*Closed on Thanksgiving, Christmas and New Year's Day*

### Overview

Algona Transfer Station was constructed in the mid-1960s on 4.6 acres in the City of Algona. The facility is an open-sided direct dump style transfer building with a scalehouse and trailer parking areas. There are no recycling services at Algona. The transfer station is bordered by undeveloped land on the south, west, and north sides and the West Valley Highway on the east side. The station serves residents and businesses from the Auburn, Federal Way, Kent, and Pacific areas.

The station is more than 50 years old and will soon be replaced with a larger, modern facility that can offer a wide range of recycling options, support resource recovery, and improved efficiency through waste compaction.

Learn more about the new South County Recycling and Transfer Station that is expected to open in summer 2026: [kingcounty.gov/depts/dnrp/solid-waste/facilities/south-county.aspx](http://kingcounty.gov/depts/dnrp/solid-waste/facilities/south-county.aspx)

### What happens to the waste?

The waste is transported in covered trailers by county employees from Algona to the Cedar Hills Regional Landfill, 20 miles away.

### Notable features

- The roof was replaced in 2002 to provide higher vehicle clearance, a column-free interior space, and updated seismic and snow-bearing capacity.
- The concrete tipping floor is supported by timber piles
- New South County Recycling and Transfer Station expected to open summer 2026.

### 2023 at a glance

#### Who are the customers?

81 percent of visits were made by self-haul customers, who contributed 16 percent of the total solid waste received at the station. Commercial customers contributed 84 percent of the total solid waste with 19 percent of the visits.

#### Tons of solid waste disposed

142,443. This constitutes 18 percent of the total tonnage at all King County transfer stations.

#### Total customer visits

120,309

Entrance to the station

Refuse trailers located below tipping floor
