

Electronic Permit Plan Requirements

The Department of Local Services, Permitting Division (Permitting) is accepting some permit applications online for the unincorporated areas King County. Online permit submittals can be made through <u>MyBuildingPermit.com</u> (MBP). Since the number and types of online permit submittals is increasing over time, check current list of <u>available unincorporated King County online permits</u>.

Additional information regarding the use of MBP, including user accounts and the application dashboard, can be found on the <u>MBP Help page</u>.

General Requirements

The following is generalized information for all project types. Not all permit types require all of the documents listed below. General information and submittal guidelines are available through the following MBP documents; Electronic Document Submittal Standards, <u>General Requirements</u> and <u>Increased Review Efficiency</u>.

Permitting plan templates are available on the <u>Permit application forms listed by packet web page</u> in the Computer Aided Design CAD Templates and Data Resources section.

Site Plan Requirements
