Form 5C - Other Activities

Type of activity	Frequency	Description	Types of location(s)
Home Visits	Regular activity; occurs daily.	Maternity support visits provided by public health nurses to low-income families with newborns, including many homeless, formerly homeless, and doubled up families.	Shelters, transitional housing, supportive housing sites serving homeless & recently homeless people. Throughout all areas of King County. Services also conducted in private homes where people are in doubled up situations.
Portable Clinical Care	Daily.	Nurses, medical providers, mental health/substance abuse counselors, and eligibilty specialists provide on-site health services and help link homeless individuals and families to regular primary care. Service mix varies by homeless site. Services typically provided under standing clinical protocols. Most of these services are provided by staff of subcontractors including CHCs and mental health/substance abuse agences who form interdisciplinary teams.	Homeless shelters, homeless day programs, sobering center, transitional housing, school targeting homeless children, homeless day care, permanent supportive housing, tent cities.
Hospital Admitting	As required for call arrangements and as needed.	Admitting privileges at Swedish, Harborview, and Virginia Mason. Health center providers do not see non-health center patients.	Hospitals
Medical Rounds	As required for patient care	Arrangements with Swedish, Harborview, and Virginia Mason. The health center providers do not see non-health center patients.	Hospitals
Health Education	2-3 sessions per week.	Public health nurses in the HCH program conduct training for staff and clients of homeless programs on how to access health care and how to prevent communicable disease in the shelter setting.	Shelters, day programs, transitional housing.
Immunizations	As needed.	Flu, Hepatitis A, and other vaccinations to low-income and other vulnerable populations, including people living homeless.	Various locations within the community as appropriate to respond to vaccination needs.
Health Fairs	Varies; at least annually.	Health screening, assessment, & linkage services provided at homeless resource fairs.	Community center-type venues or in large homeless sites.
Other - Satellite Maternity Support Services	varies from monthly to several days per week, depending on site needs	Wrap-around services designed to supplement prenatal medical visits, including assessment, education, intervention and counseling provided by an interdisciplinary team of nurses, dietitians, counselors and community health workers. MSS also provides at-risk mothers with substance abuse counseling, tobacco cessation, nutrition counseling and parenting skills. Integrated with WIC nutrition services.	family service centers, tribal service centers, and community clinics.
Other - Satellite family planning services	two to three days per week, depending on needs at each site	Voluntary family planning services provided at King County Community Service Offices (CSO) by Public Health Nurses for women and men who are presenting to apply for the Pregnancy Medical Program and other public benefits. Services include: urine pregnancy testing; prenatal vitamins for eligible women; counseling on birth control methods; counseling on STDs and prevention; linkage and referral to services/resources including: health center-based medical, dental, family planning and prenatal care, mental health and substance abuse services, and services for victims of domestic violence.	Washington State Department of Social and Health Services Community Service Offices (CSOs) in King County: Bellevue, Rainier Valley, North Seattle, Kent, White Center, Federal Way, Renton.
