**On the cover:** Lex is a third tier Carpenter's apprentice out of union Local 206. In early 2023, she was bouncing from job to job with low wages and no career direction. Then, her uncle told her about Seattle Colleges Pre-Apprenticeship Construction Training (PACT). Lex knew she loved to work with her hands, so she applied and was accepted into PACT's 12-week pre-apprenticeship training program. She loved it! And so began her start toward a construction career. After completing PACT, Lex was accepted into the Carpenter's apprenticeship program, earning about \$30 in wages, plus benefits. Carpentry suits Lex, and she loves what she does. The day-to-day job is never boring, and she is always learning new skills. Her advice to anyone interested in construction is to take advantage of pre-apprenticeship training to see if you like it. And if you do, you're already connected to the industry! Construction can be challenging, especially for a woman of color, so Lex suggests that you show up early, do your job well, stand up for yourself and make sure you are treated with respect.

Learn more about other pathways into construction on Apprentices in Action (page 6).

# Introduction

Are you looking for a career instead of a minimum-wage job? Are you considering a career in construction? Then you have come to the right place.

We need trained professionals to build structures like our homes, offices, high-rises, roads and bridges. These projects are essential to our everyday life and need hundreds of workers trained in more than 20 different building trades. Building trades (also called crafts) include laborers, ironworkers, cement masons, carpenters, heavy equipment operators, plumbers, sheet metal workers, painters and many more. This book will help you get started down the pathway to become one of these skilled professionals.

You do not need construction skills to get started; the professionals will teach you what you need to know. But there are some things you will need to succeed:

- Work ethic:** Be open to learn, love hard work and strive to be your best.
- Reliable:** Show up and work hard every single day, no matter what.
- Early:** Always be on-site a half-hour early to prepare for work.
- Learn:** Listen, pay attention, ask questions and follow directions.
- Hands-on:** Learn by doing, solving problems and overcoming challenges.
- Physical:** Ready for hard work, heights and cold, wet weather.
- Drug-free:** Construction sites can be dangerous. Everyone must be alert.
- Safety:** Pay attention. Wear safety gear at all times. Speak up.

If you need English language classes to help prepare you for training, see the [English Language Learning Opportunities](#) section of the book.

## Pre-Apprenticeship

Pre-apprenticeships are hands-on training programs that help prepare people for entry and success in the building trades. These programs provide construction training and education, and help with driver's licensing, transportation, child care, budgeting, getting a high school diploma/GED, etc. The best part is if you show up and bring your best every day, they will help you get into a paid apprenticeship program. Check out the **orange** section of this book to find a pre-apprenticeship program near you.

If you already have your high school diploma/GED, driver's license and a proven work ethic, you can apply directly to an apprenticeship in the building trade of your choice.

## Apprenticeship

Once you are in an apprenticeship training program, you are working on a construction site, learning your trade from skilled professionals and getting paid. You EARN while you LEARN.

It takes about four years for apprentices to become experienced journey-level workers. They reach journey level by learning from experienced workers on the job site and taking classes. Apprentices get regular pay raises along the way, plus benefits and retirement.

You do not need past experience, a clean record or a college degree. You just need to apply and try out for the apprenticeship program that interests you most in the **green** section of this book. These training programs need people of color, women, veterans and residents of economically distressed **ZIP codes** in Seattle and King County.

A career in the building trades is important, fast-paced work that is physically and mentally challenging. At the end of each day, you will be very proud of what you have learned and what you have built. Most importantly, you will be able to support yourself and your family for a lifetime.

## Experienced Workers

Candidates with five or more years of experience in a specific trade should contact the union hall directly:

[www.seattle.gov/Documents/Departments/FAS/PurchasingAndContracting/Labor/SBCTC-Affiliates.pdf](http://www.seattle.gov/Documents/Departments/FAS/PurchasingAndContracting/Labor/SBCTC-Affiliates.pdf)

# Ready for a career in construction?

1. Start free training today!
2. Earn living wages + benefits + retirement
3. Need English language classes? See page 9!

## Career Advancement

- Superintendent
- Trainer
- Safety inspector
- Business owner

More experience, training and leadership skills lead to higher wages and more opportunities.

ENTER HERE

## Journey Level

- Must complete apprenticeship
- Earn \$40+ /hour
- Benefits and raises
- Master your craft
- Train/mentor apprentices
- Lead crews/become foreman
- Earn high-level certifications

ENTER HERE

## Apprenticeship

- No experience required
- Start at about \$23 /hour
- Benefits and regular raises
- Complete in about 4 years
- On-the-job training
- Hard physical work
- Classes required

Must have:

- ID and be 18+
- Driver's license
- Clean drug test
- Diploma or GED
- Social security card or I-9 verification

Helps to have:

- Experience with tape measure, hand tools, and physical work

ENTER HERE

## Pre-Apprenticeship

- FREE training
- No experience required
- 1, 3 or 6-month options
- Receive support with diploma/GED, driver's license, transportation, tools, and more
- Earn industry certifications
- Learn construction math

Must have:

- ID and be 18+
- Clean drug test
- Social security card or I-9 verification

Helps to have:

- Diploma or GED
- Driver's license

When you graduate they will connect you with an apprenticeship program.

