7	King County is the ONLY county in the state that requires 5 acres of land to drill an exempt water well on their property. Why is that? This should change to match what most other counties require, which is to meet Dept of Ecology's setbacks. King county does NOT require 5 acres for an irrigation well though, which is the exact same well construction, only the name changes. The people of king county should be able to exercise their right to water on their property, while meeting DOE's setback requirements.	C. Gregory	Water	Written	1/12/2024
8	<p>I feel frustrated by the suggested P-Suffix Regulation amendments. These suggested amendments, would make it so only 1-off houses could be built, not neighborhoods. This means only someone with a lot of money could afford to develop a lot or a builder who in order to make a profit, would need to build a premium house then sell it for an incredibly high price.</p> <p>The reasons restricting all affordable neighborhoods in Fall City frustrates me:</p> <p>1.King county has a homelessness crisis. From my reading, the number 1 cause of homelessness in the United States is high housing costs (which King County has). This is because people are unable to save the money needed to weather unemployment, from a layoff or mental health crisis. In the Snoqualmie Valley subarea plan, taking better care of those suffering from addiction or a mental health crisis was mentioned to be a priority. Building more housing helps bring down the price of housing which helps those suffering, be able to continue to afford their house payments and use a lesser percentage of their income on housing.</p> <p>2.King County has a problem with there not being enough housing in general and there not being enough affordable housing. From what I've read, the number 1 cause of not enough affordable housing being built, is restrictive zoning laws like the P-Suffix Regulation amendments. The United States has a problem with older, typically white, upper-middle income individuals saying "I don't want housing being built here, that should be the town next to me's problem." This makes me angry because to fix the lack of housing issue, housing needs to be built somewhere, it can't just always be the next person's problem. It also makes me angry because older affluent people are advocating for policies that raise their property value at the expense of families and younger generations not being able to afford a home.</p> <p>3.This year when I went to vote, I read about both candidates for the Snoqualmie Vally School Board. In their campaigns, an issue mentioned was that Fall City Elementary needs to be rebuilt to ensure a safe and quality education for students. However, it was stated that the millions of dollars needed to achieve this would be more difficult to get, due to declining enrollments at the school. Fall City Elementary is the school in the catchment area for my house. I want children in the future and I will want them to go to a school that's safe and has the resources to provide a great education. When I purchased my home, people close to me, tried to dissuade me from buying in Fall City because of the elementary/middle school available. I'd love for the schools to have a better reputation in the years ahead. An increase in housing would increase enrollments and money for the schools to improve.</p> <p>4.I feel confused by vaguely worded concepts in the Fall City Subdivision Moratorium like increase lot size to preserve "rural</p>	Samantha Fernald	SVNEKC Subarea Plan	Written	1/16/2024

9	<p>Please accept the following comments on the proposed Subarea Plan. My family has been a property owner in the Index Creek Road community for more than 80 years. Additionally, I have a specific background related to historic and cultural resources including an M.A. in Museum Studies, service as a board member and president of the Washington Museum Association, and service on the Landmarks Commission of Astoria, Oregon.</p> <ul style="list-style-type: none"> •One of the Guiding Principles of the Plan reads, "Preserve cultural and historic resources and landmarks." Sadly, I do not find this principle well represented in the Plan. At the very least, historic resources and landmarks, especially those with national significance, should be described and an appropriate level of care and conservation included. The County needs to invest in the preservation of these irreplaceable resources. •Page 24: The information about the Baring area needs to include its timber and mining history and its nationally-recognized Baring Bridge. •Page 50: The text indicates that the size, scale and aesthetic of existing development should be maintained. This idea should include the need to preserve and restore historic resources like the Baring Bridge. •Page 77: This section is titled, "King County Plans and Programs Relevant to Parks, Open Space and Cultural Resources". The following text does not include any mention of historic preservation plans or policies. The treatment of cultural resources is missing with the exception of only a phrase on page 78, "... the preservation of historic landmarks is of interest..." This subject needs to be addressed further including the County's commitment to invest in these treasures. •Page 79: Transportation activities should be consistent with the service level and protect rural character. The Baring Bridge, when kept in proper repair and with appropriate investment, is necessary to protect the rural character of the Index Creek Road community. •Page 81: Certainly a conflict arises between blanket statements regarding the need for bridge replacement and the need to preserve historic resources like the Baring Bridge. The Council should address this conflict and give significant and overriding weight to the preservation of this resource of national significance. •Page 84: Enhanced maintenance of the Baring Bridge will help preserve this unique resource and should be addressed. •Page 185: The preservation of historic landmarks and cultural resources is excluded from this section as they are apparently covered by the more general Comprehensive Plan. This is likely true for many of the topics addressed in the Subarea Plan. Historic Resources and landmarks in the Subarea should be specifically addressed in the Subarea Plan to enhance their preservation. 	Patricia Warren	SVNEKC Subarea Plan	Written	1/16/2024

10	<p>My Name is Spencer Lau, and I am a resident of King County District 8 and the Finance Manager at the White Center Community Development Association (WCCDA). I am respectfully submitting this testimony in support for Proposed Ordinance No. 2023-0440 relating to the 2024 King County Comprehensive Plan update.</p> <p>As a member of the 2024 Comprehensive Plan Update's Equity Workgroup, I spent extensive time with community members, County staff, and in community educating and advertising the updated plan and encouraging community input and participation. This document is the collaboration of countless hours labored by County staff, the input of residents in all corners of King County, and the invaluable insights and direction given by community members on the Equity Workgroup. Overall, this document highlights the tireless advocacy of community members to ensure that government works for the people.</p> <p>Workgroup members were able to dive into housing policy as a priority area, and given the ability to comment on the equity analysis done by staff. It was clear that housing policy was a priority from all members of the Equity Workgroup and considerable time was spent on this topic. Priorities for the County to study mandatory Inclusionary Housing and/or Community Preference to help the need for affordable housing and ensuring displacement of cultural communities does not occur, and the study of feasibility to incentivize property managers/owners to rent to lower income families with an MFTE style program are huge steps forward for unincorporated communities, and need to be supported by this Committee.</p> <p>These additional areas touched upon by the Equity Workgroup and highlighted by the County's document are also crucial:</p> <ul style="list-style-type: none"> • Incorporate an anti-displacement framework into the 2024 Comprehensive Plan for all unincorporated areas to prevent and mitigate cultural loss and displacement; • Protect existing cultural resources and BIPOC institutions and support community led efforts to develop and retain existing small businesses and resilient communities; • Take intentional steps to repair harms to BIPOC households around racially exclusive and discriminatory land and property practices; and • Advocate for more funding and/or revenue for affordable housing construction. <p>As the Finance Manager at WCCDA, I have the privilege to work with community members, leaders, and business owners in White Center. I cannot stress enough how important it will be to find a balance between the needs of preparing for the future and taking time to acknowledge the vibrancy already in place. The people who have established themselves and made unincorporated King County</p>	Spencer Lau	ESJ	Written	11/16/2024
11	<p>My name is Steven Lewis . I am a retired disabled veteran. A member of the NAACP. I recently worked on the King County Comprehensive Plan in 2023. I was proud to be a part of this work. The community involvement aspect was an enormous part of its success. Stressing the urgency of developers to adhere to low income housing. Low income housing in reference to the free and reduced lunch program should be the definition. This was one of the important matters presented to the Comp plan work group. Low income housing is one of many issues facing the community. Developers being held to this standard would make a major difference. I would hope that the council would consider to reestablish this work group moving forward for years to come.</p>	Steven Lewis	Housing	Written	11/16/2024

17	<p>My name is Mike Birdsall. I am a member of the Joint Rural Area Team of ten organizations, and I serve as its Transportation Technical Consultant. I have decades of experience helping cities and counties to prepare transportation plans under the Growth Management Act. I am here to discuss the SVNE Subarea Plan on behalf of the Joint Team.</p> <p>Other Joint Team members participated with county staff in developing the land use and environmental portions of the Subarea Plan. Those elements are well done, due in part to extensive engagement of members of the Public. Findings of the Subarea Plan strongly support and echo Joint Team concerns for protection of the Rural Area, Agricultural lands, and Forest lands with a priority on sustaining a healthy rural ecosystem and lifestyle, and no increase in urban lands, or urban-serving businesses.</p> <p>That said, we are disappointed in Chapter 8 (Transportation) for its lack of useful information. Although transportation conditions in the SVNE Subarea are going from bad to worse, the Public Review Draft released last June was just six pages of boilerplate with no substantive information. I objected to that last summer, but this current version remains unchanged. There is still no substantive identification of tangible transportation issues let alone discussion thereof. My comments submitted last summer gave extensive direction for the type of additional substantive information needed. I don't know why no changes were made to improve the current version. The current Vashon Subarea Plan has a much more detailed Transportation Chapter, while covering a smaller, less complex area. The difference is striking.</p> <p>My extensive comments last summer remain valid. They were submitted then as an independent observer, but the Joint Team is in full agreement. Therefore, the Joint Team will be re-submitting those same comments in its detailed Written Comments. We hope to see substantial expansion of this chapter before it is adopted later this year.</p>	Mike Birdsall	SVNEKC Subarea Plan	Written	11/17/2024

18	<p>Overview, Schedule, Process [Peter Rimbos—Joint Team Coordinator; GMVUAC]</p> <p>Good morning. My name is Peter Rimbos. I am the Coordinator for a Joint Team of ten Rural Area organizations and three Rural Technical Consultants. We endeavor to review, consult, develop, and offer solutions on issues of interest to people who live in a wide expanse of King County's unincorporated Rural Area. Each of our organizations considers its work on the KCCP one of its most important duties and responsibilities. Indeed, our Joint Team has been through multiple successive Major Updates with some of our member organization's work on same going back nearly 20 years and others further back to the pre-Growth Management Act days, when there were no formal KCCPs.</p> <p>For this Update we began engaging with KCCP Manager, Chris Jensen, in early 2022. We have reviewed materials and submitted detailed comments throughout the process. We have reviewed the Executive's December 7 "Recommended Plan" and have drafted a set of detailed comments—150 pp and counting, which should be ready to submit to you by February 7. We plan to fully participate in all of your Briefings.</p> <p>Given the importance of this 10-year Update and the complexity of its many Chapters, Appendices, Reports, etc., we strongly urge the Committee to re-consider its schedule as follows:</p> <p>(1) Meet every week. Do not combine several major topics into one meeting. For example:</p> <p>(a) The February 7 meeting includes: Chapter 1: Regional Planning; Chapter 2: Urban; and Growth Targets & UGA Appendix. To give such important topics justice, two separate meetings are warranted.</p> <p>(b) The April 3 meeting includes: Chapter 7: Parks, Open Space, & Cultural Resources; Chapter 8: Transportation; Transportation Appendix; and TNR Appendix. This is even tighter. In fact, the three Transportation topics alone warrant two separate meetings.</p> <p>(2) Move up "Development Regulations" from its May 1 meeting to a much earlier meeting and devote the entire meeting to this topic. KC Code is simply too important to the entire process and all of us.</p>	Peter Rimbos	Process	Written	11/17/2024
19	<p>My name is Karen Meador. I am a member of the Green Valley/Lake Holm Association, one of the many organizations that comprise the Joint Rural Area Team. We also are one of three organizations that fall under the Southeast King County Community Service Area (CSA). We are concerned that completion and approval of some of the CSA Subarea Plans are now pushed out as far as the middle of the next decade. A number of the Joint Team organizations serve under three CSAs—Bear Creek/Sammamish; Southeast King County; and Four Creeks/Tiger Mountain. Under the current schedule, they will not have their Subarea Plans approved until 2031, 2032, and 2036, respectively.</p> <p>We respectfully recommend the DLS Permitting Division retain sufficient Planners to conduct subarea planning simultaneously for two CSAs, thus condensing the current schedule (we believe there only are two Planners and they may have other duties.) There are a number of cultural and heritage venues within each of the CSAs, as well as limited natural resource lands. The GV/LHA and Enumclaw Plateau Community Association, both within the SE King County CSA, are each home to a King County-designated Heritage Corridor, as well as a King County-designated Agricultural Production District. Such venues are found in a number of the King County CSA's. As a writer and historian, I have researched and written about a number of them, and believe condensing the Subarea Planning Schedule would assure many of us an opportunity to assist in preserving the rural character, heritage venues, scenic qualities, and other distinct features that make King County's CSAs unique legacies for future generations to appreciate and enjoy.</p>	Karen Meador	Subarea Planning	Written	11/17/2024

20	<p>My name is Tim O'Brien. I am the Chair of the Enumclaw Plateau Community Association, one of the many organizations that comprise the Joint Rural Area Team. Personally, I have a background in heavy equipment and construction. We suggest adding the following Map Amendment: [NOTE: HIGHLIGHTED ITEMS BELOW NEED NOT BE STATED IN ORAL TESTIMONY, ONLY IN OUR WRITTEN COMMENTS.]</p> <p>Map Amendment XX: Countywide – P-Suffix Zoning / Development Conditions</p> <p>1. Remove P-Suffix zoning (EN-P01, FC-P02, SV-P37, SV-P037, SV-P11, SV-P12, SV-P13, SV-P15, SV-P17, SV-P18, SV-P19, SV-P20, SV-P21, SV-P25, SV-P26, SV-P28, TR-P09, TR-P21, TR-P22) for commercial, industrial or mining activities in the Rural Area of unincorporated King County, if the condition is not currently met and remains out of compliance for one year, then zoning reverts back to underlying/original (non-commercial) zoning. Further, if the ownership changes, the uses would revert to underlying zoning.</p> <p>2. Repeal P-Suffix Development Conditions EN-P01, ES-P04, FC-P02, GR-P04, GR-P03, GR-P02, GR-P01, SV-P37, SV-P037, SV-P11, SV-P12, SV-P13, SV-P15, SV-P17, SV-P18, SV-P19, SV-P20, SVP21, SV-P25, SV-P26, SV-P28, TR-P09, TR-P21, TR-P22 from Zoning Atlas.</p> <p>Effect:</p> <ul style="list-style-type: none"> • Most of these P-Suffix development conditions are many years out of date and not transparent to the Public. This would allow parcels that do not meet the commercial development conditions to revert back to underlying zoning for more clarity and transparency in zoning, provide more land for additional housing units, reduce impact of and cost to regulate commercial business in the Rural Area and restore Rural Character and help improve tourism and more sustainable economic development in the Rural Area. 29	<p>We appreciate the opportunity to comment on the Draft Environmental Impact Statement ("DEIS") for King County's 2024 Comprehensive Plan Update. We represent FivePoint Capital Management, developer of a mixed-use, 137-unit residential project located near 16th Avenue SW and SW 107th Street in the White Center neighborhood of unincorporated King County. We request that the DEIS study implementation of the Multi-Family-Tax Exemption ("MFTE") in the North Highline/White Center neighborhood. MFTE could occur with any of the three alternatives identified in the DEIS (including No Action). MFTE implementation does not require a Comprehensive Plan amendment, but given the County's focus on incentivizing affordable housing production in the 2024 Update, it is appropriate to study and pursue MFTE as part of this process. It is a critical tool to increase the County's affordable housing stock.</p> <p>FivePoint elected to develop a project in White Center because it is a designated Qualified Opportunity Zone. This mixed-use project replaces an existing funeral home and car storage use with a vibrant mix of commerce, retail, employment opportunities and affordable housing- it is exactly the type of project the County's land use policies envision for this neighborhood. When FivePoint initiated this project, MFTE was not available in White Center due to restrictions in state statute. The lack of MFTE created concerns about the project's economic viability, which remain today. In 2021, with FivePoint's support, the state legislature adopted E2SSB 5297, which expanded the MFTE program to a greater number of cities and counties throughout Washington to include the North Highline/White Center neighborhood. As of 2022, 55 communities in Washington have active MFTE programs. The exemptions issued in 2021 resulted in 7,759 new housing units, including 1,058 rent-restricted units for low-income households.</p> <p>Inexplicably, King County has not taken action to implement MFTE anywhere- despite repeated requests from FivePoint over the past two years. King County's failure to implement MFTE is even more inexplicable in light of the specific "Proposal Objectives" identified in the DEIS. Fourteen objectives are outlined, and the first six relate directly to affordable housing production:</p> <ul style="list-style-type: none"> • Reducing housing and business displacement and advancing equity for those who are Black, Indigenous, People of Color, immigrants, and/ or refugees, especially those who also earn less than 80 percent of the Area Median Income (AMI) 	Courtney Flora	Multifamily Tax Exemption	Written	1/30/2024
30	<p>you as a Council have no understanding as to the cost of housing. Subsidizing housing does not lower the cost of housing. The extensive regulations permits inspections and government overreach have caused the cost of housing to be unacceptable. You need to look in a mirror and have an honest appraisal of what your actions actually do. In general they increase the cost of housing. Taking money away from taxpayers to pay other peoples housing cost does not reduce the cost of housing. It never will. Need to reverse some of your mandatory guidance to cities. And listen to real people that understand economics.</p>	Jerry Norman	Housing	Written	1/31/2024

32	<p>Washington Sensible Shorelines Association is submitting information again for inclusion of Stormwater Concurrency in the KC Comprehensive Plan. This information and requests for monitoring equipment, procedures and real time data have been widely circulated to County Councilmembers Perry, Balducci and the Mayors of Bellevue, Issaquah, and Redmond.</p> <p>Problem: Sammamish River Flood Control Project Capacity and Function</p> <p>The Sammamish River is the single outflow for Lake Sammamish, and the lake is a receiving body for the Lake Sammamish Watershed's stormwater. Substantial development continues to take place in the uplands of Lake Sammamish, adding more stormwater volume, velocity and sediment into the surrounding creeks, streams, drainage culverts and Lake Sammamish.</p> <p>Negative Impacts to The Environment and Private Property</p> <p>Environment:</p> <p>Sediment deposits contained in the stormwater runoff encourage weed growth which impacts migrating fish, especially smolt by allowing predator fish to hide and consume the salmonid smolts. Silt and weed growth have also impacted the Sammamish River's capacity, flow, and habitat.</p> <p>Private Property:</p> <p>Lake Sammamish shoreline residents have repeatedly sustained property and shoreline damage during high water events when the Flood Control Project (FCP) failed to drain adequately in response to the inflows. Lake Sammamish shoreline residents also report loss of property function and greater restrictions due to a 1.2 ft increase in Ordinary High-Water Mark (OHWM) implemented by the City of Bellevue.</p> <p>What We Are Asking:</p> <ol style="list-style-type: none"> 1. Determine if an assessment of Sammamish Basin stormwater concurrency is underway by any entity. <ul style="list-style-type: none"> • Is stormwater concurrency part of the Willowmoor CIS? <p>This assessment should include measurements of the FCP flow capacity and consider future performance with the current degradation of the project and potential additional degradation of not addressing the siltation, noxious weed overgrowth, LWD (Large Woody Debris) and any other regular maintenance?</p> <ul style="list-style-type: none"> • Comprehensive real-time automated monitoring and data collection of lake and river for level, flow volume, temperature, and water quality. 33	<p>I encourage funding and developing a delivery date for two items already in the budget:</p> <p>Budget ID: SNVC.016 - Raise 124th and flood resiliency Budget ID: SNVC.028 - Public Transit Connecting Carnation to Redmond Park and Ride</p> <p>In addition, I would like to see the following three items added to the Comprehensive Plan as a high priority:</p> <ol style="list-style-type: none"> 1. Raise Tolt Hill Road similar to 124 to improve flood resiliency. There have been a couple of times when Carnation was completely cut off from surrounding communities. Raising the road means it can stay open during flooding, which improves mobility and public safety so that police, fire, and medical emergency personnel can access Carnation. 2. Add a roundabout to Highway 203 and Tolt Hill Road. Remlinger Farms has held some major events that cause heavy traffic, making it difficult to turn left from Tolt Hill Road into Carnation. There is also a new housing development being built near this intersection that will also increase traffic. 3. Widen 202 from Fall City to Sahalee Way to four lanes. As more housing developments are added to the rural areas to support the Growth Management Act, we need improvements to the road infrastructure to support the increase in population. <p>Thank you.</p>	Cliff Hanks	SVNEKC Subarea Plan; Roads	Written	2/1/2024
34	<p>Questions from Karen Campion, a longtime resident in South King County:</p> <p>How can you allow Industrial Businesses to use the same RESIDENTIAL dirt road (now with permanent gigantic potholes) where my RESIDENTIAL house is located?</p> <p>Do you know how difficult it is for me to fill in the permanent gigantic potholes? What about using pulled weeds as filler for the permanent gigantic potholes?</p> <p>Do you realize how difficult it is to drive a car over the ditch that is forming between Military Road (not Street) and 35th Avenue South (south of 374th Street)?</p> <p>How are you going to address cars turning left and right into yard fences?</p> <p>How can you address the increase of car traffic on (non-stop) Military Road?</p>	Karen Campion	Roads	Written	2/1/2024

35	<p>Please accept Comments herein on the subject 2024 King County Comprehensive Plan (KCCP) Major Update (Update)—Executive’s Recommended Plan (ERP) from the Joint Team of King County Unincorporated Rural Area organizations (*).</p> <p>We have participated in the Update since the beginning of 2022 working with KCCP Manager, Chris Jensen. We provided detailed Comments on Scoping, Conceptual Proposals, Environmental Impact Statement (EIS) Scoping, and the Public Review Draft. We have now conducted an in-depth review of the ERP—all Chapters, Appendices, and Supporting Documents. Our Comments encompass KCCP Text, KCCP Policy changes, and changes to King County Code. We found that the Executive’s Office used many of our comments to improve the Update—we thank them. However, we still find several areas where changes should be considered to minimize unintended negative consequences to the Rural Area. We encourage you to please consider our Comments herein as the you proceed in your review and approval process of the Update.</p> <p>For some Chapters, Appendices, and Supporting Documents we have included Overall Comments to provide a broad perspective on the subject matter, followed by our Specific Comments on Text, Policies, Code, Maps, etc. Our Comments primarily deal with items where we offer recommended changes and provide supporting rationale. In general, we have not provided comments on those items we consider good and, thus, approve.</p> <p>[Full text is 161 pages and is available in Public Comment PDF]</p>	Peter Rimbos	Miscellaneous	Written	2/6/2024
36	<p>As we know, there is a shortage of affordable housing in our region. There needs to be a multi-prong approach to tackle this issue. I'd like the Council to consider two topics to help provide some (albeit small) relief.</p> <p>1) Subdivision rules - I live on a 1.75 acre parcel and would like to consider subdividing into smaller parcels for homes. In our area the lots are 5 acres (though ours was grandfathered in some decades ago). While I know there will be a need for environmental studies and neighborhood input, I'd like to at least see a simple process in place to submit a request. Perhaps this could be incorporated into the ADU policies.</p> <p>2) We built a detached garage some time ago and planned for an apartment to be built on the top floor (we live close to Issaquah schools and hope this would provide access to a teacher). The permitting process is confusing, rigid and expensive. If we can streamline the process for permitting and construction of these add-ons, this could allow more homeowners to participate. As it is, many neighbors have just given up. I'm sure the current permitting processes are labor heavy, so providing some improved processes/automation would certainly help with that.</p> <p>I am just starting to review the comprehensive plan, so these topics may be covered. I am unable to attend the meeting in my local area, so wanted to provide my input.</p> <p>P.S. Huge kudos to the team assembling that plan! Having worked on documents like that in a past life (but smaller scale), I fully appreciate the effort and attention to detail.</p>	Alison Jeske	Housing	Written	2/6/2024

37	<p>I would like to provide feedback regarding the increasing number of short term rentals in Fall City and ask that short term rentals be evaluated for impact to available housing and be considered as a part of the discussions/updates to the Comprehensive Plan.</p> <p>This is an important topic because in my small neighborhood of 43rd street (on the east side of Preston-Fall City Road only), we have around 18 houses in our neighborhood and 2 are short term rentals through AirBnB or VRBO. These 2 houses are typical FC residences which are smaller from a footprint size and sold in the last ~3 years between \$480 - 580k, which to me, is more affordable housing than many options on the market right now.</p> <p>Considering the focus on housing availability and affordability, I would ask that: Short term rentals are factored into evaluations of our housing availability issues Expanded effort to understand how many short term rentals are in King County Policy that mimics other county's who have already implemented limits on short term rentals (like Chelan County).</p>	Lacy Linney	Short-term Rentals	Written	2/6/2024

40	<p>My name is Ken Konigsmark, a rural Preston resident. I'm on the Joint Rural Area Team and have served on several County committees related to rural issues, conservation, growth management, and the critical areas ordinance.</p> <p>My over 30 years experience in these issues reveals that despite good plans, good policies, well-intentioned Execs and Councilmembers, and well-designed County Guiding Principles, I and large numbers of rural residents remain frustrated because often your own codes, policies, and principles are poorly followed or ignored.</p> <p>The words are great, we love and support them, but it's the actions or inaction that follow that truly matter. These words ring hollow unless King County truly upholds and enforces them. For example, we fully support all six King County Guiding Principles listed in Chapter 1 REGIONAL PLANNING. However, we too often see the County making decisions directly affecting the Rural Area that seem to defy and circumvent at least three of those principles.</p> <p>Preserving and Maintaining Open Space and Natural Resource Lands Directing Development Toward Existing Communities Achieving Environmental Sustainability</p> <p>Examples of such actions (or non-actions) that defeat these principles and policies and infuriate rural residents include, but are not limited to:</p> <ul style="list-style-type: none"> • Cedar River Asphalt Facility (Determination of Non-Significance; no Environmental Impact Statement [EIS]) • Cedar Hills Regional Landfill (piecemeal expansion) • Code Enforcement (poor to none): Violators routinely win and citizens who seek to uphold County codes and policies are forced to spend enormous sums trying to protect their own property, the rural area, and the environment, often AGAINST King County! • Illegal Clearcutting • Illegal Event Centers allowed to continue • Illegal "Recycling" Centers that violate multiple codes • Pacific Raceways (piecemeal expansion without an EIS) • Permits routinely granted for development that violates zoning laws and the principles underlying them 	Ken Konigsmark	Enforcement/Implementation	Written	2/6/2024

41	<p>My name is Peter Rimbo. I am the Coordinator for the Joint Team. I will speak on Growth Targets.</p> <p>Unfortunately Growth Targets cannot be enforced to keep irresponsible cities, such as Black Diamond, from grossly overgrowing directly impacting County roads and rural residents and vastly underpaying for road maintenance based on their proportional usage.</p> <p>The numbers in Figure 5: King County Jurisdiction Growth Targets ... were adopted in the 2021 CPPs and we offered detailed written comments at the time. Black Diamond, a designated "City in the Rural Area," has been allocated a 2044 Housing Target of 2,900, which its already approved Master-Planned Developments will grossly exceed. It also has major non-MPD permit applications under consideration.</p> <p>To make matters worse, Black Diamond has been allocated a 2044 Job Target of only 690—an anomaly compared to the Housing/Job Target ratios for every other city listed! Thus, the vast majority of its 20,000+ new residents will commute on County roads to their jobs in the major cities, as they avoid the increasingly congested SR-169. All other cities listed are handling their Targets in a professional and civil manner, leaving Black Diamond alone as an irresponsible city that is knowingly overloading County roads and imposing an unfair and inequitable financial burden on the Rural Area taxpayers.</p> <p>While the Urban Growth Capacity Report finds sufficient capacity available for total UGA projected growth, it does not state any concern or remedy for those cities that grossly exceed their projected growth and what "reasonable measures" they should take to correct such inconsistencies and the resulting burdens placed on their neighbors. Consequently, such inconsistencies will not be addressed by these cities in their respective 2024 Comprehensive Plans. We call for the Growth Management Planning Council to have such cities regularly report on how they are handling such inconsistencies and resulting burdens.</p> <p>The current Growth Target and Allocation system is badly flawed and, by ignoring those flaws, we perpetuate them ad infinitum.</p>	Peter Rimbo	Growth Targets	Written	2/6/2024

55	Good afternoon, I wanted to provide feedback regarding this project which was approved for repair and completed late 2020. Shake Mill Right Bank Levee Repair, North Fork Snoqualmie River, River Mile .3. https://your.kingcounty.gov/dnrp/library/water-and-land/flooding/snoqualmie/shake-mill-right-bank-30-percent-planset-2020.pdf As you are probably aware the first winter rains in early 2021 washed out the replacement repair leaving the bank to continue to erode for the past 3 years. We need to get this repaired properly and included in either the KC Comprehensive Plans or the sub-plans for prioritization and budgeting. I have included a picture of the eroded bank below. I can also provide a video of the area if you have a folder or dropbox to copy over.	Elizabeth Chiapala	Levee Repair	Written	2/20/2024

56	<p>My name is Terry Lavender. I am a member of the Joint Rural Area Team and serve as an Environmental Technical Consultant. I have been involved in Basin Planning, Land Conservation, and Comprehensive Plan reviews for many years. I am specifically commenting on Chapter 5 of the Executive Recommended 2024 King County Comprehensive Plan.</p> <p>We are pleased to see the Climate Action Plan permeates every aspect of this chapter. Almost all Climate Actions are “shall” making the intent strong. The language throughout is updated to match current practices and the Climate Action Plan. New to the Climate Plan is Climate Equity and equity language is added throughout and strengthened with “shall.”</p> <p>There are strong statements for a multi-species approach and biodiversity. It is stated that Biodiversity refers to species, habitats and their interactions across all landscapes. There is an emphasis on preserving and restoring ecosystem processes. All of this adds up to our best opportunity to really achieve these goals.</p> <p>I applaud the focus on mapping, collaboration and monitoring.</p> <p>At one of the first King County meetings I went to back in 1988, the public was there to ask about Beavers. I applaud the statement that King County supports coexistence of beaver and people, but I do wonder what implementation will look like.</p> <p>There is much to love about the proposed Chapter 5. However, while we find strong policies in the Executive’s “Recommended Plan,” they depend on how they are implemented, if and how periodic monitoring is funded and staffed, and that enforcement happens when needed. Our experience has been that each of these are problems currently and historically. Structural changes and funding issues will need to be solved before the County can truly honor and accomplish the good policies herein.</p>	Terry Lavender	Environment and Natural Resources	Written	2/20/2024

58	<p>Dear Council Members, February 22, 2024</p> <p>Following is my personal opinion on minimum lot sizes in Fall City.</p> <p>In short, I don't agree with imposing minimum lot sizes in Fall City. This may seem counter-intuitive, but my reason is that I'm strongly in favor of preserving the rural character of this town.</p> <p>If you pass through Fall City you'll see predominantly small houses on small lots interspersed with the occasional vacant lot. These were typically built long ago when Fall City was remote and lots were cheap. Land is now (very) expensive and builders are putting up the largest houses they can, no matter what the lot size. Requiring people to divide their land into fewer, larger lots will force them to build even larger houses and sell them for even higher prices to help offset the reduced number of units.</p> <p>My neighbors and I own two of the last large parcels within Fall City. Neither of us like the "maximum house, minimum lot" model currently pursued in town. Though we have no plans to sell or move we've discussed what we'll do with our properties when we do.</p> <p>We envision several groups of small, empty-nester/starter home houses separated by open space and what little forest remains, orchards, gardens; a place of (relatively) affordable smaller homes of "rural Character" where we'd continue to live.</p> <p>This vision could only be achieved under current zoning; small lots, small houses, even LOSS systems (that function) under open space. Common areas shared by more tightly spaced neighbors. Fewer roads. It absolutely cannot happen if we're required to have 10,800 or 12,500 square foot lots; the outcome can only be large, expensive homes sprawled suburb-style over the landscape.</p> <p>If it were possible, I'd make this simple rule: Maximum house size is driven by lot size. If a landowner wants to create smaller lots, then smaller houses must be built; if they want to build big houses they have to create big lots for them. Either way, it's their choice. No-one will build small, affordable houses on large lots (at least not to sell).</p> <p>Thank you for your consideration,</p> <p>Sincerely,</p>	Charlie Kellogg	Rural Area lot sizes	Written	2/22/2024
59	<p>Hi there</p> <p>I am studying the 2024 Comprehensive Plan to understand what impact, especially around density, will be coming for a property with RA-5 zoning in Woodinville. I also did a parcel number search in the "Land use and Zoning Map Amendments" and did not see any changes impacting my parcel.</p> <p>Could you help me understand if there is any potential code changes that would allow higher density for RA-5 zone, e.g. affordable housing. If I need to speak with someone else on this matter, I would appreciate a referral as well. Thanks!</p>	Ming Fung	Impact on specific property	Written	2/26/2024

