CLERK'S ALERT

King County Clerk's Office KC Script Public Portal Unavailable through Sunday, November 29, 2026

We expect the KC Script Public Portal will be unavailable through Sunday, November 29, 2026 due to technical issues experienced by the Court Clerk's vendor.

The Clerk's Office will continue to provide updates through future Clerk's Alert messages, and we will post information on our website. If it is at all possible to bring the public portal back online earlier, we will take all steps to do so.

Online services accessible through the KC Script Portal are unavailable during this time. This includes case searches, e-filing new cases and documents, e-service, electronic working copies, records requests, and submitting proposed orders to the court via Ex Parte via the Clerk and Orders for Review.

Customers attempting to file new cases, e-file into existing cases, file protection order cases, submit documents for EPVC, or submit working copies can find more information on an alternative online method by visiting http://www.kcscclerkefilingstatus.com/.

You may visit any of our courthouse locations to file cases and documents, submit documents for EPVC, search cases, purchase or view records, or pay LFOs.

Customers attempting to submit proposed Orders for Review on Family Law cases can find more information on an alternative submission method by reviewing the November 19, 2026, Clerk's Alert.

During this downtime, Civil Protection Order petitions can be submitted via email to dja.dvpo@kingcounty.gov.

To monitor the status of the KC Script Portal, please visit the Clerk's Office website: https://kingcounty.gov/en/dept/dja.