# Apprentices in Action

## Marquis

Marquis is an Electrician's apprentice at 42 years of age, working on the new Rainier Beach High School in the neighborhood where he grew up. Marquis was educated on the streets of Seattle, which ended up costing him jail time. After he was released, Marquis built a career as a music producer. The COVID-19 pandemic abruptly ended his entertainment career and he had to find a new path for himself and his family. Then he found PACT, where he grew personally and professionally. After completing PACT, he became a union stockman, and eventually an electrical apprentice with Puget Sound Electrical JATC. He joined the Electrical Worker Minority Caucus for support and camaraderie. Marquis loves learning and earning every day. His advice to new apprentices is to be ready and willing to learn, and leave your pride at the doorstep.

## I'shay

I'shay has been standing up for herself since she was 14 years old. After working fast food jobs, at Walmart, and as a nursing assistant, she found ANEW's pre-apprenticeship program. I'shay, a mother of two, immediately applied and began preparing for her new career. During the three-month training, I'shay built herself up mentally, physically, and emotionally. She found herself surrounded by strong female allies, and began to realize that she could do anything she put her mind to. I'shay is now a Cement Mason's apprentice out of Local 528. She is just beginning her career, earning over \$33 an hour, plus benefits. I'shay loves the pace, teamwork and new skills she's gaining in construction. Her advice to new apprentices is to speak up, ask questions, pay attention, take advantage of the moment, and get better every day.

## Alex

Before entering construction, Alex was taking college classes, working at a pizza place and supporting his mother through surgery. He hated college and wanted to find a hands-on job that could lead to a career. Then he found PACT, where he learned about apprenticeship and unions, hand and power tools, building a professional network, and succeeding on a job site. Since he graduated from PACT, Alex has worked over 2,000 hours as a Laborer's apprentice with Local 242. As a new apprentice, Alex earns more than \$33 in wages, plus benefits. Sometimes construction can be challenging; it can be high pressure with many different personalities. But Alex loves getting things done with a crew that works well together; it's fun and rewarding. His advice to new apprentices is to show up early, watch and learn, ask questions and add value to the jobsite.

## Bradley

Bradley is a Tulalip Tribe member and Electrician's apprentice with Local 191. Before that, Bradley realized that he needed a full-time career with family wages and benefits. That's why he enrolled in the Tulalip Tribe's TERO Vocational Training Center (TVTC) pre-apprenticeship program in 2019. While there, he learned the importance of building relationships, improving communication skills, and developing a professional work ethic. A month before completing TVTC, Bradley was hired as an electrical apprentice. While some days require long hours that keep him from his family, he loves doing something different every day; learning new skills; and thinking creatively to solve programs. His advice to new apprentices is to be a sponge, learn from leaders, and work hard to earn their trust.

# Apprenticeship vs. College

## Apprenticeship

Get paid for on-the-job training.

### EARNINGS

\$20-\$35/hour to start

### YEAR 1

\$38,400 - \$67,200  
+ Benefits & Pension

### YEAR 2

\$42,240 - \$71,040  
+ Benefits & Pension

### YEAR 3

\$46,080 - \$74,880  
+ Benefits & Pension

### YEAR 4

\$49,920 - \$78,720  
+ Benefits & Pension

### TOTAL OVER 4 YEARS

# Support Services

## For Pre-Apprentices and Apprentices

### Apprenticeship Resource Center (ARC)

#### A Program of ANEW

ARC services are available to registered apprentices. ARC provides clients with support services such as:

- PPE gear and workwear.
- Required work tools.
- Education services: tuition, books and apprentice class fees.
- Transportation assistance: gas card, ORCA card or bus passes.
- Union dues and initiation fee payment assistance.
- Emergency financial assistance (based on available funding).
- Referrals to other community services.

ARC services are here to help clients achieve a greater level of self-sufficiency.

#### To Apply

- Make an appointment.
- Complete intake paperwork.
- Bring ID, SSN and most recent paystubs to determine eligibility.

#### Contact

206-710-1020

[arc@anewcareer.org](mailto:arc@anewcareer.org)

18338 Andover Park W., Building 7, Tukwila, WA 98188

[www.anewcareer.org](http://www.anewcareer.org)

### Washington State Department of Labor and Industries (LNI) Apprenticeship Program

The Apprenticeship Program at LNI serves as the administrator to the Washington State Apprenticeship and Training Council, which oversees registered apprenticeship and recognized preparatory apprenticeship programs, promoting a highly skilled, diverse construction workforce: [www.lni.wa.gov/licensing-permits/apprenticeship/become-an-apprentice](http://www.lni.wa.gov/licensing-permits/apprenticeship/become-an-apprentice)

### Urban League of Metropolitan Seattle (ULMS)

ULMS is dedicated to assisting and preparing individuals to enter pre-apprenticeship and apprenticeship programs and access work in construction. ULMS can assist with applications and collection of required documents needed to enter a training program. ULMS's goal is to provide wraparound support services for clients and help them become successful apprentices, with the long-term goal of reaching journey level.

