

WASHINGTON STATE

Joint Aquatic Resources Permit Application (JARPA) Form^{1,2} [\[help\]](#)

USE BLACK OR BLUE INK TO ENTER ANSWERS IN THE WHITE SPACES BELOW.

US Army Corps of Engineers®
Seattle District

AGENCY USE ONLY

Date received: _____

Agency reference #: _____

Tax Parcel #(s): _____

Part 1—Project Identification

1. Project Name (A name for your project that you create. Examples: Smith's Dock or Seabrook Lane Development) [\[help\]](#)

Lawson Bulkhead Repair and Maintenance Project

Part 2—Applicant

The person and/or organization responsible for the project. [\[help\]](#)

2a. Name (Last, First, Middle)

Lawson, Matt

2b. Organization (If applicable)

Lawson Family Trust

2c. Mailing Address (Street or PO Box)

29340 Paseo Paterna

2d. City, State, Zip

San Juan Capistrano, CA 92675

2e. Phone (1)

949.274.5175

2f. Phone (2)

2g. Fax

2h. E-mail

mandc_lawson@me.com

¹Additional forms may be required for the following permits:

- If your project may qualify for Department of the Army authorization through a Regional General Permit (RGP), contact the U.S. Army Corps of Engineers for application information (206) 764-3495.
- Not all cities and counties accept the JARPA for their local Shoreline permits. If you need a Shoreline permit, contact the appropriate city or county government to make sure they accept the JARPA.

²To access an online JARPA form with [\[help\]](#) screens, go to <https://www.oria.wa.gov/jarpa-forms>.

For other help, contact the Governor's Office for Regulatory Innovation and Assistance at (800) 917-0043 or help@oria.wa.gov.

Part 3—Authorized Agent or Contact

Person authorized to represent the applicant about the project. (Note: Authorized agent(s) must sign 11b of this application.) [\[help\]](#)

3a. Name (Last, First, Middle)			
Rehe, Bill; Dinkins, Janae; Leon, Peter			
3b. Organization (If applicable)			
Leon Environmental, LLC			
3c. Mailing Address (Street or PO Box)			
8047 Burke Ave. N			
3d. City, State, Zip			
Seattle, WA 98103			
3e. Phone (1)	3f. Phone (2)	3g. Fax	3h. E-mail
253.389.0712 (Rehe) 206.948.5366 (Leon) 214.263.5575 (Dinkins)			rehe@leon-environmental.com peter@leon-environmental.com dinkins@leon-environmental.com

Part 4—Property Owner(s)

Contact information for people or organizations owning the property(ies) where the project will occur. Consider both **upland and aquatic** ownership because the upland owners may not own the adjacent aquatic land. [\[help\]](#)

- Same as applicant. (Skip to Part 5.)
- Repair or maintenance activities on existing rights-of-way or easements. (Skip to Part 5.)
- There are multiple upland property owners. Complete the section below and fill out [JARPA Attachment A](#) for each additional property owner.
- Your project is on Department of Natural Resources (DNR)-managed aquatic lands. If you don't know, contact the DNR at (360) 902-1100 to determine aquatic land ownership. If yes, complete [JARPA Attachment E](#) to apply for the Aquatic Use Authorization.

4a. Name (Last, First, Middle)			
4b. Organization (If applicable)			
4c. Mailing Address (Street or PO Box)			
4d. City, State, Zip			
4e. Phone (1)	4f. Phone (2)	4g. Fax	4h. E-mail

Part 5–Project Location(s)

Identifying information about the property or properties where the project will occur. [\[help\]](#)

- There are multiple project locations (e.g. linear projects). Complete the section below and use [JARPA Attachment B](#) for each additional project location.

