NORTH MERCER ISLAND/ENATAI Sewer Upgrade Project

July 26, 2022

Summer newsletter available online, check your mailbox or nearby flyer box!

In March we sent out a pre-construction newsletter as the contractor prepared for construction on the North Mercer/Enatai Sewer Upgrade project. Now that major construction activities are ramping up, it's time to follow up with our next construction newsletter! Learn more about our schedule, construction safety, and in-person events in our summer newsletter, [online here!](#)

How you experience construction activities will depend on where you live, work and play.

Residents on streets along the sewer pipe alignment will experience project construction differently than commuters and park users. To stay up to date on the topics that matter to you, please sign up for targeted email or text lists. We will continue to send regular project updates to the broad listservs we've used for years, but we'll also send area-specific construction notifications. Sign up for the lists you care about most by [clicking this link to our construction homepage](#).

Topics for the North Mercer Island Enatai project include:

- North Mercer Pump Station
- North-central Mercer residential streets
- North Mercer Way/Mercer Park and Ride
- I-90 trail
- 90th PL SE
- Northeast Mercer residential streets
- Enatai Beach Park
- Mercer Slough

Changes to email and text preferences must be done using an internet browser. Changes submitted via text to KING MERCERSEWER at 468-311 will not be applied.

For more information:

Contact the community services team at 206-477-5415 or email NMEsewer@kingcounty.gov

Visit the project web page at www.kingcounty.gov/MercerEnataiSewer.
