

## Example Plan Registry

Last Updated 3/5/2025

**Purpose:** Provide a registry of Example Plans created by Public Health—Seattle & King County to show how various design documentation requirements found within our [Plumbing Design Guidance](#) document may be applied to different drawing types.

**Note:** The Example Plans currently available below are based on a large commercial plumbing project but may be a useful reference for smaller projects.

<b>Example Plans</b> (Examples of design documents prepared in accordance with PHSKC standard requirements)	
<b>Document Name</b> <i>(Select document name to view)</i>	<b>Description</b>
<a href="#">Cover Sheet.v1</a> <a href="#">Calculations and Notes.v1</a> <a href="#">Schedules.v1</a> <a href="#">Plan Sheet.v1</a> <a href="#">Rainwater Riser.v1</a> <a href="#">Natural Gas Riser.v1</a>	Standard plumbing cover sheet for commercial projects Plumbing calculations and notes Plumbing equipment and fixture schedules Information required on typical plumbing plan sheets Standard roof drainage/stormwater riser diagram Standard natural gas riser diagram

*Future example plans added to the registry may include:*

- Domestic water riser diagrams, sanitary waste and vent riser diagrams, and construction detail sheets
- Smaller projects of various types