5a. Indicate the type of ownership of the property. (Check all that apply.) [help]			
<input checked="" type="checkbox"/> Private <input type="checkbox"/> Federal <input type="checkbox"/> Publicly owned (state, county, city, special districts like schools, ports, etc.) <input type="checkbox"/> Tribal <input type="checkbox"/> Department of Natural Resources (DNR) – managed aquatic lands (Complete JARPA Attachment E)			
5b. Street Address (Cannot be a PO Box. If there is no address, provide other location information in 5p.) [help]			
25932 Gold Beach Dr. SW			
5c. City, State, Zip (If the project is not in a city or town, provide the name of the nearest city or town.) [help]			
Vashon, WA 98070			
5d. County [help]			
King			
5e. Provide the section, township, and range for the project location. [help]			
¼ Section	Section	Township	Range
NW	28	22	03
5f. Provide the latitude and longitude of the project location. [help]			
<ul style="list-style-type: none"> Example: 47.03922 N lat. / -122.89142 W long. (Use decimal degrees - NAD 83) 			
47.370136 N lat./ -122.89142 W long.			
5g. List the tax parcel number(s) for the project location. [help]			
<ul style="list-style-type: none"> The local county assessor's office can provide this information. 			
2817000220			
5h. Contact information for all adjoining property owners. (If you need more space, use JARPA Attachment C.) [help]			
Name	Mailing Address		Tax Parcel # (if known)
Millie Michael	25926 Gold Beach Dr SW Vashon, WA 98070		2817000230
Greg Mulvihill	25938 Gold Beach Dr SW Vashon, WA 98070		2817000210

5i. List all wetlands on or adjacent to the project location. [\[help\]](#)

There are no wetlands on the project location. The US Fish and Wildlife Service National Wetland Inventory (NWI) mapper shows potential E2AB/USN (Estuarine Intertidal Aquatic Bed/Unconsolidated Shore, Regularly Flooded) on or adjacent to the project location. Although the shoreline is inundated by tidal water and has hydric soils, it lacks hydrophytic vegetation. Therefore, there is no estuarine wetland.

5j. List all waterbodies (other than wetlands) on or adjacent to the project location. [\[help\]](#)

Puget Sound

5k. Is any part of the project area within a 100-year floodplain? [\[help\]](#)

Yes No Don't know

5l. Briefly describe the vegetation and habitat conditions on the property. [\[help\]](#)

Upland vegetation included various grasses, dune grass, seaside plantain, and ornamental landscaping.

The beach is predominantly comprised of pea gravel, cobble and large gravel over sand with scattered patches of small boulders and metal debris. Below OHW and approximately 60 feet waterward of the existing shoreline structures, there was some *sargassum*, *Scytosiphon simplicissimus* (AKA soda straws), and *Ulva* species on the beach. There was no evidence of seagrass presence during the site visit. DNR's Puget Sound Eelgrass Monitoring online mapping tool indicated the presence of eelgrass within the vicinity project area. The Department of Ecology (Ecology) Washington State Coastal Atlas showed potential fringe (patchy) eelgrass. There was no large woody debris on the beach at the time of the site visit.

5m. Describe how the property is currently used. [\[help\]](#)

Single-family residence.

5n. Describe how the adjacent properties are currently used. [\[help\]](#)

The adjacent properties are also single-family residences.

5o. Describe the structures (above and below ground) on the property, including their purpose(s) and current condition. [\[help\]](#)

Upland structures include a single-family residence, water connection, septic system, attached wood decks, brick slab deck, garage, driveway, two timber retaining walls landward of the deteriorating existing bulkhead. Structures on or adjacent to the marine shoreline include a basalt rock bulkhead.

5p. Provide driving directions from the closest highway to the project location, and attach a map. [\[help\]](#)

Driving from the North-End Ferry Terminal:

- Take Vashon Hwy SW and Dockton Rd SW to 75th Ave SW
- Turn left onto 75th Ave SW
- Continue onto George Edwards Rd
- George Edwards Rd turns slightly left and becomes 75th Ave SW
- Turn left onto SW 259th Way
- Turn left onto Gold Beach Dr SW

Part 6–Project Description

6a. Briefly summarize the overall project. You can provide more detail in 6b. [\[help\]](#)

The proposed project will repair and maintain the existing, damaged shoreline protection on the applicant's property in order to protect residential structures from damage caused by tidal- and wind-driven erosion of the shoreline. Repairs and maintenance to the existing shoreline protection includes the replacement of angular rock to several areas of damage above the OHW/HTL.

6b. Describe the purpose of the project and why you want or need to perform it. [\[help\]](#)

The purpose of the proposed project is to protect the existing upland single-family residence and associated infrastructure by repairing and maintaining the existing damaged shoreline protection. Sections of the existing shoreline protection currently allow fill material to be actively eroded from behind and do not adequately protect the shoreline from wave-driven erosion during high tides and winter storm surges.

