WHO is eligible for the Specialty Care Coordination Program?

Our care coordination program focuses on low-income patients who are uninsured or enrolled with Apple Health. We serve patients who are cared for by a primary care provider in a safety net clinic but have an unmet health need due to lack of access to a specialty provider.

Specialty Medical Care Coordination supports clients in the following counties:

- King
- Snohomish
- Kitsap
- Thurston
- Lewis

Clients must:

- Be referred from a community clinic, FQHC or free/faith-based clinic.
- Be under 300% of the federal poverty level
- Have a routine need for specialty care
- Be uninsured or on Apple Health
