

INFORMATION TECHNOLOGY (IT) INVESTMENT THRESHOLDS AND REQUIREMENTS

The following definitions are intended as guidance only. There will be technology investments that due to the size or scope of the project, its operational impact, or likely stakeholder interest will require a unique approach. Consult your IT Service Delivery Manager and PSB analyst when questions arise.

1) DEFINITION OF A TECHNOLOGY INVESTMENT PROJECT:

- ❖ Any one-time technology investment (except equipment replacement investment – see below) which will add a new system, replace or upgrade an existing system, or impact business operations. This includes Software-as-a-Service vended projects.
- ❖ The required budget documentation varies depending on the size of the total investment and whether it is an existing or new appropriation.

IT Investments - Other than Equipment Replacement and O&M of Existing Applications
