

COAL CREEK SEWER UPGRADE PROJECT

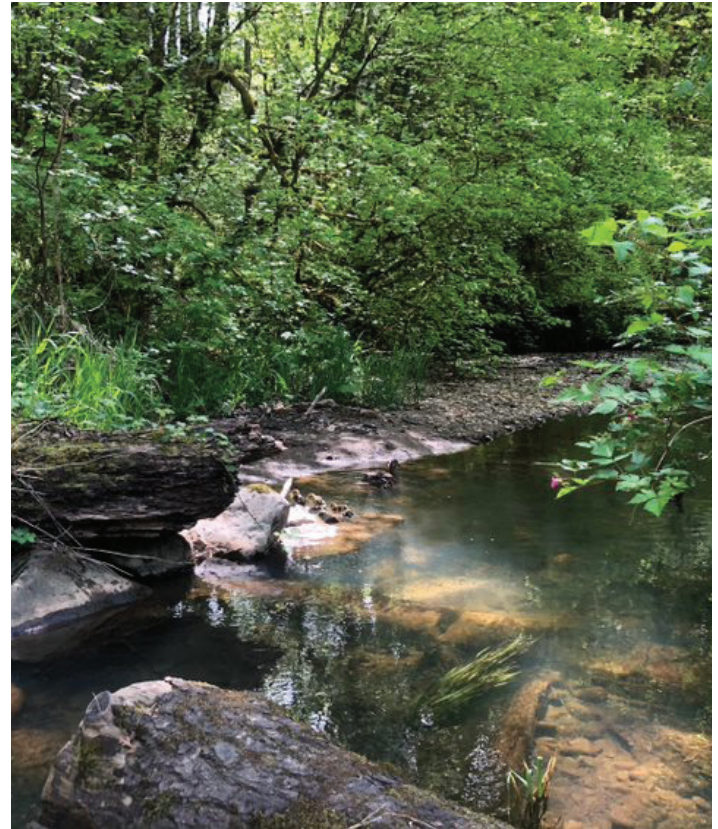

Reaching out to the community: Accessibility ideas for the Red Cedar Trailhead

King County Wastewater Treatment Division is designing an upgrade for a sewer pipe that travels through the Coal Creek Natural Area. Major construction activities will be located at the Red Cedar Trailhead in the Coal Creek Natural Area. The trailhead will be closed for up to 3 years.

The work area at the Red Cedar Trailhead will be restored to the current design. King County's team has some ideas for improving accessibility for people of all abilities. We want to hear what you think about our ideas! Join us for a remote meeting to learn more and tell us what you think.

**Join us on Wednesday, July 14th
from 5:30 – 7:00p.m.**

**Meeting materials will be posted prior to the meeting.
Live captioning and an American Sign Language
(ASL) interpretation will be provided.**
