

TRANSIT OPERATIONS SECTION MANAGER

Class Summary

The responsibilities of this classification include managing an assigned section within a division. The incumbent is responsible for overseeing the section, including supervising staff, developing, and managing the implementation strategies, and managing the section budget.

Distinguishing Characteristics

This is a single level classification. It is distinguished from incumbents within the Manager – Transit Systems Development and Operations classification in that incumbents within the Transit Operations Section Manager are not responsible for the strategic development of the information technology and Transit interfaces.

Examples of Duties

1. Plan and implement strategic goals and policies; ensure compliance with applicable laws, regulations, and policies; analyze and interpret operating policies, procedures, and guidelines; approve recommendations for improvement.
2. Lead and manage the development of new initiatives, efficiencies, and operational methods; determine and select technology and equipment used; direct program and procedure development, implementation, monitoring, and reporting.
3. Hire, train, assign work, coach, evaluate, discipline, and terminate staff as needed; provide ongoing performance feedback.
4. Develop, approve, and monitor budget; determine and allocate resources.
5. Lead emergency response planning.
6. Participate in workforce planning.
7. Perform other duties as assigned.
