Policy Analysis #1 (March 2026)

- How should I/I be managed and how can costs be fairly apportioned?
- Should system capacity be expanded to account for increases in I/I?
- Should I/I policies change to support reducing the capacity needed for I/I?
- *Is there a better rate structure for the sewer rate?*
- *Will WTD maintain a single uniform sewer rate per residential customer equivalent (Robinswood “one for all, all for one”), or consider alternative cost recovery rate structures to reflect other system impacts?*
