

Public Health Cold Weather Response & HCHN Data Updates

HCHN Governance Council
February 26, 2024

Lee Thornhill, CHS Data Manager

Lorraine Twohey-Jacobs, HCHN Data Manager

Purpose

The most recent Tier 3 cold weather activation was January 10-17th, 2024.

These slides share:

- Map of KCRHA response sites
- Public Health & HCHN Cold Weather Response activities
- Community Outcomes - Medical Examiner Office data on hypothermia

- HCHN and Public Health respond to 27 of these 32 sites (84%) on occasional and emergency basis to support our existing clients or broader response efforts.
- Services include hypothermia prevention education and direct medical care for frostbite and other cold-related conditions impacting the hands and feet.
