# NORTH MERCER ISLAND/ENATAI Sewer Project

## Join us!

The North Mercer Island/Enatai Sewer Project will update the sewer system in your community. The new sewer pipeline will update an existing 50-year-old system, limiting the potential for sewer overflows and supporting reliable service for another 50 years.

King County is currently reviewing several options for where to build a new sewer pipeline, and the project team wants to hear from nearby residents. Please join us at one of the upcoming open house events to learn about project options, get your questions answered, and share your thoughts.

To learn more about the project and King County's Wastewater Treatment Division, visit [www.kingcounty.gov/environment/wtd/Construction/East/NMIEnatai.aspx](http://www.kingcounty.gov/environment/wtd/Construction/East/NMIEnatai.aspx)
