### **Metro Policy Updates**

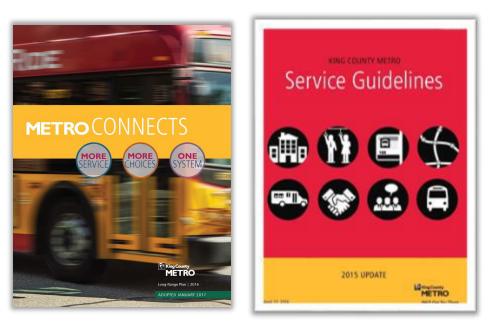

Mobility & Environment Committee January 27, 2021

King County METRO Moving forward together

### **Presentation Goals**

- Recap plans for 2021 policy updates
- Review potential scenarios for Service Guidelines approach to Service Growth (Priority 3)

# **Grounding in Core Values**

- Mobility is more than a service it can have profound outcomes
- By centering equity, climate, and safety in Metro's work, we can better advance key outcomes
  - This theory of change is consistent with recommendations in adopted Mobility Framework
  - A focus on equity and leading with race aligns with King County's ESJ ordinance
- We ask you to consider those values and how the region can best deliver healthy communities, a thriving economy, and a sustainable environment as you review the material

# Metro Connects Means Countywide Need Grows

- Metro Connects network and service levels vastly increase the service need throughout the county
  - Target service levels include a minimum of 1hour headways throughout King County
- The more funding Metro has, the further we can invest down the priority list.
  - There are many implementation options if new resources and funding are available
- These options are aiming for long-term growth, so they build on our existing network
- COVID-19 has resulted in near-term emergency changes that were driven by factors other than the guidelines (e.g. collapse of peak commute) but in the long-term these policies will describe how our system grows

# **Defining What We Mean**

#### Equity

- King County defines equity as a system of fairness, providing full and equal access to opportunities, power, and resources. King County is leading with racial justice because historical and racial inequities continue to affect all of us, and our region's ability to thrive."
- Metro is proposing to use five equity factors from Census data: race, income, disability, foreign born, and limited English-speaking populations

#### Productivity

- Potential productivity is defined in Priority 3 analysis by measuring the potential market for transit based on land use and growth. It measures the number of households, jobs, students, and park-and-rides along the corridor. Higher concentrations of people support higher potential use of transit.
- Route productivity is the defined in annual evaluations by using two measures of actual measured ridership—*rides* per platform hour and passenger miles per platform mile. These are standard metrics for transit efficiency that define how many customers a route serves and how full buses are along their route.

#### **Geographic Value**

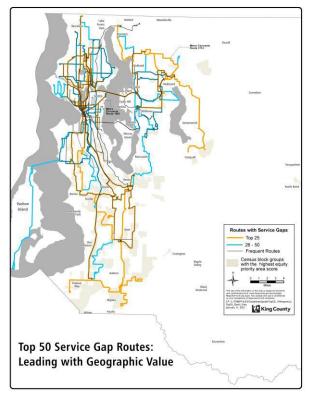

King County

 Establishes the value a corridor provides by connecting to, from, and between PSRC-defined Regional Centers and Metro-defined transit activity centers throughout King County

#### Low- & medium-income jobs

• The Longitudinal Employment Household Dynamics (LEHD) considers a job with a monthly wage of less than \$1,250 a low-wage job and jobs with monthly wages between \$1,251 and \$3,330 to be medium-wage jobs

### **Metro Connects**

# **METRO CONNECTS**

- METRO CONNECTS is our adopted vision for the future, based on regional growth plans
- It aims to increase bus service hours by 70% between 2015 – 2040
- 2040 network would be larger with better access throughout the county, including for communities of color and low-income people
- The plan covers capital investments (bus bases, roadway improvements) and partnership opportunities
- METRO CONNECTS is not fully funded, so additional regional funding is needed

King County

# **UPDATES: METRO CONNECTS**

#### **Updates will:**

King County

METRO

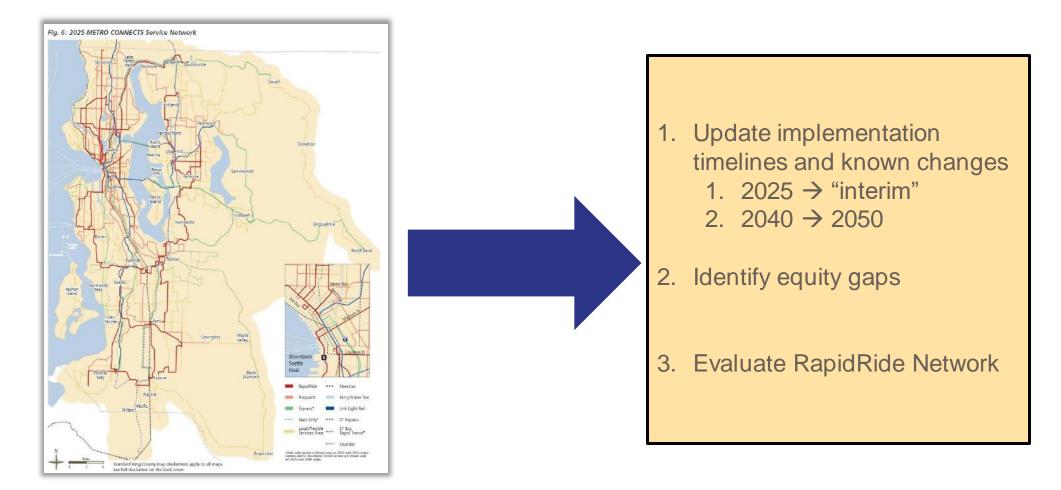

- Update costs for inflation, population growth, ST3, etc.
- Incorporate mobility framework recommendations (including equity and climate goals)
- Update sections to reflect current direction and add new sections as needed (ie, more information reelectrification, Marine)
- Clarify expectations and opportunities for partners, how policy and public engagement will shape implementation
- Targeted revisions to the service network map (based on current planning, Vision 2050, RapidRide assessment, equity gap analysis)
- Updates to acknowledge COVID-19, reflect Metro becoming a mobility agency

**METRO** CONNECTS

### **Metro Connects Network Map Updates**

# "Attaining the Vision" Section Updates

- Currently describes costs and partnership opportunities with cities and communities, including through "Metro Connects Development Program" (rolling 6-year interim plan)
- Metro will update the "Attaining the Vision" section to:
  - Clarify how Metro will collaborate with and communicate to partners and community
  - Describe how policy will guide Metro in making service and capital investments
  - Update financial costs and clarify how partners can support the vision
  - Incorporate mobility framework recommendations

How we would attain the vision

Metro can't achieve the METRO CONNECTS vision all at once, and we can't do it alone.
