Regional Wastewater Services Plan Update

MWPAAC General Meeting

King County

Department of
Natural Resources and Parks

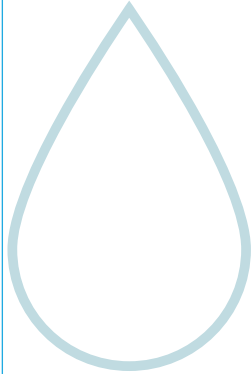

Wastewater Treatment Division

Agenda

- Overview and draft schedule
- Policy updates
- MWPAAC role

Once the effort is complete, we will have

Updated RWSP policies in King County Code for the regional wastewater system

Policies, plans, and documents that meet state requirements for Ecology approval of General Sewer Plan update

Major work components for completing effort

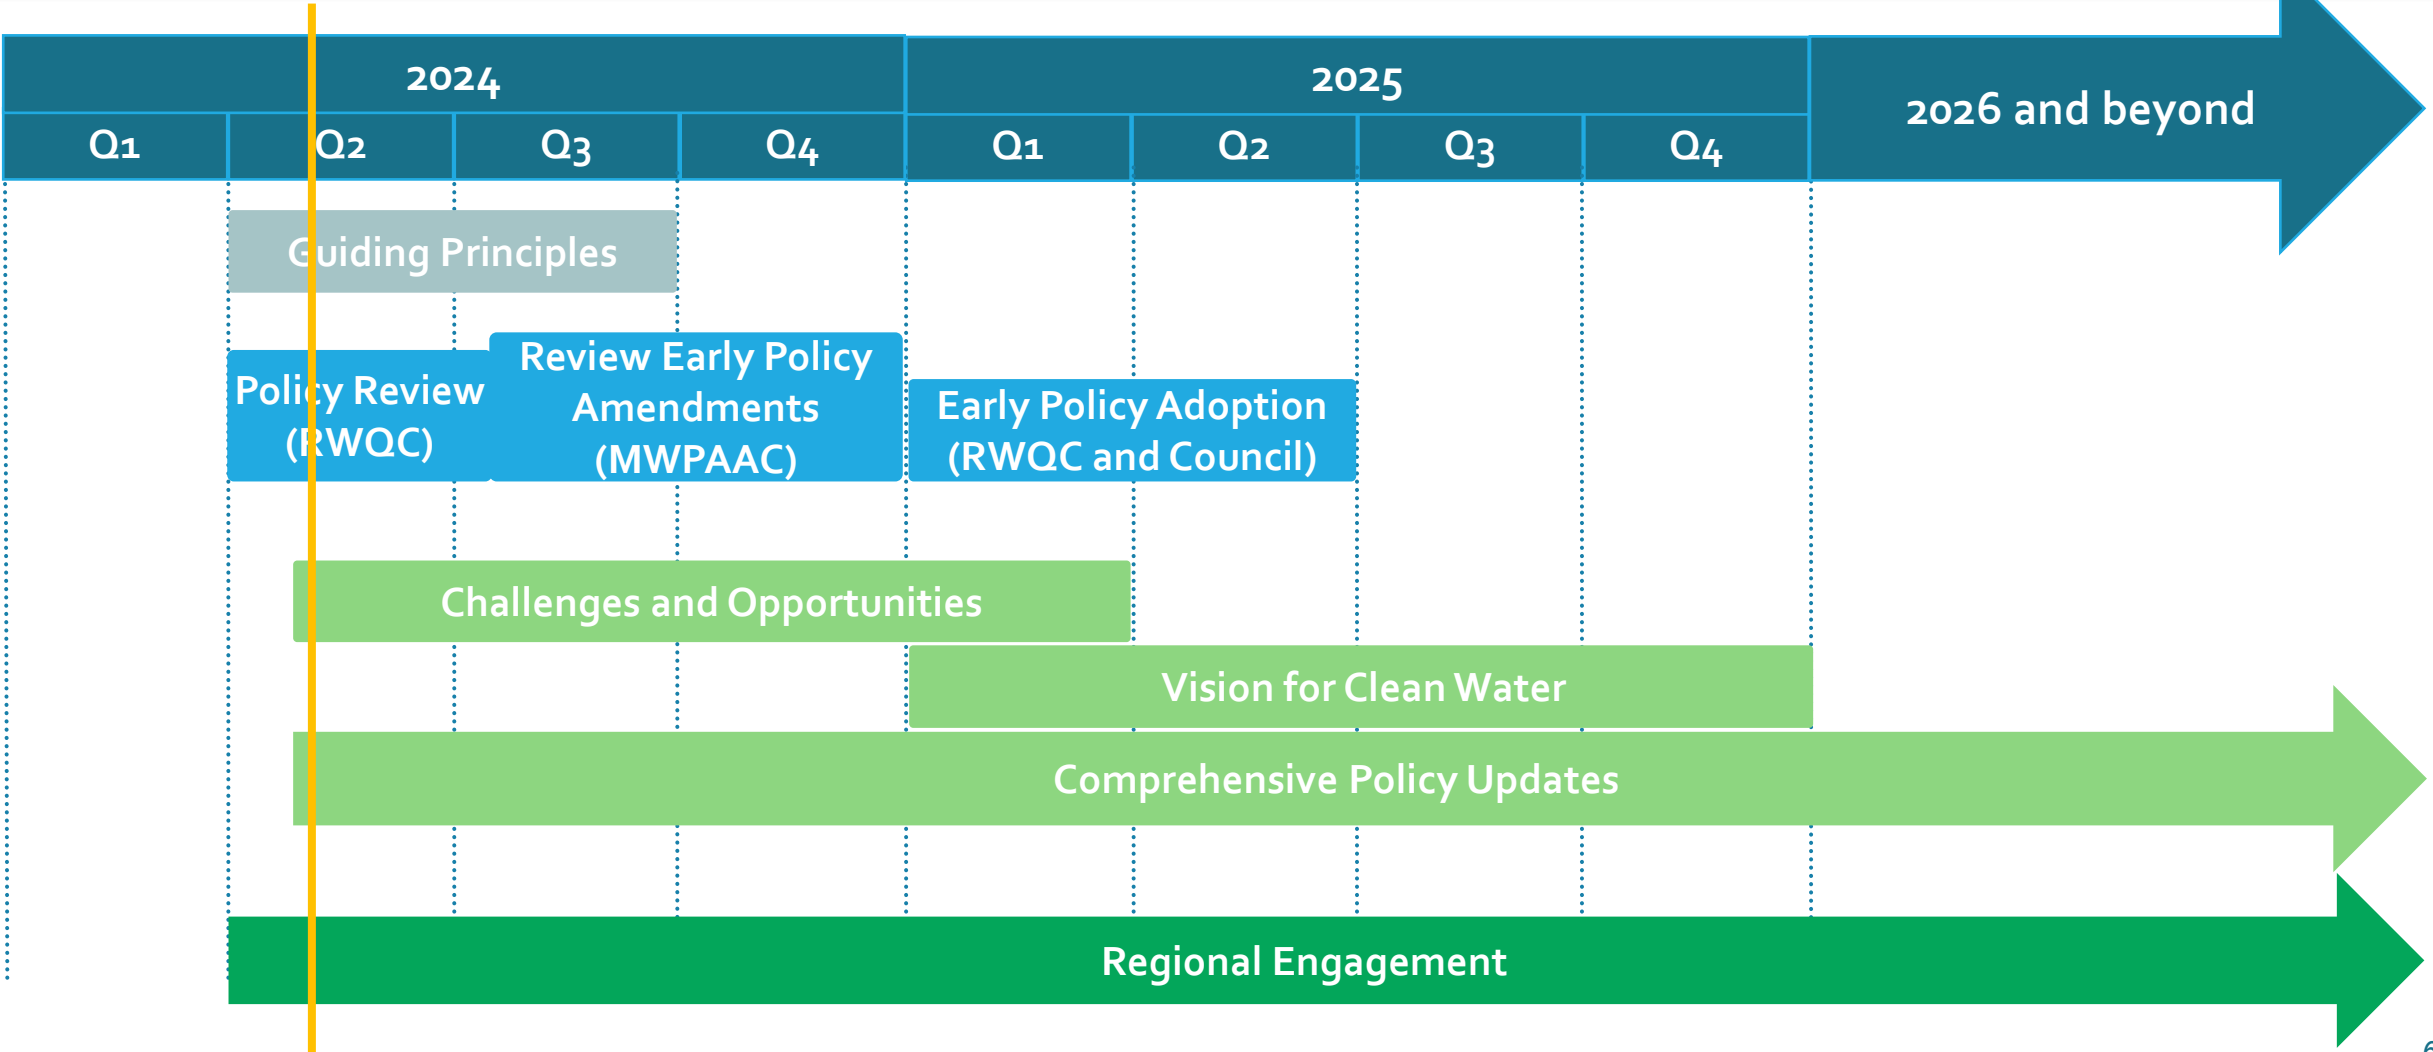

- Obtain ongoing input and feedback from NGOs, tribes, regulators and community
- Early technical code changes
- Later comprehensive update of policies
 - Define a long-term vision for clean water
 - Identify challenges and opportunities
 - Conduct comprehensive planning analysis
 - Develop King County Council planning documents for approval
 - Conduct environmental review (SEPA)
- Submit General Sewer plan amendment to Ecology for approval

Roles and Responsibilities for this effort

- RWQC and King County Council
 - Provide input to vision, policy development, and planning analysis
 - Approve updated policies
- MWPAAC
 - Provide input to vision
 - Provide technical input during planning analysis
 - Provide feedback on draft policy updates
- Executive
 - Recommend vision and policy updates
- WTD
 - Lead effort, coordinate all parties, prepare documentation

