KIDS PLUS APPROACH

Health Care

Our nurses and social work staff understand that barriers arise when addressing health needs while experiencing homelessness. Kids Plus staff can help with:

- ◆ Chronic disease management
- ◆ Coordination of care
- ◆ Developmental screening and referral
- ◆ Referral and linkage to:
 - Primary and specialty care
 - Behavioral Health Care
 - Dental Care

Shelter and Housing

Kids Plus does not represent a specific housing program; we help connect clients to appropriate shelters and housing programs.

Client-Centered Care

We understand that the experience of homelessness is often rooted in trauma and systems of oppression, including racism, sexism, and heterosexism. We take the time to listen to each family's unique story. Together, we identify individual, community and system strengths and challenges to remove barriers and build supports as families work toward their goals.

Support

We are willing and able to address a wide array of issues that affect the health and well-being of our clients. This includes:

- ◆ Schooling and Childcare
- ◆ Eligibility for benefits
- ◆ Connection to peer and social support
- ◆ Domestic violence resource
