Subject: Opportunities for input- one ends, another begins: TEST

Ongoing opportunities to provide input!

Restoration of the Red Cedar Trailhead

King County's Community Services team is wrapping up outreach on options for improved accessibility at the Red Cedar Trailhead. You will have until 5:00 p.m. on August 31, 2021 to respond to a survey taking input on specific options. Or add your own suggestions to the great list of ideas people have given us so far!

Once the survey closes, the team will still be available to discuss trailhead restoration and hear from you. Feel free to email or call to share your input.

Upper West/Red Cedar Trailhead parking and transportation options survey

King County is exploring parking and transportation options for the Coal Creek Natural Area when the Upper West/Red Cedar Trailhead is closed for construction. The closure is expected begin when construction starts in late 2022 or early 2023. The trailhead closure will last up to three years. See our options to participate below and share your feedback by September 17!

Trail access from Forest Drive SE

The photo above shows the existing parking on Forest Drive SE. The gravel parking area currently has room for 4 vehicles. We're seeking your input on temporary expansion of this area or public transportation options.

Options to participate:

Share your thoughts on parking and transportation options

Take a survey to let us know what you think of parking and transportation options for the Coal Creek Natural Area during construction. You can provide input anonymously, and as many times as you wish by September 17. Your comments will not be published online. We want to make it comfortable to share your thoughts openly and honestly.

[Forest Drive Survey](#)

Learn about accessibility options, let us know what you think.

[Online open house and virtual tour.](#)

Take a virtual visit King County's work area at the Red Cedar trailhead and review some ideas we developed for signage, seating, maps, guides, and online content.

Did we miss something? Let us know how we can work with you.

Listen to people who know

After the last historic year, access to nature and the outdoors became important to many people who may have taken it for granted. Watch and listen to outdoor enthusiasts with disabilities explain how they thrive in the outdoors with accessible recreation options. This video was created by Rooted in Rights for the Coal Creek Sewer Upgrade Project.

Watch the video at this link.

About this project

King County’s regional wastewater system is an essential service that protects public health, local waterways, and supports our economy. This clean water project will provide increased capacity needed to carry wastewater from Newcastle and part of Bellevue to King County’s South Treatment Plant in Renton. The Coal Creek Sewer Upgrade also provides the opportunity to move much of the

active pipe away from the creek in the popular Coal Creek Natural Area.