60	<p>RE: NEW STG/REMLINGER MUSIC CONCERT VENUE</p> <p>Dear King County Councilmembers,</p> <p>My name is Jules Hughes and I live and work in Carnation in District 3.</p> <p>There is a new summer concert venue coming to Carnation on May 24th, that is in direct conflict with the King County Code and Climate Action Goals. The site is in a Conservancy Shoreline, FEMA floodplain and floodway of the Tolt River. It is on a dead-end road off of rural 2-lane 203 and will cause immeasurable access and egress issues, up to 34 times a year.</p> <p>The Snoqualmie Valley is a sensitive eco-system of farmlands, wildlife habitat, human and natural forces and cannot handle the stresses that would occur as a result of this venue.</p> <p>From reporting in the Seattle Times, it is a new Carnation "amphitheater," which at a capacity of 6,000, exceeds the capacity of Marymoor by 1000 and St. Michele by 2000.</p> <p>This proposal by STG and Remlinger Farms, is considered a non-conforming use by King County, however this does not represent past use and is a change of use. This would not be allowed within Issaquah or Sammamish, so why is it being allowed here? And in a much more ecologically sensitive area, risking the health of critical Tolt and Snoqualmie watersheds?</p> <p>Remlinger did not receive proper permits for the STG concert last June and it appears they are planning to continue this unpermitted use, as tickets have already been sold for concerts. This project will have an enormous impact on surrounding neighbors, including traffic, noise, polluted stormwater runoff, compromised police, fire, and ambulance access. At minimum, a temporary or conditional use permit that includes full environmental and public review as required by law, should be required so that impacts can be identified and addressed.</p> <p>We want to preserve the natural beauty and environmental health of the Snoqualmie Valley and not have it overrun by voracious out of town corporate interests that could put all preservation efforts in jeopardy.</p> <p>Please do all you can to ensure King County does not let this venue proceed, as proposed, without robust oversight, mitigation, and legally required public process.</p> <p>Thank you.</p> <p>Sincerely,</p> <p>Ms. Jules Hughes</p>	Jules Hughes	Remlinger Music Venue	Written	2/27/2024

61	<p>My name is Steve Foster – I’ve lived within earshot of Remlinger Farm since 1959. My property is 2350 linear feet from the stage that was utilized last June for the unpermitted concert at Remlinger. That concert was the first of its size and acoustic volume ever. The amplified sound was much louder than any other events at Remlinger. This was a rock concert that lasted for three days. During the show, I could hear the lyrics inside my home with the doors and windows closed. So this is not existing vested use, it is a change of use and should have to through conditional use permit process.</p> <p>The noise ordinance requires sound exceeding the property line to be under 52 decibels, which is comparable to moderate rainfall. An outdoor rock concert has noise level of at least 110 decibels – over 85 decibels can cause permanent hearing loss. There is no way this venue can meet the noise ordinance with use of an amplifier. This June concert projected sound, exceeding this noise ordinance many miles up the valley.</p> <p>Secondly, Remlinger has begun clearing and grading without any permits for new work on Parcel 212507-9021. There is an active enforcement action on Parcel 222507-9012 that includes construction of a permanent stage without a permit in the shoreline conservancy zone, which conflicts with the Department of Ecology. What is King County doing about this?</p> <p>It has been DLS’s process to not allow new permits until enforcement cases have been resolved. Why is this not happening in this case?</p> <p>Thank you for your time and consideration, Steve Foster Carnation, WA</p>	Steve Foster	Remlinger Music Venue	Written	2/27/2024

62	<p>My name is Simone Oliver and I've been a Carnation resident since 1994. I have a environmental consulting firm that works regularly in unincorporated King County. I'm very familiar with codes pertaining to land use.</p> <p>The STG/Remlinger vested use is not legal. It is a gross expansion of the existing use that has never included public concerts of this magnitude. Everything they've hosted since the early 90's has been much smaller private corporate picnics and private music concerts. The non-conforming code section KCC 21A.32.065 does not allow for expansion of existing non-conforming use by over 10%, which this clearly exceeds the vested use in both number of attendees and change of use.</p> <p>In the rationale provided by Remlinger to document their vested use, the average attendees were provided on an annual basis, not an event basis. It is unclear how many attendees were present per event, which is necessary to accurately document past use.</p> <p>Regardless, from the data they provided, 3866 is the average high number of attendees in one event and 25 is the average amount of events per year. The vesting granted by King County represents 6000 people per event for up to 34 times per year. This reflects an increase of 55% in number of attendees and 36% increase in frequency of events over the vague data provided by Remlinger. This does not comply with the non-conformance code section KCC 21A.32.065.A.2 that limits maximum expansion to 10% and Jim Chan's decision 'that the use may continue, provided that:...any modification or expansion of the use complies with nonconformance standards in KCC 21A.32'. Based on this alone, the vesting certificate should be revoked per code section KCC 21A.50.040.2 'The approval was based on inadequate or inaccurate information.'</p> <p>This venue has never been an 'open-air theater' as the vesting interpretation states granting them full, unappealable green light to play by a different set of rules, or no rules in this case. I had hoped that making back-room deals was a thing of the past, but apparently that's not the case. The county needs to do the right thing and revoke this vesting certificate and require STG/Remlinger to go through the standard TUP/CUP process as required by law. This process allows for public review and input, SEPA, multi-agency review and mitigation for impacts.</p> <p>This venue is not allowed under the state shoreline act as administered by DOE. The whole site is located within the floodway and floodplain of the Tolt River.</p> <p>Thank you. Simone Oliver</p>	Simone Oliver	Remlinger Music Venue	Written	2/27/2024
63	<p>Taxes: I am a senior citizen with 3 properties in King County. The excessive taxing of property owners in King County, hard workers, that saved and invested to purchase property, you are holding responsible for supporting homelessness and drug abuse. We should NOT be the ones held accountable for caring for these individuals, particularly handing out gift cards that only help the drug dealers to take them in exchange for drugs, pennies on the dollar. I support working the root of the problem and helping those that want to get out of their predicament, not throwing band aids to those who want a handout. As a senior citizen, we can't afford a 12% property tax increase! I just declared Republican, the first time in 40 years.</p> <p>Land use: Our family farm on a river received notification that you changed our property line, no public hearing, no notification prior to the change, and no compensation for taking part of our land. How can you do this? Is this legal? We paid for the property line we had when the land was purchased and were not compensated for the change. I am ok with changing it as long as it does not impact the value of my land and if it does, we should be adequately compensated. YOU STOLE OUR PROPERTY.</p> <p>Again, voting republican! I also am going to work with the land owners where we own property right on the border of 2 counties to move out of King County. You are thieves. How do you answer these concerns?</p> <p>Thanks! 69	<p>Dear Councilmembers,</p> <p>Rural Traffic/Transportation - Rural Artery Roads Improvement Policy</p> <p>Rural Artery roads are roads between urban cities passing through rural, the one particularly in my neighborhood is the one of 140th PI NE in rural Woodinville, which connecting Woodinville city with Redmond, Kirkland, and others. It is vital to the rural local basic life activities and development. The traffic has been getting crowded year over year, mostly not from rural local, but from developments in the cities.</p> <p>There has been an skewed wrong policy on rural transportation; not allowing rural artery road improvement to discourage rural development. The developments over the past years were almost all from the cities.</p> <p>The rural development has been already strictly controlled and limited by KC Land Use codes. The road improvement, especially the artery road improvement should be entirely based on traffic frequency monitoring facts.</p> <p>This is a principle Equity issue. Please kindly pay your attention on this issue.</p> <p>Sincerely, Woodinville Rural citizen Venlin J. Chan</p>	Venlin J. Chan	Roads	Written	3/3/2024
70	<p>Dear Councilmembers,</p> <p>Rural Economic Development - Rural Tourist District</p> <p>Following just released King County Executive Recommended revision and current existing Comprehensive Plan on rural economic development, suggest to establish a Rural Tourist District on the east side of 140th Place NE of Woodinville from Woodinville City south boarder down to the joint with 148th Ave NE.</p> <p>According to existing stated policy, the rural economic development shall follow the direction of local special conditions and resources. The stretch of east side of 140th Place NE neighborhood has the special open view of the valley which attracts people work and dwell in cities.</p> <p>Sincerely, Woodinville Rural Citizen Venlin J. 72	<p>To whom it may concern,</p> <p>I would like to provide a comment for tomorrow's upcoming meeting on housing: It is great to see that making adequate provisions for the housing needs of all economic backgrounds is being emphasized. One area I would like to point out in King County is Westlake. Everytime I am in that area there is a noticeable amount of homeless individuals roaming the streets. However, this situation has not seemed to improve significantly in the past couple of years. Please consider looking into this area more closely to see how the housing gap there can be addressed.</p> <p>Thanks, -- Hanson Dai Real Estate & Business Administration Teaching Assistant & Research Assistant Student Ambassador, Runstad Center for Real Estate Studies</p>	Hanson Dai	Housing	Written	3/5/2024
73	<p>RE: Written public comment submission for 2024 Comprehensive Plan Local Services and Land Use Committee Briefing (March 6th & 7th)</p> <p>Dear King County Department of Local Services and Land Use Committee Members:</p> <p>I'm writing on behalf of the King County Housing Authority team to share the attached letter and zoning modification request regarding the Vue Terrace Model Mobile Home Park (a proposed Manufactured Housing Community) in Skyway.</p> <p>KCHA owns and/or will have site control of over 3-acres of property in Skyway, WA. The property is bordered by existing adjacent mobile home parks on the east and west boundaries of the property. The property is difficult to develop as there are fill soils, sloping to the south and drainage issues that will not allow for high density multistory development and high impervious surface.</p> <p>The King County Housing Authority in cooperation with King County is committed to finding and creating affordable housing opportunities for low income residents in Skyway, especially those that provide for large families (including multigenerational living arrangements) and equity building opportunities. The attached letter outlines a modification request that will not only help this affordable housing model mobile (manufactured) home park come to fruition but provide for consistency of housing type across 3 distinct but adjacent parcels of land. This project has also received broad public support in having secured \$5.8 million in public funding from the State and King County and will benefit from the contribution of the publically owned land KCHA is making available for this model mobile (manufactured housing) home park.</p> <p>This as an important project for the Skyway community and the partners involved and we look forward to working with you to move it forward. Thank you for your consideration.</p> <p>Best, Tim Walter</p> <hr/> <p>Tim Walter Sr. Director of Development & Asset Management www.kcha.org King County Housing Authority We transform lives through housing</p>	Tim Walter	Housing	Written	3/5/2024

74	Dear Chair Perry and LSLU Councilmembers, In preparation for tomorrow's LSLU study session on housing policies for the 2024 King County Comprehensive Plan, attached please find MBAKS' comment letter dated March 5, 2024, and Attachment A. MBAKS recognizes the Plan is important for protecting the incredible Puget Sound environment, while planning for and updating options and opportunities residents have regarding where they live, work, and play. We want to ensure policymakers remember that new and revised elements within a comprehensive plan often come along with unintended direct, or indirect, added costs to provide housing. MBAKS also believes the document should reflect that the County regards the promotion of adequate and attainable housing as a top priority. MBAKS stands ready to work with the County and other stakeholders to further that goal. We appreciate your thoughtful consideration. If you have any questions, please don't hesitate to contact me at vshakotko@mbaks.com or 425.435.8990. Respectfully, Veronica Veronica Shakotko Senior King County Manager Master Builders Association of King and Snohomish Counties	Veronica Shakotko	Housing	Written	3/5/2024

100	<p>Good evening. I am Cindy Parks and I've lived in Fall city for 40 years.</p> <p>I support Angela Donaldson's comments regarding density, lots size and setback. The current language in the proposed subarea plan and the recommendations the subarea stewards are proposing aligns with the community's desire to allow development but have that development be consistent with Fall City character.</p> <p>As the Council members know, Fall City has limited public resources. This requires us to have a strong community commitment to volunteering and connection with each other. We strongly value organizations like Fall City Community Association, Fall City Historical Society and Fall City Sustainable Growth to bridge those resource gaps.</p> <p>I have printed out a few photos I will share with you showing average homes in Fall City, an ariel of Fall City with the new built development, examples of cars on shoulder and in street of the new development and a photo of additional developments coming to Fall City - with up to 24 homes each.</p> <p>We want to see sustainable building practices in Fall City. We advocate for current and future generations by protecting drinking water and the health of the environment, ensuring adopted policies and community plans are honored, and advocating for our unique rural identity.</p> <p>Thank you for your careful consideration of the updating of the Comprehensive Plan that will guide us for years.</p> <p>-Cindy Parks</p>	Cindy Parks	Fall City	Written	3/8/2024
101	<p>Hi,</p> <p>1) Is there a draft of the proposed Plan Update that can be reviewed by the public? 2) Is there a map showing proposed changes in land use and zoning resulting from this Plan update?</p> <p>Thank you,</p> <p>-- /Fred Fred Schapelhouman</p>	Fred Schapelhouman	General	Written	3/7/2024

102	<p>Hello,</p> <p>Thank you for the opportunity to provide public comments on the proposed Comprehensive Plan and associated SubArea Plans electronically. I was not able to attend an in person meeting.</p> <p>I encourage the proposed Snoqualmie Valley/Northeast King County Subarea Plan to be changed to reflect the desires of the Fall City Community as submitted by the Sub area stewards who thoroughly researched, surveyed, and documented their findings. These changes would include:</p> <ul style="list-style-type: none"> •Increasing the designation of minimum building setbacks to: Street - 30ft; Interior - 10ft; and Back - 20ft. •Use a Net Density of 4 dwelling units/acre. This aligns with the Fall City Residential Analysis study completed by consultants for King County and assures a building to lot ratio that blends in with the existing character of the Fall City community. •Designation of a minimum lot size of 10,000 sq. ft. <p>These changes should help to limit clustering, keep houses in scale with lot size, and allow for new developments that more closely match neighboring homes.</p> <p>Teresa Kluver 32803 SE 44th Street; Fall City 425-443-1115</p>	Teresa Kluver	Fall City	Written	3/7/2024

108	<p>My name is Rachael Hogan, I live in an apartment in Kenmore. I wanted to reach out and share my support for rezoning in King County to include more dense, urban housing. Rezoning to allow for a walkable city and more affordable housing is a dream come true! Lower land cost, cheaper building cost per unit, a walkable city that promotes local businesses, centered around public transportation to reduce the necessity of cars, leaving green space to preserve nature and fight climate change and more. We cannot allow single family houses to occupy most residential zoning, it's shortsighted and doesn't serve the true needs of our growing communities. Rezoning to allow duplex, condos, and apartments is the change we need. Increasing our housing supply around desirable areas with dense, urban housing should be our top priority!</p> <p>This change is needed across America, as single family zoning laws are unsustainable. We are seeing the consequences of these zoning laws play out as people desperately compete for housing. America has been underbuilding homes for years, and single family zoning laws prevent us from building affordable housing that so many Americans need. Some estimates show we are missing four million homes across America, and the need for housing is driving home prices and rents to unsustainable levels. Kenmore is not alone in our archaic zoning laws, but I am so proud that King County is taking steps to build better cities and be a leader for zoning reform in our country.</p> <p>I spent over a year trying to buy my first home in 2021, but the lack of housing supply has left people to compete in insane bidding wars just to find a place to live. The 1980 townhomes I was bidding on got offers of 20% - 25% over the listing price! The housing shortage in this area is hugely damaging to our population, especially to those who have not had the opportunity to buy a home before these surging home prices. Rezoning is not a quick solution, but it is a long term solution, with financial and environment sustainability at its heart. I know this won't help me buy a home today, but the need to provide for future home owners and residents is a bigger priority. We need sustainable solutions, and rezoning is a great start.</p> <p>New zoning will bring change, such as needed infrastructure. It saddens me to see some residents balk at this proposal. So many are thinking of short term problems. Rezoning is not a short sighted goal, it is a fundamental shift to our cities. This is an amazing opportunity to shape King County for the better.</p> <p>As a public school teacher, my dream of owning my own home feels impossible at times. I want to be able to live in the community I serve, and rezoning is a huge step in making that happen for myself, and many others. Thank you for bringing this proposal to our county, I am so excited to see cities change their zoning laws and change for the better!</p>	Rachel Hogan	Density	Written	3/10/2024

110	<p>Submitted by Wayne Gullstad, gullstad@comcast.net</p> <p>The following is a more comprehensive version of my public comment at the March 7, 2024 meeting in Duvall to review the 2024 Comprehensive Plan. My comments focus specifically on the County's claim that it used Best Available Science for the proposed new recommendations for widths of vegetated buffers along water courses.</p> <p>The County's basis for proposed new waterside vegetated buffer widths is sound in its intent, is likely supportable (in an ecological context) by Best Available Science, yet is justified using a flawed and manipulated principal. Site Potential Tree Height, the basis for the County's new recommendations, though widely used, was not derived through science. It will yield suboptimal results. It will have difficulty standing up to challenges of the Best Available Science basis.</p> <p>The County's updates to the Comprehensive Plan were to be derived using Best Available Science ("BAS"). Site Potential Tree Height ("SPTH") is neither "Best" nor "Science". The principal was created in 1993 as a "use your best judgement" approach to providing quick guidance for a starting point in an effort to restore the spotted owl. Its originators stated as much saying it was only intended as an interim solution until proper analyses could be done. A lot of proper analyses have occurred in the past 30 years. A lot of solid science.</p> <p>The County argues that SPTH is widely used, widely supported, and generally coincides with effective buffer widths. If so, who cares? Well, setting aside the most fundamental problem--that it's not science based--by basing their buffer recommendations on SPTH, the County faces these potential problems:</p> <ol style="list-style-type: none"> 1. Applying SPTH results in abrupt, large, and unexplainable jumps in projected buffer widths; 2. SPTH does not necessarily generate recommended buffer widths that provide optimum ecological function; and 3. by hitching their recommendation directly to SPTH, the County leaves itself boxed into that specific number. <p>Let's take a closer look at that last point. Regulatory buffer widths have evolved over time. This is likely driven by a number of things: new and better science; a better societal understanding of the value of buffers; and increased urgency as species continue to struggle. We may well decide that wider buffers are necessary in the future. What do we do if we've anchored our recommendation to a number? For example, we decide now that, based on SPTH, the buffer needs to be 200 feet wide. Six years later, how do you argue for 250 foot buffers? Is it still based on SPTH but 1.25 times better science?</p> <p>The County's own science team might be making the best case for the lack of efficacy of SPTH. They ran smack into the first two</p>	Wayne Gullstad	Best Available Science	Written	3/16/2024

111	<p>Dear King County Council:</p> <p>I wish to voice my concern regarding the Carnation Farm and Remlinger Farm concert venues.</p> <p>I am against this for several reasons, first this is a "rural community" with winding farm roads that cannot withstand car traffic of up to 4,000 people or 10,000 collectively. The roads are two lane roads and are in poor condition already - have you driven the Snoqualmie Valley Road recently? It is full of dips and uneven pavement. In the spring and summer months, these roads are filled with bicyclist, motorcycles and farm equipment. The roads cannot handle this type of capacity, and will affect the wellbeing and livelihood of those who reside here. All of the extra vehicles on the road will endanger the bicyclists and farmers greatly. There are no sidewalks or shoulders for these bicyclists or farmers to move over to, and for out-of-towners how are in a hurry to get to their concert venue, this will cause frustration and dangerous driving situations, such as passing and speeding.</p> <p>This is a relatively safe and clean community and I fear bringing in concerts would promote theft, littering and additional disturbances (revving of car engines, drunken disturbances, drunk driving, etc.). The community that I live in is right up above and behind the Carnation Farm. We purchased our home for the tranquility of "country living." The thought of concert music permeating the air during our days or evenings is not something we are in support of.</p> <p>How will the Carnation town police/fire department handle this volume of people? How is the extra traffic going to be handled? Where are people going to park?? The town's resources are limited and how is the town to handle a large emergency if one were to occur?</p> <p>One last thing to keep in mind is the large herd of Elk that come down into the valley frequently. These elk cross the roads right at the Carnation Farm, you can see their pathways into the woods, and they may either (1) be driven away from this area due to the music and traffic and/or (2) cause a horrible accident. People who come and visit this area with no knowledge of the happenings of the elk herd will not be</p>	Michael and Dena Beeney	Remlinger Music Venue	Written	3/19/2024

112	<p>Dear King County Local Services and Land Use Committee:</p> <p>As a longtime resident of Carnation, I am opposed to the scope of the proposed concert series at both large farms that essentially bracket the town of Carnation (Remlinger and Carnation Farms).</p> <p>First, Remlinger seems to have rammed the permit process through somehow, without thoughtful or public process. How is this possible? They do not have a history of having the proposed number of people at the proposed number of events. At all. The scope of their proposal is far above what has happened historically.</p> <p>Both the number of people at each event and the number of events is concerning on many levels. I'm concerned about:</p> <ul style="list-style-type: none"> --negative impact to sensitive ecological environment along the Tolt River and Snoqualmie River --negative impact of seriously high decibel levels during concerts (as what already happens during Remlinger's corporate events with music, and the huge concert they had last summer) on wildlife and on our quality of life. I'm .6 miles from the Tolt and could hear the concert last summer. Way too loud. --impact of that number of people and cars on our town. Illegal camping all over town at last year's Remlinger concert. --our town already has issues with the traffic on 203 during the summer for smaller events. That many cars, people, etc. will jam the roads, and prevent emergency vehicles from getting through. Accidents and DUI's are a concern, without camping facilities provided by the venues. --location of concerts in floodplain areas --impact on water quality, increased pollution, increased use --use of our town as a playground for people coming from all over to hear national acts. Our community never agreed to this. We were never given a chance to have concerns heard. --This feels like more of the same: rich corporations (STG) deciding how to make a buck without consulting the local community. --Remlinger Farm has a history of illegal land practices and does not seem concerned about 	Jenn Dean	Remlinger Music Venue	Written	3/19/2024

114	<p>Theresa Mosqueda and KC Council members, We are following up after our video conference of a couple of weeks ago. Thank you again for the time. Do you have any questions for us, are there any next steps coming up? You mentioned that there is a series of meetings with the KC Exec planning staff, Chris Jensen right? If you can please share your thoughts now that you are up to speed. Below is some more food for thought. Also, we will be putting our public comments in during a meeting or two, thank you for sending the schedule. I also want to provide you with some information in regard to policy, and what is at stake, going forward with the change of zoning code for RA-5 to accomplish a spot zoning. The stakes are high, and the issues are pretty significant from a legal standpoint. But, also, from a policy standpoint; how much power does The KC Exec have in the 10-year plan to override laws, previous rulings, constituents, etc? This grant of spot zoning is a mighty hand wave at all kinds of things. There are also some very practical considerations of fairness and what is right and wrong at play as well and should the public be able to count on the stated reasoning for why decisions are being made are true and not done for political maneuvering or with conflicted interests. But what we are trying to do is stop an effort that we believe should be done a different way. As we shared with Erin, we are coming from the perspective of: Not in My Backyard This Way, NIMBYTW! And Teresa, we are again asking for your support in stopping this current effort and as a follow on to this, bringing together a planning and zoning process that will be a win-win for all not just one property owner at the expense of others' and our community's future options. ***** What is at stake by allowing the zoning code change for the old Grange: •The precedent that Dow Constantine has King-like power when it comes to land use laws and rules in the KC Execs 10 year comp plan update •That RA-5 zoning in KC now includes Food Stores (never before conditional use) •That a KC property "bad actor" property and tax scofflaw (getting an underserved tax break) property acquires special treatment and consideration from King County, the properties neighbor and past co-bad actor •That in the KC Execs 10-year comp plan, the reasoning for a zoning code change does not need to be true and be provided to the public for comment with no serious resolve to the statement •That a property that is literally on an Oso map overlay steep slope will be granted a spot zoning exception •That a property that is zoned RA-5 is being pulled out of the housing stock potential at a time when housing is needed and is supposed</p>	Rick Shrum and Ginger Ferguson	Vashon Grange	Written	3/19/2024
115	<p>Dear King County Clerk (or whoever is organizing this meeting), Please see attached Public Comment from our organization. Thank you for distributing to the Committee members and appropriate staff. 116	<p>To whom it may concern, king county council and commissioners, With respect to LSLU Committee agenda– Briefing 5 - Chapter 3: Rural Areas and Natural Resource Lands Opportunity for Public Comment – Remote and In-Person, please include this comment in the meeting documents.</p> <p>It was very recently brought to my attention that a temporary use permit has been submitted for a concert venue designation at Carnation Farms in rural Carnation, WA. This surprises me as I am a client of a Carnation business that abuts this property, and I spend more than 20 hours a week at this property.</p> <p>I am concerned that neighbors were not allowed sufficient voice in use of neighboring land for a purpose that will have significant impact on the environment and their livelihoods.</p> <p>I would like to add my voice to the many voices that strongly oppose the incongruent use of rural lands for urban purpose here. Beyond the obvious environmental impacts, the stark safety concerns, and the loss of rapidly diminishing rural character is the hypocrisy in creating an Arts venue more than 40 min drive outside of Seattle. The venues in Seattle urban areas are already struggling to keep doors open post pandemic Just listen to KEXP for half a radio show and you will hear repeated call outs to support existing local music venues all around Seattle.</p> <p>These events seem not to support a successful business plan unless you drastically increase scale. And increased scale is absurd with single lane roads and no other services to support it. Given that there are already area parks, the zoo and many urban private businesses devoted to these types of events it makes no sense to commit this rural and agricultural area to such a use.</p> <p>In addition the development of such a site in Carnation would have big costs and very little benefit to the community. The proposed increase in visitors, vehicles, and noise pollution will disrupt wetlands and water tables, drive away wildlife, and destroy the culture of rural King County. Farm animals will be stressed. Wildlife viewing and hunting will be diminished. Flooding risk will increase. Planting cycles will be shifted.</p>	Deborah Hopkins	Carnation Farm Music Venue	Written	3/20/2024

132	Good afternoon, Enclosed are copies of the exhibits and comments made at the March 7th, 2024 LSLU Public Meeting on the proposed comp plan and NEKC Subarea Plan. Additionally, I've included a copy of the November 2022 recommendations made by the Fall City Subarea Steward Committee, submitted to the Executive on the proposed NEKC Subarea Plan, Comp Plan, scoping, map amendments and accompanying code. Lastly, Can you please direct me to the proposed amendment Fall City's Business Special District Overlay in the upcoming plan update? Here is a link to the current ordinance: https://kingcounty.gov/en/legacy/depts/localservices/permits/property-research-maps/property-specific-development-conditions/SDO/SO-260.aspx Specifically, on behalf of the Fall City Community, I need to ensure the three recommendations are included in the LSLU review process. The most substantive item is Automotive Repair & Service business shall be included under the allowable use under general services. This is an essential business to our rural town.	Angela Donaldson	Fall City	Written	3/19/2024
133	Dear Council Members and Staff: Enclosed please find Futurewise's comments on the Proposed Ordinance 2023-0440 – 2024 King County Comprehensive Plan update Chapter 3 Rural Areas and Natural Resource Lands. Thank you for considering our comments. If you require anything else, please contact me. 134	Good afternoon, Per guidance from Councilmember Perry's office, please note my feedback on the documents related to the Comprehensive Planning initiative. If needed, I am happy to provide additional information or feedback on how difficult it is to navigate the different documents. My suggestion is to incorporate a "simplification initiative" within the planning process to make these documents digestible to any resident who needs to understand the guidelines. Please do let me know if you have any questions would like more feedback on how to implement simplification work. Thanks in advance, Elizabeth	Elizabeth Chiapala	Simplification	Written	3/21/2024

137	<p>Applicants have had significant challenges with King County Department of Local Services (DLS) for over 15 years. Under existing code, DLS has refused to allow applicants to use a section of the current code that reduces mitigation ratios (if certain performance conditions are met) rather than apply “permittee-responsible mitigation ratios” to users of mitigation banks (banks). Bank’s meet all of the requirements for reducing mitigation ratios under the current King County code, but staff have refused this option to applicants saying recently to a government applicant that “banks aren’t best available science”. Under the new updated code proposal, the ratio reduction section has been completely eliminated and no bank specific language has been included. This is contrary to what King County staff had said that they would do under this update.</p> <p>For some reason it seems that DLS staff have an adversarial and ideological opposition to mitigation banks or don’t understand them. DLS staff have refused meetings and code interpretations and refused any kind of common-sense approach to the reality that banks are apples and oranges different to permittee responsible mitigation, and, far superior for achieving no net loss, temporal loss, and reducing risk and failure, compared to typical permittee responsible mitigation projects. While King County has seen a high increase in failure in permittee-responsible mitigation projects they have not added any kind of clarification or direction for applicants to be able to use a mitigation bank, consistent with the intent of how banks operate, the rigor of the State and Federal mitigation bank program, guidance from Ecology on compensatory mitigation, alternative mitigation, or even best available science (BAS) updates. It appears that King County is arbitrarily picking BAS elements to increase typical mitigation ratios, made inaccurate or inappropriate equivalences between off-site mitigation and on-site mitigation reasons for failure, and completely left out the benefits of mitigation banking and code</p>	Mark Rettmann	Critical Areas	Written	3/26/2024