Services include:

- Credit counseling classes.
- Driver's license assistance.
- First-time homebuyer's class.
- Financial assistance for initiation fees, union dues, tools, work clothes, transportation, food hygiene and rent.

#### To Apply

Visit [www.urbanleague.org/priorityhire](http://www.urbanleague.org/priorityhire) to register

#### Contact

206-461-3792

[ctp@urbanleague.org](mailto:ctp@urbanleague.org)

105 14th Ave., Suite 200, Seattle, WA 98122

[www.urbanleague.org](http://www.urbanleague.org)

### Washington State Department of Veterans Affairs (WDVA)

The WDVA supports all veterans, transitioning service members and their families in finding living-wage careers through GI Bill-approved apprenticeship programs. Use the resource guide to find information on state-registered apprenticeship programs and determine your approximate wage with your GI Bill benefits: [www.wacareerpaths.com/apprenticeships/](http://www.wacareerpaths.com/apprenticeships/). Questions? Contact the WDVA Apprenticeship Section at [apprenticeship@dva.wa.gov](mailto:apprenticeship@dva.wa.gov) or 360-999-8024.

## Alternative Solutions

The Department of Social and Health Services (DSHS) is redesigning service to customers through the Division of Child Support's (DCS) Alternative Solutions. There are new grants, programs and services available to pre-apprentices and apprentices to ensure they have a successful and sustainable construction career. Alternative Solutions assists with:

- Setting reasonable child support payments.
- Reinstating driver's licenses.
- Connecting people to services for legal issues, parenting plans, housing, mental health, immigration, child care and more.

The [Alternative Solutions](#) program includes a comprehensive, user-friendly database called the [DSHS Community Resource Directory](#) with over 4,500 statewide community-based organizations providing barrier removal services.

DSHS created this database to ensure that people have the support they need to succeed.

### Contact

360-664-5028 or [AlternativeSolutions@dshs.wa.gov](mailto:AlternativeSolutions@dshs.wa.gov)

# RPAC | REGIONAL PRE-APPRENTICESHIP COLLABORATION

The Regional Pre-Apprenticeship Collaboration (RPAC) works to build direct and sustainable pathways to high-paying construction careers for Puget Sound residents, especially African Americans, women and people of color.

RPAC is committed to a regionwide pre-apprenticeship system through outreach, rigorous training, retention services and policy work that help people get in, stay in and complete apprenticeship.

## Interested in attending?

RPAC welcomes anyone interested in creating a strong construction worker pathway.

- **Contractors:** Access a trained and ready workforce. Influence preparatory training and apprentice retention. Set the trend for productive, safe and inclusive work sites.
- **Apprenticeship Coordinators:** Access trained and ready applicants. Strengthen the quality of incoming apprentices. Establish inclusive, safe training environments. Retain apprentices
- **Public Agencies:** Support career pathways for local African American, Indigenous, people of color and women. Create inclusive, productive and safe work sites. Retain apprentices.
- **Community Organizations:** Connect clients to construction careers with living wages, benefits, career growth and support services.
- **Pre-Apprenticeship and CTE Programs:** Access best practices for training, share resources and coordinate funding and outreach.

Date: Last Friday of each month

Time: 8 a.m. to 10 a.m.

## Location

Tabor 100  
7100 Fort Dent Way  
Tukwila, WA 98188

# Pre-Apprenticeship

The background of the page is a solid yellow color. It features several large, stylized, yellow-outlined icons of construction equipment and structures. These include a crane, a ladder, a hammer, a saw, and a shovel, all rendered in a simple, geometric style.

---

Pre-apprenticeships are hands-on training programs that help prepare people for entry and success in the building trades. These programs provide construction training and education, in addition to helping with driver's licensing, transportation, child care, budgeting, etc. The best part is if you show up and bring your best every day, they will help you get into a paid apprenticeship program.

If you already have your high school diploma/GED, driver's license and a proven work ethic, you can go directly to the apprenticeship section and apply to the building trade of your choice.

# ANEW

## Pre-Apprenticeship Construction Education (PACE) & Trades Rotation Program (TRP) — Programs of ANEW

Multiple trade skills taught in construction shop

Employment skills (resumes, interviews, etc.), life skills (budget, teamwork, etc.) and construction math taught in classroom; industry certifications offered

TRP offers cohorts for women and those who identify as, PACE cohorts are co-ed

Twelve-week training programs, three days a week, with field trips to apprenticeship programs and construction sites

May qualify for college credits (if eligible, tuition assistance available through BFET, TANF, RISE and WIOA)

### Minimum Qualifications:

18+

Clean drug test

Desire a career in construction

### Preferred Qualifications:

High school diploma or GED (or able to obtain by end of program)

Driver's license (or able to obtain by end of program)

### Application Process

Attend an info session (in person, Zoom or self-guided)

Complete online enrollment form

Complete intake interview

Attend an orientation session (you will be invited to one after the previous steps are completed)

