  
2214 community development initiatives in North Highline during subarea planning and development  
2215 of the Community Needs List. Under the Community Voices contract, the White Center CDA  
2216 was asked to share input on improvements that the County could make for its engagement with  
2217 the North Highline community. They shared the following:

- 2218 • Timelines for delivery of products that involve contracting with community-based  
2219 organizations need to fit with timelines that work for the community to get the best  
2220 possible work and thoughtful processes. Working to King County budget cycles and other  
2221 County processes does not achieve this.
- 2222 • More time is needed than is usually given.

<sup>56</sup> <https://kingcounty.gov/depts/local-services/permits/planning-regulations/subarea-plans/~media/depts/local-services/permits/community-service-areas/north-highline-subarea-plan-and-community-needs-list-engagement-pledge.ashx>

- 2223 • More up-front research by the County is needed, with topics identified.
- 2224 • The planning process needs more room to focus on what community members can do to  
2225 be part of solutions (going beyond what the County can do for the community).
- 2226 • King County Local Services staff members need to cultivate relationships with the  
2227 communities they serve rather than relying on community-based organizations to find  
2228 answers to the questions, “What does the community need and what are its priorities?”

2229 Key phases of the White Center Community Development Association’s community  
2230 engagement work ended in December 2021. At that stage, the association shared the following  
2231 reflections on its work under the Community Voices contract:

- 2232 • There is a lack of trust in the institutional system, given White Center’s history of being  
2233 marginalized by King County.
- 2234 • There are specific challenges to building in more access (beyond language access) and,  
2235 even more, to building in-depth understanding of planning, policies, and map  
2236 amendments among community members. There is a need to build community  
2237 understanding in each language and cultural group so community members can have  
2238 meaningful conversations and ultimately provide thoughtful feedback and opinions within  
2239 a month’s time.
- 2240 • There is a need to build internal understanding of institutional subarea policies and map  
2241 amendments to detail, so we could create more accessible processes and content for our  
2242 community members.
- 2243 • The County needs to Improve the facilitation and logistics of community conversations.
- 2244 • All narratives and needs lists created by the County and by the White Center CDA were  
2245 experiencing a certain level of “lost in translation.”
- 2246 • There is a need to refine the Community Needs List to more accurately capture the  
2247 collective needs.

2248 King County is grateful for input and perspectives from the White Center CDA that will improve  
2249 its design of initiatives in the future to better attain process equity.

2250 With the continued focus to center the development of subarea plans on community needs,  
2251 Local Services contracted with the White Center CDA in 2021 to partner with the County in  
2252 engaging with communities on the broadened Plan and in development of a community-  
2253 prioritized list of projects for the Community Needs List. Its focus is to reach out to the diverse  
2254 communities in North Highline that do not traditionally engage in County planning processes.  
2255 The White Center CDA is part of the North Highline community and works with the community to  
2256 improve the lives of those that live and work in White Center. As a community-based  
2257 organization, it has the skills, tools, and connections to reach out authentically to hear and  
2258 capture the voices of North Highline community members – particularly those that do not  
2259 traditionally participate in planning processes.

2260 Under its contract with King County, the White Center CDA sorted King County-compiled input  
2261 from the North Highline community on needs and community interests, generated from work  
2262 completed in the first 3 phases of community engagement. The association shared its sorted list  
2263 with the North Highline community for accuracy and completeness before the community’s

2264 review of the North Highline Subarea Plan Public Review Draft, updated the community’s vision  
2265 statement for the 20-year Plan, based on input received during its work with the community, and  
2266 shared input on improvements that could be made to the County’s engagement approaches in  
2267 North Highline.

2268 The White Center CDA took the following approach to engage with communities who are  
2269 historically underrepresented in planning processes, with a strategy focused on amplifying  
2270 BIPOC voices within the North Highline Subarea plan development:

- 2271 • The association held meetings via Zoom
- 2272 • Meetings were held on different days and times to make it easier for residents and  
2273 businesses to participate.
- 2274 • The association used existing relationships with parents and other community leaders for  
2275 translation and interpretation services.
- 2276 • The association edited county-prepared materials into a more accessible presentation  
2277 format, with more digestible overarching themes, and used graphics to create a list that  
2278 was more user friendly and accessible to youths and families.
- 2279 • The association translated a presentation into Spanish because the largest ethnic  
2280 population in White Center/North Highline is Latinx.

2281 The contract between the White Center CDA and King County Local Services supported the use  
2282 of contract funds to compensate community members for participating in meetings, providing  
2283 refreshments, translating materials, and using interpreter services.

2284 **Summary of engagements completed by the White Center Community association in**  
2285 **North Highline in July and August of 2021**

Presentation to groups	Events attended	Other
Southwest Youth & Family Services	Communities of Opportunity (COO) Partners Meeting	Online survey on priority themes, with commenting options
Spanish Parent Group	Feeding El Pueblo	
LGBTQIA Youth Group	Lake Burien Partners Group	
Native Parent Group	Healthier Here Coalition Meeting	
Somali Parent Group	Duwamish Vaccination Events	
Vietnamese/Cham Group	WCCDA Board Meeting	
Khmer Parent Group		
White Center Business Alliance		

2286 The following socioeconomic data was provided to the County by the White Center CDA on this  
2287 phase of community engagement on the Plan and the Community Needs List:<sup>57</sup>  
2288

<sup>57</sup> <https://kingcounty.gov/depts/local-services/permits/planning-regulations/subarea-plans/~media/depts/local-services/permits/community-service-areas/white-center-cda-p1-community-engagement-report.ashx>

- 2289 • Participants: Focus Groups – 53; Online Survey- 67; Total – 120 (as of Aug. 17, 2021)
- 2290 • Race: Asian, Black, White, Latino, Jewish
- 2291 • Languages spoken at home: Khmer, Vietnamese/Cham, Somali, Spanish, English
- 2292 • Age groups engaged: 16-75
- 2293 • Sexual orientations engaged: heterosexual, LGBTQIA
- 2294 • Renter or owner: not collected (data on homeownership in White Center shows majority  
2295 renters)
- 2296 • Length of time lived in neighborhood: not collected (majority of respondents have been  
2297 residents of White Center for an average of more than 5 years)

2298 During the third phase of community engagement, planners updated the PublicInput.com project  
2299 site to direct interested parties to the White Center CDA’s survey on association’s website. The  
2300 PublicInput.com website has a Google Translate function when accessed via several browsers.  
2301 An email sent to more than 200 subscribers to a GovDelivery list for the project also provided  
2302 links to the survey.

2303 During the upcoming comment period for the Public Review Draft, the association will publicize  
2304 the Plan and ways to provide comments, collect comments, and seek input on how to prioritize  
2305 items for inclusion on the County’s community needs list for North Highline.

2306 King County heard the following during the third phase of community engagement:

- 2307 • Timelines for delivery of products that involve contracting with community-based  
2308 organizations need to fit with timelines that work for the community in order to get the  
2309 best possible work and thoughtful processes. The County working to its own budget  
2310 cycles and processes does not achieve this.
- 2311 • More time is needed than usually given.
- 2312 • More up-front research by the County is needed, with topics identified where up-front  
2313 research is needed.
- 2314 • The planning process needs more room to focus on what community members can do to  
2315 be part of solutions (going beyond what the County can do for the community).
- 2316 • King County Local Services staff members need to cultivate relationships with community  
2317 members rather than relying on community-based organizations to do the work to learn  
2318 what the community needs and what its priorities are.

2319 The County will address these issues in future community engagement strategies to increase  
2320 North Highline community involvement.

### 2321 Equity Impact Review Phase 3 – Analysis and Decision Process

#### 2322 What is the relationship between the Subarea Plan and the determinants of equity?

2323 The North Highline Subarea Plan proposes neighborhood-specific and topic-based policies  
2324 along with land use and zoning amendments and development conditions that will guide and  
2325 regulate development in North Highline over the next 20 years. Policies also provide direction  
2326 for County-provided services, programs, and facilities in North Highline. Guiding principles

2327 shape the policies, map amendments, and development conditions, and all are guided by the  
2328 community-developed vision statement for North Highline.

2329 Proposed policies are grouped under topical chapters in the Plan. Proposed land use and  
2330 zoning map amendments and development conditions are included in a second document. Map  
2331 amendments and development conditions are guided by the policies proposed in the plan. The  
2332 associated land use and zoning map amendments regulate how land can be used.

2333 For example, a change in zoning classification may allow mixed-use residential and commercial  
2334 structures in an area that previously may have been zoned only to allow commercial uses and  
2335 no residential uses. Conditions within the zoning classification may provide incentives that  
2336 support delivery of amenities or community benefits such as increased affordable housing.

2337 Regulations can also change what can take place on the land by applying special district  
2338 overlays, which apply special conditions on how a specific piece of land can be used. These  
2339 conditions may allow for more flexibility in how the land can be developed compared to the  
2340 regulations in the underlying zoning. Another regulatory tool that can be applied to specific  
2341 parcels is the “P-suffix”. This tool applies more restrictive conditions than those included in the  
2342 underlying zoning.

2343 The changes in regulations pertain directly to the zoning classifications of the properties within  
2344 the neighborhood along with an assortment of property-specific and special district overlays are  
2345 aimed at implementing the Plan policies. The policies and the regulations are designed to  
2346 support the community’s vision for the future of their neighborhood and to address its unique  
2347 needs.

2348 The North Highline Subarea Plan is centered on the North Highline community’s interests and  
2349 priorities. The analysis in the **first table in this section (see page 115)** of the Equity Impact  
2350 Review summarizes what the project team heard from the community as priorities, how the  
2351 Subarea Plan and associated land use and zoning map amendments and development  
2352 conditions respond to those priorities, the intended outcomes, and where some questions  
2353 remain. The table identifies community-raised priorities that the Subarea Plan cannot directly  
2354 respond to due to scope considerations, while identifying pathways for those priority areas to be  
2355 considered.

2356 The second table in this section of the Equity Impact Review considers how the Plan and  
2357 associated land use and zoning map amendments, and development conditions may directly or  
2358 indirectly impact access to each of the determinants of equity, and how the Plan’s content may  
2359 affect distributional equity and intergenerational equity for the determinants of equity. By using  
2360 the determinants of equity as a framework, some general observations can be made about what  
2361 types of impacts the Plan may have. Access to the determinants of equity creates a baseline of  
2362 equitable outcomes for people regardless of race, class, gender, or language spoken. Inequities  
2363 are created when barriers exist that prevent individuals and communities from accessing these  
2364 conditions and reaching their full potential.

2365 The Subarea Plan is an element of the King County Comprehensive Plan. While it can be a  
2366 mechanism for change to further meeting community priorities, there are a couple of constraints  
2367 on its ability to comprehensively deliver change, that need to be identified. As an element of the  
2368 Comprehensive Plan, the scope of the Subarea Plan is consistent with the scope of the  
2369 Comprehensive Plan, which is set by the State of Washington Growth Management Act. It is for

2370 this reason that there are a handful of topics raised by the community as priorities that will need  
2371 to be considered for resolution by other mechanisms, such as the Community Needs List  
2372 Initiative, that can cover a broader range of topics than the Subarea Plan.

2373 Additionally, while the Plan may directly or indirectly influence the determinants of equity, it is  
2374 important to note that, when it comes to most decisions made about how land is developed,  
2375 most are made by the private sector based on market factors and personal choices. However,  
2376 local governments can provide the structure governing how land can be developed and used in  
2377 a way that positively influences the kind of new development that may occur in the future.

