

## NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

April 2020

### Field investigations starting as early as April 22 near Mercer Island Boat Launch and Enatai Beach Park

King County Wastewater Treatment Division is continuing field investigations to inform design of a sewer upgrade project in Mercer Island and Bellevue. Beginning as early as April 22, crews will conduct surveys to gather information about surrounding utilities in the area that will inform the design of the sewer upgrade. Crews will perform the work at Enatai Beach Park in Bellevue, and in Mercer Island near the Mercer Island Boat Launch. This work will last up to two weeks.

During this time, King County Wastewater Treatment Division (WTD) operations staff and contractors remain on the job as essential workers to ensure the region's wastewater treatment service continues. Our construction projects are critical to our mission – treating wastewater to protect public health.

See map on back for approximate work locations.

#### What you can expect:

- Work hours 7 a.m. to 6 p.m., weekdays.
- Up to two crew members in high visibility vests on site.
- Crew members will be walking the site with tripods and handheld survey equipment.
- Crew members will follow King County Public Health social distancing guidelines by staying at least 6 feet away from others.

Tripod equipment used for site surveying.