6c. Indicate the project category. (Check all that apply) [\[help\]](#)

- Commercial
 Residential
 Institutional
 Transportation
 Recreational
 Maintenance
 Environmental Enhancement

6d. Indicate the major elements of your project. (Check all that apply) [\[help\]](#)

- | | | | |
|---|---|--|--|
| <input type="checkbox"/> Aquaculture | <input type="checkbox"/> Culvert | <input type="checkbox"/> Float | <input type="checkbox"/> Retaining Wall (upland) |
| <input type="checkbox"/> Bank Stabilization | <input type="checkbox"/> Dam / Weir | <input type="checkbox"/> Floating Home | <input type="checkbox"/> Road |

Other:

6e. Describe how you plan to construct each project element checked in 6d. Include specific construction methods and equipment to be used. [\[help\]](#)

- Identify where each element will occur in relation to the nearest waterbody.
- Indicate which activities are within the 100-year floodplain.

Equipment and material will be brought in by barge or the upland. The contractor will work from a barge or within the 25' work corridor. Work from the beach will occur when the project site is in the dry at low tide. No fine-grain materials will be placed below OHW. Any existing large woody material, if present, will be temporarily stockpiled and placed back in their previous general location once the bulkhead is replaced. Clearing of vegetation will mostly consist of grasses and herbaceous species immediately above the existing bulkhead.

Maintenance will include the replacement of missing rocks from voids and the top of the southern end of the bulkhead and the placement of structural fill behind the bulkhead. Geotextile, coir fabric, and/or other stabilization BMPs implemented by the contractor will be used, as necessary or required, to stabilize the bank and prevent erosion. Impacted vegetation will be either replanted or replaced with like vegetation.

6f. What are the anticipated start and end dates for project construction? (Month/Year) [\[help\]](#)

- If the project will be constructed in phases or stages, use [JARPA Attachment D](#) to list the start and end dates of each phase or stage.

Start Date: As soon as permits are received and tides allow work End Date: 2-3 weeks after start See JARPA Attachment D

6g. Fair market value of the project, including materials, labor, machine rentals, etc. [\[help\]](#)

TBD

6h. Will any portion of the project receive federal funding? [\[help\]](#)

- If **yes**, list each agency providing funds.

Yes No Don't know

Part 7–Wetlands: Impacts and Mitigation

- Check here if there are wetlands or wetland buffers on or adjacent to the project area.
(If there are none, skip to Part 8.) [\[help\]](#)

7a. Describe how the project has been designed to avoid and minimize adverse impacts to wetlands. [\[help\]](#)

Not applicable

7b. Will the project impact wetlands? [\[help\]](#)

Yes No Don't know

7c. Will the project impact wetland buffers? [\[help\]](#)

Yes No Don't know

7d. Has a wetland delineation report been prepared? [\[help\]](#)

- If **Yes**, submit the report, including data sheets, with the JARPA package.

Yes No

7e. Have the wetlands been rated using the Western Washington or Eastern Washington Wetland Rating System? [\[help\]](#)

- If **Yes**, submit the wetland rating forms and figures with the JARPA package.

Yes No Don't know

7f. Have you prepared a mitigation plan to compensate for any adverse impacts to wetlands? [\[help\]](#)

- If **Yes**, submit the plan with the JARPA package and answer 7g.
- If **No, or Not applicable**, explain below why a mitigation plan should not be required.

Yes No Don't know

7g. Summarize what the mitigation plan is meant to accomplish, and describe how a watershed approach was used to design the plan. [\[help\]](#)

7h. Use the table below to list the type and rating of each wetland impacted, the extent and duration of the impact, and the type and amount of mitigation proposed. Or if you are submitting a mitigation plan with a similar table, you can state (below) where we can find this information in the plan. [\[help\]](#)

Activity (fill, drain, excavate, flood, etc.)	Wetland Name ¹	Wetland type and rating category ²	Impact area (sq. ft. or Acres)	Duration of impact ³	Proposed mitigation type ⁴	Wetland mitigation area (sq. ft. or acres)

¹ If no official name for the wetland exists, create a unique name (such as "Wetland 1"). The name should be consistent with other project documents, such as a wetland delineation report.

² Ecology wetland category based on current Western Washington or Eastern Washington Wetland Rating System. Provide the wetland rating forms with the JARPA package.

³ Indicate the days, months or years the wetland will be measurably impacted by the activity. Enter "permanent" if applicable.

