Dear Executive Constantine,

Unfortunately I am unable to attend the Growth Management Planning Council meeting today due to a conflict with extensive budget discussions currently occurring this afternoon. I wish I could be with you and have one item I need to share with you.

Item V on the agenda, proposed changes to the 4 to 1 Program, is of interest to the City of Seattle in ensuring continued strong protections for rural areas in the county. As the proposal is substantive and relates directly to similar provisions in the Countywide Planning Policies (CPPs), I would request that the GMPC review this issue in an inclusive way at a future meeting.

I look forward to engaging with you and our colleagues on this and other important issues before the GMPC.

Thank you for your attention on this matter.

Sincerely,
Dan

Councilmember Dan Strauss
Seattle City Council, District 6
