

This "True HEPA" air purifier is designed to remove germs, dust, smoke, pollen, odors and other pollutants from the air. This unit was shipped with **one (1) HEPA filter and four (4) carbon filters**, which is a **one year supply of filters**. Please reserve the additional carbon filters for future use, according to the replacement schedule below.

To lower the risk of disease transmission, **the air in rooms should be replaced or filtered 5 times an hour**. To get 5 room filtrations an hour, run unit on the following fan speeds:

- * Turbo (4 fans) ——— 190 - 360 ft² room
- * High (3 fans) ———— 160 - 190 ft² room
- * Medium (2 fans) ——— 120 - 160 ft² room
- * Low (1 fan) ———— 0 - 120 ft² room

Filter Replacement Schedule