⁴ Creation (C), Re-establishment/Rehabilitation (R), Enhancement (E), Preservation (P), Mitigation Bank/In-lieu fee (B)

Page number(s) for similar information in the mitigation plan, if available: _____

7i. For all filling activities identified in 7h, describe the source and nature of the fill material, the amount in cubic yards that will be used, and how and where it will be placed into the wetland. [\[help\]](#)

7j. For all excavating activities identified in 7h, describe the excavation method, type and amount of material in cubic yards you will remove, and where the material will be disposed. [\[help\]](#)

Part 8–Waterbodies (other than wetlands): Impacts and Mitigation

In Part 8, "waterbodies" refers to non-wetland waterbodies. (See Part 7 for information related to wetlands.) [\[help\]](#)

Check here if there are waterbodies on or adjacent to the project area. (If there are none, skip to Part 9.)

8a. Describe how the project is designed to avoid and minimize adverse impacts to the aquatic environment. [\[help\]](#)

Not applicable

The contractor will repair/maintain the existing bulkhead by replacing rocks in the voids and along the southern end of the bulkhead with clean, granite stones sourced from an upland quarry. The project was also designed to minimize adverse impacts by not stockpiling fine-grained material below OHW/HTL. The barge will not ground out in any native aquatic vegetation and the tug will operate in a manner to reduce prop wash. The project will use appropriate best management practices as needed and/or as required to reduce or control potential erosion and stormwater impacts.

8b. Will your project impact a waterbody or the area around a waterbody? [\[help\]](#)

Yes No

8c. Have you prepared a mitigation plan to compensate for the project's adverse impacts to non-wetland waterbodies? [\[help\]](#)

- **If Yes**, submit the plan with the JARPA package and answer 8d.
- **If No, or Not applicable**, explain below why a mitigation plan should not be required.

Yes No Don't know

No mitigation plan has been prepared, but mitigation is being proposed. Repair and maintenance to the southern end of the bulkhead may result in the disturbance of existing vegetation. Impacted vegetation will either be replanted or replaced with similar native vegetation.

8d. Summarize what the mitigation plan is meant to accomplish. Describe how a watershed approach was used to design the plan.

- If you already completed 7g you do not need to restate your answer here. [\[help\]](#)

The proposed mitigation is meant to ensure the project does not result in a net loss of shoreline habitat.

8e. Summarize impact(s) to each waterbody in the table below. [\[help\]](#)

Activity (clear, dredge, fill, pile drive, etc.)	Waterbody name ¹	Impact location ²	Duration of impact ³	Amount of material (cubic yards) to be placed in or removed from waterbody	Area (sq. ft. or linear ft.) of waterbody directly affected
Replace missing bulkhead rocks	Puget Sound	Adjacent	Permanent	None. (6 CY adjacent)	None (12 LF adjacent)
Replace structural backfill material	Puget Sound	Adjacent	Permanent	None (2.25 CY adjacent)	None (12 LF adjacent)

¹ If no official name for the waterbody exists, create a unique name (such as "Stream 1") The name should be consistent with other documents provided.

² Indicate whether the impact will occur in or adjacent to the waterbody. If adjacent, provide the distance between the impact and the waterbody and indicate whether the impact will occur within the 100-year flood plain.

³ Indicate the days, months or years the waterbody will be measurably impacted by the work. Enter "permanent" if applicable.

8f. For all activities identified in 8e, describe the source and nature of the fill material, amount (in cubic yards) you will use, and how and where it will be placed into the waterbody. [\[help\]](#)

Bulkhead rock and structural back fill material will come from an upland quarry.

8g. For all excavating or dredging activities identified in 8e, describe the method for excavating or dredging, type and amount of material you will remove, and where the material will be disposed. [\[help\]](#)

No excavation or dredging will occur.

8h. Have you prepared a Water Quality Monitoring Plan (WQMP) for all in-water work (below ordinary high water), over water work or discharges to waters of the state?

Yes No

If NO describe the monitoring that you will be conducting including parameters, equipment and locations, or explain why monitoring will not be necessary. [\[help\]](#)

Water quality monitoring is not proposed because the project has been designed to avoid and minimize water quality impacts, in addition to project-specific BMPs, as described in Section 8a of this JARPA.

Part 9—Additional Information

Any additional information you can provide helps the reviewer(s) understand your project. Complete as much of this section as you can. It is ok if you cannot answer a question.

9a. If you have already worked with any government agencies on this project, list them below. [\[help\]](#)

Agency Name	Contact Name	Phone	Most Recent Date of Contact

9b. Are any of the wetlands or waterbodies identified in Part 7 or Part 8 of this JARPA on the Washington Department of Ecology’s 303(d) List? [\[help\]](#)

- If Yes, list the parameter(s) below.
- If you don’t know, use Washington Department of Ecology’s Water Quality Assessment tools at: <https://ecology.wa.gov/Water-Shorelines/Water-quality/Water-improvement/Assessment-of-state-waters-303d>.

