Every day guns kill
10 children and
teens in America.

(and five times that
many are injured)

Almost half of American
homes with children have
at least one gun.

Did you know this about
Washington State???

Almost 3000 people died
from firearm injuries
between 1995 - 1999.

Almost 200 of those killed
were too young to vote.

Do you own
a gun?

Do you know
someone who
owns a gun?

Protect
our kids.
