

COAL CREEK SEWER UPGRADE

June 2020

Sewer upgrades in the works: Join us June 17 & 23 to learn more!

King County Wastewater Treatment Division (WTD) invites the Bellevue and Newcastle communities to join us in an online meeting series about the Coal Creek Sewer Upgrade Project! Please attend this online meeting series to learn more about the project, get your questions answered, and share your thoughts.

Meeting series

WTD is hosting two different online meetings to allow time for detailed discussion about this complex project.

Meeting #1: Building the new North Coal Creek Sewer Trunk, trailhead restoration, and temporary bank stabilization

June 17, 2020 | 6:00-7:30 p.m.

Please register in advance to receive a link to the online meeting

Meeting #2: Protecting and restoring the Coal Creek Natural Area

June 23, 2020 | 6:00-7:30 p.m.

Please register in advance to receive a link to the online meeting

Register today!

Register for one or both meetings at: bit.ly/CoalCreekMtg. Each meeting has different content, and you can register for both meetings at the same time. You will receive instructions by email for accessing the meeting platform. We will post materials online prior to each meeting and send registrants a reminder and link to content.

Translation assistance

Our team is ready to work with you for your translation needs. The presentations at these meetings will be provided in English but translated materials will be available before each meeting and a translated meeting summary will be provided after each meeting. A translated interactive website where you can leave comments will be also available.

Alternative Formats Available
206-477-8621 / 711 (TTY Relay)

We are currently translating materials into Chinese (simplified and traditional), Korean, Russian, Spanish, and Vietnamese. Please let us know if we can better serve you by discussing this project through an interpreter in one of these languages or in a different language. You can indicate this in the meeting registration form: bit.ly/CoalCreekMtg.

About this project

King County's regional wastewater system is an essential service that protects public health, local waterways, and supports our economy. This clean water project will provide increased capacity needed to carry wastewater from Newcastle and part of Bellevue to King County's South Treatment Plant in Renton. The Coal Creek Sewer Upgrade also provides the opportunity to move much of the active pipe away from the creek in the popular Coal Creek Natural Area.
