

CHURCH SAFETY GUIDELINES

Public Health recommends following these COVID-19 safety guidelines to protect everyone, **even if fully vaccinated**. Thank you for keeping all of us safe.

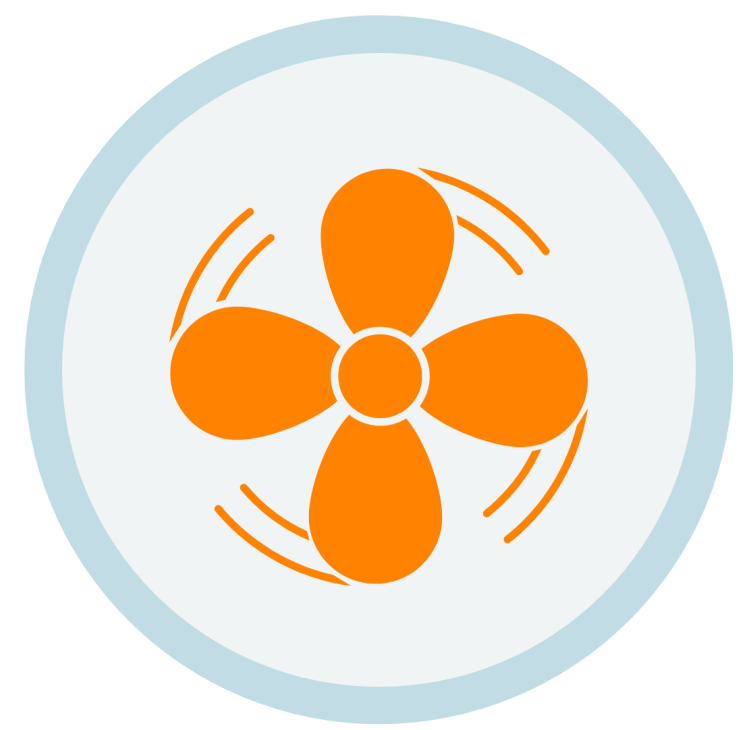

Get vaccinated and boosted if eligible, the more people vaccinated, the lower the risk

Wear a snug-fitting, high-quality face mask (including clergy, staff and visitors)

Outdoors is safer than indoors

If indoors, improve ventilation and air flow*

Wear masks, use instrument covers, and encourage physical distancing between performers.

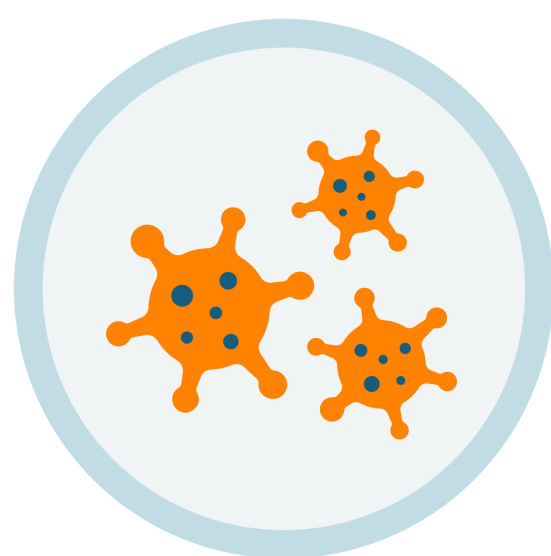

Shorter indoor services are safer

Continue regular hand washing

Avoid sharing supplies or ritual objects with members outside of your household

Assume someone with COVID-19 is present

Stay home if feeling sick

Avoid crowding, limit gatherings after service
