King Street Center, Suite 5701

King County's Houghton Transfer Station in Kirkland has been in service for over 50 years, and needs to be replaced. We are currently looking for a site for a new recycling and transfer station that will serve northeast King County for the next several decades.

When it opens in 2027, the Northeast Recycling and Transfer Station will be fully enclosed to control noise and odors, with modern design as well as features and services to support King County's climate readiness and environmental protection goals. It will also offer expanded recycling services not currently available at the outdated Houghton station, and make waste disposal more accessible, convenient, and efficient in our growing communities.

Get meeting details at [kingcounty.gov/northeast](http://kingcounty.gov/northeast) in the "What's New" section or scan the QR code.

**Learn more about the project at two upcoming virtual meetings:**

**Public Open House and Information Session**  
May 12, 6:30-8:30 p.m., via Zoom

What makes a suitable site for a transfer station? How did King County identify the potential sites being considered in Woodinville and Kirkland? How was siting criteria developed and applied? Dive into technical details of the siting process, meet project staff, and get your questions answered.

**Siting Advisory Group Meeting #8**  
May 19, 2021, 6:00-8:30 p.m., via Zoom

In fall 2020, King County convened an advisory group of 25 people to represent the interests of residents, communities, and businesses in Kirkland, Woodinville, and Redmond in the siting process. The public is welcome to join this virtual meeting, provide comments for the group to consider, and watch the committee do its work.

Information available in alternate formats. To request language interpreter services, or accommodations for people with disabilities, please contact Solid Waste Division at 206-477-4466, TTY Relay 711 at least one week in advance of the meetings.