2378 Through its authority, King County can change zoning, the conditions under which land can be  
2379 developed and used, and the cost for processing land development permits. The results of this  
2380 can both positively and negatively impact a community's ability to access the determinants of  
2381 equity.

2382 While King County can use its authority to develop policy and take regulatory action, provide  
2383 funding, and engage with the community, the private market will determine whether it wants to  
2384 invest in development in North Highline. It is the intent of the Plan to increase the likelihood that  
2385 new development will occur in a way that will support distributional, process, and  
2386 intergenerational equity and that changes over time will be consistent with the vision and  
2387 community priorities expressed by the residents and businesses of North Highline.

2388 Predicting specific outcomes of a Subarea Plan can be difficult for a few reasons:

- 2389 • Land use policies and zoning regulations permit a range of uses, but it is up to each  
2390 particular landowner to determine what to build.
- 2391 • It is difficult to determine impacts that would have happened if current regulations  
2392 remained in the absence of a new land use subarea plan, as neighborhoods go through  
2393 natural cycles of development.

## 2394 [Summary of Decision-Making Process and Proposed Policies, Regulations, and](#) 2395 [Community Needs List Items](#)

2396 Guided by community input, a community vision statement, guiding principles,  
2397 recommendations for updated subarea policies and amendments to land use designations,  
2398 zoning classifications and development conditions have been drafted for community review in  
2399 the Public Review Draft (PRD) of the Plan.

2400 The input and recommendations have been prepared based on feedback gathered from the  
2401 community during all 3 phases of community engagement, from review of prior community plans  
2402 and community-developed initiatives. In addition, the Plan has been developed in consideration  
2403 of the historic, demographic, economic, and geographic characteristics of North Highline, and its  
2404 context within King County and the region. Subsequent work with the community will include  
2405 listening to input on the PRD, refining the plan accordingly and continued work to develop a  
2406 prioritized list of projects for the Community Needs List.

2407 In developing the proposals outlined in the Plan, County staff worked with the White Center  
2408 CDA's prepared list of community areas of concern. The list was derived from a County-  
2409 prepared longer list of themes and desired outcomes generated based on input received during  
2410 the earlier phases of the Plan development, from the Publicinput.com survey input, from review

2411 of prior community plans and community-developed plans and initiatives and in consideration of  
2412 community data. The White Center CDA derived the list and shared it with the North Highline  
2413 community in Phase 3 of the Plan community engagement to determine if it accurately  
2414 represents the community's interests, and to develop an updated community vision statement.

2415 The following table summarizes how the Plan policies, land use and zoning map amendments  
2416 and development conditions respond to the community's areas of interest for the Plan. In some  
2417 cases, the topic raised aligns more closely with a response through the Community Needs List  
2418 initiative for North Highline. The Community Needs List will be a list of prioritized actions that  
2419 can help to implement policies in the Subarea Plan, as well as having the scope to include  
2420 topics that are broader than those that can be considered in the Subarea Plan.

2421 In reviewing different options, staff analyzed whether each potential policy, map or development  
2422 condition intervention would:

- 2423 • Result in the preferred outcome of the community, or improve on the status quo
- 2424 • Improve access to the determinants of equity
- 2425 • Be feasible for the County to implement given legal and budgetary constraints
- 2426 • Align with existing King County Comprehensive Plan policies, without creating  
2427 redundancies.

2428

2429 **Community-identified priorities and how the proposals respond, and intended outcomes**

What the team heard	Proposals in the North Highline Subarea Plan and Map Amendments	Intended outcome	Questions
<b>Availability and Affordability of Housing</b>			
<ul style="list-style-type: none"> <li>• Ability for community to rent and purchase homes in White Center. Including equitable programs that assist with affordable homeownership and affordable rental units.</li> <li>• Economically diverse neighborhood; with a mix of market rate and affordably priced units.</li> <li>• Affordable housing that is beautiful and functional.</li> </ul>	<ul style="list-style-type: none"> <li>• Residential policies support increasing housing diversity and supply in medium-density residential neighborhoods in North Highline near transit and commercial services. Map amendments increase the allowed density of residential development on parcels that are adjacent to the urban centers: White Center Unincorporated Activity Center, Roxhill Community Business Center, Top Hat Community Business Center, Beverly Park Neighborhood Business Center in Glendale, and a new Community Business Center in Glendale.</li> <li>• (A parcel specific (“P-Suffix”) development limits height of new development in medium density residential areas, where increased density is proposed.</li> <li>• Policies support retaining and increasing housing availability for individuals and families in a range of different socio-economic situations and integrating households with different economic backgrounds.</li> <li>• In areas within existing urban centers, a higher density of housing is supported.</li> <li>• Policies support the White Center Unincorporated Activity Center, and the Roxhill and Top Hat Community Business Centers continuing to serve as North Highline’s primary locations for commercial, and mixed-use, higher density land uses.</li> </ul>	<ul style="list-style-type: none"> <li>• Encouraging an increased supply of a broad range of smaller-scale multifamily units such as townhomes, duplexes, and triplexes when redevelopment occurs in areas adjacent to areas served by transit and commercial business is intended to increase supply and types of housing to support increased affordability for families and single person households. In some cases, new development will be required to be mixed-use, to provide additional housing.</li> <li>• By encouraging the development to occur where there is ease of access to services, jobs and community amenities, while also considering ease of access to job centers outside of the community, equity in access to opportunity is supported.</li> <li>• By integrating households with different household incomes in the same areas and developments, equity in access to opportunity is increased.</li> </ul>	<ul style="list-style-type: none"> <li>• Will these measures increase land values, housing prices and property taxes for residents?</li> <li>• Are there adequate safeguards in place to reduce the risk of unintended consequences that exacerbate displacement? For example, will renters and lower-income residents in the area be displaced if a property owner decides to sell to a townhouse or duplex developer?</li> <li>• What provisions can be made to ensure that a homeowner will not be displaced because they can no longer afford the property taxes on their home?</li> <li>• What measures can be taken to ensure area residents who qualify for the affordable units have access to the units?</li> <li>• Will these policies stifle development?</li> <li>• Are existing utilities and services adequate to serve the</li> </ul>

What the team heard	Proposals in the North Highline Subarea Plan and Map Amendments	Intended outcome	Questions
	<ul style="list-style-type: none"> <li>• A new urban center is created in Glendale. While this urban center designation is largely included to match existing land uses, it does create opportunity for mixed use development, to create jobs and housing.</li> <li>• Policies support the use of design standards for commercial buildings, including mixed-use development.</li> <li>• Policies seek to preserve community-identified cultural assets and encourage the development of community-identified amenities and installation of green infrastructure and tree planting.</li> <li>• Inclusionary Housing policy and code revisions require or support creation of affordable units with market-rate units.</li> <li>• Mixed use development is required on a block rezoned from industrial to commercial business in the White Center Unincorporated Activity Center, that is adjacent to the frequent service Rapid Ride H Line.</li> </ul>	<ul style="list-style-type: none"> <li>• Supporting use of design standards and attention to community-desired amenities are intended to support designing homes and spaces that respond to the community’s request for beauty.</li> <li>• By providing height limits on new development in certain situations where residential densities are increased, the intention is to integrate new development without subsuming the character of established residential neighborhoods.</li> <li>• Increase housing supply with redevelopment using Inclusionary Housing provisions, which will also increase supply of affordable units.</li> </ul>	<p>potential increase in residents and businesses?</p>
<b>Support for small BIPOC owned businesses</b>			
<ul style="list-style-type: none"> <li>• Ability to maintain and acquire spaces for small BIPOC owned businesses.</li> <li>• More education, mentoring, consultation, and community investment</li> </ul>	<ul style="list-style-type: none"> <li>• Policies support growth locating in the urban centers: White Center Unincorporated Activity Center, Roxhill Community Business Center, Top Hat Community Business Center, Beverly Park Neighborhood Business Center in Glendale, and a new Community Business Center in Glendale.</li> <li>• Policies and a new Special District Overlay encourage an environment in White Center’s</li> </ul>	<ul style="list-style-type: none"> <li>• Policies, map amendments and development conditions support retaining the character of the White Center core commercial area. This is to encourage supporting the ability of existing small, BIPOC businesses to</li> </ul>	<ul style="list-style-type: none"> <li>• Will these measures increase land values and commercial rents, making them out of reach for small businesses?</li> <li>• Are there adequate safeguards in place to reduce the risk of unintended consequences that</li> </ul>

What the team heard	Proposals in the North Highline Subarea Plan and Map Amendments	Intended outcome	Questions
<ul style="list-style-type: none"> <li>Economic opportunity for youth to learn job skills.</li> </ul>	<p>organizations to provide additional programs for North Highline residents.</p>	<p>outcomes for students and their families.</p> <ul style="list-style-type: none"> <li>By being sensitive to designing programs and spaces that are culturally appropriate, the diversity and heritage of the community is celebrated, and there is a reduced threat of cultural displacement,</li> </ul>	
<p><b>Community Safety</b></p> <ul style="list-style-type: none"> <li>Increased safety and less punitive measures but more preventative strategies to address crime and drug use.</li> <li>More safety resources for community: Security devices, non-police security, increased lighting.</li> <li>Improve walkability and bike-ability of community so it can be more accessible for those without cars.</li> <li>Community did not see safe injection site being a priority for the</li> </ul>	<ul style="list-style-type: none"> <li>Policy and zoning amendments limit the number of marijuana retail businesses in North Highline to help avoid negative impacts in the community.</li> <li>Policies in the Subarea Plan encourage increased housing density and increased mixed-use development in or adjacent to commercial areas and along or close to transit routes. Hand-in-hand with encouraging density in areas close to transit is the need to provide a positive experience, for those who are able to use active forms of transportation, as the increased densities for development will be accompanied with reduced requirements for parking.</li> <li>Policies and zoning map amendments and development conditions encourage additional residential development in commercial areas which will increase “eyes-on-the street.”</li> <li>Policies encourage an environment that supports walking, transit and biking for travel within, to and from North Highline, to support the local economy, access to opportunities, health benefits</li> </ul>	<ul style="list-style-type: none"> <li>Make spaces that feel safe and welcoming and collocate residential units with businesses to provide more “eyes-on-the street”.</li> </ul>	

What the team heard	Proposals in the North Highline Subarea Plan and Map Amendments	Intended outcome	Questions
<p>White Center community.</p>	<p>and the continued vibrancy of the North Highline community.</p> <ul style="list-style-type: none"> <li>• Policies support accessing funds for community infrastructure and other community development needs. While not directed in the Plan, depending on funding sources, priorities, and consistency with King County Comprehensive Plan policies, this may provide support for funding community-identified safety measures.</li> <li>• Proposed code amendments, with new, or amended development conditions known as Special District Overlays (“SDOs”) apply pedestrian-oriented development standards, and parking standards in commercial areas to encourage development of more walkable and bikeable spaces.</li> <li>• The North Highline Community Needs List is designed in part to provide an avenue for actions that can support implementing Subarea Plan policies. Community safety issues raised by the community will be considered in development of the prioritized list of actions for the North Highline Community Needs List.</li> </ul>		

2430

2431 **Equity Analysis of Proposed Policies, Land Use and Zoning Map Amendments, and**  
2432 **Development Conditions**

2433 The following table considers how the Plan and associated land use and zoning map  
2434 amendments, and development conditions may directly or indirectly impact access to each of  
2435 the determinants of equity, and how the Plan's content may affect distributional equity and inter-  
2436 generational equity for the determinants of equity. The development of the Plan is centered on  
2437 community and equity and social justice, with the Plan provisions intended to support a  
2438 community where median household incomes are almost 50% of King County's median  
2439 household income, with almost double the rate of households in North Highline below the  
2440 poverty line compared with the rate in King County.