Draft Schedule

We Are Here

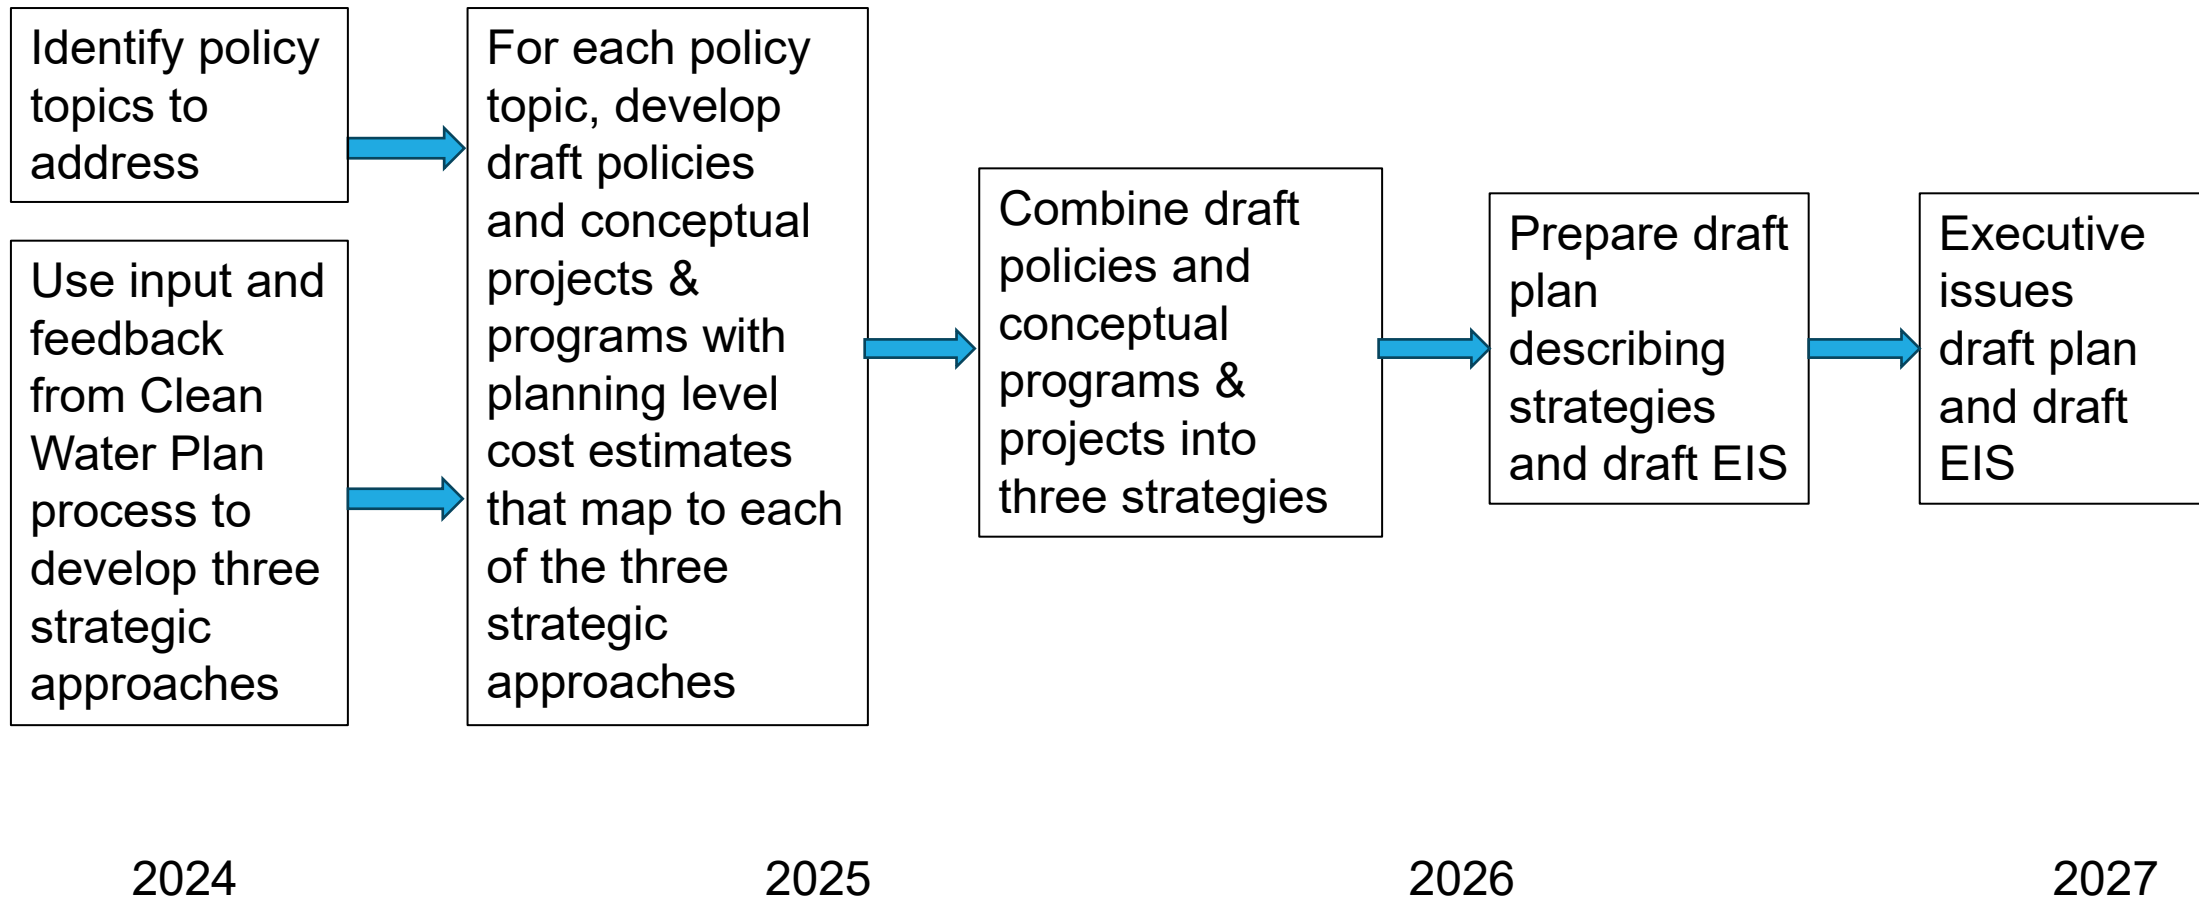

Early Technical Code Changes – Draft Schedule

- WTD will identify policies that are outdated or incorrect that could be changed without extensive analysis and share the list with RWQC in July
- WTD will share draft edits to MWPAAC in August for review and feedback
- Executive will transfer proposed fixes to KC Council by end of 2024

Comprehensive Policy Analysis – Draft Workflow

RWQC Policy Topic Briefing Schedule

Month	Chapter	Topic
June and July	28.86.050	Treatment plant
July and September	28.86.060 28.86.070	Conveyance Infiltration/Inflow
September and October	28.86.080	Combined sewer overflow control ^a
October and November	28.86.090 28.86.100	Biosolids Water reuse

^a The timing of the briefing on combined sewer overflow control will depend on the status of the negotiations to modify the CSO consent decree and may be moved up or back as necessary

MWPAAC Role in 2024

- Guiding principles
- Policy topic discussion
- Review of early policy technical fixes
