

## WASHINGTON STATE LICENSED OSS DESIGNERS AND PROFESSIONAL ENGINEERS

Any on-site sewage system (OSS) designer or professional engineer licensed by the Washington State Department of Licensing may design on-site sewage systems. King County does not license designers or engineers. Typical responsibilities of a sewage system designer can include designing the sewage system, communicating with installers during construction, making additional site visits if problems arise during construction, and inspections of construction so that the designer can prepare a record drawing (as-built) of the sewage system.

<b>Name</b>	<b>City</b>	<b>Phone Number</b>

<b>Whalen, Craig</b>	Monroe	(360) 794-5506

King County does not endorse or recommend any designer or engineer, nor is a guarantee of permit approval expressed or implied through the services of any designer or engineer.

This list may not be up to date. Check the Washington State Department of Licensing website at <https://professions.dol.wa.gov/s/license-lookup> to see if the license is listed as active. If the license is inactive at any time during the permit application review process it could stop or impede the review and approval of your permit.

Information current as of 6/10/2025

If you are an active licensed on-site designer or professional engineer designing septic systems in King County and would like to be added to this list, please contact Lynn Schneider (OSS Program Supervisor) at (206) 477-2124.
