## NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

September 2023

### Join us this Thursday, September 28 at 4:30 pm to learn about paving activities on 90th Place Southeast

Final paving is planned to be complete by October 15\*.

**Do you live on 90th PI S.E. or 89th PI S.E.? JOIN US FOR A NEIGHBORHOOD CONVERSATION to discuss paving work near your home!:**

Project staff and the contractor will meet you at the **intersection of 89th PI S.E. and 90th PI S.E. starting at 4:30pm**. During the meeting, project staff will share more information about what to expect once the final stages of work begin and collect information on neighbors' access needs.

We will meet rain or shine, so please dress for the weather and wear sturdy shoes for walking.

To discuss how we can welcome you into this conversation or if you cannot attend, please contact the community relations team by calling or texting 425-305-3578 or by emailing [NMEsewer@kingcounty.gov](mailto:NMEsewer@kingcounty.gov).

#### Final stages of work on structures and roadway:

Crews have been working at the top of the cul-de-sac to install below ground odor control and maintenance hole structures. In the coming weeks, crews will install final connections between the structures and sewer pipes, and then grind and repave the roadway. During preparation for paving, you may be delayed for up to 15 minutes for crews to prepare the road for safe passage. During paving, your access will be limited between 7am and 5pm. Neighbors will be able to walk out of the cul-de-sac with coordination. Paving will be completed as early as October 5 and no later than October 15\*. Paving is expected to last approximately two days. Emergency vehicle access will always be maintained.

\*Construction schedules can change based on factors such as site conditions, weather, and crew/material availability. This work is highly weather dependent and may need to be rescheduled if site conditions are too cold or rainy.