### Cost

Training is free

### Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

### Contact

206-381-1384

# Cement Masons

## JATC Pre-Apprenticeship

Two weeks of trade-specific training, including basic tools, safety training and hands-on projects

Direct entry into Cement Masons Apprenticeship Committee upon successful completion

## Minimum Qualifications:

18+

Driver's license

Second form of ID or I-9 verification

High school diploma or GED

Be able to pass a drug test administered on the first day of pre-employment training

## Application Process

Applications are accepted throughout the year

Applications are available online: [www.CMPLtraining.org](http://www.CMPLtraining.org)

Submit the following to [concretetraining@trowelout.org](mailto:concretetraining@trowelout.org) or [choughton@trowelout.org](mailto:choughton@trowelout.org):

Complete application

Driver's license

Social Security card or I-9 verification

High school diploma or GED

Attend a one-day, hands-on assessment where you will be evaluated based on your problem solving, agility, effective listening, communication, hand-tool coordination, punctuality and strong work ethic

## Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

## Cost

Training is free

Those who qualify can get assistance with tools, boots and initiation fees

## Contact

Training Office: 6737 Corson Ave. S., Building D-116  
Seattle, WA 98108

# CTAP

## Construction Trades Apprenticeship Preparation

Located at five male prison facilities across the state

One quarter and 20 credits

Multiple trades skills taught in construction shop

Industry certifications offered

Employment skills (resumes, interviews, etc.), life skills,

budget, teamwork, etc.), and construction math taught in classroom

Offered quarterly

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

(Participant's driver's license must be current or obtained on release)

Clean drug test

## Application Process

Counselor referral

Meet minimum qualifications

Priority enrollment for individuals close to release

## Contact

# Federal Way Public Schools

## Construction Pre-Apprenticeship Training

This program is a two-year construction pre-apprenticeship offered to current juniors and seniors who attend Federal Way High School.

Pre-apprentices will explore and prepare to enter an apprenticeship program upon graduation and may

also choose to focus on construction management and construction technology with the support of our contractor and college partners.

Successful graduates of this program earn Flagger, Forklift and OSHA safety certifications.

### Minimum Qualifications:

**FWHS**

Be a junior or senior at Federal Way High School

Desire a career in construction

### Preferred Qualifications:

Proficient in math

Good attendance

Comfortable working outdoors

In good physical condition

Ability to follow instructions and work in a team environment

### Application Process

- Notify school counselor of interest in program
- Attend info session
- Complete application
- Complete interview

### Cost

Training and certifications are free

### Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Ability to obtain driver's license by graduation
- Interest in entering an apprenticeship after high school

# Lindbergh High School Construction Tech

This program takes place over a full school year and includes 210 hours of instruction.

It's broken into units including framing, basic electrical, basic plumbing, interior finishing,

employability skills, shop and hand tool use, all with a major focus on safety.

Industry professionals visit class regularly.

## Minimum Qualifications:

### STUDENT

Be a high school junior or senior at Lindbergh High School

Completion of exploratory Lindbergh High School CTE Skilled Trades course

## Preferred Qualifications:

Desire to work in or learn more about the construction industry

Hand and shop tool experience

Ability to put safety as a top priority and work in a team

## Application Process

Notify school counselor of interest in program

## Cost

Training is free

## Need to Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others

# Palmer Scholars

## Palmer Pathways Pre-Apprenticeship Program

Serves young adults of color ages 18-26  
Combines career exploration with hands-on experience  
Offers two phases  
Phase One is six weeks of career exploration and preparation, soft skill development, safety training,

workplace competencies, physical conditioning, construction math and trades knowledge  
Phase Two is an optional eight-week dive into hands-on construction and skill development to earn six certifications and prepare for apprenticeship

## Minimum Qualifications:

18-26

At time of application

Low income (e.g., SNAP/TANF recipient)

High school diploma or GED

Driver's license or other ID

Social Security card or proof of legal employment status

Live in Pierce County

Identify as a person of color

## Application Process

Fill out an interest card to be contacted by our team at [www.palmerscholars.org/pathways](http://www.palmerscholars.org/pathways) or email us at [pathways@palmerscholars.org](mailto:pathways@palmerscholars.org) to begin the process

Full application will be completed in person or via Zoom

WIOA service providers can contact [pathways@palmerscholars.org](mailto:pathways@palmerscholars.org) for more information about enrolling their participants in Palmer's Eligible Training Provider program

## Cost

Training is free

## Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation

## Contact

# Pierce County Skills Center

## Construction Trades Pre-Apprenticeship Program

Full school-year, half-day program covering basic construction and 21st-century job skills

Covers both residential and commercial construction with an emphasis on job site safety

Goal: Prepare students for direct entry into an apprenticeship by meeting rigorous academic and industry standards

## Minimum Qualifications:

### STUDENT

Be a high school junior or senior at a participating Pierce County high school, homeschool, private school or online school

## Application Process

Meet with your high school counselor to structure your schedule

PCSC applications accepted spring of the previous school year

## Cost

Training is free

Assistance available for boots, uniform, ect.

