King County's Contractor Outreach & Networking Event

04.21.2025

David R Burnett

davidb@access-arch.com

360.326.1227

www.access-arch.com

Founded in 2018, Access Architecture is a values-driven, carbon-neutral, MWESB-certified, full-service architectural and planning firm.

We provide professional services ranging from feasibility studies and funding packages to construction contract administration and post-occupancy evaluations. We thrive by collaborating with clients whose values we believe in and with whom we can co-create a shared vision.

What We Do:

- Organizational Development (Design & Culture); Management & Business Analysis; Organizational Change Management (Prosci); Lean Six Sigma (DMAIC) Process Re-engineering; IT Professional Services (PM); IT Development; IT Infrastructure & Security; IT Risk Mitigation; Emerging Technology; Enterprise Platforms; Strategic Managed Services; Equity, Diversity, & Inclusion, & Belonging (EDIB).
- Business Intelligence Management Solutions; Business and Technology Transformation; Sustainability; Data Analytics; Strategic Financial Planning and Analysis Management Reporting (FP&A) Solutions; Workforce Planning.
- We are built around integrated core capabilities – people, process, and technology and strategy and industry expertise – the key capabilities needed to help our clients tackle their most complex problems.

WAbids@FDcorp.com

Built on a foundation of excellence, **Flatiron Dragados** operates in the United States and Canada through **Flatiron Dragados USA** and **Flatiron Dragados Canada**. We are client-focused and committed to building stronger, more resilient communities.

As part of the ACS Group, one of the world's leading infrastructure companies, **Flatiron Dragados** provides clients the accessibility and support of a local firm along with the stability and resources of a multi-national organization.

Flatiron Dragados is the trusted partner delivering resilient, innovative and sustainable infrastructure for today and tomorrow. In collaboration with public and private clients, our project teams deliver essential infrastructure — roads and bridges, aviation, resiliency protection, dams and reservoirs, rail and transit, water and wastewater treatment facilities, tunneling, underground projects and marine works.

Flux Resources

With roots in the engineering industry, Flux provixsz high-caliber professionals in Architecture & Engineering, Information Technology, and Business Professionals. Our team delivers contract staff and direct hire placements with every level of government, as well as corporation and private clients.

Roles we place include but are not limited to:

Civil Engineers
Controls Engineers
Electrical Engineers
Electrical Technicians
Engineering Support
Geotechnical Engineers
Mechanical Engineers
Structural Engineers
Survey Technicians
Chemical Engineers
Architects
Designers/Drafters
BIM Technical Specialists
Landscape Architects
Land Surveyors

A person wearing a red shirt, black pants, a white helmet, and safety gear is rappelling down a large green steel bridge structure. The bridge is set against a backdrop of a dense forest of evergreen trees under a clear blue sky. The person is positioned on the right side of the frame, with ropes and equipment visible. The bridge's steel beams are prominent, creating a strong geometric pattern.

Content creators with passion and cultural understanding

Latino Northwest Communications (LNWC) is a media production company specializing in the Latino community of the Pacific Northwest, with the ability to produce Spanish and English content. LNWC bridges cultural and linguistic gaps to foster understanding and representation.

With almost three decades of experience, LNWC has developed a profound understanding of the challenges affecting immigrants and diverse communities in this region. Nonprofit organizations, corporations, and government agencies have utilized LNWC's expertise to reach the Pacific Northwest Latino population and successfully develop, produce, and implement messages with culturally appropriate content.

OUR SERVICE

We provide design success.

LINK Design Group is an award winning creative design studio providing **architectural, master planning, and interior design** services for clients around the world. We design inspiring **retail, residential, office, hospitality, and integrated mixed-use developments** that bring value to our clients, the surrounding communities, and the people that use them on a daily basis.

With offices in **Seattle, Shanghai, and Shenzhen**, our global reach and in-depth market knowledge allow us to identify emerging trends and deliver innovative solutions. **Collaboration is at our core**—we facilitate dialogue between clients and peers, ensuring projects benefit from collective expertise.

At LINK, design goes beyond aesthetics. We create places that strengthen neighborhood identity, drive long-term value, and establish meaningful connections between people and place.
