

Link light rail

What you should know:

East Link includes 10 stations from Seattle's International District to Judkins Park, across I-90 to Mercer Island and South Bellevue, and through downtown Bellevue and the Bel-Red area to Redmond Technology Station.

The full 2 Line will open as soon as 2025. When the full 2 Line opens, Sound Transit will work closely with King County Metro to finalize the planned East Link Connections network which will eliminate the need for some ST Express routes.

You can stay up to date on construction progress and service opening dates for this and other Sound Transit projects [here](#).

Timelines are subject to change. These proposals are not final and may change, be partially implemented or deferred in response to partner agency operating capacity.