Yes No

9c. What U.S. Geological Survey Hydrological Unit Code (HUC) is the project in? [\[help\]](#)

- Go to <http://cfpub.epa.gov/surf/locate/index.cfm> to help identify the HUC.

171100190403

<p>9d. What Water Resource Inventory Area Number (WRIA #) is the project in? [help]</p> <ul style="list-style-type: none"> Go to https://ecology.wa.gov/Water-Shorelines/Water-supply/Water-availability/Watershed-look-up to find the WRIA #.
<p>WRIA 15</p>
<p>9e. Will the in-water construction work comply with the State of Washington water quality standards for turbidity? [help]</p> <ul style="list-style-type: none"> Go to https://ecology.wa.gov/Water-Shorelines/Water-quality/Freshwater/Surface-water-quality-standards/Criteria for the standards.
<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not applicable</p>
<p>9f. If the project is within the jurisdiction of the Shoreline Management Act, what is the local shoreline environment designation? [help]</p> <ul style="list-style-type: none"> If you don't know, contact the local planning department. For more information, go to: https://ecology.wa.gov/Water-Shorelines/Shoreline-coastal-management/Shoreline-coastal-planning/Shoreline-laws-rules-and-cases.
<p><input type="checkbox"/> Urban <input type="checkbox"/> Natural <input type="checkbox"/> Aquatic <input type="checkbox"/> Conservancy <input checked="" type="checkbox"/> Other: <u>Rural</u></p>
<p>9g. What is the Washington Department of Natural Resources Water Type? [help]</p> <ul style="list-style-type: none"> Go to http://www.dnr.wa.gov/forest-practices-water-typing for the Forest Practices Water Typing System.
<p><input checked="" type="checkbox"/> Shoreline <input type="checkbox"/> Fish <input type="checkbox"/> Non-Fish Perennial <input type="checkbox"/> Non-Fish Seasonal</p>
<p>9h. Will this project be designed to meet the Washington Department of Ecology's most current stormwater manual? [help]</p> <ul style="list-style-type: none"> If No, provide the name of the manual your project is designed to meet.
<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p>Name of manual: <u>2024 Stormwater Management Manual for Western Washington</u></p>
<p>9i. Does the project site have known contaminated sediment? [help]</p> <ul style="list-style-type: none"> If Yes, please describe below.
<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>
<p>9j. If you know what the property was used for in the past, describe below. [help]</p> <p>Single-family residence.</p>
<p>9k. Is the project located in or adjacent to a designated state or federal contaminated site or clean-up site. (e.g. MTCA or CERCLA)?</p> <ul style="list-style-type: none"> If Yes, provide any additional details below.
<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>
<p>9l. Has a cultural resource (archaeological) survey been performed on the project area? [help]</p> <ul style="list-style-type: none"> If Yes, attach it to your JARPA package.

Yes No

9m. Name each species listed under the federal Endangered Species Act that occurs in the vicinity of the project area or might be affected by the proposed work. [\[help\]](#)

The following species can be found in the Puget Sound. The proposed work is expected to have no effect on these species.

Bocaccio (*Sebastes paucispinis*) – Endangered
Bull Trout (*Salvelinus confluentus*) - Threatened
Chinook Salmon (*Oncorhynchus tshawytscha*) (Puget Sound) - Threatened
Humpback Whale (*Megaptera novaeangliae*) (Central America DPS) – Endangered
Humpback Whale (*Megaptera novaeangliae*) (Mexico DPS) - Threatened
Marbled Murrelet (*Brachyramphus marmoratus*) - Threatened
Steelhead (*Oncorhynchus mykiss*) (Puget Sound DPS) - Threatened
Southern Resident Killer Whale (*Orcinus orca*) (Southern Resident DPS) – Endangered
Yelloweye Rockfish (*Sebastes ruberrimus*) – Threatened

9n. Name each species or habitat on the Washington Department of Fish and Wildlife's Priority Habitats and Species List that might be affected by the proposed work. [\[help\]](#)

Wetlands: WDFW's Priority Habitats and Species (PHS) List Interactive Online Mapper and the US Fish and Wildlife Service National Wetlands Inventory mapper showed potential estuarine and marine wetland (NWI Code: E2AB/USN) adjacent to the project site. However, the project site itself lacks any hydrophytic vegetation; therefore, there is no estuarine wetland in the project area.

