## LAKE HILLS SEWER Relining Project

The **Lake Hills** sewer pipe is aging and needs to be relined so it does not fail, overflow or disrupt service. Construction can begin as early as April 2023 in **Bellevue** and can last up to seven months. Sewer service will be maintained during this work. See construction map for more details. Translated materials and interpretation can be provided at no cost to you. Please contact us at **425-224-2475**.

La tubería del alcantarillado de Lake Hills es antigua y es necesario revestirla para que no falle, se desborde ni se interrumpa el servicio. Las obras pueden comenzar en abril de 2023 en **Bellevue** y pueden durar hasta siete meses. El servicio de alcantarillado se mantendrá durante estas obras. Consulte el mapa de obras para obtener más detalles. Podemos proporcionar material traducido e interpretación de forma gratuita. Llámenos al **425-224-2475**.

**Lake Hills** 污水管道已老化，需要重新铺设，以免出现故障、溢出或运行中断服务中断的状况。最早 2023 年 4 月起即可在 **Bellevue** 开始施工，工期可能会持续 7 个月。施工期间，污水处理服务不受影响。查看施工地图以了解更多详细情况。我们将免费为您提供翻译材料和口译服务。联系电话 **425-224-2475**。

**Lake Hills** 下水道管老化，需要進行更換，以免發生故障、氾濫或服務中斷的狀況。最早可於 2023 年 4 月在 **Bellevue** 開始施工，施工期間最長可持續七個月。在此工作期間將維持下水道服務。詳細內容請參閱施工圖。可免費為您提供翻譯材料和口譯服務。請致電 **425-224-2475** 與我們聯絡。

Sewer System Improvements in Bellevue

SPRING 2023

# Lake Hills Sewer Relining Project

## CONSTRUCTION STARTING NEAR YOU IN SPRING 2023

King County collects and treats wastewater from your neighborhood to protect public health and the environment. The Lake Hills sewer pipe collects and carries wastewater from homes and businesses in Bellevue to the South Treatment Plant in Renton for treatment and safe discharge to Puget Sound.

Now over 50 years old, the Lake Hills sewer pipe (approx. 7,200 feet length) needs to be relined to continue serving you reliably. To get the work done quickly and minimize impacts to the community, King County will use a spiral wound technology to rebuild the pipe from the inside.

- ▶ Keeps the sewer pipe working for your neighborhoods for another 50 years.
- ▶ Limits disruption to your life from future emergency repair work or pipe breaks.
- ▶ Protects water quality in our region.

## EXPECT TRAVEL DISRUPTIONS, NOISE, AND ODOR DURING CONSTRUCTION

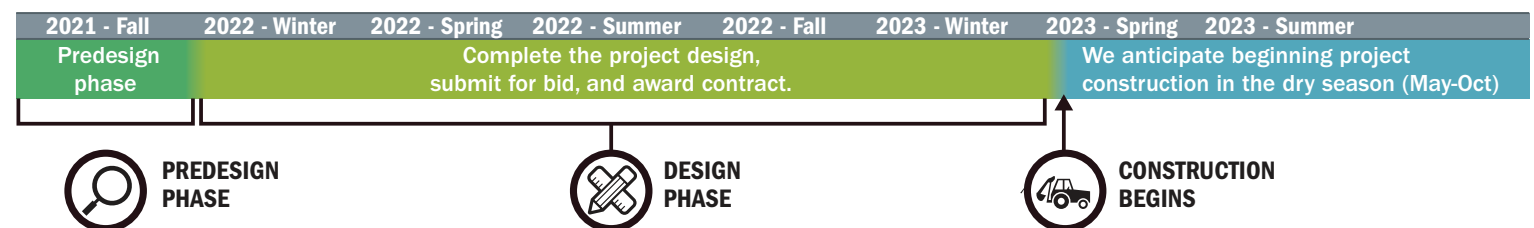

- ▶ Construction can begin as soon as April 2023 and last about seven months. Work hours will generally be **7 a.m. to 5 p.m.** weekdays and weekends with occasional night work. Working occasionally on weekends and at night will allow the work to finish sooner.
- ▶ Wastewater service will be maintained during construction via the temporary pipe. You will be able to use your sinks, toilets and showers normally.
- ▶ Expect traffic detours; equipment staging; and closures of streets, sidewalk, trail, bus stops, driveways, and bike lanes (see the impact map for details).
- ▶ Noise and odor from temporary pumping system and other construction activities.