140	<p>Please see below for additional comments on the comp plan.</p> <p>Mark</p> <ol style="list-style-type: none"> 1. Offsite wetland buffer mitigation ratio is being raised from 1:1 to 2:1. No emphasis on the value of type, quality, location of impacted buffer and/or buffer mitigation actions. One reference to being able to use a mitigation bank for buffer mitigation but only within the “sub-basin” not the watershed or service area. Mitigation bank use should be based upon watershed and the bank service area, whichever is larger. 2. Riparian buffer mitigation ratio is being raised from 2:1 to all higher ratios now based on stream type. It should remain the same. 3. Some of the standard ratios in the mitigation table (what are concurrent, permittee responsible mitigation ratios) have been increased for certain wetlands. However, no mention about the difference of mitigation banks and permittee responsible mitigation ratios, thus they would still be applying these ratios to mitigation banks and advance mitigation when these alternatives offer more ecological advantages. 4. Wetland ratio reduction criteria has been completely taken out. Previously, because a mitigation bank meets all of these criteria by definition many have advocated that this code should be applied to banks. However, it appears it has been removed completely. 5. No new language on alternative mitigation options (advance mitigation and mitigation banks based on best available science from Ecology, Corps, EPA etc.) 6. No language on preference or priority of mitigation actions (reestablishment, creation, preservation, enhancement) to combat no net-loss, or higher monitoring standards etc for PRM. Instead, the proposal increases ratios for general “mitigation” which is not best available science. 7. No acknowledgement or support for the benefits of alternative mitigation (advance, banks, etc.) to prevent no net-loss. This must be incorporated into the code, not removed or ignored. 142	<p>People, On March 21, at the general meeting of the Vashon-Maury Community Council, the Vashon Town Plan Committee made the following motion, to be voted on at the next general meeting on April 18th: "The Vashon Town Plan Committee recommends that the current Executive proposal, which gives density bonuses in Vashon Town exclusively to affordable housing be changed as below: NEW SECTION. SECTION 23. There is hereby added to the chapter established in section 21 of this ordinance a new section to read as follows: B. New or substantially improved residential or mixed-use developments shall provide affordable dwelling units, and may exceed the base density allowed in the zoning classification, in accordance with the standards listed below The Committee further recommends that the height restriction be changed from 35 feet to three stories." King County and the Vashon community have made it clear that affordable housing in the Town of Vashon is a priority, but the current Executive proposal would limit density bonuses in Town to 100% affordable housing developments, and would limit the height of development to 35 feet. Building 100% affordable housing developments in the Town of Vashon would not be feasible for private developers, and it would prevent the integration of affordable housing units with market rate housing. These goals would be better achieved by modifying the Executive proposal to incorporate the same density bonuses proposed in other Rural Towns in King County, without the use of TDRs, and with two modifications. First, we would allow density bonuses for developments with 9 or fewer units, because the Town of Vashon comprises a small area where smaller developments should be encouraged. Second, the greatest present housing need on Vashon is for the people who work on the Island, such as teachers, clerks and other workers whose incomes fall within the</p>	David Vogel	Density	Written	3/30/2024

143	<p>Dear Councilwoman Mosqueda -</p> <p>First, congratulations on winning the election to represent Vashon on the King County Council.</p> <p>I am writing on behalf of a large – and growing – group of Vashon residents comprised of mental health professionals, community activists, retirees, parents, and others, who are extremely concerned with the lack of public process and transparency surrounding the Thunderbird Drug Treatment Center, which is being proposed by the Seattle Indian Health Board (SIHB). After reading the information below, we hope to meet with you to discuss this matter in more detail.</p> <p>Before I go into the reasons why this island cannot support the type of rehabilitation center being proposed, I want to stress that this community has shown itself to be incredibly supportive in terms of welcoming and sustaining social services for those who need help. A few examples, include:</p> <p>Vashon’s Interfaith Council works to feed and shelter homeless individuals on the island;</p> <p>The Vashon Health Care District is working to increase the availability of medical services that are woefully lacking here;</p> <p>Vashon Household is doing a terrific job of building low-income housing to help those who can’t afford to live here;</p> <p>Vashon Youth and Family Services is working hard to reduce the serious substance abuse prevalent on Vashon, as it is in so many rural communities; and</p> <p>Last but not least, the Dove Project works tirelessly to address the surprisingly large number of domestic violence cases here on the island.</p> <p>These remarkable social service programs, which receive widespread community support, were established to help islanders who face very real problems. But the Thunderbird Drug Treatment Center will irreparably harm the island, its residents, and the patients they are charged with caring for – as we simply do not have the infrastructure to accommodate it.</p> <p>The proposed location was spot zoned years ago when the community rallied for a facility for its elderly and disabled population, and opposed a similar proposed drug rehab at that time. In fact, community members contributed more than \$1.2 million dollars toward its construction back in 2001 (https://www.seattlepi.com/seattlenews/article/vashon-residents-raise-1-2-million-to-save-a-1067898.php). The one and only reason rezoning was allowed at that time was because of local community support for – specifically and only – the low impact use for long-term residential apartments for our elders and disabled who needed assisted</p>	Katy Ballard	Drug Treatment Siting	Written	4/1/2024

144	<p>Hello,</p> <p>Please, I request the Council to adopt the guidance provided by the WA State Department of Ecology published back in 2022 - incorporating BAS, which exempts low functioning Category IV Wetland of going through a mitigation sequencing process and opting immediately for a compensatory fee or credit.</p> <p>Pursuant to WA State Department of Ecology (Department) Wetlands Guidance for Critical Areas Ordinance (CAO) Updates, published on October 2022, the Department proposed the adoption of an exemption process for certain low functioning Category IV wetlands. This would provide a better protection and certainty of improvement of more high functioning wetlands (categories I, II, and III) by preventing a net loss of wetland function.</p> <p>After revising the proposal for updating the King County CAO submitted on March 1, 2024, I could not find any reference about adopting the guidance supra referred, which is informed by BAS and aim to provide a more uniform approach to wetlands across WA State. This also would be a more equitable approach to landowners within King County. In the same regional area, depending on the municipality boundaries, 3 neighboring lots may have to go to 3 different process, producing very inequitable result for the landowners.</p> <p>Multiple municipalities and counties provide certain exceptions for Wetlands Category IV depending on its size varying from 1,000 sq ft to 5,000 sq ft. I believe, the size is not as relevant as the function. King County implemented the 2,500 sq ft mitigation sequence exception, but as stated by the Department, sq footage is not based on BAS.</p> <p>This approach would (1) avoid further growth beyond the already established urban growth area, (2) increase housing, and (3) decrease investment in public transportation and utilities to serve far distant residences that keep encroaching on high functioning pristine wetlands.</p> <p>Respectfully, Leila Gonzalez-Rigatto</p>	Leila Gonzalez-Rigatto	Critical Areas	Written	4/2/2024

152	<p>Hello -</p> <p>I am told that King County has just proposed updates to their critical area code in the Comprehensive Plan for 2024. The changes include increasing all ratios for mitigation and making it more difficult to do offsite mitigation. This is contrary to guidance from most other agencies and is not practical. I am involved in a few projects for which onsite mitigation is being required. In some of these cases it is not practical and in our opinion is overkill based on the low quality of the onsite sensitive areas. In one case the County is requiring offsite mitigation through the King County Reserves Program at arbitrary and unreasonable ratios. We are trying to counter that with a reasonable offer through another mitigation bank that does not cover that area but in which case we requested an exception.</p> <p>We are not against keeping the planet green, but do want a realistic, reasonable, efficient approach on wetland mitigation which does not eliminate the motivation to create additional lots for housing.</p> <p>If you would like this in letter form, please let me know.</p> <p>Thank you.</p> <p>Tom Thomas J. DeDonato</p>	Thomas J. DeDonato	Critical Areas	Written	4/3/2024

176	I can't wait for the old Grange Hall to become alive again as Heights Grocery! Small, locally owned businesses are the lifeblood of communities. This one in particular will provide critical commodities, a community gathering space for a neighborhood that has none, resilience in the face of emergencies (from icy winter storms to earthquakes), and island jobs. The location is accessible by foot from probably the biggest concentrated population on the island (5 miles from town center and the main grocery store), and there is plenty of parking as well. Jennifer Potter is a stalwart member of the community, dedicated to providing for the community and making it a good time for everyone involved. She has put years of effort and money into securing this building, taking care of it (an island landmark), making it accessible for use in whatever ways are allowed, and she will be a stellar business owner. Please do what it takes to make Heights Grocery a reality! Vashon will thank you for it... Michelle Bates Vashon Island 206-795-3054	Michelle Bates	Vashon Grange	Written	4/4/2024
177	To Whom it may concern: The old Grange has served in bringing together this community over decades and we need it to continue in that vein. By providing grocery items and social space, it fills a critical role that is otherwise unavailable to residents within 5 miles of the venue. There is no compelling reason to restrain the opening of this business unless the aim is to cripple the owners and the community that supports them. I urge you to allow the business to proceed immediately. Dr. Fran Brooks	Fran Brooks	Vashon Grange	Written	4/4/2024

178	<p>To Theresa Mosqueda and the King County Council, I am writing to urge the KCC to support and fully carry out the Re-zoning required to open a Heights Grocery Store in the historic Vashon Grange Hall. One thing I love about the owner's vision is that it honors and acknowledges the decades of historical and functional use of this building and space. It would be really sad if the building were either left, unused and abandoned, or demolished in favor of some concrete office park. The owner is not stopping at, or leaning on, the history piece, however.</p> <p>The proposed plan for a grocery store/coffee shop answers so many functional and practical needs. Basic groceries for people living on the Northend of the island, commuting home, who won't pass through town. For people close enough, it's an option to pick up some essentials without driving - burning car fuel, joining the fray of car/ferry traffic. And finally, it's community. The intimate size, the coffee shop, etc, without the challenging parking situation down at the dock, will provide a Northend hub. The hub will promote all kinds of positive communal support. People talking, people helping one another (kids picking up eggs/bread for elderly neighbors, on foot), networking to solve problems, etc. Studies of the people who live longest show they live in communities where interdependence, inter-reliance are a mainstay. This grocery store/coffee shop would promote this.</p> <p>Please consider! Respectfully, Ture Brusletten</p>	Ture Brusletten	Vashon Grange	Written	4/4/2024
179	<p>To Whom It May Concern, I am writing to let you know that, as a resident and community member of Vashon Island, I strongly support Jennifer Potter and her team in their proposal to renovate the old Grange Hall into a small grocery for our north end island neighbors. I believe this project is a fantastic way to restore that historic property, and provide a very much needed resource for the island, for the north end community in particular, as well as the many islanders that pass through that area on their way to and from the island.</p> <p>My understanding is that this project would require some changes to the zoning for the parcel. I sincerely hope that this rezoning is incorporated into the upcoming comprehensive plan changes, so that this project can move forward.</p> <p>Regards, Laura Laura Cherry (she/her) Dragon's Head Cider</p>	Laura Cherry	Vashon Grange	Written	4/4/2024

180	<p>Hello,</p> <p>I was born and raised right up the hill from the old Grange building. I cannot overstate how much a grocery store would benefit the neighborhood. It would be far more preferable to do my grocery shopping a short walk away in our beautiful neighborhood rather than driving ten minutes to Thriftway.</p> <p>In addition the Grange is an incredible, historic building that has lurked in the shadows for too long. It is long past time that this building be put into the service of our community. The Wild Mermaid provides an excellent case study in the value of revitalizing the few remaining historic buildings on Vashon. These buildings are not "preserved" in any meaningful sense by being left vacant.</p> <p>Please allow our neighborhood to become the vibrant community that it can and should be. There is no course of development more natural and healthy than this.</p> <p>Sasha Elenko, lifelong neighbor</p>	Sasha Elenko	Vashon Grange	Written	4/4/2024
181	<p>Hello,</p> <p>I am writing to seek your approval of Heights grocery store at the Old Grange location on the north end of Vashon Island. I live nearby and would love to have a walkable grocery store by our house. It would be a resource for the community, and could draw more tourists to the area who could walk off the boats , and this would help save gas and pollution. This could also be a wonderful gathering spot for the community. Please consider this request and thank you for your time.</p> <p>Katy Ellis</p>	Katy Ellis	Vashon Grange	Written	4/4/2024
182	<p>Please allow this grocery store to move ahead! Having a small grocery store on the north end of Vashon would be a great addition to the community.</p> <p>Having this available would save the five mile drive to town to get last minute or forgotten items. It would be so great (for my body and the environment) to eliminate these drives in a car!</p> <p>Barney Gill</p>	Barney Gill	Vashon Grange	Written	4/4/2024
183	<p>Dear King County & Rep. Mosqueda,</p> <p>Please accept this note as my formal comment for tonight's meeting regarding the Vashon Comprehensive Plan:</p> <p>As a resident of the Island's North End, I, like my neighbors, spend considerable time, gas and fossil fuel emissions going to Vashon town for quick grocery runs, meetings, and social engagements. The Grange Hall is an historic location that has been repurposed and preserved as a meeting, rehearsal and even theatrical venue. As a grocery store and gathering place, it will serve the Island even better by reducing our currently outsized carbon footprint and amplifying our neighborhood cohesion. Please do all you can to make Heights Grocery a reality.</p> <p>Thank you,</p> <p>Susan McCabe, Principal Hannah, Ink</p>	Susan McCabe	Vashon Grange	Written	4/4/2024

184	Hello, King County! I write to you as a 3rd generation Vashon Islander urging you to support bringing community back to the old Grange Hall on the north end of Vashon. That great old building brought people together for decades. By allowing this historic place to become a grocery and coffee shop you will breathe new life into the building and the neighborhood. Please help remedy this food desert and revive this once lively gathering place for neighbors by approving this project! Sincerely, Tami Brockway Joyce	Tami Brockway Joyce	Vashon Grange	Written	4/4/2024
185	Hi there, PLEASE, PLEASE rezone the building on the North End of Vashon so Jennifer can finally open up the LONG awaited Heights Grocery. It would definitely be a positive use of the building and would help support the North End community. It would also serve as a great stop going to and leaving the ferry parking lot. All wins to an otherwise unused building Please make this happen - they have waited far too long!!! North Ender of Vashon, Danny Kopsak	Danny Kopsak	Vashon Grange	Written	4/4/2024
186	Dear committee members, I have lived on the north end of Vashon Island for nearly 30 years. Allowing the Heights Grocery to become a neighborhood grocery store would add immense value the north end neighbors and commuters that park nearby. Please consider approving Heights Grocery! Lisa Lenihan Vashon Island	Lisa Lenihan	Vashon Grange	Written	4/4/2024
187	I am writing in support of Vashon Island's Grange. As our island grows ever more populous, we need to have a small local grocery store at the north end. The old Grange has served in bringing together this community over decades and we need it to continue in that vein. By providing grocery items and social space, it fills a critical role that is otherwise absent within 5 miles of the venue. Thank you for your consideration. Jennifer Loomis Vashon Island resident	Jennifer Loomis	Vashon Grange	Written	4/4/2024
188	Please help us enhance our neighborhood experience on Vashon. The old Grange has served in bringing together this community over decades and we need it to continue in that vein. 190	<p>Hello, I am writing to express my hopes and desire for the north end grocery store on Vashon to get the go ahead. My family live on the North end of Vashon with three small children and feel that a small store and meeting place would greatly benefit our lives. I'd love to be able to walk and get some milk and bread, meet my community and grab coffee without having to get us all in the car and drive to and from town. Without this essential community connection the North end can be very isolating. I'd love this to change and fully support Jennifer Potter's hard work and endeavor to make this happen! Please say yes and push for the rezoning Kind regards Libby McCullagh</p>	Libby McCullagh	Vashon Grange	Written	4/4/2024
191	<p>Hello, My name is Michael McQuillin I live at 10723 SW Cowan Road and owned and lived here for 23 years Vashon, WA I support the idea of a store at the old Grange Property at 10365 SW Cowan Road, Vashon, WA.</p>	Michael McQuillin	Vashon Grange	Written	4/4/2024
192	<p>I would like to show my 110% support in the Grange hall becoming a community grocery store. It is something that would be an asset and a beautiful addition to our community. That building has shared many benefits and memories in our community for many many years. It would be nice for it to be an interracial part of the community again. Specially in that area, it would service a large range of people. They have worked so hard to restore and make the building come alive again. Let's help it become a staple for the north end of Vashon Island for decades to come. Lisa Moe Co-founder and teacher at Vashon Explorers Preschool</p>	Lisa Moe	Vashon Grange	Written	4/4/2024
193	<p>To whom it may concern: As residents of the Vashon North End, we are writing to voice our support for, and passionate desire for, a local food store and community place as proposed by the Heights Grocery. Having a place close by to buy staples vs needing to drive into town for that one missing ingredient, or meet up with neighbors over coffee and cakes would make such a difference. After a long day of work schlepping out again to get groceries is exhausting but right now our only option. At the weekend being able to just wander down the hill for fresh bread or bacon, or that missing Parmesan for pasta would be amazing. The Grange has been a part of this community for a long time but lies empty much of the time. Giving it new life would give our community new life and new energy. Please consider rezoning as an urgent priority so we can make it a central part of our lives. Our community is supportive. Thank you, Cate OKane and Trey McBride</p>	Cate Okane and Trey McBride	Vashon Grange	Written	4/4/2024

194	<p>Hi,</p> <p>I am just writing to express my support for Heights Grocery on Vashon Island. I live on the Northend of Vashon, not far from the proposed location. I have been at this location for the last 20 years. I also grew up on Vashon, starting 1969 to 1990, along with much of my extended family.</p> <p>I believe Heights Grocery would be an excellent improvement to our local community, and I support whatever is needed to make it happen.</p> <p>Thank you!</p> <p>Carl Olsen</p>	Carl Olsen	Vashon Grange	Written	4/4/2024
195	<p>Hello!</p> <p>I am writing with my whole-hearted endorsement for the project colloquially known as Heights Grocery Store, which will occupy the former Grange Hall building once a special zoning overlay is approved.</p> <p>We northend residents of Vashon Island live in a dense, tight-knit food desert zone. We have to use a vehicle to drive miles away from our neighborhood for the most basic groceries or ingredients. We also yearn for a place to meet one another for a cup of coffee - or for a quick chat in the aisle. Also, preserving our old buildings is a must. If we can repurpose them for a more sustainable use, this should be a priority to maintain our unique island flavor. In addition, small family-owned businesses create more economic stability during an unstable era.</p> <p>Please support this amendment to the Code!</p> <p>Thank you,</p> <p>Jennifer</p>	Jennifer Potter	Vashon Grange	Written	4/4/2024

198	<p>I am writing in opposition to this change. The change has been put in for one parcel owner and hidden from view in the way it has been done. Vashon did not notice. The rural KC councils did not notice. This was intended as the change is a case of illegal spot zoning at its worst. This change carries with it huge costs. To the proximal neighbors, and to the community. This totally out of context magic grant of retail uses into the RA zones will tie the hands of the future and misses a great opportunity to actually do the work that is within the bounds of the laws of land use, zoning and growth management. Please do the right thing and drop this one off, spot zoning effort and support Vashon in creating a sub-sub area study area and plan for the north end of vashon. The code change action violates zoning laws, the growth management act and is totally opposed by the proximal properties. Rick Shrum Vashon</p>	Rick Shrum	Vashon Grange	Written	4/4/2024
199	<p>Hello, I am a resident of Vashon Island. I am writing in FULL-THROATED support of the Heights Grocery Store proposal for the former Vashon Grange Hall. From an island community perspective, food access and a community gathering space on the north end have been sorely needed for years. The owner, Jennifer Potter, has been vigilant with her planning and community engagement and has a compelling and inclusive vision that has amassed enthusiastic support for her project. Thank you, Tammi Sims</p>	Tammi Sims	Vashon Grange	Written	4/4/2024

203	<p>Please allow the Grange, which is a great building that We all love and respect to be used and loved once again by offering staples to a community who would definitely support this grocery store. We have a few grocery stores on Vashon, but having a neighborhood store where you can rely on staples and running into your neighbor for coffee is great for the community .</p> <p>It's a beautiful building that deserves to be used and not just sitting there rotting. They've done a beautiful job of cleaning it up and we all love to be able to buy coffee or milk etc. when it's just one thing we forgot from the store a few miles away.</p> <p>On behalf of our communities, healthfulness and wellness. Thank you for considering. Please please please please.</p> <p>Marla Tuchak -Neighbor in the north end of Vashon</p>	Marla Tuchak	Vashon Grange	Written	4/4/2024
204	<p>Hello -</p> <p>I'm writing ahead of tonight's (April 4th) Local Services and Land Use Committee meeting to provide my full-throated support for the proposed changes to 21A.08.070 of the King County Land Use Code that will open the possibility of operating a general store at Vashon Island's north end.</p> <p>The property has historically been a gathering space, not only for Vashon's north end but, for the island in general. Unfortunately, the Grange Hall - the historic node of the north end - has fallen into disrepair over the past few decades. However, the new owner brings a wonderful vision, passion for the neighborhood, and desire to honor the building and community that has been dormant for a long time. Further, many of the island's north end residents are desperate for food and gathering options that don't require them to go miles out of their way. Given the owner's passion, the building's history, and the overwhelming support from the community, it's easy to imagine everyone benefitting from this change and we thank you for considering it. I urge you to preserve the amendment referenced above to reinvigorate this part of Vashon Island and provide residents with better, more sustainable options for food and community.</p> <p>Thank you! 206	<p>Hello and thank you in advance for your time. I'm writing about the future of Heights Grocery, a community food market and gathering space planned for - but not exclusive to -Vashon's north end residents.</p> <p>Vashon Island's north end is currently a food desert. Folks who live on the north end and who commute into the city must drive 12 miles round trip if they need an item from the grocery store after work. And the elderly folks in our neighborhood don't like to drive into town when they just want to gather with their neighbors. A modest grocery store and coffee stand that is easily walkable and has plenty of parking is something we've needed here for decades. Please consider green lighting the Heights Grocery store so we can remedy what is missing in our neighborhood. We desperately need a food store and gathering space just like what Jennifer Potter and I have been dreaming of creating for the last 6 years.</p> <p>Sincerely, Rusty Willoughby</p>	Rusty Willoughby	Vashon Grange	Written	4/4/2024
207	<p>I am sending this text in support of the Northend Grocery proposal to be located in the historic Grange Hall on Vashon Island. I am supporting this for 3 reasons:</p> <ol style="list-style-type: none"> 1. Community: this will provide our neighborhood a place to gather, increase awareness of who our neighbors are and improve community safety through this knowledge. Our neighborhood has been victim to home invasions, car theft and prowling. 2. Convenience/ energy conservation: currently the only option for northerners who may need a quick trip to the grocery store for a couple of items is an 8 mile round trip. 3. Conservation : the Grange Hall has provided a gathering place for islanders for years. It is part of our history and , with this project it will continue into our future. <p>Thank you for your consideration Nancy Wolff Sent from my iPhone</p>	Nancy Wolff	Vashon Grange	Written	4/4/2024
208	<p>To whom it may concern, Please rezone the Vashon Island north end building so that Ms. Jennifer Potter can open her long awaited grocery store. The north end of the island is truly in need of such a store. The location is very convenient for islanders who live on the north end as well as ferry commuters. This store will help the community to have better access to food and household needs.</p> <p>Thank you for your quick action in favor of rezoning the building for Ms. Potter's future store. Our island community needs this service!</p> <p>Thank you, Vanessa Wood•island resident</p>	Vanessa Wood	Vashon Grange	Written	4/4/2024

I serve on the Greater Maple Valley Unincorporated Area Council, a member of the Joint Team. Regarding Rural Growth, we fully support the Policy R-301 "to limit growth in the Rural Area and Natural Resource Lands, such as land use designations, development regulations, level of service standards and incentives," but cannot emphasize enough that one of the most important tools King County has at its disposal is adequate enforcement of its Policies and Codes, which it simply does not do. We have concerns with the Policy R-309 regarding the RA-2.5 zone and call for the following addition: "...These smaller lots may still be developed individually or combined, provided they satisfy the minimum lot dimensions provided in King County Code, or combined to satisfy those requirements, and provided that applicable standards for ... can be met."</p> <p>Regarding Nonresidential Uses, while we agree with the spirit of Policy R-324, we have big concerns with subparagraph e. and what criteria are used to determine whether "recreational or tourism opportunities" are "compatible with the surrounding Rural Area." Such criteria need to be laid out either in Policy or Code along with details on who it is that determines if any activity or proposal is compatible. The Rural Area is not intended to be a playground for urban residents, it is in fact the "rural residential area." There already are several examples (Wineries, Breweries, and Distilleries; Event Centers; etc.) that cater to urban residents, while creating severe problems related to noise, illegal/dangerous parking, congested roads, and nuisance impacts to neighbors. These facilities and venues already violate county codes, yet are allowed to continue operations. The county needs to crack down on violators and should not be encouraging any more of these or similar activities.</p> <p>Because non-residential uses in the Rural Area can and do have disproportionately large impacts on rural character, County road use, and safety, we propose the following addition to Policy R-324a: "((These)) Nonresidential uses in the Rural Area shall be sited, sized</p>	Peter Rimbos	Rural Area	Written	3/20/2024

211	<p>KC Council's Local Services & Land-Use Committee Members,</p> <p>Please accept the attached Comments, Recommendations, and Suggested Implementation Paths from the Joint Rural Area Team (*). This has multiple purposes:</p> <ol style="list-style-type: none"> 1. To serve as Summary of our February 6, 2024, 161-pg Detailed Comments on the KC Executive's "Recommended Plan" for the 2024 KCCP Major Update (Update) and, thus, help you easily see key issues we identified and changes we proposed to Policies, Code, etc. It is our hope this will more clarity and help aid you as you develop and amend the "Striker." 2. A set of Recommendations to work these key issues at both the technical and the strategic levels. 3. A set of follow-through Implementation Paths to address the recommendations. <p>Please note page one simply provides the background on how protection / preservation of the Rural Area is addressed at every level of planning from State RCWs on down through the KCCP. It is meant to help set the stage for the page 2 Recommendations and Implementation Table.</p> <p>Soon we plan to contact your key Policy and Legislative Staff members (included in the cc's) who are working on the Update to answer any questions you and they may have on this. Thank you.</p> <p>(*) Joint Rural Area Team: Enumclaw Plateau Community Association (EPCA), Friends of Sammamish Valley (FoSV), Greater Maple Valley Unincorporated Area Council (GMVUAC), Green River Coalition (GRC), Green Valley/Lake Holm Association (GV/LHA), Hollywood Hill Association (HHA), Soos Creek Area Response (SCAR), Upper Bear Creek Unincorporated Area Council (UBCUAC), and Rural Technical Consultants—Mike Birdsall (Transportation Focal), Ken Konigsmark (Growth Management Focal), and Terry Lavender (Environmental Focal).</p> <p>Peter Rimbo</p>	Peter Rimbo	Implementation	Written	4/1/2024
212	<p>Members of the KC Council land use committee,</p> <p>I am writing to oppose the zoning code change that introduces the retail use category of Food Stores into the RA zone.</p> <p>This action by the KC Executive is a textbook example of illegal spot zoning. A legal opinion outlining the 4 areas where this change violates WA state laws is attached.</p> <p>This method of granting one parcel is also fully opposed by all proximal neighbors except KC. The conflict of interest in this case is also appalling.</p> <p>As the proximal owner on two sides of this property and with the master bedroom of my house being only 40 feet from the potential entrance the impacts are significant and permanent.</p> <p>Finally, if this change goes thru KC opens itself up to a lawsuit that, according to my council, is very winnable. I ask you factor this in as you weigh your choice to remove this zoning code change from the plan.</p> <p>Ginger Ferguson</p>	Ginger Ferguson	Vashon Grange	Written	4/4/2024

213	<p>KC Council Local Services & Land-Use Committee, Thank you for providing members of the Public the opportunity to address you this past Wednesday (April 3) morning during the Committee's Briefing #6 on the 2024 KCCP Major 10-Year Update. Attached please find the five Oral Testimonies provided by members of the Joint Team. We have started to prepare multiple Oral Testimonies to address the following Topics that will be covered during the upcoming April 17 Briefing #7: Chapter 9: Services, Facilities, & Utilities Capital Facilities and Utilities Appendix Chapter 10: Economic Development Chapter 12: Implementation, Amendments, and Evaluation Development Regulations Four-to-One Program Peter Rimbos Coordinator, Joint Rural Area Team--KCCP, CPPs, and VISION 2050 Greater Maple Valley Unincorporated Area Council (GMVUAC)</p>	Peter Rimbos	Services; Economic Development; Implementation; Development Regulations; Four-to-One	Written	4/5/2024
214	<p>At the meeting last night I spoke about community concerns regarding the Thunderbird treatment center. I was promptly informed that this question was not to be considered as part of the agenda. I indicated that I thought zoning issues were covered under the maps posted, and it was pointed out later that the treatment center was not covered by the shaded areas on these maps. I guess that was my error and I realize I should have reviewed the maps more closely. But I still have questions and I hope you can provide some clarification: 1. It appears that the comprehensive plan proposed last December did not propose any refinements or changes for areas on the Island outside of the shaded areas of the Amendment 9 maps. 2. If the plan does not include these excluded areas, how will zoning requests for revision be handled? As exceptions to the current or proposed Comprehensive plan? 3. If King County considers any zoning changes, will community input be considered? (This was really the point about concerns and community input that I requested from the Council.) Thank you for listening and I look forward to your response. Clark Nebeker</p>	Clark Nebeker	Vashon	Written	4/5/2024

216	<p>I attended the comprehensive plan update meeting on April 4th on Vashon island. A lot of work went into preparing the graphics along the sides of the room. But relevant details were not included on those graphics. For example, a proposal to add a maximum height limit did not say what that maximum height limit would be. How is someone to know their opinion on these issues if the relevant details aren't included? Please carefully think about what a typical member of the public would want to know when preparing the graphics for the public meetings. Thank you. Diane Emerson</p>	Diane Emerson	Graphics	Written	4/10/2024
217	<p>RE: Grange Hall Vashon – Rezoning To Whom It May Concern: My wife, Kristine Gregonis, and I have the following comments/concerns regarding the proposed Grange Hall Spot Zoning: 1. No need for a grocery store on the North End. We won't patronize the business. 2. Against spot zoning approval for a "historic" Grange Hall grocery store. [To my knowledge the building is not registered as a historic building.] 3. Concerned about increased traffic and impervious surface area. 4. Ferry Parking lots were built in 1941-1942 when Vashon's population was around +/- 3000. Parking lots fill up on commuter days and vehicles spill over onto Cowan Rd., 104th Ave SW, 110th Street SW regularly. 5. Flag down King County / Metro bus system provides access to Vashon Town grocery stores for neighbors without vehicles. Sincerely, Hans J Hahne</p>	Hans Hahne	Vashon Grange	Written	4/15/2024

218	<p>For record - To whom it may concern, In regards to the KCCP 2024 update review and proposed ordinance. Utilities - Line 3157, strike this section in its entirety: "E. If a proposed land use subject to subsection D. of this section is an essential public facility under the Washington state Growth Management Act, it shall be evaluated using the special use permit process and consistent with the Washington state Growth Management Act, the King County Countywide Planning Policies, and the King County Comprehensive Plan." At bare minimum the council should enact the extensive recommendations under the DEIS and Executive's amendments related to BESS. Further, I challenge the notion that a privately owned BESS would qualify as a utility or justify the use of "eminent domain" as suggested by council chair Sarah Perry when I spoke to her at the Vashon meeting. Please see below a letter signed by 27 members of congress that was sent to Secretary of Defense Lloyd Austin detailing concerns related to the security and safety of BESS. This is dated December 1st, 2023 and includes sources that you must consider before enacting amendments for the Comprehensive Plan that will be in effect for the next 20yrs. https://www.rubio.senate.gov/wp-content/uploads/2023/12/12.01.23-Rubio-Gallagherletter-to-SecDef-re-CATL.pdf I sent another source in public comment that was regarding accidents with BESS and that was mentioned in a prior meeting by council chair. Please also address the congressional members' concerns that are also shared by members of your community. Development Regulations - In the proposed ordinance, there is frequent mention of the word "green," I assume as a metaphorical term for environmentally friendly. While you are considering</p>	Bonnie Helms	Utilities; Development Regulations; Four-to-One; Implementation	Written	4/17/2024