Forage Fish: The WDFW Forage Fish Map and PHS showed no forage fish spawning presence on the project site.

Eelgrass: DNR's Puget Sound Eelgrass Monitoring online mapping tool indicated the presence of eelgrass within the vicinity project area. DNR's mapping tool indicates that the eelgrass can be found at the deepest depth of -13.91 ft MLLW to a shallow depth of -1.31 ft MLLW and the Dept. of Ecology Washington State Coastal Atlas Map indicated potential fringe (patchy) eelgrass and kelp along the shoreline; no evidence of eelgrass presence was seen during the site visit.

Part 10–SEPA Compliance and Permits

Use the resources and checklist below to identify the permits you are applying for.

- Online Project Questionnaire at <http://apps.oria.wa.gov/opas/>.
- Governor's Office for Regulatory Innovation and Assistance at (800) 917-0043 or help@oria.wa.gov.
- For a list of addresses to send your JARPA to, click on [agency addresses for completed JARPA](#).

10a. Compliance with the State Environmental Policy Act (SEPA). (Check all that apply.) [\[help\]](#)

- For more information about SEPA, go to <https://ecology.wa.gov/regulations-permits/SEPA-environmental-review>.

A copy of the SEPA determination or letter of exemption is included with this application.

A SEPA determination is pending with King County (lead agency). The expected decision date is TBD.

I am applying for a Fish Habitat Enhancement Exemption. (Check the box below in 10b.) [\[help\]](#)

- This project is exempt (choose type of exemption below).
 - Categorical Exemption. Under what section of the SEPA administrative code (WAC) is it exempt?

 - Other: _____

SEPA is pre-empted by federal law.

10b. Indicate the permits you are applying for. (Check all that apply.) [\[help\]](#)

LOCAL GOVERNMENT

Local Government Shoreline permits:

- Substantial Development Conditional Use Variance
- Shoreline Exemption Type (explain): WAC 173-27-040 (2)(b)

Other City/County permits:

- Floodplain Development Permit Critical Areas Ordinance

STATE GOVERNMENT

Washington Department of Fish and Wildlife:

- Hydraulic Project Approval (HPA) Fish Habitat Enhancement Exemption – [Attach Exemption Form](#)

Washington Department of Natural Resources:

- Aquatic Use Authorization
Complete [JARPA Attachment E](#) and submit a check for \$25 payable to the Washington Department of Natural Resources.
Do not send cash.

Washington Department of Ecology:

- Section 401 Water Quality Certification
- Authorization to impact waters of the state, including wetlands (Check this box if the proposed impacts are to waters not subject to the federal Clean Water Act)

FEDERAL AND TRIBAL GOVERNMENT

United States Department of the Army (U.S. Army Corps of Engineers):

- Section 404 (discharges into waters of the U.S.) Section 10 (work in navigable waters)

United States Coast Guard:

For projects or bridges over waters of the United States, contact the U.S. Coast Guard at:

- Bridge Permit: D13-SMB-D13-BRIDGES@uscg.mil
- Private Aids to Navigation (or other non-bridge permits): D13-SMB-D13-PATON@uscg.mil

United States Environmental Protection Agency:

- Section 401 Water Quality Certification (discharges into waters of the U.S.) on tribal lands where tribes do not have treatment as a state (TAS)

Tribal Permits: (Check with the tribe to see if there are other tribal permits, e.g., Tribal Environmental Protection Act, Shoreline Permits, Hydraulic Project Permits, or other in addition to CWA Section 401 WQC)

- Section 401 Water Quality Certification (discharges into waters of the U.S.) where the tribe has treatment as a state (TAS).

Part 11—Authorizing Signatures

Signatures are required before submitting the JARPA package. The JARPA package includes the JARPA form, project plans, photos, etc. [\[help\]](#)

11a. Applicant Signature (required) [\[help\]](#)

I certify that to the best of my knowledge and belief, the information provided in this application is true, complete, and accurate. I also certify that I have the authority to carry out the proposed activities, and I agree to start work only after I have received all necessary permits.

I hereby authorize the agent named in Part 3 of this application to act on my behalf in matters related to this application. ML (initial)

By initialing here, I state that I have the authority to grant access to the property. I also give my consent to the permitting agencies entering the property where the project is located to inspect the project site or any work related to the project. ML (initial)

Matt Lawon
Applicant Printed Name

Applicant Signature