2441 The White Center Community Development Agency (WCCDA) was hired by the County to  
2442 complete community engagement on later stages of the Subarea Plan development and the  
2443 Community Needs List development for North Highline. The WCCDA is part of the North  
2444 Highline community and works with the community to improve the lives of those that live and  
2445 work in White Center. As a community-based organization, it has the skills, tools, and  
2446 connections to reach out authentically to hear and capture the voices of North Highline  
2447 community members – particularly those that do not traditionally participate in planning  
2448 processes. Working in partnership with the WCCDA and other community organizations and  
2449 community members in developing the Plan supports meeting the goal of process equity: an  
2450 inclusive, open, and fair process with meaningful opportunities for input. Additionally, the  
2451 County's commitment to engaging with and listening to the community's voices is included in the  
2452 following policy: ensure that North Highline residents and businesses have opportunities to  
2453 engage as development occurs, in ways that support and build community capacity to maintain  
2454 and enhance the character of the neighborhoods in the subarea, through means such as  
2455 community meetings, public noticing requirements, and permit submittal requirements.

2456 North Highline's honor of its diversity, respect for its heritage and for the first people on the land,  
2457 and its rootedness in values of equity and inclusiveness is perfectly captured in its community  
2458 vision statement:

2459 *Residing on the traditional land of the Duwamish people, North Highline celebrates its*  
2460 *ethnic diversity, inter-generational roots and our ongoing inclusivity of diverse families*  
2461 *and individuals, especially those most isolated and vulnerable. We call out race and*  
2462 *place-based inequities and are committed to dismantling systems of power, privilege,*  
2463 *and racial injustice. With mutual support and respect, we value and live out our brilliance*  
2464 *and power through community-led initiatives, creating thoughtful development without*  
2465 *displacing longtime residents and small business owners, forming, and owning the*  
2466 *policies that impact us, and building our individual and collective wealth, health and well-*  
2467 *being.*

2468

<b>Determinant of Equity</b>	<b>Brief Description from KC Office of Equity and Social Justice</b>	<b>Potential of the North Highline Subarea Plan to influence the Determinants of Equity</b>
Early Childhood Development	Early childhood development that supports nurturing relationships, high quality, affordable childcare, and early learning opportunities that promote optimal early childhood development and school readiness for all children.	<p>Children have unique needs and circumstances, and places that provide safe, healthy, and accessible environments for early childhood development are often an indicator that they are beneficial communities for people of all ages.</p> <p>There are disparities in income between people of different races and ethnicities within North Highline, and between households in North Highline and households across King County. This may be expected to affect equity in access to early childhood development opportunities, impacting distributional equity, and cross-generational equity in access to opportunity for residents of North Highline.</p> <p>Map amendments and development conditions encourage more commercial, mixed-use development. Since childcare facilities are an allowed use in commercially-zoned areas, there is the potential that the supply of such facilities could increase and could be a benefit to families who can afford the care.</p> <p>The Plan includes policies directing King County to work with and support the Highline School District and local service agencies in providing health and human services, to the community, and other services that support the community's wellbeing.</p>
Education	Education that is high quality and culturally appropriate and allows each student to reach his or her full learning and career potential	<p>There are disparities in income between people of different races and ethnicities within North Highline, and in income between households in North Highline and households across King County. This may be expected to affect equity in access to a range of school choices and educational opportunities, impacting access to opportunity for residents of North Highline, and ability to generate wealth.</p> <p>English-speaking ability may also be expected to impact access to education. In North Highline, approximately 22% of the population is estimated to have limited English-speaking ability. This compares to approximately 11% of the population of King County as a whole.</p>

<b>Determinant of Equity</b>	<b>Brief Description from KC Office of Equity and Social Justice</b>	<b>Potential of the North Highline Subarea Plan to influence the Determinants of Equity</b>
		<p>The Subarea Plan has limited potential to directly influence equity in access to education. However, policies support partnering with community organizations to support delivery of educational programs in North Highline, leveraging King County-owned parks facilities, and partnering with Highline School District and other agencies and organizations to improve outcomes for students and their families.</p> <p>North Highline’s median household incomes are almost 50% of King County’s median household income, with almost double the rate of households in North Highline below the poverty line compared with the rate in King County. By supporting access to educational programs in the Plan, there is the potential for greater distributional and inter-generational equity for households in North Highline than might otherwise be achieved for households in the community without policy that supports access to opportunity.</p>
Race & Ethnicity	Food systems that support local food production and provide access to affordable, healthy, and culturally appropriate foods for all people.	<p>There are disparities in income between people of different races and ethnicities within North Highline, and in income between households in North Highline. This may be anticipated to affect equity in access to a range of healthy food sources and choices.</p> <p>While provision of places supplying food on a commercial basis is determined by market forces, the Subarea Plan may have the potential to influence access to food systems for both new and existing residents. Access to a healthy diet will influence overall health and ability to access opportunity.</p> <p>Policies in the Plan support access to healthy, affordable, and culturally-relevant foods, including spaces where healthy foods can be grown by encouraging grocery stores, small markets, farmers markets, urban farms, and community gardens.</p> <p>And the Subarea Plan encourages more commercial, mixed-use development. Since grocery stores and restaurants are an allowed use in commercially-zoned areas, there is the potential that the supply of such</p>

<b>Determinant of Equity</b>	<b>Brief Description from KC Office of Equity and Social Justice</b>	<b>Potential of the North Highline Subarea Plan to influence the Determinants of Equity</b>
		<p>facilities could increase. However, these healthy food sources may be less affordable than convenience stores and fast-food restaurants that exist or remain. Response to changes in zoning will be determined by the market, and the Subarea Plan does not directly affect the quality or affordability of food sources.</p> <p>The Plan also includes policies, zoning and development regulations intended to retain the character of commercial areas in North Highline. It's in these areas where grocery stores and food sources that are culturally appropriate to residents of North Highline are often located.</p>
Parks and Natural Resources	Parks and Natural Resources that provide access for all people to safe, clean, and quality outdoor spaces, facilities and activities that appeal to the interest of all communities.	<p>North Highline has 6 County parks with facilities supporting passive and active recreation, and the County also runs the White Center Teen program from the Steve Cox Memorial Park. The community also includes open space, the Duwamish riverfront, stream drainages and lakes, including Lake Hicks. While the Plan does not include policies or map amendments to deliver specific new parks or open space, it does include policies that support seeking opportunities for tree planting and installation of green infrastructure to improve human health and environmental conditions, opportunities to provide additional, culturally appropriate gathering spaces, including parks, and pocket parks and partnering with organizations to provide additional programs for North Highline residents.</p> <p>Additionally, on-site recreation areas are required to be provided under certain forms of new development. The Plan also proposes amendments to add the "Open Space" land use designation to several properties which will ensure their inclusion in the King County Parks system in perpetuity.</p> <p>Access to places to recreate and be in nature will influence overall health thereby influencing ability to access opportunity. Policies prioritize safe and inviting walking and bicycling throughout North Highline to connect residents to transit facilities, North Highline commercial areas, local parks and open spaces, North Highline schools, and other local destinations.</p>

<b>Determinant of Equity</b>	<b>Brief Description from KC Office of Equity and Social Justice</b>	<b>Potential of the North Highline Subarea Plan to influence the Determinants of Equity</b>
		<p>As with all of the policies included in the Plan, implementation will consider funding availability, resources, and other factors. Sidewalk provision within residential neighborhoods, and linking residential neighborhoods to commercial services, transit and community amenities continues to be one of the highest priorities for the North Highline community.</p>
<p>Built and Natural Environment</p>	<p>Healthy built and natural environments for all people that include mixes of land use that support jobs, housing, amenities, and services; trees and forest canopy; and clean air, water, soil, and sediment.</p>	<p>There are disparities in income between people of different races and ethnicities within North Highline, and in income between households in North Highline and households across King County. This disparity affects equity in access to choices in renting or owning homes, choices in and location of housing, and the ability to access jobs and amenities.</p> <p>The Plan has a high potential to influence equity in access to buildings and natural environments that support health. The Plan includes land use and zoning amendments that encourage development of more housing, a range of housing options, including additional, affordable residential development opportunities on transit corridors. Commercial, mixed-use, and pedestrian-friendly development is encouraged by the Plan with supporting policies, zoning, and other regulations. The Plan also includes policy support for additional focus on enhancements in active transportation infrastructure, as well as other community infrastructure required to meet the community’s development needs.</p> <p>The community has identified that access to affordable housing and avoiding displacement are significant concerns. And the Plan includes policies, land use and map amendments and development conditions that are designed to mitigate and stem the threat of displacement.</p> <p>Policies support retaining and increasing housing availability for individuals and families in a range of different socio-economic situations and integrating households with different economic backgrounds. There is a focus on approaches and supporting resources and programs that can help prevent displacement, and that recognize the bonds within communities that can be disrupted, and the unique needs within a diverse community.</p>

<b>Determinant of Equity</b>	<b>Brief Description from KC Office of Equity and Social Justice</b>	<b>Potential of the North Highline Subarea Plan to influence the Determinants of Equity</b>
		<p>Policies also support opportunities for wealth generation within the community, that can be achieved when housing – both rental and ownership – is not out of reach of residents within a community, and that all housing should be safe and in good condition and policies support accessing funds for community infrastructure and other community development needs.</p> <p>Land use policies, land use and zoning map amendments and development conditions are designed to support the small business environment that is cherished in North Highline, and policies also supporting retention of industrial uses in Glendale, supporting access to jobs.</p> <p>With respect to the built environment for human services, the Plan does not directly include policy support or map amendments that address provision of additional structures in North Highline; policies address partnering in provision of human service programs.</p> <p>Policies in the plan support tree planting and addition of green infrastructure to support water and air quality and to reduce the heat island affect. By influencing the development of additional jobs, services, and housing in North Highline, and on transit corridors, the Plan can indirectly support reduction in greenhouse gas production through provisions of opportunities to access transit and reduce car miles traveled. Existing regulations in King County Code and standards govern how tree and tree canopy, water, soil, and sediment are addressed when development is proposed.</p>
Transportation	Transportation that provides everyone with safe, efficient, affordable, convenient, and reliable mobility options including public transit, walking, carpooling, and biking.	There are disparities in income between people of different races and ethnicities within North Highline, and in income between households in North Highline and households across King County. This may be anticipated to affect equity in access to different modes of transportation, which could further limit equity in access to transportation. The Plan has a potential to influence equity in access to transportation and transit for existing and new residents. Land use and zoning amendments, such as

Determinant of Equity	Brief Description from KC Office of Equity and Social Justice	Potential of the North Highline Subarea Plan to influence the Determinants of Equity
		<p>increases in residential density along transit corridors, have the potential to enable more people to live within easy walking distance of frequent transit service. Additionally, with changes to development there is more likelihood of increases in provision of community assets such as sidewalks and pedestrian networks or street lighting that can improve walkability and perceptions of safety. Such changes could result in increased access to transit for both new and existing residents.</p>
Community Economic Development	Community Economic Development that supports local ownership of assets, including homes and businesses, and assures fair access for all to business development and business retention opportunities	<p>There are disparities in North Highline based on household incomes, whether households are cost-burdened, and in terms of race and ethnicity. North Highline’s median household incomes are almost 50% of King County’s median household income, with almost double the rate of households in North Highline below the poverty line compared with the rate in King County. This has the potential to limit access to homeownership and business ownership. Provisions in the Plan are intended to increase the opportunity for ownership of homes by creating opportunities for increased housing and options for different types of housing.</p> <p>Additionally, the Plan supports retention of existing business and creation of additional business by supporting opportunities for businesses to access resources and services that can help them grow. Proposed King County Code amendments apply pedestrian-oriented development standards, parking standards, and in some cases, building height requirements. The intended outcome is to encourage retention of spaces for small businesses and encourage a pedestrian friendly environment in commercial areas in the Subarea, and to connect the downtown core of White Center with nearby community amenities, taking advantage of transit routes.</p> <p>In large part, market forces will determine uptake of opportunities created in the Subarea Plan and the results may benefit both existing and new residents.</p>
Neighborhoods	Neighborhoods that support all communities and individuals through strong social networks, trust among neighbors and the	Highest priorities in the community are reducing the risks and mitigating the impacts of residential, economic, and cultural displacement.

