

CORE Data Dictionary for DDECS Adult Services Providers

King County's Department of Community and Human Services (DCHS) uses the Client Outcomes Reporting Engine (CORE) as a way for providers to submit data about the individuals they serve to DCHS. In CORE, data for the Developmental Disabilities and Early Childhood Supports (DDECS) Division Adult Services and School-to-Work providers is reported monthly on **reporting spreadsheets** downloaded from the CORE web portal (<https://core.kingcounty.gov>). This data dictionary document does the following:

- Includes the data elements that providers will need to collect for monthly reporting and billing submitted via **reporting spreadsheets** in CORE.
- Defines each data element and their response options for CORE.
- Indicates which data elements are pre-filled in **reporting spreadsheets** and which data elements need to be reported by providers.

Please note, CORE continues to be tested and improved and while we will work to limit changes, **all data elements and response options listed here are subject to change.**

The following sections list and define the data elements required for each program **as of January 2026 reporting (submitted in February 2026)**. Data elements are listed in the order they will appear in the reporting spreadsheet used for submissions.

Contents

School-to-Work.....	3

Appendix C –School District List.....	49
Appendix D –Job Type List.....	50
Appendix E –Job Loss Reason List.....	51
Appendix F –Service Termination Reason List.....	52

School-to-Work

The following data elements will be included on the individual-level reporting spreadsheets for School-to-Work in CORE. Some of the data elements included on the spreadsheet will automatically populate via information contained in CORE and added by DDECS Program Managers. Data that is pre-populated on reporting spreadsheets and does not need to be reported by providers is highlighted in grey below and indicated in the “reported by” column.

***IMPORTANT NOTE:** For S2W only, if you do not see a student on the reporting spreadsheet that you expect to be there, call your DDECS Program Manager to discuss. Unlike other programs, you cannot add students to a reporting spreadsheet for S2W.

	Disability Detail	Optional open text box	Provider

Individual Employment

The following data elements will be included on the individual-level reporting spreadsheets for Individual Employment in CORE. For individuals that have an active County Service Authorization (CSA) at the time you download your reporting spreadsheet, some of the data elements included on the spreadsheet will automatically populate via information contained in CORE (i.e., DDCCS authorization information and some demographic details). Data that *can* be pre-populated on reporting spreadsheets is highlighted in grey below and indicated in the “reported by” column.

Note that for individuals that do not have an active CSA and for individuals you may be manually adding to the reporting spreadsheet, there are some fields highlighted in grey below that are *required* fields for CORE to accept the submission (acuity, race/ethnicity fields, preferred language, city, and zip code). When/if individuals you add to the spreadsheet become authorized by DDCCS, the demographic information you submitted previously will be replaced in the system by data from DDCCS.

Group Supported Employment

The following data elements will be included on the individual-level reporting spreadsheets for Group Supported Employment in CORE. For individuals that have an active County Service Authorization (CSA) at the time you download your reporting spreadsheet, some of the data elements included on the spreadsheet will automatically populate via information contained in CORE (i.e., DDCS authorization information and some demographic details). Data that *can* be pre-populated on reporting spreadsheets is highlighted in grey below and indicated in the “reported by” column.

Note that for individuals that do not have an active CSA and for individuals you may be manually adding to the reporting spreadsheet, there are some fields highlighted in grey below that are *required* fields for CORE to accept the submission (acuity, race/ethnicity fields, preferred language, city, and zip code). When/if individuals you add to the spreadsheet become authorized by DDCS, the demographic information you submitted previously will be replaced in the system by data from DDCS.

JT 20 - Wholesale/Retail Trade Occupations

JT 21 - Other Occupations

Appendix E –Job Loss Reason List

List options for job type within CORE:

- Attendance issues
- Career advancement
- Dissatisfied with job
- Economic reasons
- Health-related reasons
- Inappropriate social behavior
- Mental health reasons
- Moved
- New job
- Potential loss of benefits
- Retirement
- Scheduling issues
- Temporary or seasonal employment
- Transportation issues
- Unlawful behavior
- Work performance issues
- Other

Appendix F –Service Termination Reason List

List options for service termination reason within CORE:

- Client changed providers
- Client independent at work/activity and no longer needs services
- Provider not currently able to meet client's support needs
- Client no longer eligible for services
- Client no longer wants or is engaging in services
- Client retired**
- Client dissatisfied with services
- Guardian choice to end services
- Client moved out of the county or state
- Client passed away
- Client went into hospital/nursing facility
- Client is incarcerated
- Health reasons
- County Service Authorization opened in error
- Other
- Completed program*
- Exited school*

*Note that “Completed program” and “Exited school” are intended to be S2W reasons only, though ITA providers may find “Completed program” to be useful as well. Providers do not need to report service termination reasons for S2W students in CORE; that is done by DDECS program managers, though they also use this same list.

** Note that “Client retired” is intended for IE and GSE only

Developmental Disabilities & Early Childhood Supports Division
Department of Community & Human Services

Appendix G – Preferred Language List

List options for Preferred Language within CORE:

- American Sign Language
- Amharic
- Arabic
- Chinese-Cantonese
- Chinese-Mandarin
- Dari
- English
- Japanese
- Khmer
- Korean
- Marshallese
- Punjabi
- Russian
- Somali
- Spanish
- Tigrinya
- Ukrainian
- Vietnamese
- Other (specify Language Detail)
- Prefer not to say
- Unknown
