

NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

April 7, 2022

Construction equipment and activity coming to empty lot near E Mercer Way and Frontage Rd

Crews will soon begin moving trailers and fencing into the lot between East Mercer Way, Frontage Road, and the Eastbound I-90 on-ramp (see map). This is in preparation for construction activities related to the North Mercer Enatai Sewer Upgrade project. King County Wastewater Treatment Division's contractor, Walsh Construction, will use the lot as a staging area for trailers and other construction equipment.

Walsh Construction will use the lot for the duration of the construction project, which is scheduled to continue through 2025. Learn more about the sewer upgrade project on our website: kingcounty.gov/mercerenataisewer.

What to expect as Walsh moves equipment into the staging area:

- Increased truck traffic
- Noise and dust typical of a construction site

We're committed to working with you

Please let us know if you have any questions. For more information or to schedule a virtual meeting, contact the Community Relations Team using our 24-hour construction hotline: 206-263-1915 or email us at NMEsewer@kingcounty.gov.