<b>Determinant of Equity</b>	<b>Brief Description from KC Office of Equity and Social Justice</b>	<b>Potential of the North Highline Subarea Plan to influence the Determinants of Equity</b>
	ability to work together to achieve common goals that improve the quality of life for everyone in the neighborhood.	Policies, land use and zoning map amendments and development conditions are all designed to support and amplify the ability of current residents and future generations to thrive within their neighborhoods in North Highline.
Housing	Housing for all people that is safe, affordable, high quality and healthy.	<p>Households that rent are more likely to have lower incomes and to experience a housing cost burden. These are both factors that potentially increase susceptibility to economic and physical displacement in areas of neighborhood change.</p> <p>There are disparities in income between people of different races and ethnicities within North Highline, and in income between households in North Highline and households across King County. This may be anticipated to affect equity in access to choices in renting or owning homes. In particular, the elderly and disabled are populations that can be impacted if housing options that allow aging-in-place and access to services are limited.</p> <p>While it will largely be the market that determines housing development, the Plan has a high potential to influence equity in access to housing for all people that is safe, affordable, high quality and healthy.</p> <p>The Plan includes zoning changes to encourage development of more housing, and a range of housing options, including additional residential development opportunities on or adjacent to transit corridors and in or adjacent to commercial areas.</p> <p>The Plan also includes policy support creation of a mandatory housing affordability program within the White Center Unincorporated Activity Center. If developers choose to build housing in the activity center, the requirements could result in additional supply of affordable housing options. However, if the rules are not economically viable for developers, even nonprofit developers, the supply of affordable housing will likely decrease because market rents will likely rise, and requirements for mandatory affordable housing delivery may “chill” development of housing,</p>

<b>Determinant of Equity</b>	<b>Brief Description from KC Office of Equity and Social Justice</b>	<b>Potential of the North Highline Subarea Plan to influence the Determinants of Equity</b>
		<p>until projects can “pencil out,” and be economically viable for the developer.</p> <p>Provisions in the Subarea Plan that have the intent to support low-income households and other populations of concern in benefiting from new and redevelopment in North Highline, with the objective of reducing displacement risk, include increasing the overall supply of housing, the range of housing types, providing family sized units, and providing culturally-supportive housing for elders. Additionally the plan includes provisions for creating additional units under an inclusionary housing program which will give a “community preference” for unit allocation to people with a tie to North Highline.</p>
Community and Public Safety	Community and public safety that includes services such as fire, police, emergency medical services and code enforcement that are responsive to all residents so that everyone feels safe to live, work and play in any neighborhood of King County.	<p>The Plan has limited potential to directly influence equity in access to community and public safety facilities and services. The Plan is required to be inclusive of the scope of the King County Comprehensive Plan, developed under the Washington State Growth Management Act . The Growth Management Act and the King County Comprehensive Plan do not include provisions that directly relate to community and public safety.</p> <p>The Plan does include policies that support seeking funding and investments in infrastructure and amenities that serve the community’s well-being as a whole. Successful application for funding may increase the ability to support the community community-identified interests in provisions of additional safety measures including increased street-lighting and sidewalks.</p>
Law and Justice	A law and justice system that provides equitable access and fair treatment for all.	The Plan has limited potential to influence this determinant of equity.

2469

2470 This is not a complete analysis of all the potential outcomes associated with each determinant,  
2471 but rather an illustration of how the Plan relates with the realization of these determinants in a  
2472 community. This phase of the Equity Impact Review, “Analysis and Decision” considers how the  
2473 intended outcomes of the Subarea Plan, guided by community input, and expressed through  
2474 policies, map amendments and development conditions in the North Highline Subarea Plan may  
2475 affect the 3 frameworks of equity: Distributional equity, process equity, and cross-generational  
2476 equity. The analysis in Phase 3 also considers the potential for the Subarea Plan to have  
2477 unintended consequences that negatively impact access to equity, such as displacement, and  
2478 provisions in the Subarea Plan that are intended to reduce this potential.

2479

## 2480 Appendix C: Community Engagement

### 2481 Introduction

2482 Development of the North Highline Subarea Plan was guided by wide-ranging community input.  
2483 The engagement program focused on building capacity, creating opportunities for meaningful  
2484 input, and facilitating participation in the planning process by residents who reflect the diversity  
2485 of the area, including those who have not historically been included in community planning.

2486 The public engagement process included discussions with local businesses. In addition,  
2487 community groups such as the North Highline Unincorporated Area Council, the White Center  
2488 Community Development Association (WCCDA), youth at the White Center Teen Program, and  
2489 Evergreen High School. Spanish, Vietnamese, and Khmer language communities were also  
2490 engaged in this process. Seniors at King County Housing Authority-Greenbridge provided their  
2491 feedback as well as many others. Because they are the experts in the assets and needs in their  
2492 neighborhoods, the communities' contributions were central to the scope and content of the  
2493 subarea plan. The County engaged in dialogue and worked with the community to form the plan  
2494 which included the phases of engagement described below.

2495 The following is a summary of community engagement completed during the several phases of  
2496 development of the Subarea Plan leading up to its adoption. More information is included in the  
2497 Equity Impact Review in Appendix B.

### 2498 Phase 1: Community Engagement

2499 In 2019 and 2020, King County sought to learn about the land use priorities and concerns of the  
2500 residents of North Highline. This coincided with the Subarea Plan scope focusing on land use.  
2501 This phase of plan community engagement included a handful of different stages:

2502 **Stage 1:** Early in the development of the Plan planners met with the WCCDA and other  
2503 community partners to get direction on how best to engage with the North Highline community  
2504 about the plan to ensure that all community members had access to meaningful experiences  
2505 with engagement associated with the project, Based on feedback received from these agencies,  
2506 the County had 2 goals for its first stage of public engagement which occurred from July to  
2507 October 2019:

- 2508 • **Share knowledge with the community** about the purpose and function of land use and  
2509 zoning in North Highline. It was important to create a general understanding of key  
2510 concepts before discussing potential changes to existing regulations.
- 2511 • **Seek guidance from the community** to inform the development of subarea plan land  
2512 use and zoning proposals.

2513 Staff members gathered feedback by hosting and attending county-led meetings, attending  
2514 existing community meetings, holding one-on-one interviews with community leaders, hosting  
2515 office hours in North Highline, and going door-to-door in commercial neighborhoods. The  
2516 County also posted an online survey asking about the community's priorities and concerns.

### 2517 Communities engaged during early work on the North Highline Subarea Plan:

- 2518 • Spanish, Vietnamese, Khmer, and Somali Language Communities (interpretation  
2519 provided at 8 meetings and events; summary documents translated)

- 2520 • Business owners and operators (White Center Chamber of Commerce, county-hosted  
2521 business focus groups)
- 2522 • Schools and youths (Highline Public Schools, Rainier Prep, Evergreen High School,  
2523 Beverly Park Elementary, Mount View Elementary, White Center Teen Program)
- 2524 • Seniors (Nia community meeting)
- 2525 • Renters and low-income households (Greenbridge [King County Housing Authority]  
2526 Resident Community Council)
- 2527 • Community organizations (WCCDA, North Highline Unincorporated Area Council)

2528 **Stage 2:** Building on the work completed in the first stage, the second stage of public  
2529 engagement in Phase 1 focused on the following goals from January to May 2020:

- 2530 • Receiving feedback from the community on the draft land use and zoning proposals
- 2531 • Reflecting on the successes and areas for improvement in the first phase of public  
2532 engagement

2533 In Stage 2, emphasis was on continuing to provide neighborhood-specific examples of different  
2534 land use policy outcomes and development types, attending existing community meetings to  
2535 reach the broadest audience possible, being transparent about the decision-making process,  
2536 and being realistic about the potential effects the proposals would have on the community.

2537 The following summary of community feedback was shared at a community open house in  
2538 January 2020:

2539 **Community values**

- 2540 • Diversity
- 2541 • Inclusivity
- 2542 • Affordability
- 2543 • Self-reliance and creativity
- 2544 • Vibrant and small business community
- 2545 • Green spaces
- 2546 • Family friendliness
- 2547 • Places where everyone comes together

2548 **Community concerns**

- 2549 • Housing affordability
- 2550 • Displacement, especially of long-term residents and businesses owned by people of color
- 2551 • Public safety
- 2552 • Cleanliness
- 2553 • Addressing homelessness
- 2554 • Lack of parking in commercial areas
- 2555 • Pedestrian safety and lack of sidewalks, specifically on school walking routes and within  
2556 residential neighborhoods
- 2557 • Effect of growth on infrastructure

2558 **Community assets**

- 2559 • Parks (Steve Cox Memorial Park, Dick Thurnau Memorial Park, White Center Heights
- 2560 Park)
- 2561 • Dubsea Coffee
- 2562 • White Center and Greenbridge Libraries
- 2563 • 16th Avenue SW businesses

2564 **Phase 2: Community Engagement**

2565 Phase 2 ran from mid-2020 to fall 2021. By this point, the scope of the subarea planning  
2566 program had been broadened with the adoption of King County Ordinance 19146<sup>71</sup>.  
2567 Engagement focused on non-land use policy areas raised as issues of importance by the  
2568 community. This second phase of community engagement was also combined with community  
2569 conversations about the development of the Community Needs List and the County’s Skyway-  
2570 West Hill and North Highline Anti-Displacement Strategies Report. This phase followed several  
2571 overlapping stages:

2572 **Stage 1: Community engagement plan** – An updated community engagement plan was  
2573 created with input from several community leaders, as well as the King County Office of Equity  
2574 and Social Justice. There was an intentional focus on ensuring that the diverse and historically  
2575 underrepresented voices of the community were reflected in the subarea plan development.

2576 **Stage 2: Electronic surveys and other outreach** – This phase of engagement began at  
2577 almost the same time as the COVID-19 pandemic. In-person meetings and gatherings were  
2578 prohibited for almost 2 years to protect public health. While the pandemic stopped most face-to-  
2579 face community engagement, it also opened opportunities to reach more voices through  
2580 electronic engagement. An online engagement hub included an embedded translation service  
2581 that translated the information into the most prevalent non-English languages spoken in North  
2582 Highline. The online survey was revised several times to keep the content fresh and draw new  
2583 voices to the platform.

