Collateral Goals for Dr. Vinson's visit to Seattle

- Learn about / connect to data project with Harvard
- Identify opportunities to incorporate social justice expectations in MIDD 3
- Dr. Vinson is board certified in forensic psychiatry, extensive expertise with diversion from criminal-legal settings to BH specialty settings. Potential to learn about equity issues in law enforcement diversion.
- Dr. Vinson is also child-adolescent psychiatrist so could speak specifically to youth diversion, perhaps even could connect with Care and Closure?
