

King County

NORTH MERCER ISLAND/ENATAI Sewer Project

Join us!

King County Wastewater Treatment Division invites our Mercer Island and Enatai communities to hear an update on the North Mercer/Enatai Sewer Upgrade Project. The County's project team has identified a preferred alignment for a new sewer pipeline that will provide service to North Mercer Island and the Enatai area of Bellevue.

We have information to share with you on what we know now about the project, upcoming field work to inform design, and project elements that are still being defined. Bring your questions and thoughts to share with us!

To learn more about the project and King County's Wastewater Treatment Division, visit
