NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

August 2023

Utility work and preparation for paving beginning as early as August 14 Construction activities will take place at the intersection of Southeast 24th Street and 81st Avenue Southeast, on Southeast 24th Street and on 78th Avenue Southeast

Expect lane closures and flaggers directing traffic around the work area:

As early as August 14, crews will be working on 78th Ave S.E., S.E. 24th St, and near 81st Ave S.E. Crews will be installing pipe and working on underground structures. Flaggers will guide vehicles through one lane of alternating traffic during work hours. Please travel slowly and follow all instructions from flaggers or posted signs near the work areas.

Crews will also be preparing for paving activities near driveways on 78th Ave S.E. We are working directly with affected neighbors and there are no expected access impacts to other homes in the area currently.

Repaving planned in early fall:

We have heard a lot of questions about the final repaving plans in the area. While construction schedules often change, the contractor plans to begin final paving and restoration in the area in early September*. We will share more details about what to expect once the work is closer.

What to expect:

- Flaggers and single-lane alternating traffic during work hours.
- Typical work hours are 7 a.m. to 7 p.m. Monday to Friday and 9 a.m. to 6 p.m. on Saturday for the duration of this work.*
- Noise, dust, and vibrations typical of an active construction project.

*Construction schedules can change based on factors such as site conditions, weather, and crew/material availability. We will notify you in advance of any major changes to the planned schedule.