## Need to Succeed

Be physically capable to do the work

Show up on time every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation

## Contact

# Regional Apprenticeship Pathways (RAP)

Construction trades pre-apprenticeship school specially designed for high school juniors, seniors and Everett Community College students.

Located in Marysville, pre-apprentices attend half-days for one to two years. Successful completion

leads to high school career and technical education (CTE), math, science, PE, and English credit in addition to industry certifications, college credit, and preferred entry into apprenticeship.

## Minimum Qualifications:

### STUDENT

Be a high school junior or senior at a partner school or Everett Community College student

---

## Application Process

Talk to your school counselor about RAP

Partner schools include Arlington, Darrington, Everett, Granite Falls, Lake Stevens, Lakewood, Marysville, Stanwood-Camano, Sultan, and Everett Community College

## Cost

Training is free

## Need to Succeed

Be physically capable to do the work

Show up on time every day

Work well with others

Be ready to learn

Enjoy hands-on work

Transportation is provided by most partner high schools; check with your counselor.

# Seattle Public Schools (SPS)

## Skilled Trades Pre-Apprenticeship

SPS has a half day pre-apprenticeship for seniors who want to start their careers as construction apprentices after graduation. We are aligned with the SPS Student and Community Workforce Agreement.

Students learn construction math, materials science and safe tool use through projects in wood, metal and other materials.

College credit is available for welding and drafting. Students can earn certifications including OSHA 10, flagger and forklift. Successful pre-apprentices can earn preferred entry to some apprenticeships. Guest instructors from a variety of jobs in the trades will help students choose which apprenticeship to apply for.

### Minimum Qualifications:

Senior enrolled in SPS

Committed to safety

Desire a career in construction

### Preferred Qualifications:

Driver's license or a plan to get one

Reliable transportation after graduation

Clean drug test after graduation

Necessary employment documents by graduation

### Application Process

Talk to your high school counselor

### Cost

Training is free

All tools, materials and safety gear provided

### Need to Succeed

Be physically capable to do the work

Show up early every day

Work well with others

Be ready to learn

Enjoy hands-on work

Have reliable transportation (free ORCA card provided)

# Union Apprenticeship

---

Once you are in an apprenticeship training program, you are working on a construction site, learning your trade and getting paid. You **EARN** while you **LEARN**.

It takes about four years for apprentices to become experienced journey-level workers. They reach journey level by learning from experienced workers on the job site and taking classes. Apprentices get regular pay raises along the way, plus benefits and a pension.

You do not need a clean record, a college degree or past experience. You just need to apply and try out for one of the pre-apprenticeship or apprenticeship training programs in this book. These training programs need residents of King, Pierce and Snohomish counties, veterans, women and people of color.

You do not need construction skills to get started; the professionals will teach you what you need to know. But there are some things you will need right from the start to succeed:

**Work ethic:** Be open to learn, love hard work and strive to be your best.

**Reliable:** Show up and work hard every single day, no matter what.

**Early:** Always be on-site a half-hour early to prepare for work.

**Learn:** Listen, pay attention, ask questions and follow directions.

**Hands-on:** Learn by doing, solving problems and overcoming challenges.

**Physical:** Ready for hard work, heights and cold, wet weather.

**Drug-free:** Construction sites can be dangerous. Everyone must be alert.

**Safety:** Pay attention. Wear safety gear at all times. Speak up.

# Boilermakers 104

Represented by the International Brotherhood of Boilermakers Local 104

Boilermakers are complete metal fabricators in shops and shipyards. They work with steel, aluminum and other metals to fabricate boilers off-site that get

delivered to construction sites. While they weld ships, bridges, boilers, water tanks, wood chippers, etc., their focus is mainly on the maritime industry.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license or other state- or federal-issued ID

Clean drug test

## Application Process

Applications accepted Wednesdays from 9:30 – 11 a.m.

Complete an assessment

Once placed in the candidate eligibility pool, you may be called in for an interview

Candidates in the eligibility pool may seek their own employment as an apprentice

## 2024 Hourly Wages

Starting Apprentices **\$40.75** Total (Wage + Benefits)

Journey Workers **\$51.85** Total (Wage + Benefits)

# Boilermakers 502

Represented by the International Brotherhood of Boilermakers Local 502

Boilermakers are complete metal fabricators on construction sites. They work with steel, aluminum and other metals. Their work includes new construction, repair and maintenance of things like

boilers, cranes, tanks, pipelines, cable-ways, pressure vessels and structural frames. They rig and lift loads with rope, steel cables and chains, operate power tools and may work in extreme temperatures.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Clean drug test

## Application Process

Applications are handed out at the training office Monday to Friday from 8 a.m. - 5 p.m.

## 2024 Hourly Wages

<b>Starting Apprentices</b>	\$28.41	Wage

# Bricklayers and Allied Craftworkers

Represented by the Bricklayers and Allied Craftworkers (BAC) Local 1 WA/AK Apprenticeship and Training - Western Washington Masonry Trades

Masonry trades include bricklayers, tile setters, pointer-cleaner-caulkers, refractory, marble setters, terrazzo workers and finishers. Professionals in each craft work inside and out at substantial heights and ground level.