2584 Knowing that not all people have equal access to technology, the County used a variety of  
2585 methods to reach communities and get input from those who cannot easily receive information  
2586 or participate electronically. Postcards offering a phone number to provide input on community  
2587 priorities were sent to every mailing address in the subarea. In addition to English, the postcard  
2588 message was translated into the top four non-English languages spoken in North Highline  
2589 (Spanish, Vietnamese, Somali, and Khmer).

2590 King County’s online surveys on the platform PublicInput.com<sup>72</sup> generated a significant amount  
2591 of input. The platform included an interactive map where viewers could identify the locations of  
2592 specific needs and provide input in comment boxes. The site went live in August 2020, and by  
2593 the time all the input had been collected at the end of March 2021, more than 300 comments  
2594 had been submitted, with many commenters covering multiple topics.

2595 During the survey period, a second survey posted on the platform asked community members  
2596 to prioritize the topics that had been raised to date. The initial survey deadline was extended to  
2597 the end of March 2021, and in late spring of that year the input received was reviewed in  
2598 combination with the work on prioritizing, earlier work with the community since the start of the  
2599 project in 2019, as well as other community initiatives and plans that had been completed over  
2600 the years. This expanded review allowed the County to consider which topics are repeatedly

2601 being raised over the years by the North Highline community. By this time, community input  
2602 received during the anti-displacement workshop series could also be incorporated.

2603 From this review, the following products were created in mid-2021 to capture community-raised  
2604 interests. The first, a “Top Ten” list of topics was prepared by staff for potential use in a County-  
2605 organized workshop, represented topics that appeared to have the greatest resonance in the  
2606 community. The items on the list included:

- 2607 • Install sidewalks and streetlights
- 2608 • Improve transit services
- 2609 • Invest in roadway improvements
- 2610 • Provide affordable housing while retaining neighborhood character
- 2611 • Address resident and business displacement
- 2612 • Provide culturally appropriate services and assistance to the diverse community
- 2613 • Increase neighborhood clean-up
- 2614 • Improve downtown White Center amenities
- 2615 • Increase access to childcare and early childhood education
- 2616 • Support park and recreation amenities and programs

2617 Other topics, in addition to those identified above, included: addressing impacts to traffic with  
2618 West Seattle Bridge closure, retaining residential zoning in the South Park “sliver,” prioritizing  
2619 annexation, providing crisis response services and additional community service response  
2620 officers, increasing night patrols, hire more police of color representing the community at large,  
2621 provide housing and services for the homeless, ensure infrastructure and services match with  
2622 increased growth, and increase bike lanes.

2623 With the breadth of community input and interests identified—and with work underway to draft  
2624 policies for the North Highline Subarea Plan—as well as further prioritization needed for the  
2625 development of a Community Needs List for North Highline, County staff categorized topics of  
2626 community interest into 27 themes, as noted below:

Honor North Highline’s diversity	Improve roadway conditions	Provide more and new amenities and recreational programs at park facilities	Protect the vibrant small business community
Protect and increase availability of affordable housing	Increase infrastructure and facilities supporting safety and accessibility for pedestrians and those using other non-motorized modes of transport	Provide additional open space	Protect the character of residential neighborhoods
Provide wealth-generating opportunities	Fix speeding and traffic issues	Provide more affordable childcare options and more options for early education	Retain the charm of downtown White Center with its local businesses, diversity, and landmarks while

			improving its amenities
Increase access to opportunities, amenities, and benefits	Increase availability and affordability of childcare and early childhood education	Provide afterschool programs and programs targeted for youth	Promote and support artists
Improve aesthetics	Reduce the risk of economic and cultural displacement.	Provide a community center and community gathering spaces	Recognize First Nations
Improve public safety	Support people experiencing homelessness	Increase fixed-route transit service east to west and into downtown Seattle.	Protect and restore the natural environment
Improve civic engagement	All or part of North Highline annexed		

2627  
2628 Items included in the “Themes” were left unfiltered in terms of whether the County (or other  
2629 agencies) have programs or initiatives in place or planned to address the items captured. The  
2630 intention was to capture items even when they might be outside of the scope of County areas of  
2631 business. That way, the County could reach out to other parties to raise the North Highline  
2632 community-raised interests.

2633 **Stage 3: Skyway West Hill and North Highline Anti-displacement Strategy Report**

2634 In preparation for writing the Skyway-West Hill and North Highline Anti-displacement Strategies  
2635 Report, the County’s interdepartmental workgroup engaged closely with community members  
2636 and residents to hear their ideas and understand their concerns regarding displacement. The  
2637 overarching goal of the engagement was to collaboratively shape the anti-displacement  
2638 recommendations to reflect the communities’ priorities.

2639 While King County staff strived to engage the community in multiple ways, the COVID-19  
2640 pandemic created challenges for engaging with the community. All workshops were held  
2641 virtually and staff could not perform in-person outreach. Many community members have been  
2642 economically, physically, and mentally impacted by the pandemic, understandably limiting some  
2643 community members’ capacity to engage with this process. Additionally, a mostly virtual  
2644 approach to community outreach limits engagement from community members whose preferred  
2645 method of engagement is in-person.

2646 Translation of written materials and interpretation was offered at the first 3 workshop sessions in  
2647 Spanish, Somali, and Vietnamese, which are the most-spoken languages other than English in  
2648 Skyway-West Hill and North Highline.<sup>73</sup> Unfortunately, Zoom had limited capability to adequately  
2649 accommodate and support language access services for all languages in channels. In-language  
2650 support was used by fewer than 10 community members per meeting. County staff is assessing  
2651 outreach methods that would increase limited English proficient community participation.

2652 The following methods were used to engage with community members. County staff collected  
2653 community input from October 2020 through April 2021.

2654 **Community Facilitators**

2655 A community facilitator team consisting of 7 community leaders representing 6 community-  
2656 focused organizations in Skyway-West Hill and North Highline that are rooted in communities  
2657 most impacted by displacement. Community facilitators were paid for their time and played a  
2658 critical role in the process, contributing approximately 30 to 45 hours over 6 months to co-  
2659 designing the curriculum for the Anti-displacement Workshop Series, co-facilitating 5 out of the 6  
2660 community meetings, providing in-language facilitation in Spanish, Vietnamese, and Somali as  
2661 needed, initiating a community work session to develop community-led recommendations, and  
2662 providing feedback and strategic guidance on the draft recommendations to County staff.

2663 **Anti-displacement Workshop Series**

2664 In the fall of 2020, County staff and community facilitators designed and hosted three workshops  
2665 to review the anti-displacement strategies identified in King County Motion 15539 and Action 19  
2666 of the Comprehensive Plan update. Over 40 community members participated in the fall  
2667 workshop series.

2668 **Community Work Sessions & Discussions**

2669 In January 2021, 35 community members came together with the community facilitators to  
2670 generate community-led recommendations and provide feedback to County staff about the  
2671 proposed anti-displacement strategies. Community members also identified other ideas and  
2672 areas of concern outside of the proposed anti-displacement strategies. In March 2021, the  
2673 interdepartmental workgroup hosted another workshop to further explore inclusionary zoning  
2674 strategies. Community members reviewed and provided input on different options for an  
2675 inclusionary zoning policy. In April 2021, the County hosted a community meeting to review the  
2676 draft anti-displacement recommendations, answer questions, and gather final input. The  
2677 numerous discussions with the community shaped the recommendations of this report.

2678 **Skyway Youth Leadership Council & Youth Survey**

2679 From January to April 2021, King County staff partnered with the Skyway Youth Leadership  
2680 Council (SYLC), a youth leadership organization comprised of 9 youths aged 13 to 24 years old  
2681 who live in the Skyway area, to collect input on anti-displacement strategies from young people  
2682 living in Skyway-West Hill and North Highline. After learning about the potential anti-  
2683 displacement strategies, the SYLC decided to focus on Community Preference, Priority Hire,  
2684 and Community Land Trusts. The SYLC created and launched a survey to understand how  
2685 youth are impacted by displacement and gather input on these three strategies. Forty youth  
2686 from Skyway-West Hill and North Highline responded to the survey. Almost half of the  
2687 respondents had experienced some form of displacement. Many youths shared concerns that  
2688 housing is too expensive, and they need financial assistance with rent and bills.

2689 **Interviews with Immigrant and Refugee Community Organizations**

2690 The interdepartmental workgroup had in-depth dialogues with several organizations serving  
2691 immigrant and refugee communities in the Skyway-West Hill and North Highline neighborhoods.  
2692 Staff met with 35 Vietnamese elders who shared their challenges accessing housing, a desire  
2693 for a community gathering space located near affordable housing, and need for accessible  
2694 transportation options. Staff also met with the Khmer Community of Seattle/King County who  
2695 shared the Khmer community's need for a community gathering space, culturally appropriate  
2696 housing, deeply affordable housing, and homeownership options. Finally, staff met with the  
2697 Duwamish Valley Affordable Housing Coalition who shared that Latinx immigrant communities  
2698 in North Highline need accessible and affordable homeownership options specifically targeted  
2699 toward immigrants, as well as community-owned projects and zoning changes that meet the

2700 needs of community-owned affordable housing projects. While not all the community members  
2701 participating were Skyway-West Hill residents, some were, and their willingness to share their  
2702 lived experience was instrumental in informing the priorities contained within the Subarea Plan.

2703 **Online Surveys and Social Media**

2704 County staff administered an online public input survey from late September 2020 through mid-  
2705 April 2021. Staff also sent surveys out after each workshop to gather more in-depth feedback  
2706 from community members. Survey outreach was incorporated into the community engagement  
2707 performed for the subarea planning work. Over 40 community members completed the surveys.  
2708 The survey respondents reported that anti-displacement needs to be a top priority for King  
2709 County, with a strong emphasis on the development of affordable housing, creating  
2710 homeownership opportunities, and exploring innovative strategies like investing in community  
2711 land trusts.

2712 **Anti-displacement Strategies Toolkit & Online Resource Hub**

2713 In addition to online surveys, the County used the Anti-displacement Public Input webpage as a  
2714 way to document the community process and to create an online resource hub with links to  
2715 materials including a glossary of terms, important background documents, explanations of each  
2716 strategy, workshop presentation slides, and workshop video recordings.<sup>74</sup> All materials, including  
2717 those translated into Somali, Spanish, and Vietnamese, were also available on Google Drive in  
2718 the form of an Anti-displacement Strategies Toolkit to maximize the accessibility and  
2719 shareability of the resources.<sup>75</sup> The Anti-displacement Strategies Toolkit also included case  
2720 studies of similar programs and policies in other cities.

2721 **Community Priorities from the Anti-Displacement Workshops**

2722 The below community priorities emerged from the community engagement process:

- 2723 1. Increase public investment in affordable housing:
- 2724 • fund permanently affordable homeownership units for households at 50% through  
2725 80% of AMI
  - 2726 • build affordable rental units for households at or below 60% of AMI
  - 2727 • finance community-driven development projects
  - 2728 • provide funding for strategic land acquisition for community development
  - 2729 • create mixed-use developments with affordable housing, commercial and non-profit  
2730 office space, and community gathering space
  - 2731 • preserve manufactured home communities in Skyway-West Hill
  - 2732 • increase housing options and types in Skyway-West Hill and North Highline, such as  
2733 allowing and investing in accessory dwelling units (ADUs), family size units, and  
2734 culturally specific affordable housing for immigrant and refugee elders
- 2735 2. Enact policies and programs that prevent displacement, protect tenants, and prioritize  
2736 neighborhood residents:
- 2737 • prioritize current and past residents for new affordable housing units
  - 2738 • connect eligible homeowners with home repair and property tax exemption programs

- 2739 • provide eviction prevention and rental assistance for low-income renters and  
2740 implement tenant protections
- 2741 • provide down payment assistance for low-income home buyers
- 2742 • reduce commercial displacement and support economic development opportunities  
2743 for current residents
- 2744 3. Increase access to opportunities, amenities, and benefits to current residents when  
2745 private development happens:
  - 2746 • build more mixed-income developments
  - 2747 • Increase density or other incentives in exchange for affordable units, especially in the  
2748 commercial core
  - 2749 • maintain building scale, adequate parking, and access for elders and people with  
2750 disabilities as density increases

#### 2751 Stage 4: North Highline Community Voices Project

2752 Under a project called Community Voices, the County contracted with WCCDA to partner in  
2753 engaging with the community on a number of planning projects, including engagement on the  
2754 Subarea Plan, the Community Needs List, anti-displacement strategies initiatives, and  
2755 development of design standards for non-residential development in North Highline.

