## **SECTION 1 PROJECT SPECIFICATIONS AND SCOPE OF WORK**

Applicants are invited to propose a scope of services or activities that:

- Provide harm reduction and drug user health services to people who use drugs, including overdose prevention services; naloxone distribution; services aimed at preventing the transmission of hepatitis C, HIV, and other infections related to substance use; and drug checking services.
- Engage people who use drugs via community-based settings, including community outreach programs, mobile services, and brick-and-mortar drug user health settings. All services must be located within the City of Seattle.
- Connect people who use drugs with health and social services. Proposed services may include specific activities related to care navigation or providing referrals and warm-handoffs to evidence-based care for substance use disorders. Please note that if the proposed activities include care navigation services (e.g. linkage to MOUD care), these activities should accompany those encompassed in the two bullet points above.

The intent of this funding opportunity is to fund enhancement, expansion, or continuation of services where people who use drugs currently receive services or are engaged via other programs.

### **BACKGROUND**

Public Health - Seattle & King County is soliciting proposals from community organizations to provide services for individuals actively using drugs and harm reduction services aimed at overdose prevention and linkage to health and social services.

Funding for this solicitation is provided by the City of Seattle. There may be multiple awards made for the available funding. Due to the origin of the funds, funds may only be used for services for people who are using drugs in the City of Seattle.

The 2016 Heroin and Prescription Opiate Addiction Task Force made recommendations for services for people who use drugs. Funding associated with this request for proposals is to be used for services recommended by this Task Force, including low-barrier programs for active drug users and programs that work to reduce overdoses (both fatal and non-fatal) and improve the health, wellbeing, and quality of life of people who use drugs.

This Task Force recommended services including: establishment of overdose prevention services and services focused on improving the health and engagement of individuals who are using drugs, including but not limited to medical treatment, sexual health resources, peer support, expansion of access to medications for opioid use disorder (MOUD), linkage to care services for MOUD or other evidence-based substance use disorder treatment and care modalities; wraparound social services and case management; and upgrades to drug user health facilities to ensure client health and safety.

Building on the recommendations of the 2016 Heroin and Prescription Opiate Addiction Task Force, PHSKC previously distributed City of Seattle funds through the Community Based Overdose Prevention Practices RFP. Issued in 2021, this award allocated funds to local community-based organizations to implement innovative overdose prevention services and increase or expand the provision of drug user health and harm reduction services through community outreach. The previous RFP also incorporated public health research and community feedback to support the provision of services for people who use drugs using principles of harm reduction.

### **Services Requested**

This RFP will provide multiple awards of up to \$200,000.00 to community-based organizations to provide harm reduction and drug user health services in the City of Seattle. Proposals awarded funding will enter a one (1) year contract with Public Health – Seattle & King County to be renewed annually for the same amount of funds until no later than December 31, 2028. This is a one-time funding opportunity.

Associated funding is to be used to increase services and harm reduction programs at agencies that serve people who use drugs. The funding can be used to expand hours, increase staff, expand to additional locations, provide peer and community outreach, implement good neighbor agreements for syringe pickup, provide participant incentives, explore Medicaid reimbursement for services, expansion of naloxone distribution, and make safety improvements. The expansion of these services would build on recommendations of the Heroin and Prescription Opiate Addiction Task Force and subsequent requests from collaborative groups, such as Just Access to Health.

Funding may be used to support staffing / personnel and operating costs, including harm reduction materials and supplies, medications, testing materials, materials that support client engagement, hygiene and survival materials, client travel vouchers, and participant incentives. Other allowable costs include vehicles or supplies to be used while conducting outreach or providing services; or improvements to brick-and-mortar service locations that promote client safety and engagement. Funds may not be used to purchase needles or pipes.

Additional acceptable use of funds includes staffing for data collection, evaluation, and reporting.

## **REQUIREMENTS**

Selected agencies will be required to:

1. Negotiate a specific statement of work with deliverables. PHSKC will contribute to and approve the final statement of work.
2. Engage in regular coordination calls and other centralized communication efforts led by PHSKC or partners.
3. Document client encounters, services delivered, referrals, and other program indicators.
4. Work with PHSKC to identify and provide reporting metrics for project evaluation.

Identified deficiencies, technical requirements, terms and conditions of the RFP, costs or prices, and clarifications may be included among the items for discussion. The discussions are intended to give Proposers a reasonable opportunity to resolve deficiencies, uncertainties and clarifications as requested by the County and to make the cost, pricing or technical revisions required by the resulting changes. In addition, the County may request additional business and administrative information.
- B. The County may find that a Proposer appears fully qualified to perform the Agreement or it may require additional information or actions from a Proposer. In the event the County determines that the Proposal is not responsive or responsible the County shall eliminate the Proposal from further consideration.
- C. The County may enter negotiations with one or more Proposers to finalize Agreement terms and conditions. Negotiation of an Agreement shall be in conformance with applicable federal, state and local laws, regulations and procedures. The objective of the negotiations shall be to reach agreement on all provisions of the proposed Agreement. In the event negotiations are not successful, the County may reject Proposals.
- D. The County reserves the right to make an award without written and/or oral discussions with the Proposers and without an opportunity to submit Best and Final Offers when deemed to be in the County's best interests. Agreement award, if any, shall be made by the County to the responsible Proposer whose Proposal best meets the requirements of the RFP, and is most advantageous to the County, taking into consideration price and the other established evaluation factors.
