Classification Summary

The Supervising Auditor is distinct from the Auditor classification series. The Supervising Auditor could be a single incumbent or dual incumbent role, depending on operational needs. Staff in this role supervise the conduct of objective, independent audits, and other activities in accordance with Generally Accepted Government Auditing Standards.

Distinguishing Features of the Position

The Supervising Auditor supervises one to three audit and/or capital oversight projects simultaneously. The Supervising Auditor leads teams in the Auditor 1–5 series and/or Capital Projects Analyst 1–2 series in conducting complex audit and oversight work, manages project staff performance, and maximizes project impact. In some cases, the Supervising Auditor may also be assigned to conduct audit or oversight work. The Supervising Auditor is expected to participate in officewide work efforts and must be able to balance and deliver high-profile, competing priorities and a high workload with very little need for oversight by an Audit Director or the County Auditor. This is a salaried, at-will, overtime-exempt position that reports to the County Auditor.