2756 The WCCDA reached out to the community, particularly groups that do not traditionally  
2757 participate in planning processes, to seek input on several areas. More detail on the outreach  
2758 completed by the WCCDA is included in the Equity Impact Review in Appendix B.

2759 Briefly, the County asked the WCCDA to consider whether the County had accurately captured  
2760 community concerns and interests, in advance of issuing the Public Review Draft (PRD) for  
2761 comment. Policies, land use and zoning map amendments, and development conditions  
2762 proposed in the PRD were drafted to respond to community input. The County wished to make  
2763 sure that the community was seeing its voices and interests included in the plan and that  
2764 proposed amendments were reflecting community interests.

2765 Secondly, as the community vision statement had been drafted in 2020, when the Subarea Plan  
2766 focused on land use and not the broader range of topics subsequently considered, the County  
2767 wished to seek community input on the draft vision statement and edits to include. The County  
2768 also asked the WCCDA to capture input from the community on how the County can improve its  
2769 engagement approaches.

2770 In July and August 2020, the WCCDA engaged with over 120 people in focus groups and by  
2771 using an online survey tool. To ease input, the WCCDA created materials that repackaged the  
2772 County-shared materials. This was the breakdown of materials shared by the WCCDA to the  
2773 community to identify if it captured its interests:

#### 2774 *HONOR NORTH HIGHLINE/WHITE CENTER'S DIVERSITY*

- 2775 • Keep White Center's role as a "landing place" for refugees and immigrants
- 2776 • Culturally specific housing for elders
- 2777 • Culturally appropriate services and assistance are provided to the community by more  
2778 diverse King County staff

2779 *PROTECT AND INCREASE AVAILABILITY OF AFFORDABLE HOUSING. MORE COMMUNITY-OWNED HOUSING*  
2780 *DEVELOPMENTS ARE AVAILABLE AND SUPPORTED*

- 2781 • More publicly subsidized affordable rental units for households at or below 60% of area
- 2782 median income (AMI)
- 2783 • Permanently affordable homeownership units are funded for households at 50-80% AMI
- 2784 • Mixed-use developments include affordable housing, commercial and non-profit office
- 2785 space, gathering spaces, and accessible to transit

2786 *PROVIDE OPPORTUNITIES TO BUILD WEALTH*

- 2787 • Economic development opportunities such as additional jobs created with higher wages
- 2788 • To protect and support small locally owned businesses, increase investment in workforce
- 2789 development and job training
- 2790 • More employment opportunities for non-English-speaking families
- 2791 • More childcare options

2792 *INCREASE ACCESS TO OPPORTUNITIES*

- 2793 • Additional market-rate units and affordable units are available; prefer new housing that
- 2794 integrates households at different income levels. More mixed-income developments are
- 2795 built when private development takes place
- 2796 • Increase density or other incentives exchanged for affordable units, especially in the
- 2797 commercial core
- 2798 • Housing for immigrant and refugee populations located near community centers and
- 2799 cultural services and organizations

2800 *IMPROVE PUBLIC SAFETY*

- 2801 • Reduce crime and violence
- 2802 • Culturally-appropriate services and assistance are provided to the community by King
- 2803 County staff
- 2804 • Funding to support King County staffing in the community or less emphasis on police
- 2805 response, focus more on community-led programs that create “upstream” solutions,
- 2806 prevention, and intervention

2807 *REDUCE THE RISK OF DISPLACEMENT*

- 2808 • Current and past residents are prioritized for new affordable housing units
- 2809 • Eviction prevention, relocation, and rental assistance are provided for low-income renters
- 2810 and tenant protections are implemented
- 2811 • Down payment assistance is provided to low-income homebuyers
- 2812 • Affordable housing options for families, including intergenerational families living together
- 2813 (3-5 bedrooms)

2814 *PROTECT OUR VIBRANT SMALL BUSINESS COMMUNITY*

- 2815 • Reduce the displacement risk of BIPOC and immigrant-owned businesses
- 2816 • Increase pathways to affordable commercial ownership
- 2817 • A supportive community marketplace for microenterprises and small business vendors to
- 2818 sell goods

2819 *RETAIN THE CHARACTER OF DOWNTOWN WHITE CENTER (LOCAL BUSINESSES, DIVERSITY AND LANDMARKS)*

- 2820 • Downtown White Center has a plaza for community events and outdoor dining

- 2821 • National chains (like McDonalds) are limited or prohibited
- 2822 • The character of lower density development (3-4 floors) is retained, but increased density
- 2823 (higher than 4 floors) may be supported if the scale is reasonable

2824 *IMPROVE PUBLIC HEALTH*

- 2825 • Sports/recreation after school program for young/adult programs for health and wellness
- 2826 are promoted
- 2827 • Safe injections sites are provided to combat drug overdose deaths and to provide
- 2828 education and treatment opportunities
- 2829 • Increased accessibility to healthy foods through a grocery store in Top Hat; healthy food
- 2830 being more affordable; P- patches and community gardens; community kitchens and
- 2831 cooking demonstrations; a farmers market; additional places selling affordable healthy
- 2832 food

2833 The WCCDA report identified that there was agreement that the topics presented represented  
2834 community interests. Based on its outreach, the WCCDA reported that the following were the  
2835 topics most often raised in North Highline during this phase of engagement:

2836 *AFFORDABILITY OF HOUSING*

- 2837 • Ability for community to rent and purchase homes in White Center. Including equitable
- 2838 programs that assist with affordable homeownership and affordable rental units
- 2839 • Economically diverse neighborhood; with a mix of market rate and affordably priced units
- 2840 • Affordable housing that is beautiful and functional

2841 *SUPPORT FOR SMALL BIPOC OWNED BUSINESSES*

- 2842 • Ability to maintain and acquire spaces for small BIPOC owned businesses
- 2843 • More education, mentoring, consultation, and community investment for existing
- 2844 businesses in the neighborhood
- 2845 • Support a greater diversity of shops in White Center

2846 *DISPLACEMENT OF NORTH HIGHLINE RESIDENTS*

- 2847 • Families expressed consistently the desire to remain in White Center and not be driven
- 2848 out by rising costs of housing, property taxes, etc.
- 2849 • Provide home repair funding for low-income homeowners
- 2850 • Provide more programs that would assist with affordable home ownership and rental
- 2851 assistance

2852 *BUILDING WEALTH*

- 2853 • Access to quality well-paying jobs in all industries, job training, and childcare options
- 2854 • More resources to help residents pursue microenterprise by providing technical
- 2855 assistance, loans, and/or grants

2856 *PROGRAMS AND SERVICES FOR YOUTH*

- 2857 • Parents raised the need for supportive services for youth and culturally relevant
- 2858 engagement
- 2859 • Before and after school programming in which youths can engage
- 2860 • Economic opportunity for youths to learn job skills

2861 COMMUNITY SAFETY

- 2862 • Increased safety and less punitive measures but more preventative strategies to address
- 2863 crime and drug use
- 2864 • More safety resources for community: security devices, non-police security, increased
- 2865 lighting
- 2866 • Improve walkability and bike-ability of community so it can be more accessible for those
- 2867 without cars
- 2868 • Community did not see safe injection site being a priority for the White Center community.
- 2869 One concern brought up was that establishing a safe injecting site in White Center will
- 2870 create an opportunity for other cities to send their drug users to White Center instead of
- 2871 creating their own injection sites in their city.

2872 County staff used the input to develop content for the Subarea Plan Public Review Draft, and to  
2873 complete the Equity Impact Review. It was the intention that the proposed policies, land use and  
2874 zoning map amendments and development conditions contained in the Public Review Draft  
2875 would represent the voices of the community and its redrafted Community Vision Statement,  
2876 and that the Subarea Plan Public Review Draft development and proposal would further  
2877 process, distributional and intergenerational equity.

2878 **Stage 5: Public Review Draft**

2879 On September 30, 2021, a public review draft of the Subarea Plan and the associated map  
2880 amendments was published on the County's website. The comment period was initially  
2881 expected to be four weeks long, but based on community feedback the comment period was  
2882 extended twice and closed on December 19, 2021.

2883 At the beginning of the comment period on the public review draft, the County published a multi-  
2884 part survey online that was arranged in the same order and presented summaries of each of the  
2885 Subarea Plan chapters. The online survey tool allowed for translation into multiple languages  
2886 directly in the platform. In each chapter of the survey, the participant could understand what was  
2887 in the draft Subarea Plan and read the text of each of the proposed policies statements for that  
2888 chapter. At the end of each chapter, there was space provided where a person could make  
2889 open-ended comments. If the participant wished, they could also make their comments visible to  
2890 other participants, and those public comments could be "liked" by others.

2891 A total of 89 people participated in the online survey. There were a total of over 1,700  
2892 responses to the 41 individual survey questions across the Subarea Plan survey chapters, and  
2893 total of 173 written comments were received through the survey. The survey included a question  
2894 that asked what neighborhood the participant called home. Forty-two percent of participants  
2895 said they identify with White Center, while 12% said they come from Top Hat, 9% from  
2896 Greenbridge, and 5% from Roxhill. Fourteen percent identified as not living locally but working  
2897 in North Highline.

2898 In addition to the online survey itself, the platform also allowed additional information to be  
2899 shared. During the course of the comment period, the County posted the following supplemental  
2900 materials to aid with the review and comment on the plan:

- 2901 • Plain language explanation of key terms in the plan
- 2902 • A Subarea Plan Reader's Guide – translated to Spanish, Somali, Vietnamese and
- 2903 Khmer

- 2904 • A slide show showing Residential and Commercial Development Examples in each of  
2905 the King County Zoning Code classifications
- 2906 • One-page flyers explaining what the Subarea Plan is and how to comment – translated  
2907 to Spanish, Somali, Vietnamese and Khmer
- 2908 • Illustrative graphics associated with several proposed map amendments and  
2909 development condition amendments

2910 When the comment period closed on December 19, 2021, the survey page was closed to new  
2911 responses and comments, but the website continued to be viewable, along with the result of the  
2912 survey.

2913 Associated with the community vision statement, project goal and the 29 proposed policies, the  
2914 feedback predominantly showed either “I support” or “I strongly support” in the choice of survey  
2915 responses. The topics receiving the highest support related to planting trees, installing green  
2916 infrastructure, providing additional recreational opportunities and culturally specific gathering  
2917 spaces, and increasing transit service. The topics attracting the highest ratings of “I don’t  
2918 support” or “I strongly don’t support” included increasing high residential development in North  
2919 Highline’s urban centers to increase supply of housing in North Highline. However, even in this  
2920 case the survey indicated more support from participants that non-support.