223	<p>[Angela Donaldson resent] Dear Councilmember Perry-</p> <p>My name is Jason Refsland, I'm a resident of unincorporated King County. Though I'm currently an active member of the Fall City Community Association and a Sub Area Plan committee member, I'm writing to you as a private citizen and not on behalf of that organization. Thank you for taking a moment to hear my proposed changes to the minimum lot size requirements for an ADU.</p> <p>I live in a RA 2.5 zone and recently learned that though I own .75 acres I can't have a detached ADU because I need to have a minimum of 1.875 acres in my zone. The RA 5 zone requires 2.5 acres. In nearby Fall City, the minimum lot size requirement is 3,200 sqft for R-4. The size disparity between these minimum lot sizes seems quite out of proportion for adjacent areas.</p> <p>I thought perhaps it's a building to land ratio issue, but I am allowed to build a garage. I just can't put an ADU in the attic above. This rule doesn't make sense and is actively working against the council's effort to supply more affordable housing options in the valley.</p> <p>ADU's not only provide an effective way of increasing the number of affordable housing units in the area, they also help owners subsidize the expense of owning property in such an expensive area. This is a win-win for affordable housing. An increase in supply lowers rental costs and the additional rental income helps those with less means afford to live here. ADU's are also a simple way to allow growth without creating major changes in density in a rural area.</p> <p>Please consider changing the lot size minimum requirements for RA 2.5 and RA 5 to match the urban and rural town requirement of 3,200 sq ft. I appreciate your time and consideration.</p> <p>Sincerely, Jason Refsland</p>	Angela Donaldson; Jason Refsland	Fall City	Written	4/16/2024

239	<p>Dear King County Representatives,</p> <p>Vashon-Maury Community Council members voted and approved the recommendation to King County's Comprehensive Plan of the Vashon Town plan committee on April 18, 2024.</p> <p>Recommendations to King County for the King County Comprehensive plan are included in this document:Vashon Town Plan Recommendation</p> <p>Thank you for your time and Public Service.</p> <p>Sincerely,</p> <p>The Vashon-Maury Community Council Board</p> <p>Diane Emerson Debra Gussin Jamilla Stigall Ben Carr Tammi Dye Jessica Anakar</p>	Jessica Anakar	Vashon	Written	4/30/2024
240	<p>Please note error in previous comment about Section 102, I have corrected it below: Section 102, housing types larger than fourplexes should be limited to URBAN and R9-48 areas only to avoid sprawl and population growth beyond the growth targets set forth in the plan. Also the related four-to-one rules should be struck and only include urban and R9-48 areas.</p>	Bonnie Helms	Growth; Four-to-One	Written	4/18/2024
241	<p>There is still no regular maintenance!!! Vandalism and graffiti a critical issue. Full time security recommended. Picnic tables at High Point need replacement.</p>	Name not provided	Trails	Written	4/30/2024

243	<p>I am aware that the Vashon council sent recommendations for new zoning rules. I voted against them. I think that any new development will not benefit this community. There is a limited water supply and water district 19 that will provide the water shares may not have the water they think they have. Already there is increased traffic, pollution and noise eroding the rural nature of this community. Mixed use development only means more shops and more tourists. I am against this. The community council only represents a small group of people not the entire island. Keeping the island rural was one of the primary objectives of the last island wide poll. Please consider these views when making your decision. Thank you. Sincerely, Eugenia Cooper, Long time Vashon resident.</p> <p>Sent from my iPhone</p>	Eugenia Cooper	Vashon	Written	5/8/2024

305	<p>As a cyclist who has utilized many of the trails that King County has worked over the many years to install throughout the county, I support the development of the trails listed in the Regional Trails Needs. Many of the current trails have been wonderful in encouraging my children to get out and enjoy the outdoors as a family. As such for some of the trails listed I wanted to provide some reasons I would like to see them developed.</p> <p>SNO-2 This connection is extremely important for my family as I am the only one that feels comfortable biking on the surrounding streets in traffic, my children would love to go all the way to Rattlesnake Lake but due to this missing segment I haven't been able to take them by bike all the way.</p> <p>CR-2 I know this one is marked at the bottom of the list, however due to the need to get land use changes and agreements I would hope that this can get some small funding to start. The ability to travel from Renton to Rattlesnake and then onward to the Snoqualmie Tunnel and Hyak would remove a barrier for those from South King County. Plus it allows one to connect to the Great American Rail Trail.</p> <p>ETR-145 This is another section that would improve the usability of the Eastrail trail by my family.</p> <p>ETR-W Another nice to have, however with the Willows to Kirkland Central Connector there is a workaround that keeps with the trails (unlike the ETR-145 section)</p> <p>SNO-1 I regularly enjoy the Snoqualmie Valley Trail and would love to be able to bike it up to Monroe and beyond.</p> <p>CS-1 Another trail connecting to Cedar River would help with taking the family to enjoy the area at Landsburg and the Cedar River Trail. It also would shorten the bike trip there and back by 20 or so miles by bike.</p> <p>ETR-8, ETR-5, ETR-CC Another part of the Eastrail that would enable families to travel on the trail without needing to navigate through the streets and crosswalks.</p> <p>ETR-RI, ETR-CO, L2S-7, L2S-1a/b This is an important connection to finish off the Eastrail's promise to connect with the Interurban Trail, Green River Trail and overall provide a path for those that want to travel by foot or bike around King County and beyond.</p>	David Springgay	Trails	Written	5/13/2024

306	<p>Committee members,</p> <p>I continue to be opposed to the Vashon-related Comprehensive Plan segment that will allow three story (plus?) structures in down-town Vashon and “credits” to builders that pay for them (theoretically to be used to address our Island housing crisis – somehow/somewhere else on the Island). I was unable to attend last month’s (?) in-person meeting held on Vashon to discuss the Comprehensive Plan, but I was appalled to read that those present insisted “the [Vashon] community” now supports these proposals. That is certainly not true for me, and I’m assuming the same can be said for the numerous people who wrote comments opposing these items earlier in the process.</p> <p>We are AN ISLAND with limited resources. There is a reason Vashon has been exempted from previous King County population density plans. Those reasons remain.</p> <p>As I have stated in previous comments opposing provisions in the draft Comprehensive Plan, the Island has both ferry and water issues neither of which will be resolved any time soon (if ever). Ferries are currently unreliable/overstressed. No new ferries before 2028 – if then. And when I write “new ferries” I mean anything that would help bring us back to a pre-Covid level of service meaning the three boats we need NOW. The ferry system can’t meet present Islander’s needs let alone an influx of new residents. If we are overloaded now, I can’t imagine what it will be like with new residents in new housing units in downtown Vashon. In case it is not clear, these new units will not be designed to meet the needs of current residents who can’t find/afford housing. They will be built by developers to entice new monied folk to live on Vashon.</p> <p>Water will always be an issue on our Island. The central water system, which serves the downtown area, just recently opened applications for new water shares – after more than a decade of closure due to lack of water. These are very limited now and will be into the future. Vashon has no piping system to import fresh water from the mainland. What we have, we have – period.</p> <p>Our emergency fire and rescue are limited. We don’t have the capacity to fight fires in large, tall structures (we have one now older rarely used high rise ladder truck – but that’s it). Any outside assistance must come via ferry to help the Island. Please look at the history of fires</p>	Alice C. Larson	Vashon	Written	5/13/2024

316	<p>Hello!</p> <p>I would like to bring to your attention a matter of urgency. We are in the process of finishing a project in White Center called Elevation 16 (located next to the public library in White Center). We have been actively trying to register this project as an MFTE project for several years. To do this, the project must be registered before we attain TCO later this summer.</p> <p>The good news is that MFTE is now an option in unincorporated King County. The bad news is that even though the program is now technically available (and has been for some time now), the program for it hasn't been written yet, and it isn't scheduled to be written for quite some time. If we could arrive at a temporary 'solution' to this conundrum we could introduce more affordable housing in an area in need of it in the very near future.</p> <p>I respectfully request that the King County Council consider potential 'yes and how' solutions to getting Elevation 16 registered for MFTE as soon as possible and not be satisfied with a 'no and why' answer that will keep this from adding to the affordable housing stock that is so desperately needed.</p> <p>Barry Blanton, CPM® CRE® Chief Problem Solver Principal</p> <p>Blanton Turner</p>	Barry Blanton	Multifamily Tax Exemption	Written	5/15/2024
317	<p>We really need to address the issues at one of the properties on the land known as the Creston Point apartments it is Parthiv unincorporated Skyway. My name is Toni Washington and for the past 2 1/2 three years I've lived at the Creston Point apartments and I've witnessed some terrible things I've enjoyed some terrible things my kids endured some terrible things to all of the sudden be thrown out onto the streets to figure it out now I have a lot to do with the kids in the Community Which are now all lost without my support and close-knit relationship I built with all of the kids of Creston Point no one was doing anything with these kids until they seen me and how dedicated I was to these kids and motivate them to stay out of trouble which they don't did I hope Community knows about Big mama and Big mama's kids which is the organization I'm going to start regardless if I get the community support or not back to What this message is really about the fact that me and my children were thrown out on the street and all of her things during the time I was in the hospital having a heart attack in return taking my subsidy so that I'm not able to even find another place I think part of the 2024 comprehension plan she's included the families at the Creston Point apartments and everyone should have a chance to be in a brand new development where there is no poisonous gases and chemicals in the water with the air is clear and the wind blows freely. It's not a coincidence that all these kids that ever lived in Creston Point came to me came back it's because they're stuck there just like those selves and so the closer I get to my goal the harder it becomes so I know this is all a part of my journey but I just would like to think about those families in those children and I think part of the comprehensive plan is that everybody be relocated fairly not put out in the street all of a sudden because the less people to say what happened to them it just goes on and swept under the rug thank you for taking the time to read this email and I hope 2024 comprehension plan includes this And grant me this for those children are all special to me and they don't deserve it let's restore the land the right way Sent from my iPhone</p>	Toni Washington	Skyway	Written	5/15/2024

318	<p>I previously submitted comments in the Snoqualmie Valley/NE King County Subarea Plan. Please accept these additional comments:</p> <ul style="list-style-type: none"> •Page 7-13-7-14, Lines 641-648: I strongly support the County's commitment to lead by example through stewardship and management of its own resources. This is especially important for historic bridges that are often among the most vulnerable publicly owned resources. The Baring Bridge is a prime example. •P-201: This policy should make clear that all departments are charged with preserving significant historic resources, especially those of national significance. •P-209: This policy should make clear that all departments are charged with preserving significant historic resources, especially those of national significance. This is the priority even if preservation may increase maintenance costs or require more expensive alternative plans. •P-216: Priority should be given to preservation for all County-owned facilities, especially those most vulnerable. All departments should exercise the same priority. <p>I would also like to add to my prior comments related to the Subarea Plan:</p> <ul style="list-style-type: none"> •Pages 75-76 generally address the importance of cultural resources but merely state that historic preservation is "of interest". Additional emphasis needs to be addressed in this area. •Page 77: No policy to protect cultural resources is proposed. At the very least, historic resources of national significance should be addressed and their preservation prioritized. <p>Thank you for your consideration of these comments.</p> <p>Patricia J Warren</p>	Patricia Warren	SVNE	Written	5/15/2024

322	<p>King County Council Local Services & Land-Use Committee Chair Perry, Vice-Chair Zahilay, Member Dunn, and Member Mosqueda,</p> <p>Good afternoon. We continue to stay active in the 2024 KCCP Major Ten Year Update (Update) process after ~2 1/2 years. Over the past week, since the May 14 COB release of the “Striker Amendment” documents (~4,600 pages), we have diligently reviewed all of the text, policies, codes, appendices, reports, etc.</p> <p>Please note, given the time-constrained period, our review is not as detailed and polished as our past reviews of and submittals on Update materials since January 2022, when we started to interact with KCCP Manager, Chris Jensen. Nevertheless, we have developed and propose several “Line Amendments” that address what we believe are some key deficiencies.</p> <p>As we are butting up to the committee’s tomorrow “Line amendment direction due” event, we are submitting the attached (in both pdf and Word formats) to all four of you with our sincere request that some or, hopefully, all four of you will sponsor our proposed “Line Amendments.”</p> <p>We are available to answer any questions related to our submittal herein.</p> <p>Thank you for your time and effort on the Update.</p> <p>Peter Rimbos Coordinator, Joint Rural Area Team--KCCP, CPPs, and VISION 2050 Greater Maple Valley Unincorporated Area Council (GMVUAC)</p>	Peter Rimbos	Striking Amendment	Written	5/21/2024
323	<p>Dear Council Members Perry, Zahilay, Dunn, and Mosqueda and staff:</p> <p>Futurewise supports the Joint Rural Area Team’s Proposed Line Amendments. We believe these carefully crafted amendments address important community needs and will capitalize on important opportunities in rural King County. We hope these amendments will be sponsored and approved.</p> <p>Thank you for considering our comments.</p> <p>Tim Trohimovich, AICP Director of Planning & Law Futurewise</p>	Tim Trohimovich	Striking Amendment	Written	5/22/2024

324	<p>Regarding: 2024 King County Comprehensive Plan Attachment H to PO 2023-XXXX0440</p> <p>“H-9 King County shall allow the siting of behavioral and mental health services in 47 the Vashon Rural Town, including high quality prevention, crisis intervention, 48 mental health, substance abuse disorder, and co-occurring disorder treatment 49 services through equitable service delivery that centers culturally informed 50 and inclusive behavioral healthcare.”</p> <p>Comment: Vashon does not need or want such treatment services to be sited on Vashon Maury Island. The community has little need for such services and they are better obtained off island for those few who might need them. The new problems caused by bringing troubled people to the island will degrade the safety, security and peace of mind of local residents. Instead, we need senior care and housing services to serve our aging residents, as well as more affordable housing for lower income residents.</p> <p>Regarding the “Short Term Rental Work Plan Action”</p> <p>Comment: Short-term rentals reduce the housing available for local residents and should be prohibited on Vashon. Should a prohibition not be possible, then at the least the owner of such properties should be required to be a permanent resident of said property, and should be required to be present on site during such rentals to ensure good conduct of the temporary lodgers. This is how traditional bed and breakfast places operate.</p> <p>Regarding signage changes:</p> <p>Comment: There are plans to propose an exemption for 2 by 3 foot permanent signs on private property to convey the history of local places on Vashon Maury Island. While this sounds like a harmless idea with good intentions, such signs will clutter the visual landscape to provide information that could better be conveyed by newer technology such as online accessible posters and/or printable brochures that would be easily and broadly available while causing no visual clutter. We live in Burton where such signs are being proposed and believe they would degrade the sense of current community and beauty for all of us, all day, every day, while providing a sense of history for a few visitors on rare occasions.</p> <p>Thank for your consideration, Robert Horsch</p>	Robert Horsch	Signs	Written	5/22/2024

327	<p>Good afternoon, We live at 7910 240th PI NE Redmond, WA 98053</p> <p>Wondering what new rules/planning guidelines will affect us. We have always wanted the freedom to build an ADU on our homesite but the rural R-5 designation has always messed that up for us. Considering the cost of housing in King County, ADU's are an awesome way for families to house aging parents & young adult children in an affordable way. Any new rules to allow ADU's? We have no HOA. Our neighborhood is just 4 houses and we all have very large lots & plenty of space.</p> <p>Thank you, Kelly Kauer</p>	Kelly Kauer	ADU	Written	5/29/2024
328	<p>Hi,</p> <p>Can you answer the two questions below? If not, can you please direct me to someone within King County who can?</p> <ol style="list-style-type: none"> 1. For 'maintenance or repair of existing structure', would you please confirm that the scratched out A means the County will no longer allow maintenance or repair of a structure on a steep slope or it's buffers? 2. For 'maintenance of steep slope stabilization', will you please confirm that by adding condition 15, we will no longer be able to maintain our trail that traverses a landslide hazard area? For context, we have a walk-in beach cabin on Vashon. Our trail which is supported by lumber and pin piles is not a driveway, not a road and not a public trail. <p>Thank you, Sheila</p>	Sheila Doane	Slopes	Written	5/29/2024

329	<p>Dear Councilmember Mosqueda:</p> <p>I am writing once again to ask for your help in clarifying the Council's striking amendment as it relates to the proposed Thunderbird Treatment Center on Vashon. Specifically, does any part of the amendment change current zoning or usage requirements in a way that would allow the Thunderbird to operate on the island?</p> <p>As you may know, the Seattle Indian Health Board (SIHB) contacted King County in September 2022 about opening a drug rehabilitation center on the property that once housed the Vashon Community Care Center. County Local Services and Permitting Department staff told SIHB that it could not move forward with the Thunderbird project as it did not meet critical zoning requirements. SIHB purchased the property anyway.</p> <p>At a County Community meeting held April 4th, 2024, two islanders asked whether any of the proposed changes to the Comp Plan applied to the Vashon Community Care property. Both individuals were immediately shut down and told the Thunderbird Center/Vashon Community Care property were not part of the Comp Plan amendments and, therefore, were not going to be discussed at the meeting.</p> <p>If there are changes in the Council's striking amendment that would allow the Thunderbird to operate as a drug treatment/rehab facility, your Vashon constituents have a legal right to know and to participate in a robust public process. Many people in this community see a drug rehab as a terrible mistake due to the island's fragile environment, lack of infrastructure and public safety resources to support it.</p> <p>This is the third time I have asked your office to provide clarification on this issue over several weeks now, and would appreciate getting a response upon receipt of this email.</p> <p>Respectfully,</p> <p>Katy Ballard</p>	Katy Ballard	Treatment Center	Written	5/30/2024

330	<p>Dear all,</p> <p>I am writing to you to express my strong opposition to the Seattle Indian Health Board's proposal to open the Thunderbird Treatment Center on Vashon Island due to the devastating effect it will undoubtedly have on our community and environment. As you know, Vashon is one of the few true islands in the region that can only be reached by ferry. Over the years, our community has worked with representatives from the King County Council and Washington State to address the lack of medical facilities (we do not have a hospital or urgent care), mental health services, dependable public transportation, adequate police support, sufficient medical and fire emergency resources, affordable housing, water shares, and more. We do not have adequate services to meet the needs of our current population, let alone to support a large residential drug treatment facility.</p> <p>Some of you are familiar with the Seattle Indian Health Board's (SIHB's) purchase of the property that previously housed Vashon's Community Care Center. Before, during and after purchasing the property, SIHB representatives contacted King County's Local Services and Permitting Department to seek approval of the Thunderbird as a drug rehabilitation and treatment center. County staff told them that the Thunderbird did not meet established zoning requirements and, therefore, would not be permitted. SIHB purchased the property anyway.</p> <p>When the County Executive conducted its public process for proposed changes to the Comp Plan, the SIHB did not submit the Thunderbird project for review, knowing it would face significant objections from Vashon community members and County zoning experts. At a community meeting held in April 2024 to discuss proposed changes to the Comp Plan, two islanders were immediately shut down after asking about the Thunderbird. They were told in front of all who attended that the Thunderbird was not included in the proposed changes and, therefore, not an appropriate topic for the meeting. We now learn that SIHB bypassed the entire public process by having the County Council introduce language for inclusion in a "striking amendment" that would allow the Thunderbird project to move forward. As taxpayers, property owners and active members in the Vashon community, we find this wholly unacceptable. I respectfully request that the King County Council and Executive not allow this project to move forward until a complete zoning, feasibility and usage assessment is conducted with sufficient public process and input (of which there has been next-to-none). I look forward to hearing back at your earliest convenience.</p> <p>Thank you for your consideration, Your Name Doug Bunger</p>	Doug Bunger	Treatment Center	Written	5/30/2024
331	<p>Hi,</p> <p>I'd like to provide a comment on King County's proposed Critical Area Ordinance update:</p> <p>Please update the proposed CAO language to be consistent with Ecology's CAO guidance for programmatic mitigation options, including the ability to use a state certified mitigation bank consistent with the terms of the bank's certification documents under (WAC-173-700).</p> <p>Mitigation banks should be more accessible as mitigation if within the bank service area and not subject to higher mitigation ratios.</p> <p>Thanks Dan</p>	Dan Berlin	Critical Areas	Written	5/31/2024

332	<p>Dear Councilmember Mosqueda:</p> <p>Thank you for the reminder your staff sent earlier today about our zoom meeting on June 12. I am still waiting to receive a response to my questions about how the Council's striking amendment pertains to the proposed Thunderbird Treatment Center on Vashon. It is my understanding that the public has to comment on the amendment by June 4, 2024, which leaves only two business days to submit something for the Council's review.</p> <p>Residents are unable to comment without first understanding what the language means. Two directors in the county permitting office told me that, as Vashon's Council representative, I should ask your office to answer my questions regarding the striking amendment. Therefore, once again, can you tell me whether any language in the Council's striking amendment (or in any other proposed legislation) will allow the Thunderbird Treatment Center to operate on Vashon island? If so, please direct me to the specific language.</p> <p>As this is my fourth request, I would appreciate a response by close of business on Monday, June 3, 2024 so I and other interested constituents on Vashon can submit our comments before the County Council votes on the amendment on June 5, 2024.</p> <p>Respectfully, Katy Ballard</p>	Katy Ballard	Treatment Center	Written	5/31/2024

341	<p>I am a homeowner on Vashon Island. My home is about one mile north of the proposed Thunderbird location. I am also a retired clinical social worker with a great deal of experience and familiarity with the population in question, as well as the barriers to their recovery,</p> <p>It is unacceptable to me that you are moving forward with the Thunderbird project without sufficiently vetting and responding to the community on Vashon. At the meeting a couple of months ago at the land trust, only a few people got to ask their questions or express their concerns and the meeting ended, after a very brief time. It made it look like you were holding the meeting so that it might appear you were taking the communities concerns seriously, while you definitely are not.</p> <p>I am not opposed to drug treatment in my neighborhood in theory. It is a drug rehab in THIS PARTICULAR Neighborhood/Island. Some of the reasons:</p> <ol style="list-style-type: none"> 1. It is challenge getting on and off this island. When someone decides to leave drug treatment which is a frequent occurrence, where will they go? 2. There are maximum of two police officers/sheriffs on the island at any one time. They are hard pressed to be able to address issues related to the large number of addicts already living here, mostly homeless and off of the grid. 3. There is a dearth of medical care on the island and essentially no emergency services. It is already a challenge for the residents who live here to get access to the care that they need, This will only add to the problem. <p>There is simply not the infrastructure on this island to support this project. It will hurt the people who live here and the future residents of the program as well.</p> <p>Please do not allow Thunderbird here.</p> <p>Sincerely, Stacey Peyer Licensed Clinical Social Worker</p>	Stacey Peyer	Treatment Center	Written	6/1/2024

342	<p>I attended the community meeting in April to learn something about the County's 10 year comprehensive plan, and in particular about the proposed Thunderbird treatment center. When I offered the fact that several Islanders were concerned about how the Center would impact the Island community, I was immediately shut off and told that the subject was inappropriate at that particular meeting. Also, when I requested that County representatives at least listen to our concerns, there was simply no response. So, before you consider the "striking amendment" I would ask that you seriously think about the issues that are mentioned in the email sent by other Islanders on this subject. Following is the email's message which I am quoting in its entirety.</p> <p>"I am writing to you to express my strong opposition to the Seattle Indian Health Board's proposal to open the Thunderbird Treatment Center on Vashon Island due to the devastating effect it will undoubtedly have on our community and environment. 345	<p>Dear all,</p> <p>I am writing to you to express my strong opposition to the Seattle Indian Health Board's proposal to open the Thunderbird Treatment Center on Vashon Island due to the devastating effect it will undoubtedly have on our community and environment. My understanding is that this is occurring without any community input -- circumventing the normal legal process of providing the community and concerned neighbors with a chance to comment and/or object to a change in current land use. The proposed change by SIHB is not allowed under current zoning and would have a huge negative impact on the community. This property should be returned to its intended use -- a senior care center for Island Senior Citizens so they do not have to leave their Island community to receive elder care. As you know, Vashon is one of the few true islands in the region that can only be reached by ferry. Over the years, our community has worked with representatives from the King County Council and Washington State to address the lack of medical facilities (we do not have a hospital or urgent care), mental health services, dependable public transportation, adequate police support, sufficient medical and fire emergency resources, affordable housing, water shares, and more. We do not have adequate services to meet the needs of our current population, let alone to support a large residential drug treatment facility.</p> <p>Some of you are familiar with the Seattle Indian Health Board's (SIHB's) purchase of the property that previously housed Vashon's Community Care Center. Before, during and after purchasing the property, SIHB representatives contacted King County's Local Services and Permitting Department to seek approval of the facility as a drug rehabilitation and treatment center. County staff told them that the facility did not meet established zoning requirements and, therefore, would not be permitted. SIHB purchased the property and facility anyway.</p> <p>When the County Executive conducted its public process for proposed changes to the Comp Plan, the SIHB did not submit the Thunderbird project for review, knowing it would face significant objections from Vashon community members and County zoning experts. At a community meeting held in April 2024 to discuss proposed changes to the Comp Plan, several Islanders were immediately shut down after asking about the Thunderbird facility. They were told in front of all who attended that the Thunderbird facility was not included in the proposed changes and, therefore, not an appropriate topic for the meeting. We have now learned that SIHB bypassed the entire public process by having the County Council introduce language for inclusion in a "striking amendment" that would allow the Thunderbird project to move forward. As taxpayers, property owners and active members in the Vashon community, we find this wholly unacceptable and contrary to existing law.</p> <p>I respectfully request that the King County Council and Executive not allow this project to move forward until a complete zoning, feasibility and usage assessment is conducted with sufficient public process and input (of which there has been next-to-none). I look</p>	Mike Lande	Treatment Center	Written	6/3/2024
346	<p>Dear All,</p> <p>This is in regard to the potential Thunderbird rezoning attempt on Vashon Island.</p> <p>My opposition to this will be blunt and brief:</p> <p>The Thunderbird site was enabled by "PORK BELLY POLITICS " and thrust upon the community that neither wanted nor planned for it.</p> <p>For King County to even consider violating it's own zoning requirements to allow this project to move forward is an affront to all residents, not just on Vashon, but County wide.</p> <p>Please don't let one bad political decision foster another....that is just bad government.</p> <p>Sincerely,</p> <p>Charlie Backus</p>	Charlie Backus	Treatment Center	Written	6/3/2024

347	<p>Hello,</p> <p>I would like to comment on King County's proposed critical area code (CAO) update. I have been a consultant in King County for the past 30 years. I have assisted other municipalities in updating their Comprehensive Plans and Critical Areas Codes, so I am very familiar with CAO requirements, updates, and best available science requirements. Therefore, my knowledge and experience is very relevant to King County's CAO update.</p> <p>In review of the CAO update, I noticed that the mitigation ratios in the CAO do not match those of the banking instrument. I do not understand this, and it is not in keeping with best available science nor Ecology's suggested language for local CAO updates. I have worked in many other jurisdictions (e.g., Snohomish County, Skagit County) with mitigation banks and never have I come across code that requires ratios different than what is stated in the mitigation banking instrument.</p> <p>Please update the proposed CAO language to be consistent with Ecology's CAO guidance for programmatic mitigation options, including the ability to use a state certified mitigation bank consistent with the terms of the bank's certification documents under (WAC-173-700).</p> <p>I suggest the updated language be something as simple as "A mitigation bank can be used consistent with the terms of the mitigation bank's certification documents under (WAC-173-700)."</p> <p>Thank you for considering my comment.</p> <p>Kerrie</p> <p>Kerrie McArthur, PWS, CERP, FP-C Managing Senior Biologist CONFLUENCE ENVIRONMENTAL COMPANY</p>	Kerrie McArthur	Critical Areas	Written	6/3/2024

SIHB purchased the property anyway.</p> <p>When the County Executive conducted its public process for proposed changes to the Comp Plan, the SIHB did not submit the Thunderbird project for review, knowing it would face significant objections from Vashon community members and County zoning experts. At a community meeting held in April 2024 to discuss proposed changes to the Comp Plan, two islanders were prohibited from asking about the Thunderbird. They were told in front of all who attended that the Thunderbird was not included in the proposed changes and, therefore, not an appropriate topic for the meeting. We now learn that SIHB bypassed the entire public process by having the County Council introduce language for inclusion in a "striking amendment" that would allow the Thunderbird project to move forward. As taxpayers, property owners and active members in the Vashon community, we find this wholly unacceptable.</p> <p>My wife Lynette and I are 37-year residents of Vashon. As an active member of several Vashon nonprofit and quasi-governmental organizations, I bring a fairly knowledgeable perspective to this process and adamantly oppose this end-around proceeding. King County should take into account the needs of the residents, infrastructure demands, and the environmental costs of of such a project.</p> <p>Ferries, in short supply, have made Vashon less reliable for residents needing medical care (eg. Chemo treatments, surgery appointments, obstetric care, emergencies like heart attacks and accidents). If the current population is underserved why would adding increased pressure on emergency services be fair, wise, or even considered?</p>	Lynette B. Beles; Craig C. 350	<p>Dear Council,</p> <p>We have heard the County is updating CAO code inconsistent with Department of Ecology's CAO guidance for mitigation banks. Why is this? We feel landowners improving their property should be able to use the state certified bank based on the banks approved certification documents. The banks we have paid into have already been exorbitantly expensive and almost cost prohibitive, yet it sounds like the proposed updated code will make this even more difficult and expensive.</p> <p>We are trying to provide somewhat affordable homes in King County, but this is another example of code changes increasing costs to a point where developable sites won't makes sense anymore.</p> <p>Please update the proposed CAO code to be consistent with DOE's CAO codes and requirements.</p> <p>Thank you for your time.</p> <p>Sincerely,</p> <p>Nathan Chapman</p>	Nathan Chapman	Critical Areas	Written	6/3/2024
351	<p>I have reviewed the section titled "King County Plans and Programs Relevant to Parks, Open Space and Cultural Resources". I do not find any reference to cultural resources Several amendments should be made including:</p> <ul style="list-style-type: none"> •More general policies related to cultural resources should be listed as are those related to parks and open space •Cultural resources of national significance should be highlighted •A policy strongly supporting the responsibility of the County to maintain and preserve national landmarks should be included. This is consistent with the more general policy that states the County has an affirmative obligation to preserve historic landmarks within its control. <p>Thank you,</p> <p>Patricia J Warren Property owner, Index Creek Rd, Baring</p>	Patricia Warren	Cultural Resources	Written	6/3/2024

352	<p>King County Council Members,</p> <p>It has come to my attention that on Jun 5, 2024 you will be voting on the striking amendment 51. I believe certain items in this amendment are directly targeting the zoning issues that the Seattle Indian Health Board is having on developing their plans for the Thunderbird rehab facility on Vashon Island. Their attempt to subvert the normal zoning process through a political process is troublesome and I urge every council member to vote "no" on this amendment.</p> <p>It seems the amendment 51 Emergency Housing section has a small but nuclear item that will allow the following in any R12-48 building regardless of location in unincorporated King County.</p> <p>8063 Psychiatric Hospitals Establishments primarily engaged in providing diagnostic medical services and inpatient treatment for the mentally ill. Establishments, known as hospitals, primarily engaged in providing health care for the mentally retarded are classified in Industry 8051.</p> <ul style="list-style-type: none"> •Mental hospitals, except for the mentally retarded •Psychiatric hospitals <p>8069 Specialty Hospitals, Except Psychiatric Establishments primarily engaged in providing diagnostic services, treatment, and other hospital services for specialized categories of patients, except mental. Psychiatric hospitals are classified in Industry 8063.</p> <ul style="list-style-type: none"> •Alcoholism rehabilitation hospitals •Cancer hospitals •Children's hospitals •Chronic disease hospitals •Drug addiction rehabilitation hospitals •Eye, ear, nose, and throat hospitals: in-patient •Hospitals, specialty: except psychiatric •Maternity hospitals •Orthopedic hospitals •Rehabilitation hospitals: drug addiction and alcoholism 	Thomas Parobek	Treatment Center	Written	6/3/2024

