

Voucher Incentive Program

If you make stuff, fix stuff, clean stuff, or paint stuff, you are generating waste. But... are you generating hazardous waste?

Changes can be challenging, but we can help you!

Smart handling of hazardous materials can save you money, reduce liability, and ease regulatory requirements.

We'd like to invest in your business!

Voucher Incentive Program

The Hazardous Waste Management Program will reimburse eligible businesses up to \$599 when they make changes that protect workers or the environment from hazardous product use, storage, or disposal. Reimbursement is available for lab testing, ventilation improvement, disposal and recycling, process changes and equipment to reduce hazardous waste generation, and protective equipment for workers.

To be eligible, your business must be located in King County and be a Small Quantity Generator (SQG) of hazardous waste.

A Small Quantity Generator business produces less than 220 pounds of hazardous waste per month and never accumulates more than 2,200 pounds at their site.

HOW DOES IT WORK?

-  1 Call 206-296-4692, Monday—Friday from 9 a.m. to 4:30 p.m. to schedule an on-site consultation.
-  2 Business Services staff will provide consultation, suggest improvements, and issue you a voucher.
-  3 Make the recommended improvements and submit the voucher with receipts attached.
-  4 On approval, you will receive reimbursement for 75% of the costs, up to \$599, for making recommended improvements.