Your wastewater service will be maintained during construction by a temporary pipe. This pipe will be routed above ground along streets and underground in some locations.

## WE WANT TO BE A GOOD NEIGHBOR DURING CONSTRUCTION

King County's goal is to complete construction efficiently to minimize disruptions to the community. If you have questions or concerns, call our construction hotline at 425-224-2475.

# Lake Hills Sewer Relining Project April to October 2023

## 2023 CONSTRUCTION IMPACTS

### CENTRAL PROJECT AREA

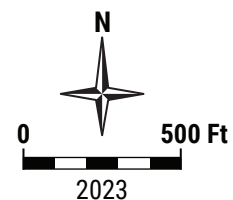

- 4 130th Ave NE and NE Spring Blvd: Bike lane closed, bicyclists detoured to share the road from 130th Ave NE to 136th PI NE. Odor and noise from construction activities.
- 5 130th Ave NE and NE Spring Blvd: Pedestrians will be detoured with construction signs at the light rail station sidewalk.
- 6 130th Ave NE and NE Spring Blvd: Eastbound lanes will be closed intermittently for approximately three months. Vehicles will be detoured to NE 20th St. Additionally, traffic will be reduced to a single lane in both directions from 130th Ave NE to 136th PI NE throughout project duration.
- 7 132nd Ave NE and NE Spring Blvd: Burying temporary pipe across 132nd Ave NE, traffic reduced to single lane in both directions intermittently throughout project duration.
- 8 134th Ave NE and NE Spring Blvd: Intersection closed, local access only with construction flaggers for approximately three months.
- 9 NE Spring Blvd and 136th PI NE: ADA accessibility maintained with sidewalks and crosswalks.
- 10 130th Ave NE: Maintenance hole work will require a work area of approximately 13-by-165-feet and will block access to some driveways for approximately three weeks.
- 11 132nd Ave NE and Bel-Red Rd: Sidewalks and crosswalk at northwest intersection corner closed approximately three weeks.
- 12 132nd Ave NE and Bel-Red Rd: Route 226 bus stop, west of 132nd Ave NE, to be relocated for approximately three weeks.
- 13 132nd Ave NE and Bel-Red Rd: No parking on southbound side of 132nd Ave NE.
- 14 134th Ave NE and Bel-Red Rd: Local access only with construction flagging for approximately three months.
- 15 134th Ave NE and Bel-Red Rd: Driveway at 13310 Bel-Red Rd and adjacent sidewalks will be blocked. Drivers will be directed to use alternate driveways. Sidewalks will be detoured to avoid construction.
- 16 Bel-Red Rd: Route 226 bus stop relocated for approximately three weeks.

### SPRING BLVD & BEL-RED RD INTERSECTION

- 17 13700 Bel-Red Rd: Westernmost driveways near 13700 Bel-Red Rd blocked for approximately three weeks. Other driveways remain open for access.
- 18 North sidewalk closed near 13700 Bel-Red Rd for approximately one week. A pedestrian path, a temporary ramp, and temporary crosswalk will detour pedestrians around work area.
- 19 Route 226 bus stop, east of NE Spring Blvd to be relocated for approximately three months.
- 20 No eastbound vehicle traffic access from Bel-Red Rd to NE Spring Blvd for approximately three months. Two westbound lanes will be temporarily closed for approximately one week. Westbound traffic will be routed around work area. Odor and noise from construction activities.

### NORTHWEST PROJECT AREA

- 1 120th Ave NE: Road widening near King County Metro East Base, parking along street closed during construction. Odor and noise from construction activities.
- 2 Multi-use trail: Section of path next to Sound Transit Link Light Rail line closed for approximately three months. Pedestrians detoured to temporary path and bicycles detoured to share the road.
- 3 124th Ave NE: Burying temporary pipe across 124th Ave NE, north of Transit Base Road, traffic reduced to single lane in both directions intermittently throughout project duration.

#### Temporary pipe routing

- Above ground
- Underground
- Construction staging area
- Lake Hills sewer pipe (existing)

#### Construction impact type

- Road
- Driveway
- Sidewalk and crosswalk
- Bike and multi-use path
- Bus route