353	<p>Dear all,</p> <p>I am writing to express my opposition to the drug rehab center on Vashon Inland proposed by the Seattle Indian Health Board. I live close by to this facility and am a practicing large animal veterinarian, solely supporting the large animal population on this island. I run a mobile veterinary practice and feel the security of my practice would be compromised by such a facility that cannot provide the adequate means to ensure that their patients will not leave the property and attempt to access the drugs that I use and stock at my house as part of my practice. Vashon Island does not have the resources to support any incidents that would occur of this nature.</p> <p>This facility is planned to be renovated with public money. This means that the people of Vashon should have a chance for public input. I have been to several community council meetings as well as the meeting on April 24 and was not allowed to express my views or concerns.</p> <p>I respectfully request that the King County Council and Executive not allow this project to move forward until a complete zoning, feasibility and usage assessment is conducted with sufficient public process and input (of which there has been next-to-none). I look forward to hearing back at your earliest convenience.</p> <p>Thank you for your consideration,</p> <p>Dr. Mark Thorn, Vashon Island Resident</p>	Dr. Mark Thorn	Treatment Center	Written	6/3/2024

359	<p>Dear All,</p> <p>I am appalled this facility has been ramrodded through without proper consideration to the permitting process. I feel the community has had this placed shoved down their throats and behind their backs.</p> <p>Do you realize we do not have any medical facility that can take care of an after-hours illness or injury? We do not have any "urgent care" we here on Vashon have to be transported off island for anything and if the ferry isn't running, it is then a very expensive medivac helicopter ride to the mainland? We also do not have mental health care for anyone in crisis and you can't tell me these patients going through withdrawals won't have mental health issues.</p> <p>God forbid, somebody in crisis gets away from the facility. If you then need to contact police, we only have 2 police officers here for the entire island! What's Thunderbird's plan for security?</p> <p>The only way on and off this island is by ferry, which is going through it's own set of problems. We have several sailings a week cancelled because a crew member didn't show up for their shift or one of these ancient ferry's has mechanical issues. We suffer from miles long lines trying to get off island to a doctor's appointment etc. and this facility will only add to the burden. Why was Vashon chosen to be ideal for a treatment facility. Whoever picked this place, doesn't really know how difficult it is to live here by perfectly healthy people but for people who are drug-sick, alcohol-sick, in organ failure, etc. it's ridiculous. We have no hospitals, urgent care, any health care "after hours".</p> <p>I just don't think Thunderbird went through all the steps that is required to assure the community that they have met all codes to assure the community. I feel if this is allowed to open, it will change this community forever and not for the better.</p> <p>I absolutely feel Thunderbird has been allowed to slide through without meeting all requirements another facility would have had to face. If this is allowed to go ahead, you could be opening this community up to a dangerous situation and your residents not being adequately cared for if they have an emergency situation. You have not provided enough information or assurance to calm fears.</p> <p>I implore you to think again before this is actually allowed to open.</p> <p>Thank you, Sharon Danielson</p>	Sharon Danielson	Treatment Center	Written	6/3/2024

360	<p>Greetings all,</p> <p>I am a lifelong resident of Vashon Island, and I am writing to share my strong opposition to the Seattle Indian Health Board's plan to open the Thunderbird Treatment Center on Vashon Island. This project will have a major negative impact on our community and environment. This is a rural community, and we fear that this facility will impact our homes, schools, and day-to-day lives.</p> <p>As you know, Vashon is a unique island accessible only by ferry. Over the years, we've been working with representatives from the King County Council and Washington State to address the lack of medical facilities (we don't have a hospital or urgent care), mental health services, reliable public transportation, police support, emergency resources, affordable housing, water shares, and more. We simply don't have the resources to support a large residential drug treatment facility.</p> <p>Many of you might have heard that the Seattle Indian Health Board (SIHB) bought the property that used to be Vashon's Community Care Center. Before, during, and after buying the property, SIHB representatives contacted King County's Local Services and Permitting Department to get approval for the Thunderbird as a drug rehab and treatment center. They were told it didn't meet zoning requirements and wouldn't be permitted, but SIHB bought the property anyway.</p> <p>When the County Executive held a public process for proposed changes to the Comp Plan, SIHB didn't submit the Thunderbird project for review, knowing it would face strong opposition from the Vashon community and County zoning experts. At a community meeting in April 2024 about proposed changes to the Comp Plan, two islanders were immediately shut down when they asked about the Thunderbird. They were told it wasn't included in the proposed changes and wasn't an appropriate topic for the meeting. Now, we find out that SIHB bypassed the entire public process by having the County Council introduce language in a "striking amendment" that would allow the Thunderbird project to move forward. As taxpayers, property owners, and active community members on Vashon, we find this completely unacceptable. It is absolutely absurd and outrageous and shows no respect for the people this project would have as neighbors.</p> <p>I respectfully ask that the King County Council and Executive not allow this project to move forward until a thorough zoning, feasibility, and usage assessment is conducted with adequate public input (which has been almost non-existent so far). I look forward to hearing back from you soon.</p> <p>Thanks for your consideration, Ms. Katherine Lande</p>	Katherine Lande	Treatment Center	Written	6/3/2024

361	<p>Dear all,</p> <p>Regarding: 2024 King County Comprehensive Plan Attachment H to PO 2023-XXXX0440 “H-9 King County shall allow the siting of behavioral and mental health services in the Vashon Rural Town, including high quality prevention, crisis intervention, mental health, substance abuse disorder, and co-occurring disorder treatment services through equitable service delivery that centers culturally informed and inclusive behavioral healthcare.”</p> <p>Comment: Vashon does not need or want such treatment services to be sited on Vashon Maury Island. The community has little need for such services and they are better obtained off island for those few who might need them. The new problems caused by bringing troubled people to the island will degrade the safety, security and peace of mind of local residents. Instead, we need senior care and housing services to serve our aging residents, as well as more affordable housing for lower income residents.</p> <p>Regarding the “Short Term Rental Work Plan Action”</p> <p>Comment: Short-term rentals reduce the housing available for local residents and should be prohibited on Vashon. Should a prohibition not be possible, then at the least the owner of such properties should be required to be a permanent resident of said property, and should be required to be present on site during such rentals to ensure good conduct of the temporary lodgers. This is how traditional bed and breakfast places operate.</p> <p>Regarding signage changes:</p> <p>Comment: There are plans to propose an exemption for 2 by 3 foot permanent signs on private property to convey the history of local places on Vashon Maury Island. While this sounds like a harmless idea with good intentions, such signs will clutter the visual landscape to provide information that could better be conveyed by newer technology such as online accessible posters and/or printable brochures that would be easily and broadly available while causing no visual clutter. We live in Burton where such signs are being proposed and believe they would degrade the sense of current community and beauty for all of us, all day, every day, while providing a sense of history for a few visitors on rare occasions.</p> <p>Thank you for your consideration,</p>	Robert Horsch	Treatment Center	Written	6/3/2024

363	<p>Dear all,</p> <p>I am writing to you to express my strong opposition to the Seattle Indian Health Board's proposal to open the Thunderbird Treatment Center on Vashon Island due to the devastating effect it will undoubtedly have on our community and environment. As you know, Vashon is one of the few true islands in the region that can only be reached by ferry. Over the years, our community has worked with representatives from the King County Council and Washington State to address the lack of medical facilities (we do not have a hospital or urgent care), mental health services, dependable public transportation, adequate police support, sufficient medical and fire emergency resources, affordable housing, water shares, and more. We do not have adequate services to meet the needs of our current population, let alone to support a large residential drug treatment facility.</p> <p>Some of you are familiar with the Seattle Indian Health Board's (SIHB's) purchase of the property that previously housed Vashon's Community Care Center. Before, during and after purchasing the property, SIHB representatives contacted King County's Local Services and Permitting Department to seek approval of the Thunderbird as a drug rehabilitation and treatment center. County staff told them that the Thunderbird did not meet established zoning requirements and, therefore, would not be permitted. SIHB purchased the property anyway.</p> <p>When the County Executive conducted its public process for proposed changes to the Comp Plan, the SIHB did not submit the Thunderbird project for review, knowing it would face significant objections from Vashon community members and County zoning experts. At a community meeting held in April 2024 to discuss proposed changes to the Comp Plan, two islanders were immediately shut down after asking about the Thunderbird. They were told in front of all who attended that the Thunderbird was not included in the proposed changes and, therefore, not an appropriate topic for the meeting. We now learn that SIHB bypassed the entire public process by having the County Council introduce language for inclusion in a "striking amendment" that would allow the Thunderbird project to move forward. As taxpayers, property owners and active members in the Vashon community, we find this wholly unacceptable.</p> <p>I respectfully request that the King County Council and Executive not allow this project to move forward until a complete zoning, feasibility and usage assessment is conducted with sufficient public process and input (of which there has been next-to-none). I look forward to hearing back at your earliest convenience.</p> <p>Thank you for your consideration, Erika Radic</p>	Erika Radic	Treatment Center	Written	6/3/2024

364	<p>Dear Sirs In regard to ; "Local Services Land Use Comm 6/5/24 – Comp Plan Public Comment"</p> <p>Please, before you vote!</p> <p>I want you to know how strongly I feel about your proposal for Indian land use for Thunderbird rehab facility on Vashon Island. It's going to cause a mess of problems in an already under resourced island. I personally have friends and family living there and I go back and forth often. I am very aware of the lack of health care facilities, and hardship of ferry transportation on and off the island. There are no reasonable low priced grocery and clothing stores and public offices. All that would require trips on and off the island.</p> <p>People in rehab need access to all sorts of different kinds of resources that are better met in Seattle or out laying areas than a place out on an island you have to access only by the state ferry system. OMG! The Washington state ferry fleet is all ready taxed with not enough boats and the ones they have are old and need of repair. The amount of rehab professionals, disabled folks, coming and going will be a huge impact on the ferry system causing more delays!. How can people get work done if they don't live on Vashon but need to commute? I have yet discovered a easy, time saving and inexpensive way to commute to Vashon.</p> <p>Please don't do it.</p> <p>Some of you are familiar with the Seattle Indian Health Board's (SIHB's) purchase of the property that previously housed Vashon's Community Care Center. Before, during and after purchasing the property, SIHB representatives contacted King County's Local Services and Permitting Department to seek approval of the Thunderbird as a drug rehabilitation and treatment center. 368	<p>Dear all,</p> <p>I am a recovering addict. I went through a nine month in-house treatment called Second Genesis in Maryland in 1980 and have remained clean ever since. Second Genesis has an excellent success rate - keep this in mind as you read the following paragraph.</p> <p>A number of the people who were in the program with me absconded the facility before completing the program and returned to committing crimes in order to feed their addiction. I came really close to doing that very thing. A few who I personally knew died of overdoses within a year. One addict and counselor, a woman whose initials were RD and whose wisdom and experience were instrumental in my own recovery, died of an overdose soon after completing the program.</p> <p>I am a strong supporter of addiction treatment facilities and I am certain I owe my life to one. However they are not as benign as the proponents of the Thunderbird Treatment Center represent.</p> <p>And make no mistake about it the first thing an addict wants to do is get high, long before they think about taking a ferry to the mainland.</p> <p>Therefore it is with a heavy heart that I am writing to you to express my strong opposition to the Seattle Indian Health Board's proposal to open the Thunderbird Treatment Center on Vashon Island due to the devastating effect it will undoubtedly have on our community and environment. As you know, Vashon is one of the few true islands in the region that can only be reached by ferry. 369	<p>Dear King County Council Members:</p> <p>I am writing to you to express my strong opposition to the Seattle Indian Health Board’s proposal to open the Thunderbird Treatment Center on Vashon Island due to the devastating effect it will undoubtedly have on the Vashon community and environment. As you know, Vashon is one of the few true islands in the region that can only be reached by ferry. Over the years, the Vashon community has worked with representatives from the King County Council and Washington State to address the lack of medical facilities (Vashon does not have a hospital or urgent care), mental health services, dependable public transportation, adequate police support, sufficient medical and fire emergency resources, affordable housing, water shares, and more. Vashon does not have adequate services to meet the needs of its current population, let alone to support a large residential drug treatment facility or the like.</p> <p>Some of you are familiar with the Seattle Indian Health Board’s (SIHB’s) purchase of the property that previously housed Vashon’s Community Care Center. Before, during and after purchasing the property, SIHB representatives contacted King County’s Local Services and Permitting Department to seek approval of the Thunderbird as a drug rehabilitation and treatment center. County staff told them that the Thunderbird did not meet established zoning requirements and, therefore, would not be permitted. SIHB purchased the property anyway.</p> <p>When the County Executive conducted its public process for proposed changes to the Comp Plan, the SIHB did not submit the Thunderbird project for review, knowing it would face significant objections from Vashon community members and County zoning experts. At a community meeting held in April 2024 to discuss proposed changes to the Comp Plan, two islanders were immediately shut down after asking about the Thunderbird. They were told, in front of all who attended, that the Thunderbird was not included in the proposed changes and, therefore, not an appropriate topic for the meeting. We now learn that SIHB bypassed the entire public process by having the County Council introduce language for inclusion in a “striking amendment” that would allow the Thunderbird project to move forward. For Vashon taxpayers, property owners, residents, and active members in the Vashon community, this is unacceptable.</p> <p>Surely, there is a more suitable location for this type of facility nearer to emergency services. To open a treatment facility in a location without emergency medical services is problematic and frankly disrespectful to those struggling with addictions. Not to mention the additional cost to the public for off island emergency medical evacuations when needed.</p>	Coya Eubank-Kirby	Treatment Center	Written	6/3/24

370	<p>Greetings,</p> <p>In response to “H-9 King County shall allow the siting of behavioral and mental health services in the Vashon Rural Town, including high quality prevention, crisis intervention, mental health, substance abuse disorder, and co-occurring disorder treatment services through equitable service delivery that centers culturally informed and inclusive behavioral healthcare.”</p> <p>I am in favor of drug rehabilitation and treatment facilities. I think an island even sounds like a great place to put one. Vashon is very short on services. Is the council giving time to truly make sure this makes sense before green-lighting it? It is a disservice to both patients such a facility is meant to serve, as well as island residents to hastily change zoning to allow for this without impact studies and public comment. A well staffed and supported inpatient facility makes a lot of sense on an island. An outpatient facility makes no sense so far from other services and supportive communities. Figure out what this location can responsibly handle before green-lighting it. Further, forcing this through without space for public comment creates distrust between the residents and this project, which could continue to have negative impact on everyone involved for years and decades to come. Hear the residents out!</p> <p>In response to the “Short Term Rental Work Plan Action”</p> <p>Vashon has a housing shortage and a worker shortage, both of which are exacerbated by Airbnb/VRBO type short-term rentals. Island properties are bought as investment properties that bring in far more as short-term rentals than they would as long-term rentals. That drives up property and rental prices and shrinks the long-term rental market Vashon needs to house people who want to live here, those who would work, volunteer, support businesses, and contribute to the community in ways that nonresidents do not. Living next to short-term rental property is little different from living next door to a small motel – yet such use is imposed on neighbors in areas never zoned for such commercial use. Short-term rentals may help some people to afford second homes, but it is unfair for them to do so at the expense of people who are living in their only home and now must put up with a lodging business being operated next door. One buys a house in a single-family home neighborhood never imagining a veritable motel will one day operate ten feet from one’s bedroom windows. One’s sense of security, of privacy, of peace, and of community is destroyed when carloads of strangers repeatedly arrive and depart at all hours, making the noise that vacationers tend to make, and neither those vacationers nor the property owners are invested in how their choices affect the neighbors since none of them live there (though the owners will claim to be present whatever is the minimum required number of days per year). Short-term stays in traditional bed-and-breakfasts (those operated by owners who are present on the property) should be allowed. Absent-owner short-term rentals should be outlawed need WAY tighter restrictions everywhere.</p>	Laura Rose Murphy	Vashon	Written	6/3/2024

371	<p>Dear Ms Mosqueda: RE: Response to VASHON DRUG TREATMENT CENTER (THUNDERBIRD) LANGUAGE INCLUSION IN COMP PLAN UPDATE-- VOTE NO TOMORROW !</p> <p>Thank you for your response via email. I have reviewed the Comp Plan as it relates to the Vashon Maury Community Service Area and under the Red line of Attachment H that will be amended as of June 2024, I assume that is what the council will vote on tomorrow. I find this insertion into the amendment. I strongly object to this inclusion! It is as reads: "L H-9 6 H-9 King County shall allow the siting of behavioral and mental health services in 47 the Vashon Rural Town, including high quality prevention, crisis intervention, 48 mental health, substance abuse disorder, and co-occurring disorder treatment 49 services through equitable service delivery that centers culturally informed 50 and inclusive behavioral healthcare.</p> <p>As I have stated in my prior email, we object to the inclusion of this type of language into the Comp Plan, and why make it specific to the Vashon Maury Community Service Area? We currently have a health care center that does not offer urgent care service, I have ceased going there due to the lack of quality care and access. How about working on providing quality care to the current islanders? Our new hospital district desperately needs it!</p> <p>The ferry service is at best, unreliable, I've lost track of the number of times that I have had to cancel or be late for appointments because of the unreliable service. Unfortunately, it is not going to get better within the next 4 years. There's another issue you can work on. Unfortunately, the King County water taxi will expand service in July, but that is not adequate or safe for my needs of accessing medical service on days when I can't walk long distances.</p> <p>There are 2 police personnel on the island per shift, it is hardly adequate for an area of 37 square miles. There is limited holding cell capacity here. There is another area for you and your staff to work on.</p> <p>In my area, we have dealt with squatters with drug problems trespassing on our properties in the early morning hours, it took our neighbors in the area over a year to get rid of them. We all were certainly very stressed and upset. Adding a "drug treatment center" to this island will bring no benefit to the us. It will add nothing, it will only make our lives more difficult to access services off island and bring dangerous people to the island.</p> <p>I urge you to vote NO for the inclusion of this language for the drug treatment center in attachment H and the wording that I have</p>	Carolina and Joe Nurik	Treatment Center	Written	6/3/2024

373	<p>Hello,</p> <p>I am the owner of The Roadhouse Restaurant & Inn property (parcel number 6730700005) located at 4200 Preston-Fall City Road SE in Fall City, Washington which is a historic restaurant providing second floor lodging dating back to 1933. I am submitting this written comment regarding Striking Amendment S1 to Proposed Ordinance 2023-0439 Snoqualmie Valley / Northeast King County Subarea Plan which proposes to prohibit nonresidential uses on the upper floor of buildings located in the Fall City business district special district overlay. The property located at the intersection of SE Redmond-Fall City Road and Preston-Fall City Road SE should be excluded from this proposed zoning restriction bar to second floor commercial use; as otherwise the existing second floor use is made nonconforming, which is an impediment to the business in terms of financing and insurance.</p> <p>Furthermore, Section C.1 has been added to Proposed Ordinance 2023-0439 Snoqualmie Valley / Northeast King County Subarea Plan which proposes to prohibit connection to the business district's large on-site sewage system should the property not meet the proposed range of allowed uses as of the effective date of this ordinance.</p> <p>These proposed changes, as currently written, appear to make the historic and current use of the aforementioned property nonconforming while simultaneously barring its connection to the business district's large on-site sewage system in perpetuity.</p> <p>Sincerely,</p> <p>Scott Krahlng</p>	Scott Krahlng	Septic	Written	6/3/2024

374	<p>Greetings, members of the King County Council,</p> <p>I'm writing in response to "H-9 King County shall allow the siting of behavioral and mental health services in the Vashon Rural Town, including high quality prevention, crisis intervention, mental health, substance abuse disorder, and co-occurring disorder treatment services through equitable service delivery that centers culturally informed and inclusive behavioral healthcare."</p> <p>I did not write the paragraph below, but could not state my thoughts on project better, so I have included it. The plan is dangerous for the patients being served at the facility, with no health facilities on the island and the difficulty and time involved in getting off the island. From information I have, I know that lack of services and infrastructure are a serious problem on Vashon, and to put this facility down in the middle of that would only make things worse, both for island residents and patients at the facility. The underhanded way it was brought out to avoid local input is both unwise and undemocratic. The people who live on the island can offer good information about the impact of this project, and should be given a change to share this information. I believe it would benefit everyone involved if this project were at least postponed until appropriate input could be given, and better still that the County recognize that bypassing zoning that's already in place (for a good reason) is a bad idea, and not permit this project to go forward</p> <p>Changing zoning to allow for a large-scale treatment center on Vashon Island would be a disservice to the individuals brought here for treatment as well as being bad for Vashon Island. Vashon does not have the infrastructure (police, transportation, healthcare, and more) to address the problems likely to arise for such individuals at such a critical time in their lives. Vashon is ill-equipped to accommodate an influx of vulnerable people. This is a remote setting with insufficient resources for its own population (of largely elderly people who already comprise an underserved vulnerable population lacking sufficient police, transportation, healthcare, and more). Vashon needs other types of facilities such as for long-term residential care for the elderly or for healthcare rehabilitation. Vashon does not need treatment centers to serve off-islanders whom Vashon lacks the resources to support. Nor does Vashon have the resources to address the problems that would likely arise from such a treatment program being sited here. Our government was not there to help Vashon retain the site in question to serve Vashon by allowing residents to remain on island once they required long-term residential care. But now the government is there to help an off-island organization import off-island concerns to Vashon instead. Elected leaders who are honest when they speak to us about preserving and respecting communities will oppose this rezoning on its merits. But there is another reason to vote against it; it appears to have been slipped into the comprehensive plan without adequate opportunity for public review and response. I was one of the many who turned out to oppose it at the Vashon public meeting where we were told it could not be addressed because it was not part of the comprehensive plan. Now, at this last minute, I learned that rezoning for that facility is in</p>	Steven Flynn	Treatment Center	Written	6/3/2024

375	<p>Dear Council Members and Staff:</p> <p>I strongly object to the placement of the Thunderbird Treatment Center on Vashon Island. We, the public, were not informed of this and were allowed no comment on this matter. I believe it was forced on the island because of the other cities in King County that had objected to drug treatment centers in their cities. Unfortunately, I must say that the way this has been handled, (back door dealing ,a slick PR campaign by the Seattle Indian Health Board along with politicians backing this proposed placement.) smacks of backroom politics.</p> <p>When I first heard of this proposal, I submitted my questions via email for answers at the first meeting. Due to health issues, I attended the first meeting via Zoom. I raised my hand and then submitted questions (the same ones) and it was said that they would be answered. Obviously, during the meeting and even afterward, they were not and still have not been answered. I later approached the Community Council Head and asked if she had heard back on these, she had not. That was September 2023. At all times I respectfully submitted questions, expecting an answer but none were forthcoming.</p> <p>It is obvious to me and many other islanders that SIHB (Seattle Indian Health Board) quickly bought the former Community Care center with public dollars shepherded by Ms Jayapal and had no plan in place of how to address the problems of ferry transportation (sailings are routinely canceled). We will have no new ferries at least until 2028 if all goes well. Staffing at the ferry system continues even now to be a problem! In addition to these, we on the island have significant challenges with mental health care, adequate police support and sufficient medical emergency service. And add a drug treatment center, that's a recipe for disaster!</p> <p>I also object to the proposed Thunderbird Drug Treatment Center due to the zoning issues that surround it. As I understand it from the last community comp plan meeting two members asked about the Thunderbird proposal and were immediately told that Thunderbird was not included in the proposed changes and not a topic to be discussed at the meeting. We now have learned that SIHB has bypassed the public process by having the County Council introduce language for inclusion in a "striking amendment" that would allow the Thunderbird project to move forward. Again, council members, staff and council executive this smacks of political backroom dealing! As a taxpayer, homeowner, and active (26 years) community member I</p>	Carolina and Joe Nurik	Treatment Center	Written	6/3/2024

376	<p>Dear King County Council Members:</p> <p>I am writing to you to express my strong opposition to the Seattle Indian Health Board's proposal to open the Thunderbird Treatment Center on Vashon Island due to the devastating effect it will undoubtedly have on the Vashon community and environment. As you know, Vashon is one of the few true islands in the region that can only be reached by ferry. Over the years, the Vashon community has worked with representatives from the King County Council and Washington State to address the lack of medical facilities (Vashon does not have a hospital or urgent care), mental health services, dependable public transportation, adequate police support, sufficient medical and fire emergency resources, affordable housing, water shares, and more. Vashon does not have adequate services to meet the needs of its current population, let alone to support a large residential drug treatment facility or the like.</p> <p>Some of you are familiar with the Seattle Indian Health Board's (SIHB's) purchase of the property that previously housed Vashon's Community Care Center. Before, during and after purchasing the property, SIHB representatives contacted King County's Local Services and Permitting Department to seek approval of the Thunderbird as a drug rehabilitation and treatment center. County staff told them that the Thunderbird did not meet established zoning requirements and, therefore, would not be permitted. SIHB purchased the property anyway.</p> <p>When the County Executive conducted its public process for proposed changes to the Comp Plan, the SIHB did not submit the Thunderbird project for review, knowing it would face significant objections from Vashon community members and County zoning experts. At a community meeting held in April 2024 to discuss proposed changes to the Comp Plan, two islanders were immediately shut down after asking about the Thunderbird. They were told, in front of all who attended, that the Thunderbird was not included in the proposed changes and, therefore, not an appropriate topic for the meeting. We now learn that SIHB bypassed the entire public process by having the County Council introduce language for inclusion in a "striking amendment" that would allow the Thunderbird project to move forward. For Vashon taxpayers, property owners, residents, and active members in the Vashon community, this is this unacceptable. It is also unacceptable to people who live elsewhere in King County but have connections to Vashon and treasure Vashon's special character and the chance to visit of the few places that, while it has its own challenges, still feels like a refuge from the social problems of the mainland.</p> <p>I respectfully request that the King County Council and Executive not allow this project to move forward until a complete zoning, feasibility and usage assessment is conducted with sufficient public process and input (of which there has been next-to-none). I look forward to hearing back at your earliest convenience.</p> <p>P.S. I also ask that you please vote against relaxing the zoning restrictions on signage on private property (we don't need more visual</p>	Carver Anderson	Treatment Center	Written	6/4/2024

378	<p>Date: June 3, 2024 To: Most Honorable public servant: From: Voter Laura Carrier of Vashon Island Subject: Local Services Land Use Comm 6/5/24 – Comp Plan Public Comment Please do not allow a change to the law regulating zoning which would affect all of King county, but most immediately Vashon Island. Why? Because Seattle Indian Health Board’s proposal to open a Thunderbird Treatment Center on Vashon is SNEAKY (not allowing public review, nor providing adequate information), MISINFORMED (there are no workers to help! Vashon has no appropriate housing, insufficient public services (police, ferries, medical care, ferries, water, ferries, fire services, ferries, etc.)), and DANGEROUS. Did you know that many, many addicts (population turnover is projected to be extraordinary – in the hundreds) are projected to be brought to Vashon? Oh, and UNDERHANDED - in that the Indian Health Board purchased the property, formerly occupied by Vashon Community Care (which, by the way, closed because IT WAS TOO EXPENSIVE TO STAFF THE FACILITY!) knowing that the property was NOT PROPERLY ZONED. Have you ever craved something so much that you would steal to get it? Rob someone? Break into a house to get something to sell? Hurt someone to get money for your next – fix – drink – high??? YOU would do anything if YOU were addicted. This is reality and Vashon cannot deal with any consequences of patients’ crimes. Please help stop this amendment. Please support Vashon Island’s residents’ desires for a reasonable use for this property which will not stress our resources and residents. I look forward to hearing from you. Respectfully yours, Laura Carrier, Vashon Resident and Voter</p>	Laura Carrier	Treatment Center	Written	6/4/2024

379	<p>June 4, 2024</p> <p>Councilmember Perry, Chair Local Services and Land Use Committee, I urge the Local Services and Land Use Committee to add back the Executive's language that limits mixed use development to urban areas and rural towns. I support the similar comments made by Futurewise and the Joint Rural Team.</p> <p>The purpose of Neighborhood Business Zones is to serve the everyday needs of surrounding urban or rural residential areas. Most rural Neighborhood Business zones are small and located on two lane rural roads that already carry more traffic than they are designed for. Most are not served by sewers or other public facilities and only suitable for low density development.</p> <p>I live close to the Cottage Lake Neighborhood Business Zone which is probably the largest and most extreme example of a Neighborhood Business zone in King County and was designated in the 1971 Middle Bear Creek Plan. It is not served by sewer and all the businesses are on septic. It has a Safeway, Walgreens and other small businesses. Adjacent to but not in the Business Zone, is a Fire Station, Elementary School, two Churches and Cottage Lake Park. Very nearby is the King County Woodinville Library. Also nearby but not in the zone, are two long time grandfathered auto repair businesses. This is a heavily used intersection with traffic coming from the East and heading down the hill to Woodinville and 405 or turning on Avondale and heading to 520. Mixed use would add density that the roads cannot serve, take the place of businesses intended to serve the local area and should be located in Duvall, Redmond and Woodinville. There are no public services to support such development.</p> <p>Please make the change going forward.</p> <p>Terry Lavender</p>	Terry Lavender	Mixed Use Developments	Written	6/4/2024

380	<p>Greetings,</p> <p>In response to “H-9 King County shall allow the siting of behavioral and mental health services in the Vashon Rural Town, including high quality prevention, crisis intervention, mental health, substance abuse disorder, and co-occurring disorder treatment services through equitable service delivery that centers culturally informed and inclusive behavioral healthcare.”</p> <p>Changing zoning to allow for a large-scale treatment center on Vashon Island would be a disservice to the individuals brought here for treatment as well as being bad for Vashon Island. Vashon does not have the infrastructure (police, transportation, healthcare, and more) to address the problems likely to arise for such individuals at such a critical time in their lives. Vashon is ill-equipped to accommodate an influx of vulnerable people. This is a remote setting with insufficient resources for its own population (of largely elderly people who already comprise an underserved vulnerable population lacking sufficient police, transportation, healthcare, and more). Vashon needs other types of facilities such as for long-term residential care for the elderly or for healthcare rehabilitation. Vashon does not need treatment centers to serve off-islanders whom Vashon lacks the resources to support. Nor does Vashon have the resources to address the problems that would likely arise from such a treatment program being sited here. Our government was not there to help Vashon retain the site in question to serve Vashon by allowing residents to remain on island once they required long-term residential care. But now the government is there to help an off-island organization import off-island concerns to Vashon instead. Elected leaders who are honest when they speak to us about preserving and respecting communities will oppose this rezoning on its merits. But there is another reason to vote against it; it appears to have been slipped into the comprehensive plan without adequate opportunity for public review and response. I was one of the many who turned out to oppose it at the Vashon public meeting where we were told it could not be addressed because it was not part of the comprehensive plan. Now, at this last minute, I learned that rezoning for that facility is in the plan, after all. It would be fair to now hold other meetings and to have an extended period for comments. But better than that would be eliminating this unfair and inappropriate rezoning from the comprehensive plan.</p> <p>In response to the “Short Term Rental Work Plan Action”</p> <p>Vashon has a housing shortage and a worker shortage, both of which are exacerbated by Airbnb/VRBO type short-term rentals. Island properties are bought as investment properties that bring in far more as short-term rentals than they would as long-term rentals. That drives up property and rental prices and shrinks the long-term rental market Vashon needs to house people who want to live here, those who would work, volunteer, support businesses, and contribute to the community in ways that nonresidents do not. 384	<p>I am very concerned about the proposed Thunderbird Treatment Center on Vashon Island, WA. As a landowner on Vashon since the 1970's I have great concern that the Residents of this Addiction Center is not geared to success. Having been involved in multiple Rehab facilities in WA and Oregon I clearly have observed that success is hard, but almost impossible for Centers that lack multiple ongoing resources. Vashon clearly does not have the resources to support recovery, let alone Detox. This idea is a good one from the stand point that we need an increase in AD&D services, recovery, and long term support, but again, Vashon cannot supply the needed resources to partner for successful recovery. Making a statement like "the clients will be attending a spa like treatment center", well it is my experience that recovery does not respond well to a spa like experience. Access to this Island is difficult at best and any attempts to keep clients at the facility for a planned departure is not likely.</p> <p>I think that the Thunderbird Treatment Center should exist, just not on Vashon Island as there are simply not resources to support the clients of same.</p> <p>I respectfully request that the King County Council and Executive not allow this project to move forward until a complete zoning, feasibility and usage assessment is conducted with sufficient public process and input (of which there has been next-to-none). I look forward to hearing back at your earliest convenience.</p> <p>Thank you for your consideration.</p> <p>Bonnie Veldwyk</p>	Bonnie Veldwyk	Treatment Center	Written	6/4/2024

