

SEATTLE PUBLIC SCHOOLS' INTERAGENCY RECOVERY CAMPUS

WASHINGTON'S ONLY SOBER PUBLIC HIGH SCHOOL

“*The Interagency Recovery Campus gave me a place to fit in and find comfort in a sober lifestyle that not many people my age were doing. It gave me an environment where my ideas were valued, and my problems met with solutions rather than dismissal.*”

Academic Support

- ▶ A combination of classroom instruction and online learning
- ▶ Small class sizes
- ▶ Credit Retrieval
- ▶ Running Start opportunities and job readiness assistance

Recovery Support

1. Individualized recovery plans
2. On-site substance use counseling and sober support groups
3. Positive pro-social recovery community
4. Referrals to external substance use and mental health resources

Approach

The Interagency Recovery Campus is for high school students in grades 9–12 who are actively working toward their academic, career, and recovery goals. Within a student-centered environment, the program promotes the Four Dimensions of Recovery: Health, Home, Purpose, and Community.

Daily recovery groups build shared accountability among students who support each other as they progress through key milestones of sobriety. As a campus under the umbrella of Interagency Academy, the program has access to a school nurse and special education services, as more than one-third of students qualify for disability accommodations. The program partners with community organizations that provide additional resources to students and families during and after the school day.

Recovery Campus Enrollment Process

- ▶ Year-round enrollment open to students in grades 9–12.
- ▶ Voluntary program for students whose goal is to maintain sobriety.
- ▶ Prospective students meet with the substance use counselor where they may ask questions and discuss how the program might meet their needs.

What It's Like Being a Recovery Campus Student

Being in recovery means that students are building sober lifestyles in and out of school by cultivating connections with peers, engaging in fun prosocial activities, and being a presence in the recovery community. **More than half (53%) of Recovery Campus students have more than one year of recovery following initial enrollment.**
