

**The Jigsaw
Puzzle of Life**

For some, the puzzle is harder to piece together

Program A

Program B

If the person would just
do Program A or B, then
the problem would end!

**If we just took X
approach, then the
problem would
end!**

Courts authorized to work cooperatively

“Individual trial courts are authorized and encouraged to establish multijurisdictional partnerships and/or interlocal agreements under RCW 39.34.180 to enhance and expand the coverage area of the therapeutic court. Specifically, district and municipal courts may work cooperatively with each other and with the superior courts to identify and implement nontraditional case processing methods which can eliminate traditional barriers that decrease judicial efficiency.”

Funding Gaps

- Managing the regional approach
 - “Care traffic controllers”*
 - Peers?
 - *Crisis Now* type model?
 - Data collection and sharing
 - Benefits the people we serve if we each know where the person is on their journey
 - It also allows us to better manage resources
 - Are we increasing demand?
 - Are we adding anyone to the providers that is not already eligible for services?
 - If so, then what other funding do we need?
 - Other issues?
- Petition of Support
