Questions to Ask Your Septic Maintainer

1. What will the inspection include (for example checking baffles and for leaks, cleaning filters, structural integrity and drainfield checks)?
2. Can I be present for the inspection? (We recommend that you track the work done by the maintainer and learn more about how your septic system is functioning.)
3. Do you charge extra to uncover lids or distribution boxes that are buried?
4. What are the benefits to installing risers to the surface (if needed)?
5. Do you offer any discounts (e.g. senior, new customer, etc.)?
6. Does the inspection cost include County fees?

King County Certified On-site System Maintainers (OSM)

First Name	Last Name	License #	Company Name	Address	City	Zip Code	Phone Number
7. Does the cost cover follow-up or return visits?							
8. Do you offer an updated site drawing if required?							
9. When will the report be entered in OnlineRME for viewing?							
10. If repairs are needed, can you perform the repairs? Can you do electrical repairs, or do you work with an electrician?							

TIP: If a maintainer finds a problem with the septic system, you will need to get that fixed. You can hire anyone who is certified to do the type of work that is needed. You can find lists of certified professionals at www.kingcounty.gov/oss/professionals.