389	<p>In addition to many reasons to NOT site a rehab center on Vashon Island, I am struck by the apparent dis-service to those we may try to help in their recovery.</p> <ul style="list-style-type: none"> - There is no convenient and cheap mass transit for them. - If persons elect to be out-patient or semi-outpatient, there is no employment or service infrastructure to help them stabilize or re-integrate to a usual working environment. Taking a bus and then a ferry timely and consistently for employment in Seattle, even with subsidized ferry travel, is an extra barrier for those in recovery. - Even minor behavior problems during recovery will be magnified by the small town or rural atmosphere. I lived next to a half-way house in Manhattan for a time. The normal street activities helped absorb the impact on the nearby residents. When appointments were ill-advisedly set on early Sunday morning, this generated opposition to the house which could have been support instead. <p>Please consider these practical problems seriously. Even if the land was cheap for this center, that will not outweigh the self-defeating problems that this siting decision would create. Please consider much better sites in currently unused commercial structures that are a result of the pandemic, the shift to working at home, or overexpansion of commercial spaces..</p> <p>Sincerely,</p> <p>Ken Christensen</p>	Ken Christensen	Treatment Center	Written	6/5/2024
390	<p>Dear King County Council,</p> <p>I am a resident of Fall City. I'd like to be on record as disagreeing with the proposed new minimum lot size of 12,500 square feet as a means to maintain "rural character" in Fall City.</p> <p>Fall City consists, for the most part, of small houses on relatively small lots. Current R4 zoning allows 4 units per acre which includes carve-outs for access roads. 12,500 square foot lots would effectively be a 25% reduction in the number of lots achievable after allowances for access roads. If developers must reduce the number of lots they can create in a development, they will naturally maximize the house size (and value) on each lot. The result will be large, expensive houses on big lots, "urban sprawl" style. Certainly not "rural character", and certainly not helping the housing shortage problem.</p> <p>To preserve both "rural character" and a modicum of affordability house size should be limited, not lot size. This can be partially achieved through increased setbacks as proposed (though builders tend to then just go up instead of out) or better, through a formula tying square footage (NOT building footprint!) to lot size.</p> <p>Thank you for your consideration and your efforts in helping make Fall City a better place for all.</p> <p>Sincerely,</p> <p>Charlie Kellogg</p>	Charlie Kellogg	Rural Areas	Written	6/5/2024

391	<p>Dear Ms. Mosqueda,</p> <p>In your below message, you erroneously state striking amendments H-9 and T-9 are not specific to Vashon Island. Therefore, I am copying the other County Council members lest they fall under the same misapprehension.</p> <p>You wrote, "The amendment you emailed about will help to modernize our code, and applies across the county and is not specific to any site or jurisdiction." Not so. The amendments are specific and exclusive to Vashon. And, while the Seattle Indian Health Board (SIHB) Thunderbird project is not named outright, that uniquely culturally informed project is what is described in H-9: "H-9 King County shall allow the siting of behavioral and mental health services in the Vashon Rural Town, including high quality prevention, crisis intervention, mental health, substance abuse disorder, and co-occurring disorder treatment services through equitable service delivery that centers culturally informed and inclusive behavioral healthcare."</p> <p>If sited on Vashon, the SIHB's project is expected to create an exorbitantly high need for emergency medical transportation services to get its patients back to Seattle. After long ignoring requests for such services for Vashon residents, the County would now, instead, provide those services to facilitate the inappropriate siting of a drug treatment center on this remote and bridgeless island. Amendment T-9: "King County shall support and partner with emergency service providers, the Vashon Airport District, Washington State Ferries, and the community, to provide emergency medical transportation for Vashon-Maury Island."</p> <p>To gauge the anticipated emergency medical transportation services needs and costs associated with a drug rehabilitation facility located on Vashon, I encourage you to learn how frequently fire department and other services responded to calls from the Seattle Indian Health Board's now-closed Thunderbird facility on the mainland. Locating the state's largest drug treatment program in an isolated small community across the water from the emergency medical services its patients will frequently need seems extravagant at best, and maybe reckless.</p> <p>Please familiarize yourself with the amendments shown in red in the attached striking amendment and reconsider the points in my initial message that you previously dismissed.</p> <p>Thank you,</p>	Victoria Barr	Treatment Center	Written	6/5/2024

407	<p>King County Council Local Services & Land-Use Committee Chair Perry, Vice-Chair Zahilay, Member Dunn, and Member Mosqueda,</p> <p>Good morning. First of all, we thank you and your staffs for all the hard work on the subject Update.</p> <p>Secondly, we have compiled the 52 Oral Testimonies we provided before your committee from January 17 through this past Wednesday, June 5, Briefings/Meetings—please see attached.</p> <p>We request you and your fellow Councilmembers (i.e., those who do not serve on the LS&L-U Committee, included in the cc's) take the issues discussed and solutions offered into account as the full Council takes up the subject Update throughout the rest of the year. We will continue to discuss our 21 proposed Line Amendments, along with the many, many pages of Written Comments we provided to you, as they address key needs to maintain the integrity of the King County Rural Area under the State's Growth Management Act. To that end, once again, we offer our compendium of how the "Rural Area Protection Addressed at Every Level of Planning."</p> <p>Thank you.</p> <p>*** The Joint Rural Area Team is comprised of nine Rural Area organizations/associations (EPCA, FCUAC, FofSV, GMVUAC, GRC, GV/LHA, HHA, SCAR, and UBCUAC), as well as three subject-matter technical experts on Environment, Growth Management, and Transportation—all included in the cc's in the same order. The Joint Team covers nearly the entire Rural Area of King County (please note the Vashon-Maury Island Community Council was a member up until recently, when it decided its issues were so unique that it would work separately—we agreed and wished them well).</p> <p>Peter Rimbo Coordinator, Joint Rural Area Team--KCCP, CPPs, and VISION 2050 Greater Maple Valley Unincorporated Area Council (GMVUAC) primbos@comcast.net</p>	Peter Rimbo	Amendments	Written	6/7/2024
408	<p>I do not agree with rezoning Vashon to accommodate a drug treatment center. This will create a whole host of problems for the Vashon community and the treatment center residents due to limited resources. Please do not allow this rezoning. 410	<p>Dear all, We strongly oppose the new zoning you're planning for Vashon Island. For one, massive drug rehabs do not belong on remote residential islands with barely enough infrastructure to support itself. And there are numerous other zoning changes that will negatively and irreversibly change the quality of life on the this small island for generations to come. Some of these new zoning laws allowed in residential neighborhoods include, but not limited to: Homeless Car Camping No Condition Multiple Cottages HousingManufactured homes -12 units per acre Retail Drug Stores Lot Splitting Drug Rehab Outpatient Micro Shelter Village Department And Variety Stores New Rural Neighborhood Commercial Centers Mixed-Use Development In Rural Neighborhoods And more... We residents of Vashon - and surrounding communities who will also be affected - DO NOT approve of this new zoning. The people have been intentionally mis-led and manipulated. The special interest group for whom much of this new zoning is being changed to accommodate has been actively disseminating false information to manipulate the community, the permitting office, the KC council and the Executive. And there has NOT been legally required proper public process. NO NEW ZONING. Thank you, Trevor Denherder</p>	Trevor Denherder	Vashon	Written	7/12/2024

413	<p>Hello, As a BIPOC woman who found it difficult to live on Vashon, I am writing to oppose the copy & paste emails getting sent to the emails addressed above. Vashon has been a NIMBY community that caters to the wealthy, and some of us are done with this attitude. My family owns a waterfront cabin in Paradise Cove on Vashon. We are aware of the limitations caused by the lack of fresh water available on the island. There are other residents who, like myself, understand how the limited water impacts the ability of Vashon to grow. Please do not cater to the NIMBYs on Vashon Island. Respectfully, Jaimi Nakata</p>	Jaimi Nakata	Vashon	Written	7/15/2024

415	<p>Hello, I'm looking for clarification on the current zoning for property 15333 Vashon Highway SW, Vashon, WA 98070. I am in support of the new use by Seattle Indian Health Board, and want to be clear whether or not the use of the property as a Residential Treatment Facility fits under the 2022 King County Comprehensive Plan. I also want to understand how proposed zoning changes for the 2024 King County Comprehensive Plan will impact this property. I wish I could easily find this information, but I haven't been able to and so am asking for your help in clarifying. There is opposition to the use by SIHB saying it isn't zoned for use as a Residential Treatment Facility or as a Community Residential Facility. I find myself confused and wanting the truth about how it is zoned currently and what the zoning will be if the 2024 KC Comprehensive Plan is approved. I hope you are able to answer these questions: Is 15333 Vashon Hwy SW currently zoned for use as a Residential Treatment Facility or a Community Residential Facility? Is some sort of permit required for that use in addition to it meeting zoning criteria? How will the proposed 2024 King County Comprehensive Plan change the zoning to this property? I appreciate your help and clarification! If you are unable to answer these questions, please direct me to the person/department who can. 433	<p>Good afternoon –</p> <p>I am submitting the attached proposed Map Amendment for inclusion in the 2024 Comp Plan Update on behalf of my client, Paul Kemp. The proposed amendment is to rezone three parcels from agricultural to commercial use, at the south end of the Lower Green River APD in Auburn. Mr. Kemp and I have worked for more than two years now to pull together all of the resources, parties, and properties needed to implement this rezone and the associated change to the APD boundary. Setting formality aside, I would really like the Committee to know that I care deeply about this project, and I sincerely believe that adopting this Map Amendment will solve problems that simply can't be accomplished any other way.</p> <p>With regard to the attached materials, I wanted to call out that removing these three parcels from the APD requires significant mitigation measures, and there is more information to come on that aspect. The current proposal does not go into detail on the restoration project or swap property prospects, but be assured there is a lot happening on that end and I believe we're very close to locking things in.</p> <p>Now, recklessly abandoning formality altogether, there are some things worth mentioning that will make the most sense put bluntly. And for better or worse, I'm gonna go for it:</p> <p>1.For legitimate reasons, BRC doesn't go unless the Flower Farm goes with it—so no matter what, these parcels are simply not going to become farmable again. They'll turn into a warehouse, or they'll remain polluted and useless. Despite all the legal elements that comprise this proposal, in the end the question is that simple: Warehouse, or status quo?</p> <p>2.If the lots become a warehouse, the consequential results include:</p> <ul style="list-style-type: none"> a.The otherwise-unabatable, multi-million-dollar code violations are gone; b.The land is sold and code enforcement liens are paid to the County; c.The Hang family (who own Fresh Flower Farm) are made whole, after the County's twenty-year failure to abate the unlawful activities that have deprived the Flower Farm of all market value;*** d.Groundwater pollution is no longer running to the Mullen Slough; e.Property tax revenue goes up; f.At least 21 acres of good farmland are brought into another APD; 	Amy Blue	Rezoning	Written	9/30/2024

435	<p>My name is Dave Turnbull and I live in unincorporated King County in a rural area. As I read through the proposed Comprehensive Plan, County Policy and County Ordinances, it's apparent King County Government is totally out of control. It should be apparent to everyone; the government overreach is taking away the freedoms of King County residents. I think we can all agree there is a role for government, but we are at a point where our government is similar to governments in other countries we despise.</p> <p>I've worked my entire career for others, but now I have the opportunity to work for myself on my own property. But King County makes it very difficult for people to pursue their dreams. The County actually discourages economic development in unincorporated King County. The restrictions are suffocating and the requirements our overly complex and unnecessary. The County is hell bent on exerting more and more control over its citizens.</p> <p>Below are my suggestions for change to help the people.</p> <p>I believe it is time to consider breaking unincorporated King County away from the rest of King County. The current leadership of the County does not support the needs of the citizens of unincorporated King County. We need leadership that supports freedom, capitalism, entrepreneurship, minimal taxes, and hard work. Today's county leadership is socialist and wants to take away freedoms by government control. The ironic thing is Socialist systems have never ever worked for the people.</p> <p>In the rural areas of the county there needs to be more support for economic development. I believe we need to maintain farming and forestry, but that's not enough. The County needs to support Agritourism. We, the people, have a tremendous opportunity to support our families and support economic development by opening up our properties to people. We need King County to get out of our way. We have the ability to do it in ways to support the rural character of our land, we know best, not the County.</p> <p>We need way simpler permitting and less costly permitting. We need a County who works for us not against us. We all know the current processes for permitting and development are as terrible as they get. King County has one of the worse reputations in the state. The Council knows it and the rest of the County leaders know it, but nobody is willing to make it better for the people. It's absolutely ridiculous that if I want to have a meeting with a planner to understand development requirements, I have to pay for the meeting. This is already a taxpayer funded entity.</p> <p>We also need a change in thinking when it comes to people's property. The County doesn't own my property and neither do my</p>	Dave Turnbull	Private Property	Written	10/9/2024
436	<p>Wetland set backs have increased, from 25% to 75%, has the county ever done a study to see how many more houses they could build if there was a standard 25 ft setback, higher density and Less urban sprawl, using the ground to its fullest potential, Also retention ponds build them in the wetland and plant them as a wetland, let mother nature take its course, how much land would that free up for further development?</p>	Mike Irvine	Wetlands	Written	10/12/2024
437	<p>Hello -</p> <p>This is crazy. Where can I see a one page BRIEF overview of what is going to happen?</p> <p>Referring to thousands of ordinances and lined out items is NOT understandable to the end user.</p> <p>Help!</p> <p>Thank you, Susan Marks</p>	Susan Marks	Process	Written	10/13/2024

438	Please keep Vashon rural! The changes include a very long town center on the main highway that will adversely affect people living on roads behind the main highway. Due to increase in short term rentals there are now lots of tourists that clog the roads and parking areas. With an increase in development there is no way the current roads can deal with all the new traffic. The proposed three story buildings will change the character of the town of Vashon. Please keep it to two stories. Water district 19 may not end up having enough water to provide for all the new buildings that will come with the proposed zoning rules. And those of us living here will have our water restricted. There are already long lines of people waiting to get on the ferries. Increase in population that comes with increased development will make the lines longer and make it hard to come and go. I am opposed to increased development on Vashon. It is not needed. Restrict short term rentals and we will have all the housing we need for our workforce. We don't need more shops and condos. Sincerely, Eugenia Cooper Vashon resident since 1987. 441	<p>Good morning members of the board. Thank you for the opportunity to be heard and speak today and again on November 19, 2024. My name is Leonard Fellez, and I'm here to discuss the comprehensive plan's impact on my wife Maureen and my property located at 8601 308th Avenue SE, Issaquah/Preston, WA 98027 (Parcel #3224079005).</p> <p>As a property owner, I am committed to maintaining and enhancing my land in a way that benefits both my family and the surrounding community. I firmly believe in the importance of upholding property rights, which are fundamental not only to individual property owners but also to the overall vitality of our community. However, the current comprehensive plan poses significant challenges regarding my ability to change the plat density and subdivide my property.</p> <p>The current zoning restrictions on plat density prevent me from utilizing my land to its fullest potential, limiting my capacity to subdivide and develop it responsibly. This not only impacts the value of my property but also hinders my ability to contribute positively to the neighborhood. Several land use attorneys have stated that I have a 0% chance of making any progress toward obtaining a variance or rezoning, which has left me feeling discouraged, but not deterred.</p> <p>It is also important to note that the surrounding neighbors have lots that are much smaller than my one acre, and my proposed changes would not alter the flow, look, or feel of the neighborhood at all. Additionally, my property is on a septic system, but a precedent has been set in Fall City, where 16 homes share a community septic system. This was developed on a 4-acre lot that has now become a 16-unit subdivision with a single septic system, demonstrating that responsible development can be achieved with shared resources. (Plat 21-002). Subdividing my property could lead to thoughtful improvements that enhance the aesthetic appeal of the area, increase property values, increase tax base and support local economic growth.</p> <p>I believe there are solutions that can reconcile responsible development with community goals. I respectfully request that the board consider alternatives or amendments that would allow property owners like myself more flexibility regarding plat density and subdivision while still aligning with the broader objectives of the comprehensive plan. A variance could be a very effective vehicle to meet the needs of all parties involved, fostering community growth and stability while respecting the rights of property owners.</p> <p>My goal is to collaborate with the community, not against it, and I hope my request will be taken into account as you make your decisions. Thank you for your time and consideration.</p> <p>Leonard and Maureen Fellez</p>	Leonard Fellez	Zoning	Written	10/21/2024

Please add my office to the list on notices as a courtesy so that I can keep apprised of any Kiing county actions which may affect Issaquah Highlands subdivision parcels. We are the largest HOA in the state of Washington.</p> <p>Our mailing address is:</p> <p>IHCA 2520 NE Park Drive Suite B Issaquah, WA 98029</p> <p>Sincerely, Sarah Hoey, Executive Director, CMCA, AMS, PCAM, LSM For the Issaquah Highlands Community Association (IHCA)</p>	Sarah Hoey	Process	Written	10/23/2024
443	<p>Metropolitan King County Council,</p> <p>Please accept this public testimony relating to the proposed increase in residential density in North Highline from R-6 and R-8 zones to R-12 or R-18 zoning. As a resident of White Center in North Highline I am against this proposal.</p> <p>This community is one of the most affordable areas with a Seattle address for low density housing. Increasing the entire neighborhood to R-12 or R18 zones will radically change the community and further price out families looking for low density housing in King County. Increased housing density should be focused on the areas immediately next to the commercial and business centers of North Highline to promote the idea of a walkable urban village and town center; not turning one of the more affordable urban low density housing areas in King County into a sea of unwalkable apartments.</p> <p>Thank you,</p> <p>-Byron W.</p>	Byron W	Zoning	Written	10/26/2024

444	<p>To Whom it May Concern,</p> <p>As a resident of unincorporated King County just south of North Bend I look forward to the implementation of many of the proposed Comprehensive Plan improvements. I moved here to enjoy the sublime beauty of the Snoqualmie Valley with the developmental boundaries of the Evergreen Trust Forest to the North, Mt to Sound Greenway to the East and Rattlesnake Mt to the South as it was clear that our predecessors had the foresight to protect Snoqualmie and North Bend from becoming congested crossroads to endless strip mall and neighborhood developments.</p> <p>That being said, we need room for more homes which leaves the only alternative, which is higher density with supporting transportation. I was excited to read the plan to increase allowable ADU units from one to two units per lot in urban areas, but I couldn't understand for the life of me why unincorporated King County wasn't included in that proposal. Allowing city folks to increase the option for having up to 3 homes on a quarter acre lot, while I can only add one ADU on a four-acre lot seems incredibly unfair.</p> <p>The small population living in unincorporated King County often seems to be underrepresented and overlooked in some areas of the plan. Extending the ADU increase to unincorporated King County residents should be considered.</p> <p>thanks for your time and efforts with the Comprehensive Plan</p>	Ray Butler	ADUs	Written	10/31/2024
445	<p>Council,</p> <p>King county has failed to ensure dense walkable areas with transit options exist. The uncontained sprawl of unwalkable communities was a clear and determined goal over the past 4 decades and we've seen zero improvement. Infill has exacerbate the PNW life style eliminating green space while having insufficient density. All while making recreation more distant, unobtainable and commercialized.</p> <p>Suffocating traffic is not creating density as done in Seattle. It only creates waste for all. Moving cars outside the high density cores is important.</p> <p>Please restrain the damaging sprawl and ensure dense areas are created above 5 story buildings with livable resources adjacent.</p>	Josh Lodge	Density	Written	10/31/2024
446	<p>Dear council,</p> <p>I am a decades long Vashon island resident, and I have some deep concerns as a unincorporated king county home owner. I am worried that many of these changes, while good for king county, will have a negative impact on the unincorporated areas. The zoning changes specifically. I live on an island with very poorly functioning ferries at the moment, no real urgent care, and minimal law enforcement. While crime here is low and mainly petty, I have bigger concerns. There is a rehab facility that the state legislators have green lit without asking the community their opinion. And the zoning changes are how this facility is possible. I DO NOT want zoning changes on Vashon. We have an elderly and vulnerable popula on here, my mother was one of those people. And we don't have the resources to increase our popula on or support the possible and likely issues brought about by a drug rehabilitation center. Another concern is what else will follow? This project was approved without asking the community or providing appropriate data on what will be effected by this facility being brought to our small and cloistered island.</p> <p>So I hope my voice will be heard here, and that my community with have the protection of the county, and not become another casualty of change without forethought.</p>	Rosebud Petta	Zoning	Written	10/31/2024

447	<p>My comment is on section 3 "Wildfire Risk Reduction" Action Amend R-736 to include: By July 1, 2025 the county shall designate suitable unused county right-of-ways as part of wildfire evacuation routes. Rationale In July 2022 the county executive issued a press release stating in part: "For example, there are neighborhoods in the wildland-urban interface that have only a single access point for hundreds of households, making it difficult for residents to evacuate and for firefighters to respond." (emphasis added) https://kingcounty.gov/en/legacy/elected/executive/constantine/news/release/2022/july/26-wildfire-risk-reductionstrategy I live in the unincorporated wildland urban interface northeast of Redmond. In this area there is a single choke point in the form of the NE 133rd St bridge over Bear Creek. Much of the Trilogy development, Lake of the Woods, Bear Creek Country Club, Tuscany, etc will likely try to evacuate over that bridge if there is a wildfire. Bad news. An evacuation is underway and something happens. Traffic halts trying to get over that choke point bridge. The fire is bearing down. The wind is howling and blown embers are starting spot fires ahead of the main fire front. Remember the pictures you saw of burned out cars after the Hawaii fire? Good news. It does not have to be that way here since there is an obvious solution to the choke point at the NE 133rd St bridge over Bear Creek. The county owns an unused right-of-way that can let some (or all) of the traffic from NE 133rd St go south and then use the NE 116th bridge over Bear Creek. There are *way less* people that live along NE 116th and its side streets (I am one of them) than live in the area that routinely uses NE 133rd St. As a result, the NE 116th bridge over Bear Creek is lightly used. Bad news: The county refuses to maintain this right-of-way by keeping brush and trees cut back and has failed to designate this right-of-way as an evacuation route in the county GIS. The 30 foot wide right-of-way at issue is a continuation of 204th Ave NE and is 100% county owned. The south end is at the intersection with NE 120th St. The north end is at NE 124th St. Attached are several pictures taken today (10-31-2024). The county recognizes this as an "Emergency access" route since the county erected the sign at the south end that you see in the first pic. The pics are looking north as I walked along today. The last pic is taken at the north end and is looking south at the locked gate. Unless there is a specific action policy with a deadline for performance, nothing will happen. I have traded email on</p>	Joseph Felt	Wildfire	Written	10/31/2024
448	<p>We will be anxiously awaiting the determinations that are made regarding proposed changes for zone 5. Looks like if approved strikethrough's, we would qualify to move forward with a small detached ADU on our property (1.09 acre, 47,480 sqft)? As we are seniors, sole owners of our 39 yo home, we are hoping to help our son and daughter-in-law get into a affordable home on our property, with added benefit of helping mom and dad out as we age in place!</p>	Katherine and Mark Jelsing	ADUs	Written	11/4/2024

451	<p>As a resident of Vashon, I am very concerned regarding the new King County Comprehensive plan for our small island.</p> <p>There are numerous zoning changes in the Town Core between Ober Park and Cemetery Rd that will increase potential housing density, in part based on affordability. There are also some new development proposals on the table that will move ahead with the likely Council approval of zoning amendments to Title 21, the County zoning code. These would, if implemented in the next few years add significantly to the population in the Town Core. One of these, in particular located on SW 178th St. east of 103rd Ave. SW, has the potential, using density bonuses (Residential Density Incentive process) enumerated in the Plan to add 190-340 housing units, with a concomitant population increase of between 190 and 780 people, depending on unit size and average home population, a 7% population increase. This potential increase is approximately 120-200% greater than zoning would allow, were it not for the proposed affordable provisions in the revised Code. The Plan is noticeably vague on how the density bonuses for affordable housing would be applied to the project. Attached is the FAQ document provided to the Community Council that describes this proposed development, for your information.</p> <p>Despite the potential inclusion of affordable housing, potential increase in workforce, and associated local revenue, there are potential environmental impacts from this project would include increased water demand on the order of 19,000 to 80,000 gallons of water per day, plus about 90% of that in sewage flow; 140-780 vehicle trips per day, increased traffic on 178th, Bank Rd, 103rd SW, and SW 188th, surface water runoff increases, and water quality impacts on Shinglemill Creek. Because of the relative impact of the development, the project, in my view, will have a significant environmental impact under Washington SEPA.</p> <p>Therefore, I am asking the following questions regarding the new King County Comprehensive plan for Vashon:</p> <ol style="list-style-type: none"> 1) Is the proposed density increase proposed in the FAQ's [attached to this email] permissible? 2) Is there surety that affordable housing will result; what is the recourse if the development doesn't actually achieve affordable housing at levels required by Code? 3) Will the County assess infrastructure and environmental impacts during the Residential Density Incentive process? 4) Will utilities' ability to meet demand affect permitting? 5) Will the County require the developer to pay for all infrastructure and environmental impacts? 6) Will the County require an Environmental Impact Assessment for the project? <p>I am hoping YOU will have some valid solutions to these important issues when before changes are made to our small island.</p>	Mary Carhart	Vashon	Written	11/5/2024
452	<p>Vashon Island cannot support the growth allowed in the comprehensive plan. The ferry service to the island cannot support the population growth proposed under the plan. The existing sewer system in the town core cannot support the proposed growth under the plan. The proposed growth cores do not have the infrastructure to support proposed growth under the plan. And the existing aquifers and ground water sources cannot support the proposed growth under the plan. The school system, fire and safety, roads and health systems cannot support the proposed growth. You are trying to jam a square peg into a round hole. Vashon is an island dependent on ferries and limited water sources. The comprehensive plan does not take Vashon's special geographical situation into account.</p>	Jonathan Kott	Vashon	Written	11/6/2024

453	<p>I have received the notice of the public hearing regarding the Comprehensive Plan and proposed ordinances 2023-0438 and 2023-0440 area zoning changes and would like you to consider including Parcel #3321029026 for changes.</p> <p>My request is to change the below map from 1 parcel to 3 separate parcels. As you can see the parcels are separated by a king county road and land locked now that the county owns parcel # 3321069021. As you can see from the map below there are boundaries already set by a road and land separation.</p> <p>My parcel number is 3321069026 Address 37021 218th Av Se Enumclaw.</p> <p>Thank you for your consideration and please let me know if this is something you can add to the KC Comprehensive Plan Ordinance Zoning Changes for 2024,</p>	Marcia Suhoversnik	Subdivision	Written	11/8/2024
454	<p>I would like to submit my strong support for the proposed change to the King County trails specifically SC-6 that would connect the Lake Youngs trail to the Soos Creek trail. The road between the two trails is very dangerous to walk as there is no path and people walk in the street. Some kids walk this path to get to school and are in high danger every day from cars, especially at the narrow, short bridge over the creek. Additionally, cars often travel at dangerous speeds, especially at night, and would not be able to avoid pedestrians walking next to, or on, the road. The Lake Youngs and Soos Creek trails are both heavily used and connecting them safely would ensure the safety of pedestrians and make better use of the two trails.</p>	Dr. Hamza Rabi, MD	Trails	Written	11/10/2024

455	<p>My name is Bella McLaws, and I am a resident of unincorporated King County north of Enumclaw.</p> <p>I'm writing in regards to the King County Comprehensive Plan, asking that you prioritize the FH-4 section of the Foothills Trail per Appendix C2 – Regional Trail Needs Report (Attachment F to PO 2023-0440, pages C2-4 and C2-11). Specifically, please prioritize building a bridge over Newaukum creek between SE 416th Street and SE 424th Street.</p> <p>I have used my electric cargo bike as one of my primary forms of transportation for myself and my three little kids for the last two years. I've clocked ~1,500 miles going back and forth between my home and Enumclaw's town center (and now Buckley, using the White River Bridge). I use my e-bike for transporting my kids to and from school, the library, friends' houses, parks, church, and getting groceries and running errands at local businesses, which saves my family money, connects us with our community in a meaningful way, and is good for the environment.</p> <p>However, because I can't cross the creek between SE 416th and 424th, I have to ride 1.5 miles out of my way every time I ride to town and every time I ride home—and most of that added distance is on SR 169, a *literal* highway where cars travel up to 60 miles per hour and the shoulders are of inconsistent width and covered in gravel. I've nearly been hit with my kids multiple times and have to avoid going into town at all during the late afternoon/evening because of the danger of sharing the road with cars in low-light conditions.</p> <p>With the trail improvements laid out in the FH-4 segment of the regional trail needs report, I wouldn't have to ride on SR 169 at all in order to access the shops and services I need to just live my day-to-day life. In fact, with the protection of the separated Foothills trail, I would be able to let my seven year-old twins ride their own bikes as a form of transportation every day, giving them sensory stimulation, connection to their community, exercise, and building their confidence and independence.</p> <p>In fact, according to the 2024 Enumclaw Comprehensive Plan (page HS-4), Enumclaw has a higher-than-average "age dependency" ratio - that is, compared to the State AND King County, Enumclaw has a higher population of both children and seniors:</p> <p>Just like my kids, these dependent populations are unable to drive and will benefit greatly from a robust and well-connected, car-free trail network that connects them with grocery stores, parks, libraries, and local businesses. Trail segment FH-4 is a crucial step in that direction.</p>	Bella McLaws	Trails	Written	11/11/2024
456	<p>My name is Chris, and I am a King County resident from Enumclaw.</p> <p>I'm writing to ask that you prioritize the FH-4 section of the Foothills Trail per Appendix C2 – Regional Trail Needs Report (Attachment F to PO 2023-0440, pages C2-4 and C2-11) of the King County Comprehensive Plan.</p> <p>Specifically, please prioritize building a bridge over the creek between SE 416th St. and SE 424th St.</p> <p>Although I've enjoyed having a quiet place to take the dogs and let them play in the creak, the possibility of being able to walk and/or ride my bike farther would be amazing. The shoulder on the enumclaw/ black diamond road between 416th and 392nd is slim that it's dangerous for two cars and a bike rider to all be at the same time. Add a semi, and you about get knocked over</p>	Chris Benz	Trails	Written	11/11/2024