2921 In addition to the receiving input through the survey, the County received almost 40 emailed  
2922 comments, 2 comments by telephone and one mailed comment. An overall summary of  
2923 comments is provided below.

2924 **Public Review Draft Outreach**

2925 During the comment period and in addition to the online survey, the County and its partners  
2926 used multiple other avenues to increase awareness of the Subarea Plan process and  
2927 encourage community members to participate.

2928 The County led or participated in the following outreach associated with the issuance of the  
2929 Public Review Draft for public comment between September and December 2021:

Approach	Activities
Community Meetings	<ul style="list-style-type: none"> <li>• Presentation at WCCDA “Community Partners” ZOOM meeting Oct 12, 2021</li> <li>• ZOOM meeting Oct 21, 2021 with Spanish language interpreters; Also on Facebook Live</li> <li>• Presentation at WCCDA ZOOM merchants meetings Nov 2 and Nov 3 (with Spanish language interpreters Nov 2)</li> <li>• Four in-person meetings with White Center business owners.</li> <li>• Presentation at Nov 2021 NHUAC monthly meeting</li> <li>• WCCDA “Community Voices” contract: Community Land Trust Informational Session (with KC DCHS)</li> </ul>

News Release	Sept, 2021

2930  
2931 Under the Community Voices contract, WCCDA's provided opportunities for engagement with  
2932 the community. The WCCDA focused its engagement efforts on these "residents and  
2933 communities" that are typically not included in planning processes. These communities include  
2934 our Black, Indigenous and People of Color (BIPOC), elders, the disabled, and the unhoused  
2935 communities.

2936 Based on its summary report of outreach for the Public Review Draft, the WCCDA reached out  
2937 directly to families, leaders, and youth in the community to hold one-on-one communications as  
2938 well as group conversations. In these conversations, the WCCDA reports that it provided an  
2939 understanding of the subarea planning process as well as supported the community in  
2940 completing concurrent engagement on the North Highline Community Needs List. It completed a  
2941 Zoom poll of key policies and discussions on key map amendments. Community residents who  
2942 met with us individually or in the Zoom group room were offered a \$50 gift card in honorarium  
2943 for their time.

2944 The following table was prepared by the WCCDA to identify groups that it met with during the  
2945 Subarea Plan Public Review Draft comment period:

2946 **Activities Of Community Engagement**

2947

Date	Length (mins)	Description of activity	Adults	Youths	Total
10/4/21	90	<b>White Center Community Development Association All staff</b> Discussed and ranked top 39 community needs list survey. Zoom poll results were submitted to the public input link.	14	0	14
10/7/21	105	<b>Cham Community Members (Vietnamese speaking)</b> Discussion focused on the top 38 community needs survey. Discussion was encouraged and recorded, but due to technical issues, participants were not able to complete the survey in real time but we followed up and supported them to complete the survey at a later date. The Cham community focused their discussions on items most important to them: affordable and culturally based childcare centers, lack of after school programming, especially programming focused on retaining their own culture and language. They desire a cultural center/museum in White Center to display artifacts from their country. They support youth entrepreneurship and	16	0	16

Date	Length (mins)	Description of activity	Adults	Youths	Total
		assistance to community members who want to establish a food truck. They also had discussions on how parking would be impacted by creating new open space/plaza events. They wanted to see more foot traffic on 16 <sup>th</sup> Avenue SW rather than more cars, maybe moving parking off of 16 <sup>th</sup> Avenue SW and welcome more open air dining areas. Establish a parking garage and parking lots for area customers. Limit chains and create more sidewalks, night patrols, more beautification in White Center business district core and create more landscaping in parks to support sledding and other snow activities during snow season.			
10/13/21	90	<b>COO Community Partners</b> Going over 8 policies with partners: FEEST, SWYF, Trusted Advocates, YES, Catherina Willard, Khmer Community of Seattle King County. Zoom poll results were submitted to the public input link. Overall, a few comments were made regarding bike lanes, maybe not so much a priority, but addressing other transportation modes, walking (improve sidewalks, build sidewalks), bus routes, (east west routes added), senior van services, etc. Overall comments showed concern for policies increasing density and displacing longtime residents and the inability for those already displaced to come back to the area.	8	0	8
10/15/21	90	<b>Native and Black Community Members</b> Meeting with families individually to go over the top 38 community needs survey with them. Families experienced challenges with the language used in the survey and were skeptical whether their feedback will influence change. Zoom poll results were submitted to the public input link.	6	0	6
10/18/21	90	<b>White Center Community Development Association All staff</b> Went over the 8 policies. Zoom poll results were submitted to the public input link.	13	0	13
10/21/21	60	<b>Somali Community Members</b> Meeting with families individually to go over the top 38 community needs survey with them. Families experienced challenges with the language and translation of the survey. Staff ended up using the English survey and	5	0	5

Date	Length (mins)	Description of activity	Adults	Youths	Total
		explaining the meaning of each priority using the Somali language.			
10/21/21	90	<b>Spanish Speaking Community Members</b> Meeting with families to go over the top 38 community needs survey. Families expressed concerns about displacement of housing and businesses. Queries were made about the increasing role of developers in the community.	11	0	11
10/26/21	90	<b>Native Community Members</b> NH2 No comments were made by the 3 participants.  NH4 EC made a comment regarding industrial land uses alongside residential. Is it safe to live close to a car repair business? What are the pros and cons of industrial and residential uses located in proximity to one another?  NH6 A and T were concerned about the mixed-used developments holding larger bedroom units 3-5 bedrooms. The mixed units they are familiar with don't have these larger units. Also, the concern is that when these mixed-use developments are located close to businesses and services, the units tend to be more expensive.  NH11 No comments were made by the 3 participants. A person made a comment about the Duwamish River, parks, and creeks, all should be maintained or brought back to life/renewed. The County needs to be kept accountable for the renewal/cleaning of the Duwamish River from the years of pollution by Boeing. The Duwamish River should be given back to the Duwamish tribe. Signage throughout the neighborhood and business district should include developing signage/wayfinding signs using a variety of languages spoken in the neighborhood, especially the native language, Lushootseed.  NH 22 - All did not think that this was not a priority, the current street systems are adequate	3	0	3

Date	Length (mins)	Description of activity	Adults	Youths	Total
		<p>NH25 - All three participants didn't understand the policy, therefore all three participants disagreed with the policy</p> <p>NH28 - No Comments were made by the three participants.</p> <p>NH29 - No comments were made by the three participants. Facilitator asked about which businesses they enjoyed and used in the neighborhood. They mentioned several restaurants and grocery stores in the area.</p> <p>One member mentioned the need for funding to cover administrative costs to execute and complete funding applications.</p>			
11/3/21	90	<p><b>LGBTQIA Youths</b> Meeting with LGBTQIA youths to go over the top 8 policies. A link to the top 38 needs list survey was provided as well.</p>	0	14	14
11/3/21	90	<p><b>White Center Merchants</b> Much of the time was spent on understanding the basics of Subarea and the initial review of key policies. Policy zoom poll was taken. Not much input, but slowly building understanding.</p>	2	0	2
11/4/21	90	<p><b>White Center Merchant</b> Much of the time was spent on understanding the basics of Subarea and initial review of key policies. Policy zoom poll was taken and results submitted to the public input link. Not much input, but slowly building understanding.</p>	1	0	1
11/9/21	60	<p><b>Native Community Member</b> Went over KC's website for Subarea Plan and public review draft.</p>	1	0	1
11/9/21	90	<p><b>White Center Merchants</b> Much of the time was focused on building understanding of key map amendments (Map 8,9,10). Focus Map Amendments: business owners were able to ask clarification questions on the amendments proposed. There was overall a genuine concern about the rise in rents when new development and density increased. I think there is a sense that new housing in the commercial core could bring more foot traffic and potentially streets could feel safer at night. But</p>	3	0	3

Date	Length (mins)	Description of activity	Adults	Youths	Total
		affordability of housing and commercial spaces was an overall concern.			
11/16/21	120	<p>This second discussion allowed a few small business leaders to build a deeper understanding of what the zoning would actually do and what incentives developers would be given. There was overall concern on parking requirement incentives and the current lack of parking spaces/options available in White Center downtown and concern for the current traffic congestion/accidents on 16<sup>th</sup> Ave. SW north/southbound towards and away from Roxbury Street. Merchants have gained a better understanding of current zoning in place and the limitless boundaries they hold. Merchants thought this current zoning should have been shared earlier so they could see what the current changes in zoning would possibly mean in the current context. More parking options should be created, example of the International District/Chinatown, how smaller parking lots were scattered throughout the commercial core was mentioned. Bike lanes:</p> <p>If bike lanes are added, it will take up parking space that is needed. The streets are too narrow for bike lanes, and                      There are only a few months a year when the weather is good for biking</p> <p>Parking: Parking garage or park and ride in downtown White Center would help with business parking - example of parking garage in Burien tied to transit. Another example is in the International District where there are public parking areas adjacent to businesses. Make the parking garage pleasant. Consider making 16<sup>th</sup> Ave SW one-direction. Allow more parking – don't cut back on parking. This is going to be particularly important if more residences in downtown White Center are to be encouraged.</p>	2	0	2

Date	Length (mins)	Description of activity	Adults	Youths	Total
		<p>Don't make it more difficult for people to visit downtown White Center due to insufficient parking and do not lessen parking availability. The median along 16<sup>th</sup> Ave SW makes it tricky to park using the angled back-in parking (and in winter, when there is snow, cars don't see the raised median.</p> <p>Roadway Improvements: The proposal to remove the waiver on commercial development providing roadway improvements (curb, gutter, and sidewalk) is positive.</p> <p>Industrial Zoning: We discussed the proposal to rezone the remaining industrial zoned areas to commercial business. A need for places to make things was expressed.</p>			
11/30/21	90	<p><b>White Center Merchants</b>                      This third discussion allowed local property owners to discuss overall subarea work and specific map amendments. WC staff were not able to locate the group discussion that day and a few other merchants were not able to locate the group as well.</p> <p>A merchant added, as a person with a physical disability, including mobility disability, they like the concept of a pedestrian-oriented environment, but they are a little nervous about that wording too just because not all of us are capable of being pedestrians and that includes people with disabilities, as well as elders. So they wish there was a different word here that had the word access in it somehow. What we want is a place that people can have access and mobility, including if it's possible through their own mobility through their own body or through other accessible means like a system of cut curbs right. In White Center that's sort of a</p>	2	0	2

Date	Length (mins)	Description of activity	Adults	Youths	Total
		problem because the cut curbs don't necessarily line up with each other, so you might have people here in a wheelchair to get on a sidewalk somewhere and then not be able to get off.			
12/6/21	90	<b>Community Land Trust Informational Session</b> Yasmine Perez presented CLT, models, challenges, possible next steps were mentioned. WCCDA were able to ask a few questions on implementation. WCCDA will pursue more CLT conversations in the new year, exploring the options of single family home acquisition, listening to community members and actual experience with CLT's, CLT's that include commercial uses etc.	12	0	12

2948

2949 Under the Community Voices contract, signed in April 2021 by WCCDA to undertake outreach  
 2950 on a number of planning projects the WCCDA was asked to provide feedback on the County's  
 2951 engagement and outreach work with the community after different phases of work included in  
 2952 the contract. Included with this, the County also asked the WCCDA to make recommendations  
 2953 to the County on how it could improve its community engagement work in the future. After one  
 2954 of the phases – undertaking outreach for the Public Review Draft - the WCCDA offered, in part,  
 2955 the following:

2956 "...We have found the County's methods – the structure, the terms of the contract, the  
 2957 timeline and expected products – not **responsive** and needs to be more **adaptive** to the  
 2958 community's challenges and solutions. There was no real process to keep the County  
 2959 **accountable** to their equity and social justice values. For accountability to have  
 2960 occurred, the County needed to own the role of "the one to be kept accountable."  
 2961 Instead of owning its accountability, the County cultivated a relationship that was  
 2962 inherently more transactional and passed on community's concerns about process and  
 2963 content to Council's timeline and decision making power, leaving community's concerns  
 2964 unaddressed, with little to no room for **collaboration** and **inclusivity**. The **shared**  
 2965 **values** are not evident throughout the subarea planning process..."