Most of their work involves finishes; some is structural, and all crafts require attention to detail and creative problem-solving skills. Their beautiful, finished surfaces last for years.

## Minimum Qualifications:

- 

**18+**
- 

High school diploma or GED
- 

Driver's license
- 

Social Security card or I-9 verification
- 

Clean drug test

## Application Process

- Application must be filled out and turned in on the same visit
- Bring driver's license, high school diploma or GED and Social Security card
- Qualifying veterans may use their GI bill
- Pass drug test
- Complete pre-job training
- Pass basic math test

## Contact

# Carpenters

Represented by the Western States Regional Council of Carpenters (WSRCC) Locals 206, 425, 360, 96, and 196

Multiple four-year training programs are offered within the carpenters training program. General carpenters build concrete forms, wood framing and layout. Interior systems professionals install acoustical ceilings, metal framing and wall partitions. Millwrights install and repair machinery like compressors, turbines, conveyors and monorails. Piledrivers drive

piling and build docks and piers. Scaffold erectors build and maintain scaffolding. Shipwrights repair and renovate boats. Trade show workers and floor coverers are also carpentry crafts. Insulators insulate buildings with vapor barrier, spray foam insulation, and install batting. The insulator program is two years.

## Minimum Qualifications:

18+

Or 17 years old with written parental consent

Driver's license

Clean drug test

## Application Process

Fill out application - available at local training centers

Attend 8-hour trade orientation, including hands-on assessment and math exam

## 2024 Hourly Wages

<b>Starting Apprentices</b>	\$36.92	Wage
	\$17.42	Benefits
	<b>\$54.34</b>	<b>Total</b>
<b>Journey Workers</b>	\$61.54	Wage
	\$17.42	Benefits
	<b>\$78.96</b>	<b>Total</b>

Basic skills and wages vary by carpentry craft.

# Cement Masons

Represented by the Cement Masons and Plasterers of Washington Local 528

Cement masons place, smooth, finish and repair concrete structures from heavy commercial to private residential projects. This includes floors, walls, sidewalks, curbs, columns, bridges and high rises. They also set forms; polish concrete; perform structural repair; apply epoxies and polymer-modified products;

and apply decorative and structural coatings. Cement masons use a variety of hand and power tools. They work on the ground, underground, on scaffolds and on various work platforms. The work can be physically demanding and meticulous. Often the work is a finished product to be seen for years afterwards.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Second form of ID or I-9 verification

Clean drug test (administered by the apprenticeship during orientation)

## Application Process

Applications are accepted throughout the year  
 Applications are available online: [www.CMPLtraining.org](http://www.CMPLtraining.org)  
 Submit the following to [concretetraining@trowelout.org](mailto:concretetraining@trowelout.org) or [choughton@trowelout.org](mailto:choughton@trowelout.org):

- Completed application
- Driver's license
- Social Security card or I-9 verification
- High school diploma or GED

Attend a one-day, hands-on assessment where you will be evaluated on your problem solving, agility, effective listening, communication, hand-tool coordination, punctuality and strong work ethic

Selected candidates shall attend an 80-hour pass/fail class

A passing grade is required to become an apprentice

# Electricians

Represented by the International Brotherhood of Electrical Workers (IBEW) Local 191

Inside wiremen install the power, lighting and controls in commercial and industrial buildings. Limited energy technicians install circuits and equipment for low

voltage systems like phones, computer networks and security systems. Residential wiremen install electrical systems in houses.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Social Security card

Birth certificate or proof of legal employment status

## Application Process

Submit application request form on-line: [www.nwejatc.org](http://www.nwejatc.org)

Submit valid and current documents:

Resume

Training (pre-apprenticeship, classes, certifications)

Work experience (check stubs, W-2s)

Military (DD214, ID card)

Math for Inside Wireman and Limited Energy Technician:

One full year of high school algebra with a C or Electrical Training Alliance online tech math course

Math for Residential Wireman: General mathematics with a grade of C or better

In-person interview — selection process

## 2024 Hourly Wages

### Starting Apprentices

Residential Wireman	Limited Energy Technician	Inside Wireman	
\$18.64	\$18.69	\$23.60	Wage
\$12.97	\$16.51	\$9.76	Benefits

# Floor Layers

Represented by the International Union of Painters and Allied Trades (IUPAT) Local 1238

Carpet, linoleum and soft tile layers measure, cut and install carpet, artificial turf, linoleum, soft tile, vinyl, wood, etc. in offices, homes, stores and many other

structures. They work with plans and blueprints and have the math skills to measure, estimate and install materials to create a beautiful finished product.

