

Internships

Most internships open seasonally. Listed contacts can provide details about unfilled positions.

Agency: Department of Assessments	Contact: jonathan.larson@kingcounty.gov
Description: These paid graduate-level internships are for students in UW's Evans School of Public Administration. Contribute to research, documentation and policy development - assessing the volatile housing market. Activities include researching the areas of tax policy and government services, housing, economy, and assessment practices.	
Agency: Department of Community and Human Services	Contact: Susan.Churchill@kingcounty.gov
Description: We offer paid undergraduate administrative student internship opportunities both over the Summer and the school year. DCHS offers a variety of learning opportunities across our divisions working in Human Services settings. Interns contribute to our mission to "providing equitable opportunities for people to be healthy, happy, and connected to community" by serving King County's richly diverse population of more than two million residents; a community that includes dense urban areas and rural, unincorporated parts of King County. You can find these opportunities posted on the King County Jobs page as they become available.	
Agency: Department of Natural Resources and Parks	Contact: ccalimpong@kingcounty.gov
Description: These one-year, paid AmeriCorps WCC internships include participating in stream, wetland and riverine enhancement projects. WCC AmeriCorps members work out of Renton and participate in a variety of projects throughout the county. One or two of the AmeriCorps members will work out of downtown Seattle and perform project planning and logistical coordination, and provide support to staff. Accepting one of these positions confirms a one-year commitment to AmeriCorps service.	
Agency: Department of Natural Resources and Parks	Contact: wtdhr@kingcounty.gov
Description: These paid internships offer current college students opportunities to gain valuable, hands-on experience contributing to improvement projects. Interns actively contribute to public health and environmental conservation efforts while learning valuable skills in fields of interest..	
Agency: Department of Natural Resources and Parks	Contact: sarbab@kingcounty.gov
Description: The King County Parks Youth Conservation Corps (YCC) is a paid internship opportunity for high school students interested in learning about careers in Parks and the greater environmental field. Interns work for six summer weeks with King County Parks staff at multiple Parks locations to better understand the breadth and depth of environmental justice, conservation, and land management practices. The program provides growth and learning opportunities, fosters positive work relationships, and supports youth in experiencing the work life environment. Applications typically open in mid-February. To learn more or apply, please visit http://www.kcpyouthcorps.org .	
Agency: Department of Natural Resources and Parks	Contact: andysmith@kingcounty.gov
Description: These paid internships offer current students opportunities to gain valuable, hands-on experience contributing efforts towards improving our communities and environment through innovating and developing recycling and sustainability programs. Interns not only learn valuable skills and gain experience in the field of interest but actively and positively contribute to the improvement of our environment.	
Agency: Department of Natural Resources and Parks	Contact: sdubiel@kingcounty.gov
Description: The Community Outreach Internship offers full-time summer positions and year-long part-time positions for registered college students. This is a wonderful opportunity to delve into public service work around community engagement, land management, conservation, and outdoor recreation. Interns spend a significant time working outside in the parks as welcoming ambassadors of the King County Parks' Mobile Engagement Team providing park visitors and event goers with guidance, information, and serving as a public input resource. All internship positions require a valid driver's license.	
Agency: Department of Natural Resources and Parks	Contact: hr.wlrd@kingcounty.gov
Description: The internship program offered by the Water and Land Resources Division within King County's Department of Natural Resources and Parks is designed to provide students with valuable and hands-on work	

opportunities across a range of disciplines, such as science, engineering, policymaking, ecology, finance, project management, and communication. By igniting an interest in WLRD's impactful work early on, we hope to inspire students to pursue higher education in fields aligned with our focus areas. Applications typically open in mid-February through April.

Agency: [Prosecuting Attorney's Office](#)

Contact: KVargas@kingcounty.gov

Description: We offer paid undergraduate administrative student internship opportunities both over the Summer and the school year. The PAO offers a variety of learning opportunities across our divisions to gain experience working in a public law setting. Interns contribute to our mission to "do Justice" by serving a diverse population of more than two million King County residents; a community that includes dense urban areas and rural, unincorporated parts of King County. You can find these opportunities on the King County Jobs page.

Agency: [Sheriff's Office](#)

Contact: Julie.Kyle@kingcounty.gov

Description: These unpaid internships meet college credit eligibility requirements for current college students interested either in pursuing a criminal justice career or in expanding their overall skillset to build a stronger resume. Multiple internships are available across various units, and take place primarily in office settings, but can include ride-alongs, training exercises and job shadowing.

Agency: [METRO](#)

Contact: alnguyen@kingcounty.gov

Description: This 8 week paid undergraduate internship with the Metro Transit Department: Marine Division and Mobility Division Collaboration, will allow the student to focus on learning marketing strategies and increasing water taxi ridership through social media tracking and daily outreach. Activities include planning daily routes to touch base with information centers, researching online feedback, and identifying opportunities to improve service and improve our online presence. The student will also provide outreach to Seattle waterfront businesses. Students will educate the public about sustainable transportation options including the Water Taxi, Metro Flex, and Free Youth Transit Pass. The Water Taxi provides high quality service on two routes from the Seattle Waterfront, one to West Seattle and one to Vashon Island, and will be adding midday service to Vashon Island this summer. Metro Flex is an on-demand app based neighborhood transit service that provides rides within multiple King County neighborhoods. Free Youth Transit Pass allows youth 18 and younger to ride transit for free. For more information please visit this site: <https://kingcounty.gov/en/dept/metro/about/careers/internships>

Agency: [METRO](#)

Contact: aalcaraz@kingcounty.gov