2966 "County staff did make a few changes, adding more written translation sections to their  
 2967 online public input page and extended deadlines twice to accommodate an additional 2  
 2968 months. Though we acknowledge these changes, the changes left much to be desired in  
 2969 creating equity and inclusion within this work."

2970 "We conclude that we are experiencing an inequitable planning process needing  
 2971 reassessment. Resident's [sic] and business owners' overall ability to understand  
 2972 subarea planning materials have not been supported, given the lack of time,  
 2973 understandable tools and limited processes. In addition, the ongoing personal

2974 challenges of the pandemic, and rash of fires that occurred within the White Center  
2975 business core has impacted the communities [sic] ability to engage quickly. The process  
2976 has resulted in skewed data, limited engagement lacking depth and substance. This  
2977 report highlights how we approached the challenges of engagement and the themes we  
2978 heard from the community...”

2979 **Public Review Draft Major Themes**

2980 In considering all of the input received during the Public Review Draft stage of the Subarea Plan  
2981 and Inclusionary Housing provisions, amendments were made to the Subarea Plan policies and  
2982 map amendments in the first quarter of 2022. The following table provides a summary of  
2983 comments received and key changes that were made to policy areas and map amendments  
2984 after the close of the comment period in December 2021:

Plan Topic	Input	Updates Subsequent to Public Review Draft
General	As a theme of comments on multiple policies and chapters, a community-based organization wanted to see identification of a role for BIPOC community based organizations in delivering actions to implement policies, with funding support and support for capacity building. Additionally, the organization wanted there to be more explicit reference in policies to prioritizing the needs of BIPOC community members, and identification of steps and actions to implement the policies.	A Comprehensive Plan policy on subarea plans has been amended to include: “The County shall dedicate resources towards implementation of the subarea plans and community needs list in coordination with each community so that the highest priorities are met where the needs are greatest.”  Additionally, a policy statement has been added to create opportunities for public input to inform applicable permitting decisions.
Goal Statement	Predominantly Supported	None
Community Vision Statement	Supported	None
Guiding Principles	Highest ranked: Supporting Community Investments and programs to reduce risks, and mitigate impacts of residential, economic and cultural displacement.; Supporting a thriving and equitable economy, with ethnically diverse, community minded, small business owners, entrepreneurs, and employers.  The needs of community members and visitors with disabilities should not be considered as an afterthought; design around the	<u>A new Guiding Principle was added in response to community input on the need for there to be good linkages across North Highline to connect residences with jobs and amenities in North Highline, without relying on automobiles. The Guiding Principle also acknowledges the importance of access from North Highline to regional jobs and amenities, without relying on automobiles.</u>

	<p>needs of vulnerable members of the community and the needs of all will be met.</p> <p>If businesses are to thrive, adequate parking for business and residential uses must be provided, particularly when increasing residential units in commercial areas will increase demand on on-street parking spaces if parking requirements are limited.</p>	
Land Use: Overarching	Policies were predominantly supported.	<p>A new policy identifies that growth should be focused in the subareas urban centers where there is access to transit.</p> <p>A policy to support partnering with community-based organizations to seek funding for community development has been relocated to the Land Use chapter, and it has been amended to highlight the need to focus on underrepresented communities.</p>
Land Use: Residential	<p>Policies were predominantly supported.</p> <p>Increasing densities in residential areas was predominantly supported as a way of increasing supply and types of housing, to reduce displacement risk and increase affordability, and to increase opportunities for home ownership.</p> <p>Some property owners wanted to be excluded from residential upzones. Others wanted to be included in upzones, and some commentors wanted to see even more residential areas upzoned to provide additional housing opportunities.</p> <p>Concerns were raised that opportunities for lower income households would be better met if more affluent cities provide housing for them, with access to what are viewed as higher performing</p>	<p>No significant changes to areas for residential upzones were made.</p> <p>One area in Glendale was removed from a proposed residential upzone, as further analysis of “walksheds” to transit stops indicated that there is a lack of transit accessibility.</p> <p>2 parcels on the Rapid Ride H-line in White Center, adjacent to parcels under the same ownership with high density residential development have been included for high density land use upzones.</p> <p>One block intended for required mixed-use development in White Center and a rezone from Industrial to Commercial Business zoning, is instead being retained as industrial to support retention of manufacturing jobs.</p>

	<p>schools rather than increasing what was viewed as segregating low income households by providing housing in North Highline. These were not prevailing views.</p> <p>Some concerns were expressed that some residential areas identified for increased housing densities do not have sidewalks or good access to transit, and that until infrastructure and services are increased, increased densities are not supportable. There was concern that the areas identified for density increases that would support small apartment buildings are not suited to the scale of building.</p> <p>Concerns were also raised about the removal of trees that comes with development.</p>	
<p>Land Use: Commercial Industrial</p>	<p>Policies were predominantly supported.</p> <p>Opportunities for legacy businesses to grow into bigger spaces, without being displaced was a concern, with a desire that property ownership opportunities also be supported. Spaces for micro-enterprises were seen as lacking.</p> <p>The community reiterated its interest in keeping the ambience of 16<sup>th</sup> Ave SW between Roxbury and SW 98<sup>th</sup> St., with interest in redevelopment and encouraging residential development both to increase supply and for “eyes-on-the-street” for safety reasons.</p> <p>Availability of parking is a concern for businesses, to be able to attract customers, especially if there is increased competition for on-street parking with additional residences in the commercial areas.</p>	<p>An industrial block will remain industrial rather than being rezoned to commercial business with a mixed use requirement. This will support retention of manufacturing jobs near where people live, limiting uses to compatible ones with residences and requiring some pedestrian-oriented features. Retaining the industrial use will retain opportunities for businesses to grow, and present opportunities for micro-enterprises.</p> <p>A special district overlay for industrial and commercial uses in White Center and Top Hat has had an additional use prohibited, removes waivers on roadway improvements, and other provisions and includes parking and other provisions that are consistent with the adjacent pedestrian-oriented Special District Overlay, for continuity.</p> <p>Height limits on buildings in the 2 blocks of 16<sup>th</sup> Ave SW between Roxbury and SW 98<sup>th</sup> Street have been increased to 55 feet from the proposed</p>

	<p>The community had mixed input on limiting marijuana retail facilities in the subarea.</p>	<p>40 feet. Above the second floor there will be a setback required to help with bulk, while still providing opportunities for residential development. Ground floor commercial spaces are limited to 5000 square feet to encourage continued opportunities for small, locally-owned legacy businesses.</p> <p>There is now one pedestrian-oriented special district overlay (SDO) in place for White Center, rather than 2 that had similar features. The SDO is expanded to bring in properties west of 16<sup>th</sup> Ave SW and the prior industrial zoned block on 15<sup>th</sup> Ave SW. It sets limits on parking spaces for non-residential uses to no less than 25% and no more than 75% of provisions under County code for underlying zoning. The SDO also prohibits marijuana producing and processing facilities.</p>
<p>Housing and Human Services</p>	<p>Policies were predominantly supported.</p> <p>Inclusionary housing provisions generated a wide range of divergent comments. Some commentors that said that the affordable units should target households with lower incomes than proposed, and that no bonuses or incentives should be provided to developers. Conversely, some commentors said that the area median income target for the affordable units should be set higher than proposed, and that more incentives should be provided to developers, or provisions to offset the cost of developing affordable units. Additionally, there was interest in expanding the situations under which an in-lieu fee could be paid in place of developing affordable units with market rate units.</p>	<p>Policy to support partnering with the Highline School District and other agencies and organizations to improve the outcomes for students and families has been expanded to include partnering to provide physical and mental healthcare, social and human services, early education and childcare to with a focus on partnering to provide services where the needs are greatest.</p> <p>The Inclusionary Housing provisions exclude the 2-block area of 16<sup>th</sup> Ave SW for increases in height limits with residential development.</p> <p>Provisions for density bonuses if transfer of development rights (TDR) credits are used in urban unincorporated areas have been adjusted with a goal of not undermining use of the Inclusionary Housing program in North Highline and Skyway-West Hill in favor of increasing density using the TDR program. The amendments to the King County Code</p>

		provisions for the TDR program still provide a developer some options to use the TDR program in the 2 urban unincorporated areas while, in certain circumstances requiring that affordable units also be created with new development.
Parks, Open Space and Cultural Resources	Policies were predominantly supported.  There was interest in seeing additional parks, and improving access to maintenance at existing parks.	No significant changes.
Transportation	Policies were predominantly supported.  Policies encouraging bike lanes received a mixed response with some commentators saying they would be little used, and may take up needed on-street parking spaces. Other input supported provision of bike lanes.  There were numerous comments wanting to see additional provision of sidewalks and other roadway improvements, traffic controls to stem speeding, improved street lighting and improvements at transit stops.	No significant changes.  In recognition that some community members and visitors use wheelchairs and others may use scooters, policy has been expanded to recognize a broader range of transportation modes.
Services and Utilities	Policies were predominantly supported.	No significant changes.
Economic Development	Policies were predominantly supported.  Commentors wanted to see policies added or strengthened to highlight providing support to existing locally-owned businesses, with a priority given to supporting BIPOC-owned businesses. Support included, among other areas, developing strategies for businesses to purchase properties, and providing spaces for businesses to grow into	A new policy has been added to support retention of long-term locally-owned businesses and to encourage development of new locally-owned businesses by improving access to affordable commercial ownership and funding for expansion of operations.

	so that they would not need to leave the community.	
Map Amendments: General	Community members said that it was difficult to determine what changes were being proposed in the community based on the maps. This was a factor of both limited place markers creating confusion on where amendments applied, and more than one amendment affecting a parcel, with the different amendments shown on different maps.	The set of map amendments has been completely restructured to make it easier to read and apply. A property owner can see all amendments that apply to their parcel on one single map – the package being known as the “One Touch” map package.
Other Map Amendments	Key comments are captured in the topic headings above.	<p>Most key changes that apply to maps are identified under the topic headings above.</p> <p>Parcel-specific suffixes have been developed to apply to the 2 block area of 16<sup>th</sup> Avenue SW between SW Roxbury St and SW 98<sup>th</sup> Street. The P-Suffixes limit the height of buildings, require a setback above the second floor and set a maximum size limit on ground floor commercial spaces.</p>

Throughout development of the Subarea Plan in Phases 1 and 2, the office of King County Councilmember for District 8, Councilmember McDermott, provided input on engagement, both with ideas and also providing opportunities to publicize events and input opportunities. The County also met periodically with staff in the cities of Seattle and Burien to share information on the status of the Subarea Plan and to learn about the cities’ planning initiatives in areas adjacent to North Highline.