461	<p>The policy of mandating sewer throughout the UGA needs to be abandoned on several grounds:</p> <ul style="list-style-type: none"> - The cost of sewer is prohibitive. By the county's own point analysis* unsubsidized sewer conversions were \$84k. - The cost of on site septic systems is superior to sewer. The same analysis* shows OSS repair at \$6k and replacement at \$41k. - The forced conversion from OSS to sewer is a taking of property (money) from property owners to support a public purpose (public sewer) when sewer costs exceed OSS costs. - There are clearly areas that will always be on OSS* - Many disadvantaged communities use OSS and lack the funds to sewer. These communities were further left out of sewerage. This has been identified as a social justice issue.* - It is clear neither the county or many on OSS can afford to sewer and there is lack of funding to address whether in general or as a social justice issue.* - The ongoing costs of sewerage are a problem. OSS have lower operational costs than sewerage. - Once sewerage occurs issues such as displacing lower income residents including affected social justice groups can occur and disrupts those communities.* - Individuals facing conversion from OSS to sewer face not only the financial costs but stresses stemming from those including funds for housing, living expenses, retirement, food, childcare, childrearing, healthcare, being displaced from their home or community, and more. The long term effects on families from these costs and stresses is of concern. - The policy of sewerage leads to taking more public funds to support it versus repairing or replacing OSS and takes such where it could be used for other purposes. Many of these funds are clean or drinking water revolving, 319 grants, and others that can be used for 	Michael Thomas	Sewer	Written	11/12/2024
462	<p>I would like to find out if you have been in contact with King County concerning the designation of 2 of the parcels (9078 & 9079) in the Belmondo Forest Natural area as part of the Green Energy District overlay.</p> <p>According to the 2024 KCCP update plan: The purpose of the Green Energy special district overlay is to advance the county's climate action goals by reducing barriers to generating renewable energy in King County, on properties whose location within one thousand feet of utility corridors and existing and historical waste management and mineral extraction sites makes them uniquely situated for maximizing green and renewable energy production while reducing transportation costs.</p> <p>When describing these properties in their plan, there is no mention of the 2 parcels being owned by KC Parks or that they are part of a Natural Area. The plan was published in May 2024, well after the purchase by KC Parks. But, I'm wondering if they didn't know about the designation?</p> <p>I've attached their Green Energy District overlay plan.</p>	Janet Dobrowolski	Green Energy Overlay	Written	11/13/2024

467	<p>As a Vashon resident and voter, I urge you in the strongest possible terms to DISALLOW higher density and taller buildings on Vashon.</p> <p>Vashon is a RURAL island. Any zoning changes that allow for further density and taller buildings would be in direct opposition to the vital rural character of our island. We are probably the last area close to Seattle that isn't overbuilt and urbanized. Your proposed changes would make the already frustrating traffic and parking situation in Vashon town even more difficult, further burden our already overburdened and inadequate ferry system, be an eyesore of the most inappropriate and unattractive kind, and endanger our limited water supply.</p> <p>I cannot think of any single change that would more gravely endanger the rural character of our island, which we cherish --and which is why most of us chose to live here. My family has been on Vashon since the late 1890s and has already seen many changes for the worse. Don't make the mistake of allowing for further changes that degrade our island's rural appeal. Once made, there is no going back from these changes. You would be consigning us to permanent damage that we don't want and does not suit our island.</p> <p>Do not allow Vashon to become a mirror image of Fauntleroy Way in West Seattle, with towering multifamily residences everywhere in what used to be a charming single-family home neighborhood. Do not force our island to look and feel like every other urban area. Vashon is NOT urban, and we have no wish to LOOK and FEEL urban. We wish to retain our rural character and lifestyle. We are not Burien; we are not White Center. We should not be "lumped in" with the changes you may have in mind for areas like that, which are already urbanized. We are a unique asset to Puget Sound and our uniqueness should not be endangered by thoughtlessly changing the zoning rules.</p> <p>How would you like it if someone built a skyscraper in your backyard? That's what your density and height changes feel like to islanders.</p> <p>NO TO THESE ZONING CHANGES ON VASHON - NOW AND ALWAYS.</p>	Katrina Land	Vashon	Written	11/14/2024
468	<p>My name is Katherine Evans and I am a King County resident from Enumclaw.</p> <p>I'm writing to ask that you prioritize the FH-4 section of the Foothills Trail per Appendix C2 – Regional Trail Needs Report (Attachment F to PO 2023-0440, pages C2-4 and C2-11) of the King County Comprehensive Plan.</p> <p>Specifically, please prioritize building a bridge over the creek between SE 416th St. and SE 424th St.</p> <p>My neighbors and I (especially those of us with children) would greatly appreciate the opportunity to ride a bike into the city of Enumclaw (and now beyond) without having to ride on the side of highway 169.</p>	Katherine Evans	Trails	Written	11/15/2024

469	<p>In the 1980's, King County, in response to the Growth Management Act, declared that Vashon would be forever "rural", meaning that among other things, Vashon can never determine its own destiny. Our community is perpetually subservient to the actions of King County; we are at the County's mercy and benevolence; and, of late we appear to be a County lab rat for a zoning experiment to determine "what is "rural"; what is "affordable"?</p> <p>King County Title 21A.04.060 "Rural area zone" focuses on "limiting residential densities...to provide for area-wide long-term rural character..." etc. I invite you to review the 2017 Vashon Sub-area Plan, Executive Summary attached, which with community input, highlights the importance of "rural character", and "affordable housing". Acknowledging that the goal of that Plan is to retain rural character while providing for an increase in affordable housing in the Town Core are both, clearly community goals, I ask you to consider the following questions regarding the outcomes of the proposed update to the Comprehensive Plan, recently presented by your staff:</p> <p>Does the removal of Special District Overlays, as included in the 2017 Sub-area Plan mean that the "density bonuses" for 100% affordable housing are no longer required? As presented by your staff, is 36 units/acre in the mixed use zone appropriate for a Rural Town---or not? Who should decide? How do you propose to determine if the infrastructure can support this density?</p> <p>You and your staff asserted that "the 'workforce' the Plan should aims to help should be teachers, grocery workers, firefighters, etc., whose earnings are 60% to 80% of the Area Median Income---rather than those at 80% to 120%" Clearly, the Plan proposed for adoption appears to support developers' contentions that affordable housing is not affordable to build. Are the opportunities to achieve a high level of affordable housing for those that need it most, gone?</p> <p>But if not, is a development with 90% units sold, or rented at high market rates, with only 10% affordable, a proposal that maintains the integrity of the County Planning process, or is the lack of developed affordable housing to date an indication that the 2017 Plan was an experiment that failed?</p> <p>Outside the town core, but inside the town boundary, the existing building height limit zoning is 60 feet to as much as 75 feet. Does this meet the definition of "rural", or could our (extended) town begin to look like the high-rise apartment core of West Seattle? Is this limit consistent with zoning in the remainder of the Town? Why have a 3-story limit in the dense area, and a much higher limit nearer the actual rural areas.</p>	Allen de Steiguer	Vashon	Written	11/16/2024

470	<p>I am the owner this private parcel and very proud of it. Located East of North Bend . I even completed the King county private landowner's Forest stewardship plan in 2010. My report with Gov. help showed value in forestry and its Mineral's provided in it's soils engineering report</p> <p>You now have proposed to down zone my 145 ac ,rural forest land zoned F M. Your Idea to potentially remove M in my property. They are in my mineral rights recorded deed. See my parcels Exhibit A and A-1 they show the 145ac with sketched road easements through BNSF and Twin Falls Hydro to Hwy 10 built for logging DNR property in the 1960.</p> <p>Exhibit B is the KCC Mineral Resource Map show's #43 . This is Thompson's 145 ac minerals with a long-term signification economic value</p> <p>Reading the States GMA my property is zone Mineral. 36.70 A</p> <p>It is also Permitted by KCC Ordinance 10870 KCC Natural resources</p> <p>I am asking you to not Down my parcel and keep it as recorded F M mineral.</p>	Bob Thompson	Mineral Zoning	Written	11/16/2024
471	<p>I live in White Center/ North Highline and I wanted to submit some comments regarding the Comprehensive Plan, including on some of the amendments that were put in place after the public comment review phase.</p> <p>1. I sincerely hope the county will consider adding much needed safety infrastructure such as sidewalks before permitting increased density to allow for suitable access to public transit. Currently it is very difficult to walk the 1/2 mile to bus in the dark due to cars speeding past and the roadside ditches, which vary in depth and present challenges when leaping out of the way of cars. I realize you may think I am exaggerating here but I am not and I encourage you to come try to walk your dog along the neighborhood streets in White Center during the 5-6PM hour. The steep slopes of the hills also make these walks difficult and I expect will just lead to more people driving from some of these areas because the walk can take about 15 minutes. I speak from personal experience as I live in one of the proposed upzone blocks which is technically within a 1/2 mile radius of a bus stop, but not really because of the lack of through streets. Finally on the topic of safety and infrastructure-does the Sheriff and Fire Department have resources to support this increased density? It seems like they are constantly saying they do not at the current level.</p> <p>2. Regarding environmental impact, it is my understanding the county is supposed to maintain the drainage ditches. They do not to my knowledge, and ours routinely floods in heavy rains. I would hope there is a plan in place to address this when there are more impermeable surfaces. This should include a regular maintenance plan to unclog the pass throughs under driveways and remove weeds and blackberries. Overall it seems like the county does not have resources to take care of its current obligations, and I am not sure how this will improve with more density.</p> <p>3. I was sad to see the height limit go up to 60 feet on my block with the removal of the P suffix. That seems like a giveaway to development interests with no gain for residents. I would prefer to see a height exception only in exchange for mandatory inclusion of affordable units on premises. Otherwise it will all become ultra-tall unaffordable townhomes as we have seen in the rest of Seattle and hasten gentrification of the White Center neighborhood.</p> <p>I love my neighborhood and I want to see my neighbors continue to be able to afford it. I know we need to increase housing density, but I hope the area gets the support it needs and not just more people with the same limited services.</p>	Melissa Snyder	White Center	Written	11/16/2024

472	<p>The proposed zoning changes for Vashon included in the 2024 King County Comprehensive Plan, while well-intentioned, will likely result in problems for the community that are far more serious than the problems that are hoped to be solved. For example, the limited and vulnerable-to-contamination water supply on Vashon is nearly maxed out. The long water emergency this summer in King County Water District 19 (KCWD 19) highlighted how unexpected problems on Vashon often require water restrictions. Vashon is an inappropriate place to locate so much new housing ... for numerous reasons including water, transportation (ferries), infrastructure (sewer), and more.</p> <p>The zoning changes proposed will increase housing, but most of it won't help the work force housing problem and it will require water that KCWD 19 can't supply. (See KCWD 19 Comprehensive Plan, Section 2 Basic Planning Data, and Section 6 System Analysis). Regarding developers' unrealistic projections for minor/zero water use and for work force housing, take a moment to consider these. The expense to achieve zero water use is huge. The economics of housing relies on the wave of gentrification, making higher-end housing the likely final result.</p> <p>Wouldn't a directed effort to increase work-force housing make more sense?</p> <p>Perhaps a community work-force housing trust is a better solution, where employers and others guide the housing toward the people who are actually working here. Vashon has created at least seven affordable housing projects (Charter House, JG Commons, Eernisse, Roseballen, Sunflower, Mukai, Vashon Co-Housing and more) and has a good track record of producing innovative housing solutions. A demonstration project that focuses on work force housing makes sense. But to try to increase work-force housing using blanket zoning changes such as these is a risky approach.</p> <p>Unless at build-out, the proposed zoning changes can be supported by KCWD 19's Comp Plan, they should be withdrawn.</p> <p>Thank you for your many other useful efforts on the behalf of King County and Vashon. But please reconsider these risky and disruptive proposed zoning changes, whose full ramifications have not been carefully considered.</p> <p style="text-align: center;">Frank Jackson former King County Water District 19 commissioner (publically elected 1984-1990 and 2004-2010) and former Groundwater Protection Committee member</p>	Frank Jackson	Vashon	Written	11/16/2024

474	<p>I am writing regarding the proposed ordinance and zoning area changes in the Comprehensive Plan that relate to the Vashon-Maury Island Subarea covered, I believe, in Amendments H and I.</p> <p>I urge that no expediting, exemptions or exceptions be given to further “affordable housing” when that housing is defined as 80-120% of Area Median Income and constitutes a small percentage of a total development. That so-called “workforce housing” applies to households making approximately between \$100,000 per year at the low end and \$166,000 per year at the upper end. There is not a teacher, home health care worker, grocery worker or other service person on Vashon Island earning even the bottom end of the scale. The Vashon community is not NIMBY and understands that Vashon is very much in need of affordable housing. However, allowing large scale private market rate development with a low percentage of affordable housing for people at the highest income ranges of that designation does not help the issue, it exacerbates it. We do not need large scale development by private developers serving high wage earners taking up scarce land, water shares and other resources that could go to truly affordable housing. Please instead consider facilitating the development of ADU’s, DADU’s and smaller density multifamily housing for 60% or less of AMI as better ways to increase the inventory of affordable housing on Vashon.</p> <p>Vashon Island is a unique rural area and should be considered separately in planning and zoning. It is a true island with limited infrastructure to support large scale development. We are a strongly agricultural area, with very limited water, waste water infrastructure, land, road capacity, rural town parking, transportation and other infrastructure that would be impacted by development that is overscale to the community. Not the least of that is access on and off the island which is entirely ferry dependent and already over capacity.</p> <p>I’m sorry I cannot cite parcels and proposed changes by their planning numbers. I find it impossible to figure out despite having scoured the planning documents but want to address my particular concern which is a development being referred to in the Comprehensive Plan as the “world’s largest regenerative housing project” in rural Vashon town. Apparently zoning changes will allow up to approximately 343 units on a few acres on the west side of the town. The developer has no proof of concept and has only built one so-called “regenerative” house in Oregon. There is no basis to think that a project of this scale on a small resource limited island would be “deeply green” as it has been promoted. Between the 2010 and 2020 Census, the population of Vashon only rose between 300 to 400 people. A development that could suddenly bring double or triple that number to the island, and would diminish if not collapse the agricultural nature, sustainability, resources and affordable housing prospects for low-income workers on the island, should not be allowed under zoning let alone accommodated. A few rain barrels to collect water and a hope that people will want to walk not drive will</p>	Kerry Coughlin	Vashon	Written	11/17/2024

475	<p>In support of the King County Council (KCC) keeping the sign code as it is, I request that the Vashon-Maury Island Heritage Association (hereafter, "the Museum") immediately send a letter to the King County Council stating that, despite being the fiscal sponsor for the heritage trails signs group(s) (hereafter "HTG"), the Museum does not endorse the heritage trail group's projects, including not endorsing the HTG's efforts to get King County to exempt the heritage trail signs from the sign code's prohibition on signs being placed in road rights-of-way (or on private property except with size and placement restrictions).</p> <p>When there is a natural assumption that the Museum is somehow connected with the heritage trails signs project and when the Museum is, in fact, the fiscal sponsor of the HTG, and when the HTG is the group that initiated the lobbying to obtain a change in the County's sign code for its special interest, the Museum must not rest upon having merely stated at a board meeting that it is neutral on the proposed heritage trail signs and the proposed amendment to the King County sign code.</p> <p>In response my request that the Vashon Heritage Museum clarify that the Museum does not endorse the proposed King County sign code amendment and does not endorse the heritage trail groups' (hereafter, "HTG") sign projects, at its November 12, 2024, board meeting made this statement of neutrality:</p> <p>"VMIHA cannot give a yes or no answer to your question, because the board has not voted one way or another on an "endorsement" of the amendment. The Burton and Ellisport Trail Sign Projects are not projects of the Vashon Maury Island Heritage Association (VMIHA). VMIHA acts as Fiscal Sponsor for these groups respectively, and provides research and historical assistance as we would for any private individual or group of individuals. The VMIHA board voted to be a fiscal sponsor of the Burton Group in November of 2022." [Emphasis (bolding) added.]</p> <p>Unfortunately, the Museum serving as the "fiscal sponsor" of the heritage trail groups sign projects causes the HTG's actions to be attributable to the Museum, regardless of whether the Museum is even aware of those actions or wishes to present a neutral position on them. Because it is a 501(C)(3) organization, the Museum is barred from lobbying for legislation; thus, so is the HTG, and any organization for which the Museum is a fiscal sponsor. The HTG initiated the request for the King County Council (KCC) to change the sign code to exempt heritage trail signs from the County's restrictions on signs on private property and in road rights-of-way (code restrictions that protect pedestrian and vehicle traffic as well as our visual environment). The HTG may argue that it is only lobbying indirectly by manipulating local organizations to serve as a proxy in promoting the group's agenda, but since the HTG's lobbying efforts are attributable to the Museum, the HTG's missteps could cause the Museum trouble with the IRS, as well as marring the Museum's</p>	Victoria Barr	Signs	Written	11/17/2024

476	<p>I am concerned that, with this comp plan update, the County establishes its intention to foster the use of non-native plants - disguised as native plants - for landowner restoration projects and more. I am opposed to providing incentives to install non-native plants in land restoration. I am further opposed to the obfuscation of the definition of a native plant. I recommend that the County continue its longstanding leadership in fostering biodiversity with a foundation of native vegetation not only in critical areas but in all areas outside of critical areas, which also consist of valuable ecosystems including many human beings who need nature.</p> <p>Indeed, the Introduction to Chapter 5, Environment states: "All parts of the county — from densely developed urban areas, to farm and forest land, to the Rural Area — have a role to play and a common interest in environmental protection. Responsibility for environmental protection cannot fall on one geographic area or community alone."</p> <p>I will point out how the County's well-intentioned policy in consideration of climate change will have unintended, negative consequences for ecosystems, urban, suburban, and rural well beyond what is spelled out in the Comp Plan.</p> <p>The text and policy that I bring to your attention is in E.C.4 in the section titled, ironically, Invasive Species and Noxious Weeds. The text states: "The County also establishes a list of "climate-smart plants," which are native plant species currently, historically, or prehistorically found within the surrounding ecoregion that are predicted to maintain their abundance under climate change."</p> <p>Policy E-350: "King County should provide incentives for landowners who are seeking to remove invasive plants and noxious weeds, such as providing technical assistance or access to native or climate-smart plants."</p> <p>Background:</p> <p>The plants in the County's preliminary list of "climate smart plants" are with a few exceptions not native plants. The foundation of biodiversity is native plant species that turn the sun's energy into food. With few exceptions, insects do not lay their eggs on non-native plants due to toxins that cannot be metabolized. Insects co-evolve with the plants they eat. This phenomenon is known as host-specificity. About 90% of insects are diet specialists that are restricted to eating one or several plant lineages. When native plants are not present, there is little production of larvae and caterpillars that are, with few exceptions, the only food that terrestrial birds feed their young. Like human babies, nestlings cannot eat seeds and berries. Baby food for a nestling is essentially a caterpillar.</p> <p>Bird populations in North America are in severe decline. This loss will continue unless we make changes that protect ecosystems. Not only birds, but predatory insects, amphibians, fish, bats, and more rely on insect populations. Humans have depleted wildlife habitats and have disrupted the food webs that are the foundation of biodiversity. Let's not make it worse by government action.</p> <p>The Comp Plan commits to fostering conditions favorable to pollinators but does not explicitly discuss plant host specificity. The butterflies and moths have to have a place to lay their eggs after drinking nectar in order to continue their species. More emphasis is needed on host plants, especially those keystone plants that have an outsize impact upon the food web. The native garry oak is a</p>	Carolyn Boatsman	Climate Smart Plants	Written	11/17/2024
477	<p>In consideration of plans to review and possibly modify the comprehensive plan I would encourage you to look closely at the unintended consequences of major changes to the existing rural designation and town plan.</p> <p>Vashon Island is one of the few, perhaps the only, areas of King County's western edge that retains rural designation. Large areas of open space punctuated by heavy forest ringed with walking and hiking trails afford unlimited recreational opportunities for not only human kind but numerous other species of resident, migratory and transient wildlife.</p> <p>This is a rich (as nearly as possible on an urban / rural edge) natural environment that is continuously threatened with further development. The caution is against the "slippery slope" that we find ourselves negotiating in search of solutions to myriad problems that our human needs demand. Sacrificing more and more of the natural world seems a very high price to pay with little long term return on investment.</p> <p>A few zoning tweaks to the downtown core may seem to many a minor concession but may have exponential deleterious effects in the years, decades and millennia ahead as Vashon comes around again and again to review and modification of its designated status.</p> <p>There are times when little or no action may be the best action.</p>	John Rupp	Vashon	Written	11/18/2024

478	<p>I am sad and dismayed regarding the proposed changes in the comprehensive plan for Vashon. You should know by now that Vashon has no infrastructure to support the plan, nor could I find out how KC would address the consequences of expanding our town. Our two policemen are not adequate to handle the results of an increased population. Ferries provide all our goods and services, but the reduced schedule, lack of reliable transportation has made it a hardship to travel on and off the island!</p> <p>This plan reminds me of the time Joe McDermott tried to push our island into accepting a marijuana production facility near our only high school! At least a meeting was held on Vashon to discuss the matter and he came to better understand our concerns. Zoom meetings are unacceptable in discussing comp plan changes-as are the pages of jargon in the document proposing the changes!</p> <p>Where are you, Dow? The rest of you? Face to face, with a translation of the proposed changes into layman's language and an in-person vote to discover what our concerns are, meeting to explain the impact on our island and how it would work would have been educational for all. And it would show us that we actually have a positive relationship with KC.</p> <p>I ask the Council to please re-examine the plan, look at the specific needs and priorities for Vashon, and come up with a clear plan that is not a "One size fits all" version for all unincorporated areas. Please restore my faith in you all. Thank you for reading this. I look forward to hearing from you.</p>	Kari Ulatoski	Vashon	Written	11/18/2024
479	<p>I hope you didn't remove all the new regs to the comprehensive plan for Vashon that allow for more affordable housing because of a few complaints by a few citizens.</p>	Jane Neubau	Vashon	Written	11/18/2024
480	<p>The Snoqualmie valley (the valley itself and east of the valley) is completely misrepresented in the comprehensive plan. The area is one of the least healthy and least environmentally friendly in the state. There are thousands and thousands of private plane training flights every year (estimate 4,000-7,000 a year). During flying weather, 25-40 planes a day is typical, with each spending 1/2 to 1 hour at a time out here. They incessantly shatter the quiet rural environment, gunning their essentially unmuffled aircraft engines up and down, and spewing toxic lead on the valley area residents. Private plane flight training businesses have destroyed the rural living environment with noise pollution and toxic lead from leaded aviation fuel. They completely ignore the intent of the comprehensive plan, and made it a sham for the valley area and it's residents. They own the living environment out here every minute of every day, and words on a piece of paper aren't going to change that.</p> <p>For the 10 year duration of the new comprehensive plan, 40,000-70,000 private plane training flights will spew incessant noise and toxic lead on valley area residents. I realize that King County has no authority over these planes. But, you need to be honest with the public. You need to correctly represent the environment out here and put a warning in the comprehensive plan of the heavy noise pollution and the fact that these private planes are using leaded fuel - banned for everyone else. Otherwise, you bear responsibility for misleading the public and the consequent health impacts for those that move out here based on the comprehensive plan.</p>	Unkown	Snoqualmie Valley	Written	11/18/2024

481	<p>Having lived on Vashon Island for more than 45 years, I (John van Amerongen) and my wife Clare van Amerongen want to express our concern that the current provisions for affordable housing in the proposed Plan threaten the rural character of Vashon as well as the safety of its residents and the health of its natural resources and environment – the precise attributes that attracted us to move to Vashon and make it our home.</p> <p>Make no mistake, we support the creation of affordable housing to accommodate an island workforce of teachers, grocery workers, firefighters, and service employees whose earnings are 60% to 80% of the Area Median Income. That said, we believe that a target income threshold for such residents should not exceed 80% of that median.</p> <p>In that regard, we object to any use of Vashon’s legitimate need for “affordable housing” as a Trojan Horse for the overdevelopment of housing units that do very little to benefit those with real need for affordability. By setting a threshold of a mere 10% set-aside for target-income residents, such a plan would open the floodgate for a surge of new residents who earn far more than the population the project identifies as in-need. This fundamental misdirection of resources is exacerbated by proposals that might allow as many as 36 units/per acre, only 3.6 of which would be earmarked for the target group. Such low ratios would place an undue and unrealistic burden on island resources, infrastructure, and current residents in exchange for minimal benefit to those in legitimate need of affordable housing.</p> <p>Furthermore, allowing structure height limits in excess of 40 ft. within the “town boundary” invites future vertical expansion of population density within any allowed footprint. We strongly object to the construction of multi-story, moderate-income, high-density housing structures justified behind a disingenuous mask of creating “affordable housing” for so few.</p> <p>If the majority (> 50%) of newly built “affordable” units can’t benefit the Vashon population in real need of affordable housing, this plan fails to benefit Vashon Island.</p> <p>Please consider these concerns as you craft our island’s future.</p>	John Vanameron	Vashon	Written	11/18/2024

482	<p>We represent Good Neighbor Vashon, a non-profit organization dedicated to promoting and protecting the needs of Vashon Island's residents. Good Neighbor Vashon's current focus is ensuring that the King County Council adequately considers Vashon's needs and limitations while engaged in the Comprehensive Plan update process.</p> <p>The King County Council should consider Vashon Island's unique characteristics before including the island in the "health care and residential care" suite of land use changes proposed in the Comprehensive Plan update and related development regulation amendments. Vashon is a rural community only accessible by ferry. As such, the island mandates special considerations. It cannot be painted with the same brush as its mainland counterparts. The island lacks critical infrastructure and utilities as well as basic medical services that render it incapable of accommodating some of the proposed land uses. Vashon should be carved out so that these new land uses are not allowed outright.</p> <p>Many of the proposed amendments to the Plan are geared towards providing emergency shelter and behavioral treatment services (e.g., substance abuse/addiction treatment). For instance, the Council proposes new land uses such as "crises care centers," "rotating shelters," "safe parking sites," and "emergency supportive housing." The Council also proposes allowing "psychiatric hospitals" and "social services" as outright permitted uses in the rural area. These proposed uses cannot function safely without quick access to medical services, law enforcement, and other services, including emergency trauma care and medical specialists. But Vashon Island lacks the critical infrastructure and utilities to meet the needs of its existing residents. The Council's proposal to include Vashon in the new "health care and residential care" land use category will make a bad situation worse.</p> <p>The island has limited affordable housing, as well as limited short-term options (hotels/motels) for visiting family. Vashon does not have a hospital or 24/7 emergency services, let alone a network of medical specialists. Currently, one prescribing psychiatric professional exists on the island. The vast majority of medical services are a ferry-ride away. To make matters worse, the ferry system has been plagued with recent failures which WSDOT and the legislature are years away from addressing. Vashon has no ferry service for four to five hours every night. The island is completely reliant on the County Sheriff for public safety. The Sheriff's office has been and remains short-staffed.</p> <p>In a nutshell, Vashon lacks the critical infrastructure and medical care to meet the needs of current residents, and the above-described proposed changes will add to the strain. This in turn risks the safety and well-being of the individuals served by these proposed land use categories (e.g., crisis care center residents).</p> <p>Experts with experience in psychiatric facilities have opined on the infeasibility of operating psychiatric residential treatment facilities on Vashon Island.¹ These facilities require immediate access to medical specialists and emergency medical services. Vashon has neither. These facilities also need police presence at a moment's notice. Vashon does not have that either. Without such readily available support services, Vashon cannot safely accommodate these types of facilities.</p>	Michael Rea	Vashon	Written	11/18/2024

483	<p>Thank you for the opportunity to comment on 2024 Comprehensive Plan Striker. Overall, Futurewise supports the update, but improvements are needed to meet community needs and comply with the Growth Management Act (GMA). Our recommendations are summarized and then explained further below.</p> <p>Futurewise works throughout Washington State to support land-use policies that encourage healthy, equitable and opportunity-rich communities, and that protect our most valuable farmlands, forests, and water resources. Futurewise has members and supporters throughout Washington State including King County.</p> <p>Summary of our Recommendations</p> <ul style="list-style-type: none"> ■ Do not allow mixed-use development in Rural Neighborhood Commercial Centers. These areas lack the public facilities and services to support this level of development. Please see page 5 of this letter for more information. ■ Do not rezone the R-1 zones to R-4 in the Vashon Town Center. Upzoning the area is inconsistent with the Water District 19 Water System Plan, will put additional pressure on limited ground water, and will increase the likelihood that onsite septic systems will pollute ground water. Please see page 6 of this letter for more information. ■ Do not add doctor's offices, outpatient clinics, social services, community centers, crisis care centers, and similar uses to the Rural Area zones. The Rural Area zones lack the transit, transportation infrastructure, water, and sewer facilities sufficient to support these uses. Allowing these uses in the rural area violates Multicounty Planning Policy (MPP)-RGS-13 which directs counties to "[p]lan for commercial, retail, and community services that serve rural residents to locate in neighboring cities and existing activity areas to avoid the conversion of rural land into commercial uses." <p>1 They also violate the Growth Management Act's (GMA) prohibition on urban uses in the rural area.2 Please see page 7 of this letter for more information. ■ The definition of industrial uses should not be broadened to allow industrial uses outside urban growth areas that are not currently allowed. The definition for rural industrial uses must comply with the GMA limitations on urban uses in the rural area. Please see page 8 of this letter for more information.</p> <ul style="list-style-type: none"> ■ The comprehensive plan and development regulation amendments must protect small wetlands and avoid paving over these areas. These wetlands play important roles in providing plant and wildlife habitats. The County must protect these wetlands. Policy E-412, which the County Executive proposed to delete and allows impacts to small wetlands, should be removed from the striker. Please see page 8 of this letter for more information. ■ The comprehensive plan and development regulation amendments need to address the impacts of additional rural development on surface and ground water and adopt development regulations consistent with RCW 36.70A.590 and RCW 90.44.050. This is necessary to protect salmon, fish, and wildlife habitat, and to comply with state law. Please see page 10 of this letter for more information. 	Brooke Frickleton	Miscellaneous	Written	11/18/2024
484	<p>I am a resident of Logn Term Bainbridge Island in Kitsap County, but commute to Seattle every day. My company has an animal sanctuary on Vashon that is very unique. Upon reading some of the things that the new zoning would allow, I felt the need to write to the counsel and the zoning folks.</p> <p>Vashon Island is very unique, a rural area accessible only by boat and close to downtown Seattle. It still has lots of farms and a relaxed atmosphere. Furthermore, the people of Vashon like it the way it is. I watched Bainbridge Island grow up, in a bad way, bringing homeless people, more garbage than ever, much higher taxes and big city problems we didn't need to have. If the proposed zoning changes are made to Vashon, it is a death sentence to the current lifestyle of the residents. It will bring a lot more costs to the government for the island, probably resulting in the need to incorporate eventually. Homeless car camping should not be allowed anywhere, for example. They don't want this, only the developer wants this to happen, because they will build their developments and leave the mess behind for the residents to clean up. Growth is not always necessary, and it is not always good.</p> <p>Please do not pass the zoning changes for Vashon as they currently stand.</p>	Jim Cairnes	Vashon	Written	11/18/2024