## Minimum Qualifications:

18+

Valid I-9 employment verification documents

Must be able to perform the work of the trade with or without reasonable accommodations

Minimum score of 80% on the FTINW Math Assessment

Clean drug test

Driver's license

## Application Process

Apply at training office

Complete the FTINW math assessment

Applicants placed in a pool of eligible candidates

Applicants must contact training office on or before the first business day of every month to remain on list

If selected for employment, the applicant has seven working days to sign up with local 1238 and enroll in our apprenticeship program

## 2024 Hourly Wages

<b>Starting Apprentices</b>	\$20.61	Wage
	\$9.01	Benefits
	<b>\$29.62</b>	<b>Total</b>

<b>Journey Workers</b>	\$37.48	Wage

# Heat & Frost Insulators

Represented by the International Association of Heat & Frost Insulators and Allied Workers Local 7

Heat and frost insulators will become skilled in the installation of mechanical insulation, fire stopping, asbestos and lead mitigation or abatement,

and sound-proofing materials. Insulators work in many different industries including commercial, industrial, marine and processing.

## Minimum Qualifications:

18+

Proof of dependable transportation (vehicle registration, proof of insurance, note from owner allowing usage)

Driver's license

Social Security card (or other forms of ID to fulfill I-9 requirements)

Passing a math test with 70% minimum at time of application

Clean drug test

Helpful courses include:

- Math
- Mechanical drawing
- Blueprint reading
- Metal and electrical shop work

## Application Process

Must apply in person

Bring:

- High school diploma/GED if applicable
- Letters of reference
- Resume
- Job-related certifications
- Training certifications

Apprentices must attend all training classes — 4 weeks per year

# Ironworkers

Represented by Pacific Northwest Ironworkers Local 86

Ironworkers erect the structural framework for high rise buildings, bridges, etc. They place reinforcing steel in concrete forms for roadways, foundations and structures. Welding, ornamental, rigging and

machinery moving are also a part of this trade. Ironworkers perform rigorous manual labor and work at high elevations.

## Minimum Qualifications:

18+

Driver's license

Social Security card or proof of legal employment status

Vehicle registration

Proficient in English (ability to read, write and speak English)

Clean drug test

## Application Process

Applications are accepted year-round, Monday - Friday, from 7 a.m. - 3 p.m.

Applications must be filled out and submitted in person

Applicants must provide original documents:

- Driver's license
- Social Security card or proof of legal employment status
- Proof of dependable transportation
- Résumé
- DD214 (veterans only)

Applicants wishing to receive extra points can provide the following documents at time of application:

- High school diploma/GED
- College transcripts
- Trade school transcripts
- DD214
- W-2s, pay stubs of previous work experience in construction or an ironworker-related trade
- Professional letters of recommendation
- Welding certifications

Applicants must keep their address and phone number current

## 2024 Hourly Wages

<b>Starting Apprentices</b>	\$36.69	Wage
	\$14.02	Benefits
	<b>\$50.71</b>	<b>Total</b>
<b>Journey Workers</b>	\$56.45	Wage
	\$34.37	Benefits

# Laborers

Represented by the Laborers International Union of North America Locals 242, 252 and 292

Laborers prepare construction sites by eliminating hazards, digging trenches, drilling, lagging, tunneling, laying pipe, performing traffic control, laying asphalt on heavy highway projects, mixing and placing concrete and setting bracing to support excavations. They load, unload and distribute materials. They also support

many other craft workers with fireproofing, mason tending, carpentry tending, asbestos, demolition, shotcrete and hazardous waste removal. Positions include concrete foremen, pipe foremen, safety supervisors, hazardous material supervisors and asbestos supervisors.

## Minimum Qualifications:

18+

Valid state/  
federal ID

2nd form  
of ID (Social  
Security card  
or passport)

Clean drug  
test

## Application Process

- Complete application
- 4-5 hour orientation (call for dates, times and location)
- Take assessment test: construction, hand and power tools, machinery, safety, reading and math
- Submit documentation of achievement for extra credit:
  - Education
  - Training
  - Work experience certification (pay stubs, W-2s)
- Complete in-person interview with coordinator
- Selected candidates must complete one-week of pre-construction training and pass drug test

# Operating Engineers

Represented by the International Union of Operating Engineers (IUOE) Locals 302 & 612

Operating engineers operate the bulldozers, motor graders, backhoes, paving machinery and cranes that help to form highways, site infrastructure and skylines. They work mines, dig wells, survey sites, pave and

grind roads, drill and hoist steel and slabs. They also do the final grading as well as maintain/repair machinery. Operating engineers may travel up to 80 miles or more to job sites.

## Minimum Qualifications:

 <b>18+</b>	 <b>High school diploma or GED*</b>	 <b>Driver's license (DD-14 if necessary for veteran credit)</b>	 <b>Social Security card or I-9 verification</b>	 <b>Proficient in English</b>	 <b>Clean drug test</b>	 <b>Pass physical exam</b>	 <b>Complete math and reading tests</b>
---	---	--	--	---	--	--	---

\*Diploma waiver granted for applicants who can provide documentation that they've worked at least two years in construction. Waiver also requires a minimum of 80% on math and reading tests.

## Application Process

Applications due in November for selection and training the following spring

Applications are available at [www.oetraining.com](http://www.oetraining.com)

Qualified applicants will be notified of time and place to appear for interview

Top applicants are required to complete one-week safety and orientation training in Ellensburg

# Plasterers

Represented by the Plasterers and Cement Masons of Washington Local 528

Plasterers provide the interior and exterior finishes on walls of buildings and homes, using primarily hand tools and a wide variety of materials. They make finishes look like wood, stone, block and marble. Machines are also used to apply plastering materials, but handcraft skills are the majority of the work. They

use conventional plaster, veneer plaster, stucco, weather barriers, exterior insulated finish systems, fireproofing and more products. Must be in physical shape and have good balance, eyesight and hearing. Plasterers work indoors and out. They are required to work from heights on scaffolding, swing stage and lifts.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Second form of ID or I-9 verification

Clean drug test  
(administered by the apprenticeship during orientation)

## Application Process

Applications are accepted throughout the year  
Applications are online: [www.CMPLtraining.org](http://www.CMPLtraining.org)  
Submit the following to [concretetraining@trowelout.org](mailto:concretetraining@trowelout.org) or [choughton@trowelout.org](mailto:choughton@trowelout.org):

- Completed application
- Driver's license
- Social Security Card or I-9 verification

# Plumbers, Pipefitters & HVAC/ Refrigeration

Represented by the United Association of Plumbers and Pipefitters Local 32

Plumbers install piping for water systems, drain, waste and vent systems, irrigation, water mains, bathroom accessories and gas. Steamfitters assemble and install pipe to carry water, steam, compressed air,

gases, etc. HVAC/refrigeration fitters install, maintain and service refrigeration, heating, ventilating and air conditioning systems. Marine fitters install and maintain plumbing and pipefitting on ships.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Clean drug test

### Math qualifications:

- Provide transcripts showing a grade of **B or better** in an algebra course taken **within the last year**, either through high school or college; OR
- Results from a college entrance test that shows the candidate could be enrolled in a class at math 90 or higher. These tests can be done at a Washington state community or technical college.

## Application Process

Applications are taken year-round, but check with program for deadlines

Apprentices accepted twice a year, in the fall and summer

Bring documentation of minimum qualifications to the training office

Complete the application in the office from Monday - Friday, 7:30 a.m. to 4 p.m.

Applicants will be scheduled for hands-on testing to be given an interview at a later date

## 2024 Hourly Wages

<b>Starting Apprentices</b>	\$39.51	Wage
(Commercial Plumber & Steamfitter)	\$11.94	Benefits

# Sheet Metal Workers

Represented by SMART, the International Association of Sheet Metal, Air, Rail and Transportation Workers, Local 66

Sheet metal is any metal that can be formed into flat pieces. These metals include cold rolled steel, mild steel, stainless steel, tin, nickel and copper. Sheet metal workers cut, roll, bend and shape these pieces into HVAC system ductwork, medical tables, building

facades, etc. After fabricating their products, sheet metal workers install what they created. Sheet metal work also includes service and maintenance of HVAC equipment and testing, adjusting and balancing of HVAC systems.

## Minimum Qualifications:

18+

High school diploma or GED

Driver's license

Proof of auto insurance

Clean drug test

Applicants accepted into the HVAC service technician or HVAC controls technician programs must have a current:

- Washington state electrical training certificate **OR**
- Washington state electrical certification

## Application Process

Applications must be filled out at [www.wwsmjtc.org](http://www.wwsmjtc.org)

Within 30 days, submit:

- Driver's license
- High school transcript or GED scores
- Proof of auto insurance

Applicants will be scheduled for a math and reading exam

Qualified applicants may be scheduled for an interview and minimum qualification screening day prior to being placed on ranked eligibility list (highest score first)

Apprentices are accepted as needed based on:

- Interview score
- Minimum qualification screening day score
- Clean drug test
- Geographic availability
- Timely response to contact from apprenticeship

# Teamsters

Training Washington and Southern Idaho Teamsters since 1982

Teamster construction truck drivers deliver sand, gravel, crushed rock, concrete and other materials to construction sites. They also haul dirt and other excavated materials away from construction sites. They drive dump trucks and trailers of all sizes and

types including truck and pup, side dump, belly dump, water truck and sweeper truck. Apprentices will obtain a class A commercial driver's license and must learn to perform complex backing skills.

## Minimum Qualifications:

18+

Driver's license

Proficient in English

Clean drug/alcohol test

Clean driving record

## Application Process

Applications are accepted year-round

Classes are held in the spring/summer each year

Download and fill out an application online at [www.teamsterstraining.org](http://www.teamsterstraining.org)

Choose a geographical area (western or eastern Washington)

Attend orientation, interview and drive (passing score required)

Selection based on the results of the interview

Selected candidates must complete unpaid six-week Commercial Driver License (CDL) course and provide a current Department of Transportation (DOT) Medical Certificate

Applicants must keep their phone number and address current

## 2024 Hourly Wages

<b>Starting Apprentices</b>	\$36.14	Wage
	\$24.52	Benefits
	<b>\$60.66</b>	<b>Total</b>
<b>Journey Workers</b>	\$51.63	Wage
	\$24.52	Benefits
	<b>\$76.15</b>	<b>Total</b>