485	I am opposed to the proposal as currently suggested as it is so vague as to be incomprehensible. While the euphemistic language may suggest nirvana it requires a lot of improvement before it can be vetted. Just offhand, the possible density is high, the number of units to be sold at market value high, building heights are literally too high and the other many impacts on Vashon remain unmentioned. The Council would be advised to resubmit.	Jerry Williams	Vashon	Written	11/18/2024
486	I live on island with my wife and young children and I write this email to voice my disagreement for any new zoning that would allow for drug rehab clinics on Vashon. The last thing this community needs is more drug users being brought over. The emergency services are already starved and once this Pandora's box is open there is no closing it. No drug rehab clinic on island.	Samuel Anderson	Vashon	Written	11/18/2024
487	<p>My Name is Spencer Lau, and I am a resident of King County District 8, a member of the 2024 Comprehensive Plan Update's Equity Workgroup, and the Finance Manager at the White Center Community Development Association (WCCDA). I am respectfully submitting this testimony in support of the Striking Amendment to Proposed Ordinance 2023-0440, Version 2.</p> <p>We in the Equity Workgroup enthusiastically support this Striker except for the affordability thresholds related to Density Bonuses and Inclusionary Zoning. I support the Council's proposed increases in density bonuses, but encourage you to maintain the Executive's proposed affordability thresholds. I caution the Council on your proposed removal of Equity Impact Reviews for Council initiated upzones. Your well-intentioned efforts to incentivize participation by the market may result in unintended consequences that need to be documented, called out, and potentially mitigated.</p> <p>I support wholeheartedly the proposed workplans on MFTE and other issues. To ensure these are implemented equitably and thoroughly I request that adequate funding is made to the planning department. This will ensure continued participation from engaged communities.</p> <p>We in the Equity Workgroup thank the Council for maintaining our priorities in your review. Specifically, I appreciate putting equity front and center in this update. I welcome the acknowledgement of past marginalization of our communities in the Plan with clear policies to correct this. I strongly support prioritizing the unincorporated urban areas for new and ongoing public planning and investment. I wholeheartedly support the clear focus on increasing the supply of affordable housing but doing this within the context of being accountable for impacts of displacement of residents, local businesses and community and cultural anchors. Thank you for addressing the need to increase the supply of childcare facilities in our unincorporated communities.</p> <p>This updated Comprehensive Plan is historic not only in how race and social equity is explicitly acknowledged and analyzed within the body of the document but more importantly a web of equitable, community-driven policy changes embedded in detail from listening and accepting by King County staff. I am grateful for the leadership of the Executive, the Council's support, and the tireless and genuinely committed efforts of all levels of staff.</p>	Spencer Lau	White Center	Written	11/18/2024

488	<p>Thank you for the opportunity to comment on the King County 2024 Comprehensive Plan.</p> <p>As mentioned in our previous letter dated September 27, 2024, the proposed Ordinance (No. 2023-0440.2) and Comprehensive Plan contain language that disincentivizes property owners from investing private funds to improve their property. This seems counter to many of the County’s stated goals, specifically the goal on Page 23 of the Ordinance to “10. Allow for infrastructure in the rural area that requires a rural location or that provides or supports infrastructure of nearby residents”.</p> <p>We have been communicating with Council staff on this issue since our September letter. They noted that the Council agreed with Lakeside’s concerns and would propose a change to address our comment. However, the striking amendments released on November 14, 2024 did not correct this issue.</p> <p>The County’s proposed language is as follows:</p> <p>11/14/24 Full Council Striking Amendment to Proposed Ordinance 2023-0440, Version 2, Page 497 (Section 21A.14.280.B.2): 2. Uses shall not require substantial investments in infrastructure, such as water, sewers, or transportation, or facilities that generate substantial volumes of heavy gross-weight truck trips.</p> <p>11/14/24 Full Council Attachment A – 2024 King County Comprehensive Plan, Page 115 (Policy R-338 f.): Industrial uses ((requiring)) be sized to avoid substantial investments in infrastructure, such as water, sewers, or transportation facilities, or facilities that generate substantial volumes of heavy-gross weight truck trips((, shall be reduced in size to avoid the need for public funding of the infrastructure)).</p> <p>Both of the above-quoted sections must be addressed. In addition to the vagueness of this language (the code does not define “substantial” in this context), this change likely would not accomplish what the County seeks to achieve. While the County intends to prevent uses that result in substantial impacts, this language prevents substantial “investments” and infrastructure, thus precluding private property owners from making improvements that would ensure clean stormwater, better roadways, and protection of the environment. County code and the State Environmental Policy Act provide County authority to prevent significant impacts from industrial activity, but this proposed language would instead prevent significant infrastructure, even if that infrastructure provides positive benefits to the environment and the County as a whole.</p>	Kyler Danielson	Industrial Uses	Written	11/18/2024

489	<p>Thank you for the opportunity to be heard today and, hopefully, again on November 19, 2024. My goal is to raise awareness about outdated zoning—a matter particularly important to me as I near retirement and consider the highest and best use of our property. After reviewing the agenda and attempting to navigate the comprehensive plan, along with the referenced ordinances and impacts, I found myself thoroughly confused. That’s why I decided to take action—by showing up, seeking clarity, and engaging in this process. My name is Leonard Fellez, and I’m here to discuss the comprehensive plan’s impact on my wife Maureen and my property located at 8601 308th Avenue SE, Issaquah/Preston, WA 98027 (Parcel #3224079005).</p> <p>As a property owner, I am committed to maintaining and enhancing my land in a way that benefits both my family and the surrounding community. I firmly believe in the importance of upholding property rights, which are fundamental not only to individual property owners but also to the overall vitality of our community. However, the current comprehensive plan poses significant challenges regarding my ability to change the plat density and subdivide my property.</p> <p>The current zoning restrictions on plat density prevent me from utilizing my land to its fullest potential, significantly limiting my ability to responsibly subdivide and develop it. This not only affects the value of my property but also restricts my capacity to contribute positively to the neighborhood.</p> <p>Several zoning and land-use attorneys have told me that pursuing a variance or rezoning is “impossible” or “has no chance,” which has been discouraging—but not deterring. Despite their opinions, I remain optimistic, given the logical and thoughtful approach I’ve taken to address this issue and the unique circumstances of my property.</p> <p>It is also important to note that the surrounding neighbors have lots that are much smaller than my one acre, and my proposed changes would not alter the flow, look, or feel of the neighborhood at all. Additionally, my property is on a septic system, but a precedent has been set in Fall City, where 16 homes share a community septic system. This was developed on a 4-acre lot that has now become a 16-unit subdivision with a single septic system, demonstrating that responsible development can be achieved with shared resources. (Plat 21-002). Subdividing my property could lead to thoughtful improvements that enhance the aesthetic appeal of the area, increase property values, increase tax base and support local economic growth.</p> <p>I believe there are solutions that can reconcile responsible development with community goals. I respectfully request that the board consider alternatives or amendments that would allow property owners like myself more flexibility regarding plat density and subdivision while still aligning with the broader objectives of the comprehensive plan. A variance could be a very effective vehicle to meet the needs of all parties involved, fostering community growth and stability while respecting the rights of property owners.</p> <p>My goal is to collaborate with the community, not against it, and I hope my request will be taken into account as you make your decisions.</p> <p>What would be the best next step in advancing the conversation to drive meaningful change for myself and others affected by these</p>	Leonard Fellez	Rural Areas	Written	11/18/2024

493	<p>Most Vashon Islanders would agree that no developers were attracted by proposals in the previous Town Plan that mandated 100% affordability in developments qualifying for density bonuses.</p> <p>Few Vashon Islanders would agree that going almost entirely the other direction---allowing as few as 10% of units to be affordable, and defining affordability as up to a range of 80% to 120% of the Area Median Income to qualify for incentives, and raising density to as many as 36 units/acre---is a reasonable alternative, given the broad middle ground of compromise that's available.</p> <p>Most Vashon Islanders would be surprised---and appalled--- to learn that, as has been recently revealed, building height limits inside the Vashon Rural Town boundary, but outside the Town core, are allowed to rise up to 60 and even 75 feet.</p> <p>Please read, when considering the above, King County's definition of Rural Area, and its promise to keep such areas rural in nature, as stated in the last Plan which you are now amending. Modest density for housing that's truly affordable to the workforce sector earning below 60% to 80% of the AMI, who keep the community going and who are most in need of options, may be appropriate for the Vashon Rural Town---one of only three in the County---in a Rural Area. Building height limits of the scale cited above and densities raised to 36 units per acre may be appropriate for an urban or urbanizing neighborhood. For Vashon, they are not.</p> <p>Regards,</p> <p>Richard Bard, Vashon rabard@comcast.net John Graffe, Vashon johng@jgkmw.com John E. Singer, Vashon johnsingervashon@gmail.com Carolyn J. 494	<p>Thank you for your time on developing the comprehensive plan and for acting on comments from the community. I am a Vashon resident and have attended both of Teresa's zoom meetings specifically for Vashon.</p> <p>I am writing to object to several areas of the plan. The first is the rezoning that is written as:</p> <p>Modifies the minimum percentage of affordable housing required to 7% for rental at 50% AMI, 10% for owner occupied at 80% AMI, and 10% for rental at 60% AMI,</p> <p>Vashon needs affordable housing at the 100% level. This phrase if I understand it correctly allows development density to increase yet only provide for 27% at the most affordable and the rest at market rate. This is unacceptable and will only contribute to the degradation of the rural community which is what we all want to preserve. This is catering to developers and not the public need.</p> <p>I am opposed to allowing ADUs over 1000 square feet for the same reason. Not only does that basically take a 5 acre parcel and reduce it to 2.5 acre parcel, again ruining the rural nature of our island. It doesn't take into account that our water supply is constrained and over rides our existing zoning which is there to support our natural resources.</p> <p>I am opposed to the change to allow " R-24 through R-48 zone with development conditions limited to SIC Industries 8063-Psychiatric Hospitals" since this is written to allow Thunderbird to expand beyond their current zoning despite the many many public comments you have received from islanders concerned about the impact this center will have on our island.</p>	Ann Thorn	Vashon	Written	11/18/2024
495	<p>Dear King County Council & Victoria.</p> <p>Thank you so much for bringing these issues to our attention. Unfortunately, VMIHA is not able to organize a board meeting with a quorum on such short notice. However, we will make this issue a priority subject for our next executive board meeting (which takes place next week), so that it can be brought to discussion at our next scheduled board meeting in January after which we will be happy to provide written comments to King County Council. VMIHA supports whatever the King County Council determines regarding the sign code exemption.</p> <p>All the best, Gretta</p>	Gretta Stimson	Signs	Written	11/18/2024

496	<p>Please DELETE the heritage trail signs exemption at striking amendment 21A.20.030 section I. Heritage trail signs located on Vashon-Maury Island.</p> <p>This striking amendment would remove the prohibition of those signs in the public right of way (21A.20.040 section D). This would be a safety hazard as well as detracting from the visual environment.</p> <p>Please do NOT exempt more signs. The previous exemption for historic site markers or plaques already allows for conveyance of information about our rich heritage without spoiling our current environment.</p> <p>Existing sign zoning standards in Title 21A were created to “enhance the visual environment of the county”. The existing exemptions allow for historic site markers or plaques - and this is sufficient, especially when combined with online resources, to convey all manner of information about our rich heritage without spoiling our current environment. We don’t need to allow construction of bigger signs on private property and public rights of way. The proposed new signs would create traffic and pedestrian hazards as well as visually blighting the environment.</p> <p>The Vashon-Maury Island Chamber of Commerce has rescinded their letter of support for the zoning change. The Vashon-Maury Island Heritage Museum has acknowledged they do not support the zoning change nor the proposed new signs. The Vashon-Maury Island Community Council motion supporting the zoning change was passed by a 29 to 13 vote which is not representative of the 11,000 people living on Vashon. I signed a petition along with 100’s of Vashon-Maury Island residents asking you to DELETE the heritage trail sign exemption in the new Comprehensive Plan.</p> <p>Sincerely, Robert Horsch, Vashon Island</p>	Robert Horsch	Signs	Written	11/18/2024

497	<p>I am writing to express my concern regarding the 2024 King County Comprehensive Plan, specifically Proposed Ordinance 2023-0440. My hope is that this letter will be read at the council meeting on November 19, 2024 and that the council will seriously consider my comments.</p> <p>My concern centers on Section 160, subsection B.7.a.(3).(c), found on page 240, line 5168 of the Striking Amendment to Proposed Ordinance 2023-0440, Version 2. The current plan proposes striking the section that states: >>> "On a site zoned RA, if one transferable development right is purchased from the Rural Area or Natural Resource Lands under K.C.C. chapter 21A.37, the accessory dwelling unit is permitted a maximum heated floor area of one thousand five hundred square feet and one thousand five-hundred square feet of unheated floor area."<<<</p> <p>This change significantly affects my family and other families who are trying to build Additional Dwelling Units (ADUs) to assist our aging parents. My wife and I have been pursuing our own home build for three years, diligently following the county steps for septic evaluation, winter water table studies, and Critical Area Designation evaluation. Additionally, we have collaborated with the county to create a Forest Management Plan to protect the forest on our property. We have worked closely with Nicholas Bratton at the King County Department of Natural Resources to pursue a Transfer of Development Rights from one of our parcels to another, which under the current legislation would allow us to build an ADU large enough for our parents to live in so that we can help care for them as they age.</p> <p>After diligently completing these steps, we recently submitted our septic and well applications. However, due to the timing of the Department of Health's approval process, it seems unlikely that we will receive approval in time to submit our home building permit before the year's end. This means that despite our considerable efforts and expenses, we will no longer be able to utilize the TDR program to build an appropriately-sized ADU for our parents. I understand that this proposal has been under consideration for nearly a year, but our process has been ongoing for three years now. I am concerned that the council may not be fully aware of how these proposed changes would disrupt the extensive efforts and time commitments that families like ours have already invested.</p> <p>Many families like ours have been pursuing similar dreams of building ADUs to care for our aging parents who are part of an aging King County population, an issue I am keenly aware of as a Family Physician serving the King County community. I respectfully plead that the council reconsider this specific change so that my family and other families in similar situations can continue with the processes we have been working on for years to achieve.</p>	D.S.	ADUs	Written	11/18/2024

498	<p>Please vote to DELETE the heritage trail signs exemption at 21A.20.030 section I. "Heritage trail signs located on Vashon-Maury Island."</p> <p>Because the exemption would give unfettered license to signs that will undermine the Island's rural character, blight its visual environment, and create unsafe conditions for pedestrian and vehicle traffic, please take time to read this comprehensive message.</p> <p>The proposed exemption lacks support; false information led to it being proposed; and, as a fiscally sponsored 501(C)(3) nonprofit organization, the heritage trail signs group should never have engaged in its substantial lobbying for the proposed sign code exemption legislation.</p> <p>THE APPEARANCE OF ISLAND SUPPORT FOR THE EXEMPTION IS DECEPTIVE, in fact:</p> <p>The Vashon-Maury Chamber of Commerce has not endorsed the sign code amendment or the heritage trails projects.</p> <p>The Vashon-Maury Island Heritage Museum has stated that "the board has not voted one way or another on an "endorsement" of the amendment. The Burton and Ellisport Trail Sign Projects are not projects of the Vashon Maury Island Heritage Association."</p> <p>The Vashon-Maury Island Community Council was duped into passing the resolution that prompted our King County Councilmember, Teresa Mosqueda, to include the sign code exemption in the Comprehensive Plan. Because the Community Council's 29 to 13 vote to pass the resolution was based on false and inadequate information, a motion to rescind the resolution will be presented at the next Community Council meeting. The vote was flawed because:</p> <ol style="list-style-type: none"> 1. We were told the Vashon-Maury Chamber of Commerce had issued a letter endorsing the proposed exemption, but it had not. Last week, the Chamber rescinded a letter written by a former staff member that falsely stated the Chamber endorsed the proposed sign code exemption. 2. We were falsely informed that the Burton and Ellisport communities welcomed the signs and had been notified about the project by a flier in every mailbox. Ellisport may have received fliers but canvassing established that Burton did not get fliers, was not informed, and does not want the heritage signs exempted. [Incidentally, conversations with four Ellisport residents, separately and randomly encountered, revealed that they, too, were unaware of the signs project. Another two were informed because each had an immediate 	Victoria Barr	Signs	Written	11/18/2024

499	<p>If the County allows development in sensitive areas, the impacts of such construction should be mitigated. I am requesting that King County stop allowing developers channeling drainage water onto my property located at 17817 SE Jones Road. These are my concerns:</p> <ol style="list-style-type: none"> 1.Uncontrolled, unmitigated, and unnatural drainage. The drainage water from the top of the hill is not a natural salmon bearing waterway. The course has been artificially altered as indicated by County maps. See Project #3-46532 (4-2147). 2.Destruction of salmon and fish habitat in a natural creek below in the valley. Drainage and garbage are flowing into a natural salmon bearing creek that empties into the Cedar River and runs all year round. The increased debris and toxins are not natural but fill materials and other signs of construction. They are destructive to the habitat. 3.Flooding. Waters flood properties and the road with attendant rocks, debris, and garbage which is deposited on my property, endangering my home as well as downstream neighbors. See attached picture of flooding. 4.Clogged Culvert - The County employees have regularly cleared the culvert of material clogging the pipe. As recently as November 2020, the road crew cleared the almost totally obstructed pipe to approximately 8 inches below it. This year, the crew cleared an almost totally full pipe. 5.Landslides. Destabilization of the hillside above my home promoting potential landslides. The Washington Department of Natural Resources (DNR) developed a map through the Geologic Information Portal that gives residents an idea of which areas around the state could be susceptible to landslides. See https://geologyportal.dnr.wa.gov/2d-view#natural_hazards?-13593289,-13592038,6017583,6019904?Landslides,Post-2017_Landslide_Inventory,Scarps,Scarps_and_Flanks,Landslide_Deposits,Fans,Streamlined_Landslide_Inventory_Protocol-Fans,Streamlined_Landslide_Inventory_Protocol-Landslides,Deep_Susceptibility,Shallow_Susceptibility,Study_Areas,Areas_Not_Analyzed,Landslide_Compilation,1:24,000-scale_Landslides_from_Geologic_Mapping,1:100,000-scale_Landslides_from_Geologic_Mapping,Miscellaneous_Landslides,Watershed_Analysis_Landslides,Reconnaissance-level_Landslide_Mapping,Salish_Sea_Landforms,1:24,000-scale_and_Watershed_Analysis_Study_Extents 6.The County has agreed that the slopes above my property are classified as landslide hazard areas. Considering the dangers from landslides which are common along Jones Road, why does the County continue to allow construction into the hillside and on the edge of the hill overlooking the valley? 7.Potential legal issues that upstream polluters should release drainage water, rocks, garbage and sewage on downstream residents. 500	<p>Here's a comprehensive summary of why accessory dwelling units (ADUs) are widely regarded as a solution to the housing crisis, supported by multiple sources:</p> <p>Key Benefits of ADUs as a Housing Solution:</p> <p>1. Efficient Use of Existing Space: oADUs utilize underused land in single-family neighborhoods, such as garages, basements, or backyards, to increase housing density without significant neighborhood disruption. They are ideal for cities with strict zoning laws or limited space for new development</p> <p>2. Affordability: oADUs provide cost-effective housing solutions by offering smaller, energy-efficient units that are cheaper to build and maintain compared to traditional homes. This affordability benefits renters, low-income residents, and first-time homebuyers</p> <p>.</p> <p>3. Flexibility: oADUs accommodate diverse living arrangements, including multigenerational housing, aging-in-place options for seniors, and transitional housing for young adults or those in need of affordable rents. Cities like Los Angeles have used ADUs to meet various housing needs</p> <p>.</p> <p>4. Increased Supply Without Urban Sprawl: oBy integrating into existing neighborhoods, ADUs can help alleviate housing shortages without requiring large-scale developments, preserving the character of communities while addressing population growth</p> <p>.</p> <p>5. Policy and Incentive Programs: oLocal and state governments are actively promoting ADUs through streamlined permitting, financial incentives, and grant programs. For example, California has seen a surge in ADU construction due to regulatory reforms</p> <p>.</p> <p>6. Economic Opportunities for Homeowners: oHomeowners benefit financially by renting out ADUs, creating supplemental income streams and improving housing access simultaneously. This dual benefit supports both individual and societal economic goals</p> <p>.</p> <p>Supporting Case Studies and Examples: •California's Success: Statewide legislation eased restrictions, leading to tens of thousands of new ADUs. Los Angeles incentivized</p>	GoodNeighborVashon	ADUs	Written	11/18/2024
501	<p>I've lived on Vashon since 2014. Changing zoning on vashon to allow more large development is NOT the answer for our community. Preserving the rural heritage of Vashon for all of King County to enjoy is the answer. Limiting nightly rentals will improve access to affordable housing on the island. Please do not approve zoning changes on vashon that allow more density. Rebecca</p>	Rebecca Kloberdanz	Vashon	Written	11/19/2024
502	<p>Pramila Jayapal has said that the allocation raised for SIHB is for Native Americans and Alaskan Natives. SIHB has said that they are pre-buying beds so they can control who goes in them. If addiction patients are coming from other states, that means beds for King County or even Washington State will not be increased by 62%.</p>	GoodNeighborVashon	Seattle Indian Health Board	Written	11/19/2024

503	<p>In extensive review of critical areas guidance and specific to critical aquifer recharge areas (CARAs) and associated policies these are insufficient to protect both surface and groundwaters of the county and beyond in violation of the GMA. These policies and the mapping and underlying methods determine what uses may be allowed on a given property or not and also the conditions and limitations in other cases where considerable expense and matters of equity and justice, such as in requirements for on site septic systems (OSS) for properties within CARAs (and the impact of these requirements is an additional reason to not adopt the Comprehensive Plan as stated). OSS are further part of some new development helping the county and cities to achieve its growth and housing goals; existing OSS no doubt sustain properties and housing and commercial enterprises with them; keeping these affordable aids in housing affordability, reduced cost of living, and is further a social justice issue given OSS are concentrated in less affluent areas and may have resulted from past racial injustice (see 4). If a property is not within a CARA it is not subject to certain limitations; if it is it is subject to limitations or conditions of use. Unfortunately the 2024 BAS review (see 1) has incorrectly concluded no update to mapping is needed. Land use and other policies and other regulations need update to permit use of the superior available science, methods, and adaptive management where it is available versus the proposed 2024 approach to support the goals regarding social justice and equity, environmental protection, housing affordability, economic growth and sustaining existing economies, and health especially where OSS affected.</p> <p>Michael Thomas North Bend WA</p> <p>The following are noted:</p> <ul style="list-style-type: none"> - The critical aquifer recharge area maps are considerably out of date and not updated in tandem with adoption of the 2024 Comprehensive Plan. It is clear these maps do not incorporate fundamental changes such as updates to wellhead protection areas, wells added, wells moved since last update to the plan. The shapes of the areas in the map do not correspond to these areas. This is important in that wellhead protection areas form the basis of CARAs; when those CARAs are not correct the underlying restrictions on land use meant to protect ground or surface water associated with being in a CARA may not be applied. There are considerable additional items such as hazardous waste spill management depending on the land use that can be impacted. - One of the key methods by which a wellhead protection area is defined is known to underprotect or overprotect. From a 2019 presentation made by Washington State Department of Health Office of Drinking Water "WHPAs created with the 	Michael Thomas	Septic	Written	11/19/2024
504	<p>Good morning. I am in support of zoning that will enable a small neighborhood market to inhabit the former Vashon-Maury Grange Hall on the north end of Vashon Island. I am one of multiple households on the northend who desire to have access to basic goods in an otherwise food desert. As a commuter of 23 years, I am also eager for the opportunity to grab a cup of island brewed coffee to fuel my and many others' daily journey into the city.</p> <p>The former Grange hall was abandoned by the fraternal organization who previously inhabited it since the early 1970's. In the last decade, the hall has fallen into serious disrepair and had become a blight on the neighborhood.</p> <p>Repurposing this building as a cozy grocery store and coffee shop is the best and highest use for this once-beloved structure. The zoning change being sought is the epitome of adaptive reuse, which is the sustainable idea that old buildings can and should be renovated rather than demolished once they've outlived their original purpose.</p>	Jennifer Potter	Grange Hall	Written	11/19/2024

506	<p>My name is Carolyn Boatsman. I am a resident of Mercer Island where I serve as a Volunteer Forest Steward. I wish to bring to your attention a policy that is contradictory to the County's commitment to biodiversity. It also contradicts other policies and the best available science report. The policy is this: developing a list of plants that will be termed "climate smart", inaccurately defining these plants as native plants; and providing incentives to landowners to obtain and install these plants. The text and policy are in Environment, part III.C.4 under Invasive Species and Noxious Weeds. I am opposed to County incentives to access non-native plants for land restoration. I am opposed to the obfuscation of the definition of a native plant by the County, to whom many look for leadership on this topic. The County should continue to foster biodiversity in urban, suburban, and rural areas, where valuable ecosystems exist inhabited by human beings who need nature. Native plants are the foundation of the food web. Local insects, with few exceptions, will only lay their eggs on native plants. Birds, with few exceptions, only feed their young larvae developing from those eggs. No native plants? Nests fail and bird populations continue their decline. (And that's just birds. Bats, fish, amphibians, small mammals, and more depend on insects.) The proponents seem to have forgotten about the ecological science of plant-host specificity. Even the Best Available Science report does not discuss it. The text turns the definition of a native plant on its head, by stating that "climate smart plants" are native plants because they are native someplace else. The definition further states that some of the plants are native because they used to grow here - 2.6 million years ago. Suffice it to say, this does not match accepted definitions of native plants, including those offered by federal and state land agencies. I recommend that the County remove the "climate smart plants" approach from the Comp Plan, provide public information on how to plant the right plant in the right place, and follow best available science regarding climate stress on ecosystems. The food web should not be sacrificed in the pursuit of policies to respond to climate change. Thank you.</p>	Carolyn Boatsman	Climate Smart Plants	Written	11/19/2024

507	<p>As a long-time resident of Vashon Island who is deeply invested in environmental protection, climate action, preservation of rural character, and establishing a strong foundation to address critical housing and support service needs within our community, I am writing to express my strong support for the current version of the update to the King County Comprehensive Plan.</p> <p>I also want to express my appreciation for the tireless work and leadership the Council has demonstrated throughout this long and challenging effort, with special gratitude to Councilmember Mosqueda. Navigating the complexities of community needs on Vashon is no small feat, and the commitment to finding solutions deserves recognition.</p> <p>This comprehensive plan update represents a significant step forward in ensuring that Vashon Island remains a thriving and supportive environment for all residents. I urge the council to move forward with the passage of this legislation. Adopting these critical updates reflects an understanding of the challenges we face and a commitment to the well-being of our community.</p> <p>Thank you for your continued dedication to making Vashon Island resilient and vibrant.</p>	Amy Carey	Vashon	Written	11/19/2024
508	<p>Maintain Agriculture Land Use Designation</p> <p>As homeowners on Green Valley Road for over 25 years, we strongly oppose King County Comprehensive Plan Proposed ordinance 2023-0440 in the rezoning of parcels on Green Valley Road currently zoned as Agricultural to a designation of Open Space. This is an agricultural community, and the potential use of any of these parcels for recreational use would be a major disruption to homeowners in this community. Residents chose these properties based on the quiet, family-and nature-oriented environment. Green Valley Road is narrow with many winding curves, and traffic has already been negatively impacted by the increased volume with development of nearby communities like Ten Trails. Individuals regularly speed through the neighborhood with zero regard for speed limits or noise ordinances. Trying to enter and exit a driveway becomes more hazardous every day. Adding recreational areas would just increase this problem.</p> <p>The current open area next to the Coates Tree Farm is becoming more and more of a traffic hazard. It's on a 25 mph curve and people are parking in very dangerous positions - partially blocking the road in order to park, standing in the road to unload passengers and fishing equipment - all for the open access to go fishing.</p> <p>The current homeless crisis has led to many people searching for a place to create a makeshift home space with access to water and room to park a temporary-lodging vehicle or set up a tent. We can already see major problems with trash accumulation at the Green River access point at the corner of Auburn-Black Diamond Road and SE Green Valley Road. Desperate conditions may lead some of these folks to go searching nearby for something they could sell or trade to support their survival. Certainly we need real solutions to the crisis, but in the interim we need to consider that open recreational spaces in residential communities may just compound these problems.</p> <p>It may be in the best public interest to sell certain county-owned parcels to help fund maintenance needs of existing public access recreational areas.</p> <p>In the interest of neighboring properties in the community, we oppose changing the land use designation/zoning classification of these Green Valley Road parcels identified in proposed ordinance 2023-0440 from Agriculture to King County Open Space System.</p>	Pat and Shannon Pinatiello	Agriculture	Written	11/19/2024

509	<p>Dear Coucilmembers and Executive -</p> <p>We have more than enough signatures to prove that the MAJORITY of Vashon Islanders do not want the island Urbanized as you are proposing.</p> <p>Using Cochran's Formula we need approximately 371 signatures from a population of 11,000 to estimate majority support with 95% confidence and a 5% margin of error. Subtracting the out of state signatures...</p> <p>We have, as of this moment, 397 signatures and they are still coming in!!!</p> <p>We have more than enough signatures to prove that the MAJORITY of the Vashon community does NOT want the new zoning you are proposing.</p> <p>(Cochran's formula is widely used in surveys, polling, and petitions to ensure the results are statistically representative of the larger population.)</p> <p>Please listen to the people of this community and do not pass this zoning as it is written now. There are other solutions for low income housing that make more sense - like ADUs.</p> <p>On behalf of hundreds of islanders, please listen to the people. Vote NO.</p>	GoodNeighborVashon	Vashon	Written	11/19/2024
510	<p>My name is Whitney Nakamura and I am writing to give the statement on behalf of the Equity Workgroup (EWG) who have been working with KC Planning staff over the past two years on the Comp Plan Update.</p> <p>The Workgroup enthusiastically supports this Striker except for the affordability thresholds related to Density Bonuses and Inclusionary Zoning. We support the Council's proposed increases in density bonuses, but we encourage you to maintain the Exec's proposed affordability thresholds. We caution the Council on your proposed removal of Equity Impact Reviews for Council initiated upzones. Your well-intentioned efforts to incentivize participation by the market may result in unintended consequences.</p> <p>We support the proposed Workplans on MFTE and other issues. We request that adequate funding to the planning department is made to ensure that the process and outcomes will be implemented thoroughly and equitably with continued participation from engaged communities.</p> <p>The EWG thanks the Council for maintaining our priorities in your review. Specifically, we appreciate putting equity front and center in this Update. We welcome the acknowledgement of past marginalization of our communities in the Plan with clear policies to correct this. We strongly support prioritizing the unincorporated urban areas for new and ongoing public planning and investment. We wholeheartedly support the clear focus on increasing the supply of affordable housing but doing so within the context of being accountable for impacts of displacement of residents, local businesses and community and cultural anchors. Thank you for addressing the critical need to increase the supply of childcare facilities in our communities.</p> <p>This updated Comp Plan is historic not only in how race and social equity is explicitly acknowledged and analyzed within the body of the document but more importantly a web of equitable, community-driven policy changes embedded in detail from listening and accepting by KC staff. We are grateful for the leadership of the Executive, your support, and the tireless and genuinely committed efforts of all levels of staff.</p>	Whitney Nakamura	Inclusionary Housing	Written	11/19/2024
